5. Date Occurred 07/26/2023	6. Time Occured 22:24	7. Route To File	8. Division PATROL

INITIAL RESPONSE/CONTACT:

On the listed date/time, Corporal (Cpl.) Stace and I were acting as a two-man patrol or "TAC" Unit. We were assigned to the Bench Area of patrol for the City of Boise. We drove a fully marked police cruiser, and wore full police uniforms.

Cpl. Stace responded to the listed location after officers on the call advised that shots were being fired.

INVOLVED PERSONS/RELATIONSHIP(S):

See General / Face Page.

OFFICER ACTIONS / OBSERVATIONS:

Cpl. Stace and I responded from the station. While in route to the location, I heard officers on the radio they had a subject detained on his knees (giving commands), armed with an AK-47. I then heard an officer say "foot pursuit" and "shots fired". While still in route, I heard officers say over the radio that the suspect was unresponsive, but still had the gun on his chest.

Cpl. Stace and I deployed from 18th and Resseguie Streets. I was directed by Sergeant Miller to deploy with my LMTS 40mm Less Lethal Launcher. I ran on foot from 18th and Resseguie to 19th and just north of its intersection of Washington and joined the "Arrest Team".

I could see a subject lying on Washington Street, just east of the intersection on 19th Street. The subject was lying on his back, with his feet pointed west and head towards the east. I moved up with the arrest team using cruiser number 15 as cover on the passenger side. Once in place I moved to the driver's side of the vehicle. The announcement "Forty, Forty, Forty" was given, and I deployed one round Exact Impact into the suspect's right thigh. The suspect did not give any verbal or physical response to the impact of the shot. A K-9 was then utilized on the suspect. I observed the K-9, still on a lead, bite the suspect. The K-9 was then pulled, pulling the suspect away from what I could now see was a black rifle.

I reloaded my 40mm, leaving the spent casing near the northeast corner of 19th and Washington. I moved up after the arrest team and stood by the rifle for a short period. Once the suspect was in custody, I advised dispatch via radio to send medics into the scene. I then began setting up crime scene tape, closing off the intersection at 19th and Resseguie and 18th and Washington.

Narrative

INITIAL CONTACT/RESPONSE:

On July 27th, 2023 I responded to assist with a crisis call type in the area of 19th and Washington street. Before our arrival, I was notified that shots had been fired by officers and that the suspect in this incident was non-responsive. Upon my arrival, I functioned within the takedown team that arrested the subject by providing coverage and protection from the south of the incident location to officers affecting the arrest.

After the scene was stabilized, Ofc. Schultz and I were directed to check 1821 W. Washington Street and [REDACTED]. 1821 W. Washington street was a closed business without any lights on within. It did not appear that the structure was occupied nor was there exigent circumstances to search within the building. We made contact with the homeowner at [REDACTED], who allowed us to enter the home to ensure no one was injured. No injured subjects were located.

Ofc. Schultz and I were then assigned to standby with a witness, [REDACTED], and manage the northern crime scene tape area. [REDACTED] was interviewed by CITF detectives and released from the scene. Ofc. Schultz and I were relieved by Ofc. Sandoval at approximately 0400 hours and we left the scene.

Narrative

INITIAL RESPONSE/CONTACT:

Wednesday, July 26th, 2023 around 2224. The following is a summary of events.

At the above date and time, I was working my assigned shift as a uniformed patrol officer in the City of Boise when officers handling a crisis advised that the suspect they were on the phone with began shooting. I responded code 3 lights and sirens to the area of [REDACTED]. While en route, I heard officers state that a male approached them holding an AK47 style rifle but was being compliant and was proned out. Officers then advised that the subject got up and began running while firing more rounds. Officers on scene then advised that shots were fired and the suspect was down.

Upon my arrival to the area of 19th/Ellis Ave. I joined officers positioned to the left of a patrol vehicle with my department-issued 40mm and joined a takedown team while maintaining a visual on a downed suspect on Washington St. just east of 19th St. It was determined that a different takedown team would approach the suspect therefore this was the extent of my involvement prior to the suspect being fully secured.

Once the suspect was secured, I was assigned to be an escort officer for Officer Sousa who was identified as one of the officers who fired their duty weapon. Officer Sousa and I stood by on Washington St. and awaited further information on where the involved officers would be transported to. It was later determined that I was to transport Officer Sousa to [REDACTED]. At 0017, Officer Sousa and I left the crime scene and I transported Officer Sousa to [REDACTED] in Officer Sousa's patrol vehicle (# 410).

After Officer Sousa's interviews with detectives, I then transported Officer Sousa to MSP where he left for the night.

This was the extent of my involvement in this case.

Narrative

On 07/26/23 at approximately 2243 hours, I was working as the valley night Sergeant (3450) when I became aware of a crisis call that had turned into a shots fired call. I began my response and monitored the police radio traffic. Through different times of various radio broadcasts, it was difficult to comprehend some of what officers were saying. I keyed up the radio and advised units on scene that some of their radio traffic could not be understood. Shortly thereafter, I overheard Ofc. Pollard provide a clear update of the situation. Among his radio update, I learned that the suspect was armed with an AK-47. Additionally, I learned that the suspect from the crisis call was now compliant and following directions from officers on scene. Moments later, an update was broadcast that there were shots fired involving police. During radio broadcasts, you could hear gunfire transpiring. I responded and could hear that they wanted officers to respond into the scene from the north. I deployed from my vehicle near 19th/Ressigue. As I deployed, I asked Sgt. Rush if he had a shield, which he did not. I deployed on foot with a rifle rated shield and a pistol rated shield. I deployed these two shields to the arrest teams. After dropping the shields to the arresting officer, I briefly spoke with Sgt. Rush who told me to canvass each side of the street to check for injured officers. I, along with others swept each side of the road for potentially injured officers. When I determined there were no officers injured, I responded back to Sgt. Rush who requested that I take over Incident Command, which was later relinquished to Lt. Butler. I moved my patrol vehicle up and then back at one point after being told that where I had moved it was potentially involved in the crime scene. I moved it back to the area of 19th and Resseguie until it was cleared for release.

This is a summary of my involvement on this incident.

Narrative

INITIAL RESPONSE/CONTACT/INVESTIGATION:

On July 26th, 2023 at approximately 2225 hrs my trainee, (Ofcr Marshall) and I, Ofcr Machain responded to the area of 20th / Resseguie in the city of Boise regarding a man in crisis, possibly shooting rounds out in public. While driving to the area we were updated by Officers onscene that they had just been involved in a shooting with the suspect at 19th / Washington.

Upon arriving to 19th / Washington I observed a white male lying an easterly direction on his back not moving. I could see an unknown black rifle lying next to him. There were several BPD Officers already on scene and a tactical plan to take him into custody. Myself and several other BPD Officers approached the down suspect later identified as Macey Juker I provided lethal cover while Officers placed him into handcuffs then later began life saving measures on Macey.

Marshall and I began checking the north side residence of Washington St, just east of 19th St for any other possible injured innocents or evidence.

I spoke with [REDACTED] who lives at [REDACTED] said he heard some noise and believed it was possible gun fire, but did not see anything. [REDACTED] was not injured and did not notice any damage to his residence.

I door knocked residence [REDACTED], but nobody answered, I did not observed any damage to the exterior walls.

Narrative

Initial Call:

On the listed date and time I responded to the listed address with regard to a crisis situation in which an unknown subject was firing round from his rifle into the neighborhood. As I was en route there were several units on scene who stated they were actively hearing gun fire and we coordinated to set up on the residence. Without knowing exactly where the individual was located I parked my patrol vehicle to the north and approached on foot.

As I got near the residence the units on scene prior to me advised they had been approached by a subject with a rifle at an intersection south of the residence. Those units stated they had the subject on his knees at gun point and were working towards taking him in to custody. I began to make my way to their location when they advised over the radio the subject was fleeing from them on foot. Shortly after that I heard a series of gun shots ring out through the neighborhood and officer again advised over the radio the suspect was fleeing.

Without knowing the direction the suspect was fleeing, or which direction rounds were being fired I attempted to position myself to intercept the suspect if he were to run my direction. Officers eventually came over the air and stated they had the suspect down in the middle of the intersection at 19th and Washington. Given that information I moved closer to that location from the west and observed the suspect laying motionless in the roadway, but also an unknown subject further to the south crawling through the grass. Without knowing his involvement I relayed his presence to other officers on scene to the north who were formulating a plan to take the suspect in to custody. As they did that I made contact with several citizens who were on foot in the area and directed them out of the scene.

Once the suspect was taken in to custody I was tasked with establishing an inner perimeter around the scene using red crime scene tape. Once that was accomplished I stood by as an escort officer for Officer Lee until they determined he was not going to be sequestered.

Narrative

INITIAL RESPONSE/CONTACT:

On 07/26/2023 at approximately 2243 hours, I responded code to a call of a subject shooting from his house. I arrived on scene and parked at the intersection of W Ellis Ave and N 21st St. I started running eastbound on Ellis Ave. to assist units on scene. I heard over the radio an officer advised there was a subject in the road with an AK 47 at the intersection of 19th and Resseguie St. I ran towards that area and saw officers running southbound on 19th street and yelling commands. I heard officers give verbal commands and discharge their firearms at a subject. I continued running southbound on 19th St. as they continued engaging the suspect. I was a few yards behind officers as they were shooting a the suspect. I eventually took cover behind a tree until the suspect was taken into custody.

Once the suspect was taken into custody, Officers Miles, Dozal, Britton, Shimmel and I responded to [REDACTED] to do a protective sweep of the residence. The front house of the residence was secured. I broke a small pane of a window to unlock and open the door. Once that part of the residence was clear, we went to the back of the residence and attempted to clear a basement. The door to the basement was locked and I attempted to kick the door down to continue doing a welfare check if possible occupants of the residence. We then moved to the back, In-law unit of the residence and cleared the upstairs loft were several firearms, spent shell casings, and ammunition were observed as we were doing our protective sweep. I broke out another pane of a window to unlock the lower garage door to continue our protective sweep. After all protective sweeps were done, I maintained standing in the entryway that led to the loft of the In-law unit. I was relieved by Officer Quintana.

Narrative

CRISIS/SHOTS FIRED:

On July 26th, 2023, at approximately 22:45, over the department radio, I heard Officer Lee state there was a male actively shooting in the area of 20th and Resseguie St. in Boise, ID. I was very close and began driving towards that location. Upon arrival, I immediately heard approximately 3 shots being fired but it was unknown where the gunfire was coming from. I parked my patrol vehicle at 20th and Ada and got out on foot with other Officers. We moved south and set up a react team at 20th and Resseguie. We received intel that Officers had a male with a rifle at gunpoint at 19th and Washington. Over the radio, I heard the male was running, so I began running towards that location with other Officers. As I was running up to the scene, I continued to hear gunfire. I initially approached the front of an unmarked police car where other Officers were setup. As I peaked over the top to try and see where the male was, I observed what appeared to be a muzzle flash and heard a gunshot come towards me. I took cover and moved to the passenger side of the vehicle. At that time, I believed I saw someone under a car but could not tell where the male was at. I moved up to where Officer Fiddler and Sgt. Rush were standing as the third person in the stack. I heard the male was down and held with that team so we could get resources in place to safely move up and take the male into custody. Once we had resources in place, I provided lethal coverage and moved up with the team to move the male away from the gun utilizing the K9. Once the male was away from the gun, I assisted with taking him into custody. I observed several gunshot wounds all over the male's body. I felt for a pulse on his neck but did not feel one. We then removed the handcuffs, rolled him to his back, and began lifesaving measures. Other Officers and I began attempting to stop the bleeding when medics arrived and took over lifesaving measures. I had no further involvement in this incident.

This report is a summary of events. I captured this contact on my AXON on-body video camera. See my video for information.

CONCLUSION:

Narrative

INITIAL RESPONSE/CONTACT:

On 07/26/23 at approximately 2252 hours, I was working a uniformed detail in a fully marked patrol car. I responded in an emergency fashion with overhead lights and siren on my marked patrol car to [REDACTED] in Boise Idaho to assist officers with a subject who was actively shooting a firearm in an unknown direction inside of his residence. While enroute, I heard radio traffic that there were shots fired by suspect and officers. I then arrived on scene and assisted with clearing the main residence of [REDACTED], and then the guest house/garage just East of the main residence to ensure that there were no additional gunshot victims. While clearing the guest house, I observed that there was at least 1 firearm, and many spent rifle cartridges inside of the upstairs bedroom. In addition to this, I also observed 5 spent grey rifle cartridges (similar to the ones I observed inside the residence) in the driveway of the guesthouse. Ultimately, no additional victims were found during the safety sweep of the main residence or the guest house. The entire property of [REDACTED] was determined to be a crime scene, and I maintained security of this crime scene until I was relieved by Officer S. Martinez at approximately 0700 hours on 07/27/23.

I also relieved Officer Vassallo from his duties of maintaining the crime scene log, and took over those duties until I was relieved at approximately 0700 hours by Officer S. Martinez (see crime scene log for further).

My Axon body-worn camera was activated while I entered and cleared the entirety of the [REDACTED] property.

Narrative

On the listed date and time I was working as a patrol officer for the Boise Police Department when I overheard officers on the radio state that someone was shooting off rounds reference this call. I responded to the location code 3 (lights and sirens activated) from an extended distance. While I was enroute I overheard officers state that shots were fired. By the time I arrived on scene a team of officers was taking the suspect into custody and I was advised that Ofc. R. Pollard had been involved in the shooting. Ofc. R. Pollard requested I be his escort officer for the CITF process. I stoodby with Ofc. R. Pollard for the remainder of the CITF process. Once my duties as an escort officer were fulfilled, I responded back to the scene of the incident and took over the crime log until I was relieved by Ofc. G. Miller.

I had no further involvement in this case.

Narrative

On July 26th, 2023 Officers responded to the area of 20th / Resseguie in the city of Boise regarding a man in crisis, possibly shooting rounds out in public. While driving to the area we were updated by Officers on scene that they had just been involved in a shooting with the suspect at 19th/ Washington.

When I arrived on scene my field training officer Poole and I made our way by foot to 19th/Washington. Officer Poole began medical on the suspect and I started to set up an outer perimeter with tape where the shooting took place. The outer perimeter was set blocking all directions of travel so no vehicles or people can enter or exit 19th/ Washington. I next began to set up an inner perimeter closer to where the shooting took place.

I next did an area check to the vehicles nearby for damages. While conducting an area check I found a 2020 White Nissan Altima ([REDACTED]) had bullet holes on the driver side of the vehicle. In front of that vehicle was a 2015 White Ford F150 ([REDACTED]) that had bullet holes on the driver side.

Officer Poole and I next conducted an area check on houses nearby for damages. While conducting an area check, [REDACTED] had multiple bullet holes that entered the house. Officer Poole and cleared the house and ensured no one was hurt inside the residence. The next house we located [REDACTED]. Officer Poole and I cleared the house and ensured no one was hurt inside the residence. Officer Floto noticed 3 bullet holes at [REDACTED]. Officer Floto and I began to knock on the residence door and no one answered. Officer Floto noticed a White Honda CRV. Officer Floto ran the plate through dispatch and was advised the registered owner was named [REDACTED]. Officer Floto was able to find a phone number for [REDACTED]. I called [REDACTED] with my work phone and [REDACTED] stated she did not live at the residence and she did not own a Honda CRV and hung up. Due to the exigent circumstances of public safety Officer Poole picked the locked of the residence and we entered. We cleared the house and no one was home at the residence. Officer Poole noticed at [REDACTED] was hit as well. The home owner was ([REDACTED]) and he stated he was a witness. I advised detectives will talk to him and get his statement. We entered the residence and ensured no one was injured.

Officers were informed that the home owner of [REDACTED] called in and stated his house was shot. The residence owner confirmed no one was injured and we made our way to the residence to see the damage. It was confirmed [REDACTED] was shot.

Officers Poole, Officer Floto and I made our way to the suspects home address. We did not locate any more houses damaged on the way to the address.

We came across a Jeep Cherokee ([REDACTED]) that also had bullet holes on 19th St just North of Washington.

All the information I collected was passed to the CITF Detectives on scene.

Narrative

On 7/26/25 at approximately 2244 hours I responded code three (lights and sirens) with my FTO Officer Barber to a report of gun shots being fired at 19th St. and Washington.

Upon arrival I parked my marked patrol vehicle at 18th and Resseguie and moved up to 19th and Washington on foot. I took a position behind a patrol vehicle with a ballistic shield and held point until the react team made contact with the suspect. After contact was made I moved on foot up to the suspect and began to render first aid by applying a chest seal and held a pressure bandage while EMS provided CPR and other medical needs.

I was assigned to stand with the suspect and weapon found at the scene in the inner perimeter by Sgt. Urian.

I was relieved of that assignment once the crime scene investigators arrived and was tasked with moving patrol vehicles out of the immediate area to the command post location in the Albertsons parking lot on State St.

Narrative

On 07-26-2023 at approximately 2224 hours, multiple officers were dispatched to a crisis call for service at [REDACTED] N. 20th St. I heard via police radio that a male subject was actively shooting and began to respond to the location. Prior to my arrival, Officers encountered the male subject and I heard that shots were fired by police. Once I arrived on scene, officers were creating a plan to approach the male subject.

Once the react teams secured the male suspect, I observed another male subject laying in the front yard on the southeast corner of 19th and Washington. Sgt. Pietrzak and myself approached the male subject who was identified by his Idaho driver license as [REDACTED].

[REDACTED] advised that he is an UBER driver that was in the area because the area is a "hot spot" for Uber requests. [REDACTED] stated he was driving eastbound on Washington St. when he saw a male subject walking in the street with a gun. [REDACTED] stated that he then heard Officers yelling at the male subject. [REDACTED] indicated that he began to hear multiple gunshots, so he stopped his vehicle and laid on the ground. [REDACTED] stated that he was scared and just laid on the ground. [REDACTED] indicated that at one point, an officer yelled at him to stay on the ground, so he did not move. I asked [REDACTED] if he was okay or if he needed medical attention and he advised that he was okay.

At this time, I was requested to meet with AFC T. Gilliam. I handed [REDACTED] driver license to Officer C. Burch and advised him that I was not sure if Detectives wanted to speak with [REDACTED] at this time or if he was free to leave. AFC Gilliam then informed me that I was chosen to be an escort officer. I then conducted escort officer duties for Sgt. Pietrzak.

This concluded my involvement with this incident.

Narrative

On 07/26/2023, at approximately 2225 hours I responded to a subject at the door call at [REDACTED] in the City of Boise.

The calling party was reported as Macy Junker. Macy had reported the following call notes to Ada County Dispatch.

“There’s people outside my house and they’re trying to get in and kill me”

“idk if you guys should come idk how powerful they are”

“advised he cannot see them but he can feel them hitting him and they’re talking to him”

“unknown how many people are 23”

“the radiation is melting my brain”

I asked dispatch if this was a possible 10-96 (crisis) issue. Which the dispatcher confirmed she believed it was or possibly drug induced. The call notes further stated that he had weapons inside of his residence, more specifically an “assault rifle”. Macy wouldn’t tell dispatch where it was other than “right in front of me.” Macy had also advised dispatch that he was home alone. Based on the call notes, and my concerns that this was possibly a crisis type call I decided to make telephone contact with Macy due to the firearm being present. I stopped in the parking lot/strip mall of Albertsons located at 1650 W State Street. I advised the other officers on this call to meet me at the location. I was sitting next to Officer Howarth while I spoke with Macy on the phone. I called Macy and introduced myself as an Officer with the Boise Police Department. I asked him to explain to me what was going on this evening. Macy began explaining that he was “really” drunk and bought some heroin. Macy explained that some “guys” were at his residence and wanted him to kill himself. After that statement Macy began speaking about how he was trying to get the people involved to stop using the “laser” and he was going to finish a “bottle”. I asked Macy if he knew the guys that were at his residence which he stated he didn’t. Macy further explained that he got drunk one night and “got into some trouble with them”. I asked Macy if he was home alone, he didn’t respond to that question so I asked him if he had any roommates which he responded that he didn’t. I asked Macy what he was looking for the police to do this evening. He responded with “don’t approach them” I believed he was referring to the unknown people that were allegedly trying to get into his home. Macy stated that he didn’t know who these people were or what they were capable of. Based on Macy’s previous statements of killing himself I asked him if he was feeling like hurting himself which he responded to “yeah I will”. After Macy made that statement he mumbled something to the effect of

“finishing this bottle”. After he said that, I attempted to clarify with him that he was feeling suicidal. I received no response from him, and asked him if he could hear me alright. I received no response to that either, I called out his name and received no response. Shortly after this I heard approximately 6 gunshots while still on the phone. I could also hear the shots outside as my window was down. I advised over the radio that the subject had been shooting and asked for other police units code 3.

Myself, Officer Howarth and Officer Rodgers responded to the area of State/21st as I wasn't sure exactly where the shots were coming from. I set up to the South of the listed residence as I had no further stimulus at that time. A short time later, other officers advised they had contacted a male with a firearm near the area of 19th/Resseguie. Officers had advised they were trying to take the male into custody. I started responding to assist those officers with taking this subject into custody, when I started running to the area I heard gun shots coming from the South of my location. When the shooting began, I couldn't see the position of the suspect but could see Officers approximately eighty yards to the South of me, I saw multiple muzzle flashes from Officers but still couldn't see the location of the suspect. I advised over the radio that we had shots fired and to stage medical. I heard various Officers giving commands to “drop the gun”. During a lull in the gunfight I moved to where Officer Rodgers was at and noticed a subject laying in the intersection with what appeared to be a firearm near his body. I saw an unknown person laying behind a white vehicle directly in the line of fire of Officers. When this person stood up, I gave them commands to run and get out of the line of fire. Ultimately the decision was made to move up utilizing a patrol car as cover and deploy a K9 to remove the subject from the firearm. After the subject was moved away from the firearm I took him into custody by placing him into handcuffs. While I was finishing handcuffing the subject other officers advised they couldn't feel a pulse and to take the handcuffs off to render aid, which I did. Multiple Officers performed various life saving measures until the arrival of Boise Fire and Ada County Paramedics. Once they arrived, medical treatment was turned over to them. I noted the firearm was not being watched by anybody at that time, I decided to stand near the firearm to make sure it was not moved. The firearm was black in color AK-47 style rifle. I stood by with the rifle until I was relieved by Officer Howarth. After Officer Howarth took over security of the rifle, I was advised to get out of the scene to speak with Sgt. Miller in determining my involvement in this incident. I ultimately was not sequestered to [REDACTED] as a witness.

It should also be noted that my body worn camera was active during my phone call with Macy and while I was on scene. See OBV for further details.

I had no further involvement in this case.

Narrative

INITIAL RESPONSE/CONTACT/INVESTIGATION:

On July 26th, 2023 at approximately 2225 hrs my FTO, (Ofcr. Machain) and I, responded to the area of 20th / Resseguie in the city of Boise regarding a man in crisis, possibly shooting rounds out in public. While driving to the area we were updated by Officers on scene that they had just been involved in a shooting with the suspect at 19th / Washington.

Upon arriving to 19th / Washington I observed a white male lying an easterly direction on his back not moving. I could see an unknown black rifle lying on top of the subjects person the muzzle was oriented in the directions of officers. There were several BPD Officers already on scene and a tactical plan to take him into custody. Myself and several other BPD Officers approached the down suspect later identified as Macey Juker. I was assigned to be part on the handcuffing team I assisted placing Macey into handcuffs.

Narrative

INITIAL RESPONSE/CONTACT:

On the above date, Officer Floyd (trainee) and I responded to a crisis call after officers called out that there were shots fired.

Upon arrival, Officer Floyd and I responded to the scene. Officer Pollard, Officer Sousa, and Officer Lee were still holding the suspect, who was now unresponsive on the ground, at gunpoint. We stood by as a team moved forward.

After ensuring that Officer Pollard and Officer Sousa had escort officers, Officer Floyd and I returned to the suspect with a BPD Trauma kit and provided medical aid. Officer Floyd and I, along with several other officers, continued assisting with medical aid as multiple firefighters and paramedics worked on the suspect. I cut off the suspect's shorts to check for any wounds. I also applied a tourniquet to the suspect's left upper leg and put gauze and pressure on a gunshot wounds to his stomach and left hip. After a few minutes, medics advised that the suspect was deceased. We stopped providing care at that time. I covered the suspect's genitals with his shorts and left him on the ground.

Officer Floyd and I then stood by with the suspect's body and firearm. Each was still on the ground just east of the intersection of 19th and Washington. I also marked several shell casings with white pieces of notebook paper so that they would not be kicked/stepped on. At one point, I was asked to cover the suspect's body because news cameras were arriving on scene. I removed two cones from vehicle 015 and draped a white sheet, left by medics, over the cones to block the view.

Eventually detectives, the crime lab, and night shift officers relieved Officer Floyd and I of our duties. We then assisted in shuttling vehicles to the command post at Albertson's before returning to the station.

Narrative

INITIAL RESPONSE/CONTACT:

On July 26, 2023 at approximately 2305 hours, AFC Gilliam contacted me and informed me I would be an escort officer for Officer Fiddler. I arrived on scene, located Officer Fiddler, and remained with him until we were released from the scene. Once released from the scene I escorted Ofc. Fiddler to [REDACTED]

I stood by with Ofc. Fiddler until he was released from [REDACTED]. At this time I escorted him to the Boise Police Department.

This ended my involvement in this investigation.

Narrative

On the listed date and time, I responded to a report of crisis because I heard the call had escalated to SHOTS FIRED over the radio.

When I arrived on scene, I assisted Officers in clearing the residence of [REDACTED] in Boise to verify that there were no injured subjects within the property. During the search of the residence, the lower basement door could not be opened and I assisted in breaching the door to gain entry. Further search of the residence yielded multiple firearms and spent ammunition casings found in the upper living area above the garage. No injured persons were found during the search.

While holding the crime scene, I was advised that I was to perform the duties of ESCORT OFFICER for Ofc. Howarth. I stayed with Howarth for the remainder of his shift and drove him to [REDACTED] for various debrief duties. Upon completion at [REDACTED] I transported Ofc. Howarth to the Police Station where he was picked up by his wife and taken home.

This concluded my involvement in this incident.

Narrative

On the above date My Training Officer (FTO) C. Burch and I arrived on scene of a crisis call that had reported shots fired, located at 19th St and W Washington St. I assisted officers on scene with security and the take down of the unresponsive suspect. Once the scene was secure, I began checking nearby residences for the welfare of occupants inside. I checked 1821 Washington St, a computer store that looked to be unoccupied and had no one answer several nocks at the front door. I then checked the residence of [REDACTED] and the homeowner came to the door, inviting us inside and notified me that no one was injured inside, despite the multiple rounds the house received.

I then was assigned the task of watching a witness by the name [REDACTED] I walked [REDACTED] back to the intersection of 19th and Resseguie St, Where I provided [REDACTED] with a written witness statement that he filled out. I waited with [REDACTED] until detectives took his written and verbal statement.

I then was assigned perimeter security at the intersection on 19th and Resseguie st, where I remained until I accompanied the deputy Coroner with my FTO to notify the family of the deceased suspect. My FTO and I were relieved and 0400 hours by Ofc. Sandoval. We then returned to station.

Narrative

On 07/26/2023 at about 2248 hours, Officer Perez and I responded to assist Officers with a subject actively shooting in the area of [REDACTED]. We drove code 3 to the area with lights and siren activated. I heard over the radio that Officers had located the suspect and he was armed with an AK47 type rifle. I heard over the radio that the suspect was initially compliant but then ran from Officers. I heard the call of shots fired over the radio and could hear active gunfire in the background. Officer Perez and I arrived on scene just as Officers were detaining the suspect in handcuffs. I immediately began attempting to provide medical treatment to the suspect. The suspect had no pulse so I told other Officers to remove the handcuffs so we could begin CPR. Once the handcuffs were removed, I began preparing an air mask for breaths while another Officer began chest compressions. I noticed that the suspect had numerous gun shot wounds to his chest and abdomen. Blood was streaming from these wounds and we transitioned to trying to stop the bleeding. After Officers applied multiple chest seals, a tourniquet, and other bandages, Boise Fire and Ada County Paramedics arrived on scene and took over medical care. I assisted with providing lighting for Paramedics and Fire while they continued trying to save the suspect's life. Ultimately and after extensive efforts, the suspect was pronounced deceased by Paramedics at 2311 hours.

I was then tasked with canvassing for surveillance cameras and bullet strike damage.

I noted bullet strikes to the following vehicles: A white Nissan Altima ID/[REDACTED] parked just East of 19th St/Washington. A white Ford F150 ID/[REDACTED] parked just East of the Nissan. A white Jeep Cherokee ID/[REDACTED] parked just North of Washington on 19th St.

I noted bullet strikes to the following residences: [REDACTED] - No one answered the door, no one answered multiple phone calls. I picked the lock and we cleared the residence to ensure no one was injured inside. Multiple bullet strikes on residence.

[REDACTED] - Contacted the resident and he was okay. Resident had seen part of the incident and his info was passed along to Detectives.

[REDACTED] - contacted the residents and they were okay. Residence had multiple bullet strikes.

[REDACTED] - contacted the residents and they were okay. Residence had at least one bullet strike.

[REDACTED] - contacted the residents and they were okay. Residence had at least one bullet strike.

I noted surveillance cameras at [REDACTED]. I contacted the residents there and their cameras did not capture any of the incident.

I noted surveillance cameras at [REDACTED]. I contacted the residents there and their

Narrative

SUPPLEMENTAL REPORT:

ORIGIN:

On 7/26/2023 at approximately 2305 hours, I was dispatched to the scene of a critical incident at [REDACTED] in Boise within Ada County.

INVESTIGATION:

Upon arrival my FTO Officer Gifford was assigned to be an escort Officer for another Officer that was involved in the critical incident. I was then assigned to help Officer Poole and Officer Perez with canvassing the area for shell casings and locating any bullet impact points.

We discovered three bullet holes on the east side of the house at [REDACTED]. No one answered the door at the house and we were unable to get a hold of anyone who lived there. Officer Poole picked the lock of the back door and we made entry into the residence to conduct a welfare check. No one was home. We discovered on the second floor in the far east room where the bullets had entered through the exterior wall. One bullet looked like it came to rest in a closet located at the west end of the room but I didn't find the actual bullet. Another looked like it may have come to rest in or behind a couch located at the north side of the room.

We observed a window on the south side of [REDACTED] to be broken.

We observed a bullet entry point to the front of the house at [REDACTED]. The bullet entered thru the front exterior wall and then broke an interior window near the front of the house.

We observed what appeared to be a bullet hole in the front of [REDACTED]. I couldn't find a hole of the interior of the house.

We found a bullet hole in the side front quarter panel of a Jeep Cherokee, plate [REDACTED]. The rear driver's side tire was flat and also appeared to have been struck by a bullet. There was a divot taken out the asphalt near the interior side wall of the tire.

I helped shuttle Boise Police vehicles to a staging area set up at the Albertsons on 17th and State St.

CONCLUSION:

Route with main report.

Narrative

INITIAL RESPONSE/CONTACT:

While conducting a supervisory briefing with Sgt. Miller, Sgt. Linn, and Sgt. McCarthy at BPD Headquarters building I heard a Code 3 assistance request from an officer assigned to a crisis call near Ressigue and 20th Street in Boise. I responded from the station to that area. While responding I heard additional officers provide updates that included they heard suspect gunfire in the area, coordinated incoming units, and ultimately located the suspect holding and firing a rifle at them which led to an officer involved shooting. Upon hearing this radio traffic it was clear to me this was a serious incident that would require significant resources. The following is a summary of the supervisory actions I took while responding and assigned to this incident:

1. Notified the Patrol Captain of the situation and requested Command/CITF notifications be initiated.
2. Arrived on scene and assessed the situation.
3. Confirmed life saving measures were being conducted for the suspect.
4. Contacted AWC Rush and gathered basic information regarding all involved and witness officers confirming no officers were wounded.
5. Assigned Sgt. Miller to address involved officer safety debriefing requirements.
6. Assigned Sgt. Urian to address crime scene containment requirements.
7. Assigned Sgt. Linn to Deputy IC duties at the command post located at 19th/Ressigue and I assumed IC duties from him (that CP was later moved to 17th/State Albertsons parking lot).
8. Invoked a mutual aid request to support BPD field operations due to the anticipated and prolonged extensive resources required to handle this incident.
9. Assigned Lt. Ransom to respond to [REDACTED] to coordinate CITF investigation procedures for involved/witness officers.
10. Coordinated resources from the command post until approximately 0330 hrs when Sgt. Urian assumed control of the remaining personnel on that scene.

Narrative

INITIAL RESPONSE/CONTACT:

On July 26, 2023 hours, at approximately 2249 hours, I responded to the area of State Street and 19th Street, Boise, Ada County, Idaho in reference assisting officers with a shooting that just occurred. I was assigned a perimeter position blocking north bound traffic on 19th Street at State Street. At 2325 hours, I was instructed by Sgt. Linn to start a crime scene log for the outer perimeter. I stopped the crime scene log for outer perimeter at 0622 hours. Officers were still keeping a crime scene log on in the inner perimeter of the crime scene.

At approximately 0738, Officer Roth arrived and took over my position and I cleared the scene.

Narrative

DR 23-312299

INITIAL RESPONSE:

On the listed date and time Cpl. Viens and I were operating as a two officer patrol unit. We were in full police uniform and driving a marked Boise Police Department patrol vehicle.

We were in the station completing administrative duties when we heard an officer call for assistance.

I had not read the call ahead of time so I did not have prior knowledge as to the nature of the call for service.

I heard Officer J. Lee ask for assist units because the subject of his call was actively firing rounds. Cpl. Viens and I cleared the station and drove code 3 (Emergency Lights) to the scene. While enroute I heard Officer R. Pollard broadcast that a male had walked up to them with an AK-47. I noted many patrol units responding code 3. Through the radio traffic it sounded like a foot pursuit was initiated then moments later I head an officer (followed by multiple other officers) announce shots fired. Additionally I heard multiple rounds being fired over the radio during transmissions.

Responding units were instructed to approach from the north. Cpl. Viens and I arrived within a few minutes. I am not sure if the time noted in the call showing us on scene is accurate. I did not push the on scene button. We stopped our vehicle and deployed on foot from 18th St. and Resseguie St.

Cpl. Viens was asked to get his 40mm less lethal gun and bring it forward. I was asked to assist Sgt. Linn in searching the area for any injured officers. I began by searching the west side of 19th St. from just north of Washington St. I was working in a northerly direction. I searched the alley north of Washington St. (to the west) and as I walked back out onto 19th St. I observed a female (Later Identified as [REDACTED]) walking toward the crime scene. I stopped her and questioned her (recorded). She immediately asked if we had [REDACTED] Mace Juker.

I told her I did not know who we had and gathered her information. She also provided me with his information. I called dispatch and confirmed that Mace (or Macey) Juker was the subject of the call for service that initiated our response. I was clear with [REDACTED] that I did not know if he was involved in the shooting. I escorted her out of the scene and stood by with her while the call was resolved.

[REDACTED] told me Mace had been detoxing from alcohol over the course of the last few days but denied any drugs, mental health issues, or hostility toward police. After further discussion she mentioned Mace may have had paranoia issues. She did not describe that issue any further. She did say the family had been trying to get Mace to self admit for treatment but he was unwilling.

I continued to stand by with [REDACTED] and [REDACTED] until the decided to go back home.

This concluded my action related to this call for service.

Narrative

INITIAL RESPONSE/CONTACT:

On 07/26/2023 at approximately 2243 hours, I was working as AFC for swing shift. I heard over the radio that shots were fired by officers on scene in the area of N 19th St and W Washington St. Boise, ID. I responded to the scene from MSP Code 3.

Upon arrival, I was assigned by Sgt. Linn who was the Incident Commander to begin determining who involved officers were and initiate the CITF Safety Debrief with the involved officers. Sgt. T. Miller and I worked together to coordinate this portion of the scene.

After the safety debrief's were completed and those officer's were sequestered and had left the scene, I documented a sketch of the basic scene in the CITF packet per the CITF policy.

Sgt. T. Miller and I proceeded to the command post and worked with Sgt. Linn and Command Staff until relieved. I also assisted in shuttling vehicles back to MSP.

I took no further action.

Narrative

I am a dayshift supervisor, usually working the valley as 1250. At approximately 0500 hours, I received a text from Lt. Wittmuss that he needed dayshift officers in ASAP due to an OIS.

I quickly dressed for work, and logged on. I was dressed in my class A uniform, driving a marked BPD police vehicle, and assigned to my regular designator 1250.

I was directed to relieve Sgt. T. Miller from Crime Scene Duties at the scene of the OIS. I responded immediately.

Officer G. Miller was the first officer available to start relieving night shift officers. We relieved Officer Strodtbeck since he came in early for swing shift on 7-26-23. At my direction, Officer G. Miller relieved Officer Strodtbeck as well as his crime scene log duties.

Lt. Wittmuss designed officers from COD to start assisting relief at the OIS crime scene as well as the Stabbing scene at Federal Way/Amity at the rock quarry.

I continued to use additional resources to relieve night shift officers. Various dayshift personnel maintained the inner and outer perimeter until the GCPD Detectives and Crime Lab were done with their duties.

I then responded to Albertsons to purchase more water, snacks, and gatorades to help relieve officers on the hot, desert Stabbing crime scene.

Officer G. Miller was with me, and took over those duties as well.

Officer G. Miller and I finished shuttling the remaining 2 police cars in the designated crime scene to the station. We parked those vehicles on the west side of the back lot just outside the cafeteria.

I spoke to several media personnel and gave brief statements as to the residential road restrictions. I directed them to PIO H. Williams for further details.

I have no OBV.

Narrative	
------------------	--

INITIAL RESPONSE/CONTACT:

On 7/26/2023 at approximately 22:48 hours I was working as a night shift sergeant assigned to the bench. I responded "code 3" lights and siren to an active shooter situation occurring near the intersection of 19th/Resseguie. Information was provided over the radio that gunshots had been exchanged between the suspect and officers. As I was nearing the location further information was provided that the suspect was currently located near the intersection of 19th/Washington, and that the suspect was unresponsive down on the ground. Officers also advised that the suspect was still in possession of the firearm, and was non-compliant with commands.

Once I arrived on scene I located several officers standing on 19th north of Washington. I observed that the suspect was lying on Washington St. to the east of 19th, and he was still in possession of what appeared to be an AK-47 rifle. I observed no movements from the suspect, but I was extremely fearful that he was remaining still to lure officers into an ambush style attack.

I then quickly formulated an arrest team that included K-9 Officer Johnson and his patrol K-9 Rico, Cpl. Veins who was armed with a 40mm less lethal ammunition launcher, an officer that was assigned as lethal cover, an officer assigned for handcuffing, and another officer assigned to operate a Taser. Part of the plan also utilized a patrol vehicle that we placed a ballistic shield over the windshield to be moved perpendicular to the suspect for cover/concealment as the arrest team moved into place. The tactical plan included Cpl. Veins deploying the 40mm less lethal ammunition launcher from the cover/concealment of the patrol vehicle to see if we received any reaction from the suspect. In concurrence with the 40mm deployment, K-9 Officer Johnson would deploy K-9 Rico on a 30 foot long-line leash to apprehend the suspect, and once the apprehension was successful K-9 Rico would remain on the bite as we dragged the suspect back to our location at the patrol vehicle.

After ensuring that all of the officers understood the plan we then moved the patrol vehicle into place as the arrest team walked along the passenger side of the patrol vehicle. I then had K-9 Officer Johnson advise when we were close enough to the suspect. Once we had reached that point I instructed Cpl. Veins to deploy the 40mm less lethal ammunition launcher, and prior to the deployment I yelled several times forty, forty, forty so the arrest team was aware that the 40mm was being deployed. Cpl. Veins was able to successfully deploy the 40mm, and it had no effect on the suspect. I could see that the suspect still had the AK-47 in his possession, and given the extreme danger of having officers approach the suspect on foot K-9 Officer Johnson deployed K-9 Rico during this time. K-9 Rico was able to apprehend the suspect on what appeared to be his leg/foot and K-9 Officer Johnson then started to drag the suspect towards the patrol vehicle. I observed that K-9 Officer Johnson was having difficulty dragging the suspect back to the patrol vehicle by himself so I then grabbed the long-line leash and assisted him with this process. I also observed that the AK-47 had been removed from the suspect's possession.

Once the suspect was near the patrol vehicle he was quickly placed into custody. After this occurred I then directed officers to begin life-saving measures on the suspect. After the scene was secured , I was assigned by Sgt. Linn who was the Incident Commander to begin determining who the involved officers were and initiate the CITF Safety Debrief with the involved officers. AFC Gilliam and I worked together to coordinate this portion of the scene.

After the safety debrief's were completed and those officer's were sequestered and had left the scene, AFC Gilliam and I documented a sketch of the basic scene in the CITF packet per the CITF policy. AFC Gilliam and I then responded to the command post for further assignments.

I then responded back to the crime scene and relieved Sgt. Urian as the on scene supervisor, and I remained at the location until Sgt. Hill responded to the scene.

Narrative

On July 26th, 2023, myself along with my trainee Officer Britton respond to a crisis call located at [REDACTED], Boise, Idaho 83702. We self-assigned to this call after hearing an Officer say that a subject was shooting.

While responding with lights and sirens, we heard that Officers were contacting a male armed with an AK47. We were on the inbound connector when we heard the subject with the AK47 was now running. Soon after Officers advised that shots were fired and we could hear gunfire over the radio.

Officers directed responding units to 19th Street and Washington. We arrived and observed a subject laying on the ground with a rifle on his body. I covered down on this subject with my rifle as a group of Officers approached him. As they got closer to him, I stopped pointing my rifle at him. I observed a Police K9 bite the subjects leg and pull his body away from the rifle. The group of Officers addressed this subject.

Officer Dance advised me that we needed to check the original residence as someone may be injured inside. Myself, and Officers Dance, Dozal, Britton and Schimmel responded back to [REDACTED]. We knocked and announced our self but there was no movement at this residence. Based on the fact Officers believed the subject discharged his weapon inside this residence, we forced entry to make sure no one was injured inside and in need of medical treatment. We cleared this residence and no signs of a shooting were present.

I was then advised that the subject resides in the detached structure in the backyard. I opened the back door and saw a detached garage that appeared to have been converted into a living area on the second floor of the garage. Officers announced ourselves again and there was no response. We attempted to force entry into the garage area of this structure but were unable to gain entry. We did visually clear it through the windows. We forced entry into the second floor of this structure.

The structure was clear of injured subject but I did observe several spent rifle casings near the open patio door. There were casings inside and out on the cement patio. I also observed an open rifle case with a pistol laying on the case. I also observed several spent rifle casings downstairs on the driveway, directly below the balcony where I saw the other casings.

While standing by guarding this crime scene to the rear of [REDACTED] A man approached us and stated he and his wife live at this address. They wanted to know if [REDACTED] was involved and where he was at. I advised them that I couldn't provide any information and that a detective would contact him.

Myself along with Officer Britton guarded this structure until relieved by Officer Fratusco.

Add to main report.

Narrative

On 7/26/2023 I responded code 3 to assist in a shot fired call in the area of [REDACTED]. Upon arrival there were numerous officers' vehicles already on scene.

I parked my truck vehicle in the area of 18th and Ellis and approached on foot upon arrival at 19th and Washington. I observed officers conducting CPR and medical treatment on the down suspect. The suspect was located in the street near the northeast corner of the intersection. The suspects AK style weapon was approximately 10 feet from him. There was a Dodge Challenger patrol car positioned near the suspect. There were numerus bullet casings located on 19th St to the north of Washington. Also, numerus bullet casing in the intersect. On 19th St to the south of the intersection, I observed 2 bullet casings. There was a white passenger vehicle parked on the south side of Washington, east of 19th that had what appeared to be 3 bullet holes. There was a white Jeep vehicle parked on the east side of 19th St, north side of Washington that had a flat tire and possible bullet damage. A residence located on the northwest corner of the intersection appeared to have 3 bullet holes on the east most facing side.

Shortly after my arrival paramedics arrived on scene and took over life saving measures.

I coordinated with Lieutenant BUTLER, and Sergeant LINN, and started to set up a inner perimeter based around the area of 19th and Washington. While paramedics worked on the suspect, I made sure there was minimal disruption to the current scene.

I was informed paramedics were not going to transport the suspect I relayed this information onto the command post. After paramedics and fire cleared the area, I continue to secure and preserve all the evidence at the scene. A log was maintained of personal who entered and exited the inner perimeter. The scene was later turned over to the CITF task force upon their arrival. I remained on scene while they conducted their investigation and shortly after the corner remove the suspect body. I turned the inner perimeter over to Sgt T Miller.

Narrative

On 07/26/2023 at 2245hrs I responded to a crisis call at █ While enroutte to the call, after a code three request, I heard "shots fired" over the radio and continued my response. I arrived on scene at 2252hrs, I witnessed the subject laying in roadway, 19th st.. After the subject was apprehended, myself and 4 other officers made our way to the suspect house to clear the residence to ensure that no one was injured. Ofc. Dance forced entry into the residence by breaking a window on the front door. I made verbal announcements into the residence and then we made entry into the primary residence. No one was located in the residence and there was no evidence of any gunshots from inside. A radio message was relayed to us that a secondary residence was in the backyard. We located the secondary residence above a detached garage. We also located a basement apartment below the primary residence. The basement was locked and required forced entry. No one was located in the basement.

The door to the loft above the garage was unlocked. Announcements were made from exterior door. Entry into the loft was made. No signs of anyone were found inside the building. I did note that there were spent shell casings on the east side of the loft, near the southern most window facing east. That window was open. I also saw cases of empty beer cans around the entire apartment. After exiting the loft, we located 5 additional spent shell casings below the open window on the east side of the building. A crime scene was established.

While securing the crime scene I was approached by a male, █, who identified himself as a neighbor living at █ stated that he heard the initial shots fired and then silence. █ then went out to the front of his residence. █ stated that he then heard an officer giving commands to a subject before gunfire was exchanged. █ was also able to provide the name of the homeowner at █. I was put in contact with █ when he called another neighbor and requested he speak with officers over the phone. █ stated that he had video footage of a person, matching the description of the subject, running south down the alley way between 19th st and 20th st. █ stated the subject was carrying a rifle. I told █ that

Narrative

INITIAL RESPONSE/CONTACT:

On 07-26-2023 at approximately 2243 hours, I responded to a radio call of a crisis at [REDACTED] in Boise Idaho Ada County. While in route to the radio call officers advised shots were fired and they needed traffic stopped at 18th and Washington Street. I responded to the location to assist with traffic control.

INVESTIGATION:

I arrived on scene at approximately 2250 hours and began blocking traffic. I later was instructed to begin a crime scene log at the location. I began the crime scene log at approximately 2321 hours. I maintained my traffic control post at 18th and Washington street until later relieved by Officer Harris at 0740 hours. Officer Harris took over the crime scene log at the above time.

CONCLUSION:

Narrative

INITIAL RESPONSE/CONTACT:

On 07/27/2023 at approximately 1523 hours, I responded back to the crime scene to relieve Officer Rawson from his duties. As I arrived, Officer Rawson was breaking down the crime scene and finishing logging the last detectives out of the scene on the crime scene log. Officer Rawson gave me the log which I turned into BPD Records at the end of my shift.

Narrative

On the listed date and time, I was assigned as the BPD Criminal Investigations Division Captain. I received a command text notification of an officer involved shooting at [REDACTED] in Boise. I determined that Garden City PD would be assigned as the lead investigative agency for the Critical Incident Task Force investigation.

I responded to the Incident Command Post, which had been established at 19th/Resseguie. I noted the ICP was inside the outer yellow crime scene tape perimeter. I checked in with a uniformed officer who was unknown to me on the crime scene log. Once at the ICP, I met with Sgt. Linn and Lt. Butler to get a briefing of what occurred, and I was notified that at least six BPD officers were involved. I was later directed to speak with Ofc. Gilliam who had been assigned to conduct the immediate safety debrief with the involved officers. I was advised to meet with Gilliam at 19th/Washington.

GCPD Det. Brumbaugh joined me and we walked south on 19th on the sidewalk on the west side of the road. I was careful not to enter the red taped crime scene perimeter, but I noted that sidewalk was very close to the red tape.

Once I arrived at 19th/Washingont, I received basic safety debrief information from Gilliam. I was advised that Sgts. K. Rush and J. Pietrzak along with Ofcs. Pollard, Fiddler, Rogers, and Sousa were the involved officers who had fired their weapons at the suspect. Ofc. Howarth stated he believed the suspect had been shooting at him as he took cover behind a tree. Per the CITF protocol, these officers were all sequestered.

Gilliam advised that Ofc. C. Johnson had deployed a police canine and Ofc. A. Viens had deployed a 40MM less lethal launcher after the shooting in order to safely take the suspect into custody. These officers were determined to be uninvolved witness officers and were not sequestered. Further, Ofc. J. Lee had witnessed a part of the incident and was also determined to be an uninvolved witness officer.

I relayed all the information from Gilliam to the CITF Command Post.

BPD Det. J. Shofner was assigned to assist in processing the crime scene. When he arrived, I briefed him with the information I had, and then together we looked at the red tape perimeter. I expressed my concern to him that we may need to expand the red tape perimeter in order to maintain the integrity of all potential evidence. I walked north on the sidewalk on 19th and observed one spent cartridge casing on the sidewalk. I directed Shofner to expand the perimeter to preserve evidence and prevent anyone else from walking in that area.

I did not touch, alter, or manipulate any items of evidence. I did not interview any witnesses or

ASSIGNMENT:

On 7/26/2023 at approximately 2319 hours, I was contacted at home by Detective P Jagosh. I learned that officers with the Boise Police Department had been involved in a critical incident and the Critical Incident Task Force was being activated. Det Jagosh asked that I responded to [REDACTED] and assist the First Contact Team. I arrived at [REDACTED] on 7/27/2023 at approximately 0000 hours.

FIRST CONTACT TEAM:

In addition to myself, the First Contact Team consisted of:

Detective M Buie (ACSO)
Detective R Trejo (ACSO)
Detective I Wear (MPD)
Detective K Caygle (MPD)
Detective M Miraglia (BPD)

INVESTIGATION:

The First Contact Team was separated into two groups:

Det Wear, Det Caygle, and Det Miraglia.
Det Buie, Det Trejo, and I.

I assisted Det Buie and Det Trejo as THEY made contact with Ofc J Howarth, Sgt K Rush, Ofc D Rogers, Ofc C Sousa, and Ofc C Fiddler. While Det Buie and Det Trejo were taking photographs of the officers, and collecting the relevant evidence, I was tasked with collecting each of the officer's body cameras. After collecting the cameras, they were promptly given to Lt C Smith and Lt J Ransom.

After all of the evidence was collected [REDACTED], I assisted with completing the property invoices at the Garden City Police Department.

INTERVIEWS:

On 7/31/2023, I assisted with Detective J Brumbaugh's (GCPD) interview of Officer R Pollard, and Detective E Stoffle's (MPD) interview of Ofc Howarth. The interviews took place at Strindberg, Scholnick, Birch, Hallam, Harstad, Thorne Employment and Labor Law Office, 1516 W Hays St Boise.

Narrative

INITIAL RESPONSE/CONTACT:

On 7/26/2023 at approximately 2230 hours, I was contacted by AFC P. Jagosh and asked to respond to the area of N. 19th St. and W. Washington St. in Boise to observe and stand by while Garden City Police conducted their investigation and processed the scene.

When I arrived at the scene, the scene had already been taped off with crime scene tape and secured by multiple Boise Police officers. I noted numerous shell casings in the roadway and the suspect, later identified as Macey Juker, was laying on the ground on the north east corner of N. 19th St. and W. Washington St. near a marked Boise Police Patrol car. There was an AK-47 near Macey's body as well as packaging from medical items and a first aid kit that appeared to be from officers and medical personnel's attempt at life saving measures.

I remained on scene until the scene was processed, measured and evidence was collected.

CONCLUSION:

Narrative

Macey Juker Shooting Investigation.

Assignment: On 7-26-2023, Boise Police Officers were involved in a shooting near the intersection of 19th and Washington. I was activated as a member of the Critical Incident Task Force and assigned by AFC Jagosh to assist Garden City Detective Brumbaugh with first contact at [REDACTED]. I met with Lt. Ransom [REDACTED] and learned there were 7 officers sequestered.

First Contact: Boise Detective Canfield and I assisted ACSO Detective Buie, ACSO Detective Wear, and Meridian Detective Caygle with the collection of photographs and firearms from the involved officers. See Det. Buie's report for further details.

Scene: Next, I responded to the scene of the shooting and was given an overview of what occurred by Det. Shofner. Following this, I left the scene and did not perform any other duties that night.

Involved Officer Interviews: On 8-2-2023, I met with ACSO Det. Casey Bryant at Attorney Guy Hallam's office, 1516 W Hays St, Boise, to assist in the interviews of Sgt. Rush and Officer Sousa. At the request of council, both Sgt. Rush and Officer Sousa were provided a chance to review their body camera video prior to the interview.

Sgt. Rush: Sgt. Rush, Det. Bryant, Attorney Guy Hallam, Det. Shofner, and I were present. Det. Bryant went on record that morning at 0907 hours. Det. Bryant conducted the recorded interview of Sgt. Rush, Attorney Hallam and I asked clarifying questions when he was finished.

Officer Sousa: Officer Sousa, Det. Bryant, Attorney Chad Johnson, Det. Shofner, and I were present. Det. Bryant went on record that morning at 1033 hours. Det. Bryant conducted the recorded interview of Officer Sousa, Attorney Johnson and I asked clarifying questions when he was finished.

Disposition of evidence: See Det. Bryant's audio recordings and report for details.

Conclusion: Route to Garden City Detective Brumbaugh. Route with original report.

Narrative

On 7/28/23, shortly after 1600 hours, I responded to the area of 19th/Washington for administrative follow up. It came to my attention that bullets presumably fired by BPD officers had struck several buildings and possibly some vehicles. I received an email from Det. Brumbaugh listing several involved address and vehicle license plates.

I returned to the scene in an attempt to contact the homeowners or responsible parties associated with the following addresses:

[REDACTED]
1821 W. Washington

At 1821 Washington, I spoke with the owner of the computer business which occupies the premises, [REDACTED]. I explained that I was aware there was bullet damage to his business, and that it was possibly caused by bullets fired by BPD officers. I offered him a Boise City Claim for Damages form, but he refused, stating he did not wish to pursue the matter. He indicated the bullet damage was not significant enough to him to warrant filing a claim.

I attempted to make contact at [REDACTED], but received no answer. I left my business card and a blank claim for damages form at each address.

It should be noted that there were several other residences with apparent bullet damage which I believed to have been caused by the suspect. These were as follows:

[REDACTED]

I did not attempt contact at any of these residences. I was unable to determine which vehicles were struck by BPD officers and which were struck by the suspect.

Nothing further at this time.
Route with report.

Narrative

INITIAL RESPONSE/CONTACT: I received information that there had been an Officer Involved Shooting (OIS) on Wednesday at 2256 hours. I started by sending out a group text message to the lieutenants of the Critical Incident Task Force (CITF) agencies informing them of the OIS and the location, which was reported to me as [REDACTED]. The information I had was there was one involved suspect who had been armed with a rifle.

I spoke with Captain Quakenbush on the phone and then called Captain Jones. Captain Jones informed me he was responding to the scene. I messaged Acting Field Supervisor (AFC) Jagosh and asked him where he needed me. As AFC for the Violent Crimes Unit (VCU) part of his responsibilities were to make initial assignments and I wanted to respond where I could be of the most assistance to him. AFC Jagosh asked me to respond to the CITF command post which had been established as the Garden City Police Department since they were the lead investigating agency in this incident.

Once at the command post I spoke with other CITF agency supervisors and helped coordinate information and response to the investigation. This work was all administrative in nature. While attending to these duties I realized that with six involved officers it would take time to get the body worn cameras up to the station and download the captured video. Typically detectives would collect these cameras as part of the first contact team and these collections could be delayed due to attorney's, evidence collection etc. Because of this I drove to [REDACTED] and met with Lt. Ransom.

I was informed three of the body worn cameras had been collected so far. I was given body worn cameras in unsealed evidence envelopes with names written on the outside by members of the first contact team. The three envelopes were labeled "Howarth OBV", "Pollard" and "Pietrzak OBV". I drove to the Boise Police station and plugged the three cameras into their assigned docks. I then drove back to [REDACTED] and was informed two more were ready. I was given the body worn cameras in unsealed evidence envelopes with names labeled "Rogers OBV" and "Rush OBV". I drove those cameras up to the Boise Police station and plugged them into their assigned docks.

Once completed I drove back to the command post. While there I pulled up the available video footage from the body worn cameras on Evidence.com to review the video footage with the other CITF supervisors. Due to having to leave within a few hours for an out of state trip I left the command post after this and went off duty. This concludes my involvement in the incident.

DISPOSITION OF PROPERTY/EVIDENCE/WEAPONS: I was given five of the body worn cameras from the first contact team to plug into their respective docking stations and allow the video to download. Specific actions detailed in above narrative.

CONCLUSION: Route with other reports.

"I certify (or declare) under penalty of perjury pursuant to the law of the State of Idaho that the foregoing be true and correct"

Narrative

INITIAL RESPONSE/CONTACT:

On 7-26-23 at approximately 2243 I responded to the area of [REDACTED]. Officer's on scene put out over the radio that they could hear shots being fired from the suspect. As I was responding to the scene Officer's announced on the radio that a male subject approached them with an AK47. A short time later I heard on the radio that the subject was being given commands. Shortly after that Officer's announced that he was running and that shots were being fired. At one point and Officer keyed up on the radio and I could hear multiple rounds being fired. Prior to my arrival it was put out on the radio that the suspect was down, still had the rifle in his possession, and was non compliant.

When I got into the area I parked my patrol car at 21st/Ellis due to multiple patrol vehicles blocking the intersections. I retrieved my certified dual purpose K9, Rico. Rico was most recently POST certified on 9-1-22. I ran with Rico to the scene of the shooting at 19th/Washington. Due to the suspect laying on his back still with the rifle in his possession a plan was devised to use Rico on a 30 foot line to drag the suspect away from the firearm. I was told that the suspect was non compliant with commands after the shooting and that he had shot at Officer's. The suspect was also laying in the road with no cover close by. We opted to use a patrol car as moving cover to get myself and Rico close enough to the suspect that Rico could reach him on the leash without us leaving cover. Due to the circumstances, using Rico was the only viable option to separate the non compliant suspect from the rifle.

I moved up on the passenger side of the patrol car and we got within about 30 feet of the suspect. Cpl Viens deployed his 40MM launcher just prior to me deploying Rico. I gave Rico his bite command and sent him up to the suspect. Rico bit the suspect on his left thigh. Once Rico bit the suspect I began pulling on the leash. Doing this caused Rico to become dislodged from the bite. The suspect was still in possession of the rifle at this time so I gave Rico his bite command again. Rico then bit the suspect on his left foot. Myself and Sgt Miller drug the suspect back to the patrol car which in turn separated the suspect from the rifle. Once Rico and the suspect were back to us I removed Rico from the bite and took him back to my patrol car. I then moved my patrol car closer to 19th/Ressigue. I stood by until I was cleared from the scene.

Prior to deploying Rico I weighed the following:

SEVERITY OF THE CRIME:

The suspect had just attempted to shoot multiple police Officer's with a rifle.

IMMEDIATE RISK POSED TO OFFICERS AND OTHERS:

The suspect posed an extreme risk to Officer's and all of the citizens living in that area. The suspect was an active shooter firing off rifle rounds in a heavily populated neighborhood. Upon contact with police the

suspect began shooting at them.

ACTIVELY RESISTING AND NON COMPLIANT:

I was told that the suspect was non compliant with commands following the shooting. I observed the suspect laying on his back in the street with the rifle on his chest making no attempt to separate himself from the rifle.

Using Rico was not only reasonable but it was the safest and most effective way to remove the rifle from the suspect as he just attempted to shoot Police Officer's and was now still in possession of the rifle.

CONCLUSION:

Route with report.

Narrative

On Wednesday, July 26th, 2023, at approximately 22:53, I was dispatched to [REDACTED], in reference to an Officer Involved Shooting.

Upon arrival, I contacted Sgt. Linn and Lt. Butler, who advised that the residence at [REDACTED] needed to be secured. At approximately 23:19, Officer Kolos, Logsdon, and I secured the crime scene at [REDACTED]. After setting up the crime scene tape, I began a crime scene log. At around 03:00 (07/27/23), I handed off the crime scene log to Officer Dozal who was holding a perimeter on the crime scene as well.

This concludes my involvement in this incident.

Narrative

INITIAL RESPONSE/CONTACT: On the above date and time I was notified of an officer involved shooting that just occurred. 6 Officers were involved, with 3 witnessing officers and the suspect was deceased on scene. I was the acting Sergeant for the unit and took administrative duties.

ASSIGNMENTS:

First contact [REDACTED]: Det Miraglia, Det Canfield

Crime Scene: Det Shofner

I drove to the command post at Garden City Police Department and was given an additional brief.

I assisted GCPD Det. Braumbaugh with getting information on houses and cars that were struck by gunfire to assist crime scene personnel and other administrative duties.

Once Officer's body worn cameras had been downloaded, I emailed copies to Garden City Detectives to view.

Boise Police Department. Supplemental Report

RD: 10

DR# 2023-312299

1. Incident Topic INFORMATION REPORT		2. Subject/Victim's Name			
3. Address N 20TH ST , BOISE			4. Phone		
5. Date Occurred 07/26/2023	6. Time Occured 22:24	7. Route To File		8. Division SRO	

Narrative

I am a uniformed School Resource Officer with the Boise Police Department.

On the morning of 07/27/2023, I learned of a critical incident that occurred in the north end area of Boise the previous night. Due to the need of additional law enforcement resources, I was asked to respond to the area to relieve officers who had been securing the outer perimeter area of the crime scene.

On 07/27/2023 at 07:40 hours, I responded to the intersection of N. 18th Street and W. Washington Street to relieve Officer Broaddus who was assigned to an outer perimeter position at that intersection. I relieved Officer Broaddus of his duties from that intersection and took over the crime scene log from him at that time. I maintained my position at that intersection and documented any law enforcement officials entering and exiting the crime scene from that specific location on the crime scene log. I held that position until the crime scene was reopened by investigators. I assisted with removal of the crime scene tape on the outer perimeter at the above location at 11:40 hours, at which time I cleared the area.

The crime scene log from the above intersection was turned into records to be downloaded into this report.

I'm requesting this supplement be routed along with the original report.

Information For Reporting Runaway Children

07/15/23

17:15
1300 JMIT

MI JMIT
BIRCH LANDING

Date:
Time:
DR#:
Officer / Ada #:

Running away from parents/guardians is a Status Offense under Idaho Code 20-516. This means that this act is illegal only for those individuals under 18 years of age. The primary action the police may take is to return the child to the parent/guardian(s).

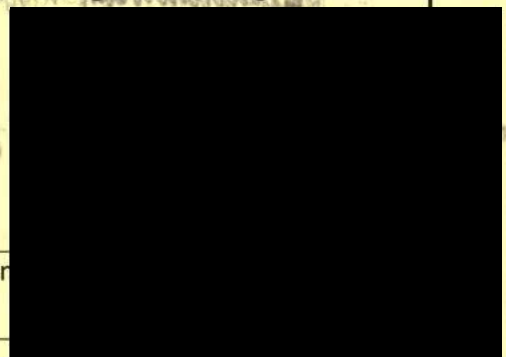

When a member of the Boise Police Department completes a Runaway report, the information will be entered into the National and Idaho Information Computers. If your child is contacted by a law enforcement officer and gives his/her correct name and date of birth, the officer will be alerted and can detain the child until he/she can be returned to the parent/guardian.

Parents/guardians are encouraged to take the initiative in locating their child by contacting friends and acquaintances of the child and checking places the child frequents. If there are exceptional circumstances, notify the Boise Police Department at 208-377-6790 for assistance or to obtain assistance from other agencies.

To File a Runaway Report:

- The report should be made in person at the Boise Police Department (333N. Mark Stall Place Boise, Id 83704) or by calling Boise Police Department dispatch (208-377-6790) and requesting an officer.
- A School Resource Officer will be assigned to the case.
- You will be required to notify the Boise Police Department immediately upon the return of the child. To ensure the proper person is clearing the report, this notification should be made in person at the Boise Police Department or by calling Boise Police Department Records at 570-6000 and providing the following information:

1. The name of the reporting party.
2. The name of the runaway child.
3. The Report number (DR#).
4. The name of the officer who took the report.
5. The officers Ada number.

Reporting Parties Email Address:	Reporting Parties Phone:
----------------------------------	--------------------------

(All of the above information is required to clear a runaway report by telephone.)

INVESTIGATOR ASSIGNMENT

On July 27th, 2023, I was notified about an officer involved shooting the previous evening involving members of the Boise Police Department and the Ada County Critical Incident Taskforce was activated with Garden City Police Department serving as the lead agency.

;

Sgt. Domeny requested my assistance drafting a search warrant for the suspects address and residence of [REDACTED] in Boise, Ada County, Idaho. The search warrant was granted under seal by Judge Strong.

;

I brought the warrant to the address and CITF investigators entered the property to conduct a search for evidence related to the warrant. Numerous items of evidence were seized by Meridian Police Department CIFT investigators at retained at Meridian Police Department.

;

These items of note were recovered including:

- (1) Glock 22 GN4 pistol in .40 caliber with a serial number of TLV258.
- (1) Comarron Arms revolver in .22LR caliber with a serial number of U64744.
- (1) Colt .357 caliber revolver with a serial number of 13820.
- [REDACTED]
- 7.9 grams of unknown brown/black substance
- 352 grams of unknown yellow waxy substance in a jar
- (1) Apple iPhone

;

See the property invoice related to Meridian Police Department case number 2023-00004787 by C. Boyes for the full list.

I stood by while the items were collected and assisted in leaving a copy of the search warrant on a weight bench within the residence.

;

Once the search was completed investigators left the residence and I removed crime scene tape from around the area. The residence was turned over to family members by Sgt. Dozier.

;

The search warrant return was sent back August 1st, 2023.

;

Nothing further.

;

Supplemental Report							

On July 28, 2023, at approximately 2048 hours, Garden City officers were dispatched to an injury crash at the intersection of Chinden and Kent.;

;

During the investigation, a male subject (later verbally identified as ██████████) approached me. ██████ told me that he was involved in the Boise Police shooting that occurred a couple of days prior and he heard that Garden City Police were investigating the call. I confirmed that our detectives were handling the case.;

;

█████ stated that his vehicle was hit by gunfire several times. The vehicle was processed but he found another spent round inside his vehicle. He showed me a tin with the bullet inside. I had him pour the bullet into a latex glove that I had on my person. He stated that he found the round on the passenger side floorboard. He did not know exactly where it came from.;

;

I told him that I would let our detectives know that he found another round and that they would contact him at a later time.;

;

I booked the spent round into Evidence.;

;

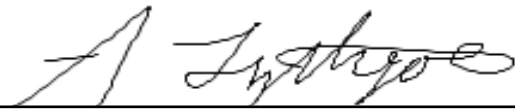

No further.;

;

Note: This report was originally written under DR 2023-001435. It was copied and pasted over. Evidence was moved by Evidence Technician Mitchell.

Supplemental Report							

Supplemental Report

On July 26th, 2023, at 2254 hours, I responded to the area of 19th St. & Washington in Boise to assist Boise City Officers due to gun shots being fired (called out over the radio by Officers).

I parked my patrol vehicle on 19th St. just south of Washington and north of the alleyway to block any incoming traffic. I assisted on the scene by putting up crime scene tape within a 2-3 block radius. I was cleared from the scene at approximately 2337 hours.

Nothing further.

**CRIMINAL INVESTIGATIONS UNIT
SUPPLMENTAL REPORT**

At 2308 hours on Wednesday, July 26, 2023, I received a call from CIU Sgt. Domeny requesting that I respond to the station in relation to an officer involved shooting that had just occurred. He advised that the incident involved Boise Police Department personnel and that Garden City Police would be the lead investigative agency.

I responded to the station where I gathered equipment and prepared for a response. I was soon joined by GCPD CSI Vargas who was also called out to assist with processing the scene. We were instructed to wait at the station to attend a pending incident briefing. Prior to the start of the briefing, Ada County Sheriff’s Office Crime Lab personnel CSI Lori Kidwell, and CSI Heather Campbell arrived to assist and sit in on the briefing.

During the briefing, we received some preliminary information relating to the incident and that there were approximately six law enforcement officers involved. We also learned that the suspect was deceased and still on scene near the intersection of 19th Street and Washington Street in Boise, Idaho. Once the briefing was concluded, CSI Vargas and I drove to the scene.

CSI Vargas and I arrived on scene at 19th Street and Washington St, Boise at 0058 hours on Thursday, July 27, 2003. We were joined by ACSO CSI Kidwell and ACSO CSI Campbell who each drove separate vehicles. We met up with GCPD Sgt. O’Gorman and BPD Sgt. Shofner who were on scene prior to our arrival.

GCPD Sgt. O’Gorman then provided us with a walk-through of the scene. He directed our attention to several white tented cards scattered throughout the scene. Sgt. O’Gorman stated the tented cards were placed next to casings found throughout the scene that had been identified prior to our arrival. As we walked east on Washington St., we were directed to the deceased body of a partially clothed male laying in the street, the body was surrounded by medical waste from emergency personnel. There was a white sheet propped up by two traffic cones which was constructed by officers and positioned near the body as a privacy screen. There was a blood trail leading from the body to a rifle

lying in the street several feet away. We were advised that a K9 asset was deployed which had dragged the male from where the rifle was, to his current spot in the roadway.

Sgt. O’Gorman also pointed out that several homes and vehicles were struck by bullets, but due to the darkness it was hard to tell which ones or how many. CSI Vargas would photo document defects once there was sufficient daylight.

Initial CSI Assignments: ACSO CSI Campbell was assigned with taking overall crime scene photos to include the area of 19th Street and Washington St, with ACSO CSI Kidwell assisting. GCPD CSI Vargas was assigned to take detailed scene photos of the same area to include items of evidence and involved homes and vehicles. While the initial photos were being taken, I continued the search of the scene for additional items of evidence that had not already been identified.

Once the photos were completed, we walked the scene, and I placed yellow tented evidence markers next to each item identified to be collected. Since the rifle lying on the street (evidence marker #1) had not been moved or cleared, I decided that it be immediately documented and collected for scene safety. The rifle was outlined with reflective chalk for placement reference. GCPD Sgt. O’Gorman then cleared the rifle as GCPD CSI Vargas took photos. During the clearing of the rifle, it was discovered that there was one Tulammo 7.62x39 round in the chamber, which he ejected. There were also unspent rounds in the magazine which were not removed or counted on scene. The rifle, magazine, and unspent round were placed in a rifle box and secured in the GCPD CSI vehicle at the scene.

The following items of evidence were identified during the initial search:

EVID#	DESCRIPTION	LOCATION
2	40MM BLU FOAM PROJECTILE SUSPECT	ON GROUND NEAR
3	GRY TULAMMO 7.62X39 RIFLE CASING SUSPECT	ON GROUND NEAR
4	SUSPECTS CLOTHING SUSPECT	ON GROUND UNDER

- 38 GRY TULLAMO 7.62X39 RIFLE CASING IN GRASS IN FRONT OF [REDACTED]
[REDACTED]

A request was then made for the Ada County Coroner's Office to respond to remove the body. A short time later, Ada County Coroner Rich Riffle, Brett Harding, and Autumn Warren arrived on scene. The Ada County Coroner's Office staff took scene photos, and then removed the remaining clothing items and examined and photographed the body. GCPD CSI Vargas took photos during the examination as well. Once completed, the body was placed in a black transport bag and a red seal bearing (SEALED 069343) was attached, locking the outer zipper in place. ACCO staff loaded the body onto a gurney and removed it from the scene at approximately 0327 hours. The clothing remained at the scene and was then photographed by GCPD CSI Vargas.

During the next few hours, the following activities took place as we waited for daylight to take additional photos with evidence still in place. Also, during this time, GCPD CSI Vargas marked and photographed defects to houses and vehicles located within the scene.

0555: ACSO CSI Wheatley and Guess arrived on scene to assist.

0615: ACSO Recon Bryce Bienz and Michael Huffacker arrived on scene to diagram the scene.

0708: ACSO Casey Bryant arrived to capture drone footage of the scene.

0730: ACSO CSI Herink arrived on scene to assist.

Also occurring during this time and throughout the processing of the scene, metal detectors were used by on-scene CSI personnel to locate additional bullet fragments and casings. The following items were located during this search:

EVID#	DESCRIPTION	LOCATION
39	UNSPECT SPEER 9MM LUGER HANDGUN ROUND	IN GRASS IN FRONT OF [REDACTED]
40	SIL SPEER 9MM LUGER HANDGUN CASING NEAR BLK NISSAN SUV	IN GRASS IN FRONT OF [REDACTED]

Once the Recon Team was finished and the drone footage was captured, there was sufficient daylight for GCPD CSI Vargas to take additional scene photos.

