

FIREFIGHTER / PARAMEDIC

Boise Fire Department's paramedic program is rapidly expanding to meet the City's need for advanced life support service. Come join our team of highly trained fire-based paramedics.

The entry level testing process for Firefighter/Paramedic is the same as Firefighter applicants. A written test and skills assessment exercise will be conducted to assess the applicant's level of knowledge. After the selection process is completed, an eligibility list for Firefighter/Paramedics is established, separate from the Firefighter eligibility list.

In addition to the employment requirements for Firefighters, applicants must have a current National Registry Paramedic certification or must be able to obtain licensure in the state of Idaho.

Firefighter/Paramedics are hired at the Beginning Firefighter rank and trained in the Recruit Academy with entry level Firefighters.

Additional paramedic pay, 10% of the base salary, is earned after Recruit Academy graduation. Education Incentive Pay, ranging from \$25 to \$100 per month, is also available for acquired college credits.

Firefighter/Paramedics have automatic increases to FFI, FFII and FFIII annually for each anniversary date for the first three years.

Educational courses to obtain a National Registry Certification are located in Boise and throughout the Northwest. Contact us for a complete listing.
