

# Boise River Greenbelt Distance & Orientation Trail System or DOTS

Bollards along the Greenbelt are about 1/2 mile apart and are numbered consecutively from the base '0' markers at the 8th street pedestrian bridge, on both sides of the river. These bollards are progressive in number and distance, heading away from zero markers both upstream and downstream; this creates four (4) distinct color coded grids (Yellow for Southwest; Green for Southeast; Blue for Northwest; Red for Northeast).

Park rules are posted at restrooms and shelters and are strictly enforced according to Articles & Chapter 10-13 of the Boise City Code. For Reservation information contact us by mail, phone, fax or email:
