**Connection Incentive for Properties Adjacent to the Distribution System**

For properties that can be served without the need for extension of a transmission line (i.e. only construction of a service line), the first 12 months of service after connection will be at no cost for up to 150% of the estimated volume to be used as determined by the Public Works Department.

For properties currently connected, that add equipment to increase the utilization of service, the first 12 months of incremental increase in service will be at no cost for up to a limit of 150% of the volume of the estimated increase as determined by the Public Works Department.