I then used the same camera as GCPD CSI Vargas to photograph and collect all items of evidence at the scene. ACSO CSI Kidwell followed along, acting as a scribe as I collected and packaged the evidence.

It should be noted that the medical waste surrounding the suspect's body was placed in a red bio-hazard bag for disposal. The trauma kit bag, scissors, and package of gauze were placed inside BPD unit #015 at their request.

I secured all equipment and evidence in the GCPD Evidence vehicle and prepared to leave the scene with the following plan in place.

The scene was turned over to ACSO CSI Herink to perform any necessary trajectory examination/documentation, recovery of projectiles, and photos of defects to property on scene.

I was advised that a search warrant was being requested for the suspects residence located at [REDACTED], and that Meridian Police Department CSI personnel would be responding and would handle that search. I never went to that residence, and the search warrant, to my knowledge, had not yet been obtained at the time I left the scene.

ACSO CSI Kidwell, GCPD CSI Vargas, and I left the scene at approximately 0959 hours. GCPD CSI Vargas and I arrived back at the station at approximately 1010 hours where we secured all evidence in the Evidence Room. I placed the suspect's clothing in the forensic drying locker and turned on the fan.

All photos taken were downloaded to the case media folder.

Nothing further.

Supplemental Report							

CRIMINAL INVESTIGATIONS UNIT SUPPLEMENTAL

On Wednesday July 26, 2023 I received a phone call from Sergeant Domeny at approximately 2310 hours requesting I respond to the Garden City Police Department for a CITF activation. Upon arrival I was advised that Boise Police had been involved in an officer involved shooting with one subject at [REDACTED] in Boise and that after briefing CSI Mitchell and myself were to respond to the scene. During briefing it was learned that there was one suspect that was deceased and there were six Boise officers that had fired their weapons. CSI Mitchell and I gathered our equipment and responded to N. 19th and W. Washington Street in Boise at approximately 2447 hours.

Upon arrival at the corner of N. 19th and W. Washington Street we met with ACSO CSI Kidwell and ACSO CSI Campbell who were assigned to help process the crime scene. Sergeant O'Gorman escorted us into the scene and walked us through describing the chain of events. Sergeant O'Gorman advised us that the following address had been struck by projectiles during the incident:

1. [REDACTED] (3 apparent bullet holes to the upper part of the residence that faces N 19th Street)
2. [REDACTED] (5 apparent bullet holes 3 to the front of the house that faces W. Washington Street and 2 to the side that faces N 19th Street)
3. [REDACTED] (1 apparent bullet hole to the upper right corner of the front of the house that faces W. Washington Street)

Three vehicles were also located that had been struck by projectiles.

1. White Jeep ID license plate [REDACTED] (2 apparent bullet holes to passenger front quarter panel and rear passenger tire flattened from impact)
2. White Nissan Altima ID license plate [REDACTED] (4 apparent bullet holes to driver side of vehicle)
3. White Ford F150 ID license plate [REDACTED] (2 apparent bullet holes to driver side back passenger door)

Within the scene were two police units, one unmarked Ford SUV and one marked Dodge Charger that had arrived to assist and were not involved in the initial incident. The deceased suspect was still on scene located in the street at the corner of N. 19th and W. Washington, and the coroner had already been notified and was in route. Prior to arriving, Officers on scene had placed sticky notes, and pieces of crime scene tape next to spent bullet casings that were initially located throughout the scene.

I was tasked with taking over all photos of the scene. Due to the lack of light my photos were not able to capture the entirety of the scene. Sergeant O'Gorman cleared the suspect's rifle which I photographed then places in an evidence rifle box along with the magazine. The bullets were packaged separately and all was secured in the evidence vehicle. Once the coroner arrived on scene I photographed the suspect as they processed the body. I placed lettered sticker scales near the bullet holes on the vehicles and residences that had been impacted to exclude [REDACTED] Street due to the height of the impacts. CSI Mitchell placed evidence markers and once the sun rose I proceeded to photograph the scene. The ACSO CSI's, CSI Mitchell and I continued to look for spent shell casings due to not having an accurate round count reported to us. At this time the other members of the ACSO's Crime Scene team arrived on scene and assisted with metal detectors. We were ultimately able to recover thirty five spent casings and one full 9mm bullet. While searching it was found that the residence at [REDACTED] had also been struck with a projectile. I assisted in collecting all items marked as evidence and cleaned up all the medical waste placing it into a biohazard bag for destruction. All evidence items were secured within the evidence vehicle. CSI Mitchell and I cleared the scene at 0947 hours on Thursday July 27th, 2023 and transported all the evidence to the Garden City Police Department.

ACSO CSI's were assigned to process all the residences and vehicles that had been struck by projectiles. Meridian CSI's were assigned to the suspect's residence to process that scene once a search warrant had been obtained.

At approximately 1010 hours we returned to the Garden City Police Department and secured all the packaged evidence within the evidence room. I had Corporal Barghoorn assist me with placing butcher paper on a table in the training room then I retrieved the suspects rifle to photograph. Once the rifle and ammunition was documented I secured the rifle in a evidence box and the ammunition was packaged in an envelope. Both items were booked into evidence and all photos were uploaded into the secured system. Nothing further.

Officer	Thorndyke, J (GP1313)						
Supplemental Report							

Garden City Police Department

Critical Incident Task Force

█ N. 20th St., Boise, Ada County, Idaho

Prepared by:

Detective Josh Thorndyke #1313

Date:

July 26, 2023

DR#'s:

Boise Police Department 312-299, Ada County Sheriff's Office 23-7087, Meridian Police Department 23-4787, Garden City Police Department 23-1433.

Suspect:

Macey Jaden Juker, █

Involved Officers:

Ryan Pollard (Boise Police)

Dominic Rogers (Boise Police)

Chase Fiddler (Boise Police)

Jason Pietrzak (Boise Police)

Kirk Rush (Boise Police)

Craig Sousa (Boise Police)

Jonathon Howarth (Boise Police)

Follow Up:

On August 1, 2023, I was tasked with Officer Involved Interviews for Sergeant Pietrzak and Officer Rogers.

Interview:

Name: Dominic Rogers:

On August 1, 2023, at about 1030 hours, Detective Wirshing, Detective Krueger and I conducted the interview with Dominic Rogers at his attorney's office. Dominic was represented by Chad Johnson and Chad was present during the interview. The interview was recorded.

Full name: Dominic Rogers

Age: 41

Rank: Officer

Badge number: 1050

Radio designator: 3454

Vehicle number: 406

Date of employment: July 18, 2022

Years of LE experience: 8 years

Prior LE experience: Torrance, CA and San Bernardino, CA

Assignment: Patrol (ID, CA) and School Resource Officer (CA)

Shift and work hours: [REDACTED]

Specialized training and background: [REDACTED]

Make: Glock

Model: 17

Caliber: 9mm

Modifications: rail light and RMR (Holosun 507)

How many rounds were in weapon at time of incident? 17+1

Why do you load a certain way, and explain number rounds carried? Patrol ready

Was this a personal or department weapon / ammunition? Department Issued

Describe clothing worn at the time of incident: Boise Police Patrol uniform; Blue pants, Blue shirt, external vest with equipment and markings identifying himself as a Police Officer..

Markings that identify officer as a law enforcement officer: Police badge, Police markings front and back

What events occurred prior to this incident, the general nature of call, and the general description of activity level: Assigned himself to a P1 call but never went to it when he saw the Crisis call.

Were you aware of other past crimes of this or similar nature in this area, or specific location? No, it's not his patrol area.

THE FOLLOWING IS A SUMMARY OF OFFICER ROGER'S DETAILED STATEMENT ABOUT THE INCIDENT

- Preempted off of his call and attached to the crisis call.
- Had a conversation with Officer Lee about crisis calls and the nature of them. Officers met up at Albertsons off State St. to make a game plan.
- Officer Lee was on phone with male and he heard gun shots.
- Officer's rolled code 3 to the area of the incident.
- Parked at 21st and Ellis and could hear gun shots in the neighborhood.
- Heard on radio that there was a male at gunpoint.
- Officer Rogers arrived at Ellis and 19th St. when he observed the male being contacted by law enforcement.
- Officer Rogers took cover behind a tree while another officer gave verbal commands.
- Suspect took off running and grabbed something off the car.
- Officer Rogers assumed it was a weapon.
- Foot pursuit towards Washington and 19th St.
- Suspect stopped running, raised a mussel of a firearm.
- Officer Rogers took cover behind a tree and returned fire at the suspect.
- Officer Rogers believed he fired 3-5 shots in total.
- Suspect dropped firearm and no further shots were fired by law enforcement.
- Sergeant Miller took Incident Command and extracted the suspect from the weapon.
- Officer Rogers assisted in a search of a residence to make sure there were no other victims.
- Officer Rogers was sequestered for CITF protocols.

What verbal commands did you officer or other officers give to the suspect prior to the incident? Stop was the only command Officer Rogers remembered saying since he was not having verbals with suspect.

Identify number of commands, voice tone and volume used. Loud and Directive

Have the officer identify what other officers they were aware of that were at the scene. Pollard, Sousa, Fiddler, Lee, Howarth, Miller, and Pietrzak.

What crimes the suspect had committed prior to use of deadly force? Unlawful Discharge of Firearm, Resist & Obstruct Delay and Officer, Aggravated Assault with Deadly Weapon.

Were you aware of crimes of this nature in the area? No

Did you know the suspect prior to this incident? No

Did anything make you feel threatened? Yes

What thoughts did you have about your life, the life of other officers or citizens being in danger? Officer Rogers though about his family, his kids, follow officers, and the neighborhood when the suspect was discharging his weapon.

Can you estimate the number of shots fired and location(s) of you when you fired? 3-5

Did you do anything deliberately or accidentally to alter the crime scene? If so, why? No

Describe the lighting and how, or if that affected this incident. Dark, minimal street lighting

Describe the weather conditions and how, or if that affected this incident. Clear summer night

Could the suspect have given up or stopped this incident at any time prior to use of deadly force? If so, how and when? Yes, the suspect could have given up numerous times to include when was on his knees complying to officers, when he was running and told to stop.

Do you or your attorney have any questions? Officer Rogers was asked by his legal counsel about how the barrel was raised and Officer Rogers said the barrel was raised and he recognized it as a gun in the direction of where officers were located.

The interview was concluded at about 1053 hours. I downloaded the audio to the case file.

**Name: Jason Pietrzak**

On August 2, 2023, at about 1422 hours, Detective Wirshing, Officer Hartjie and I conducted the interview with Jason Pietrzak at his attorney's office. Jason was represented by T. Guy Hallam and Guy was present during the interview. The interview was recorded.

**Full name: Jason Pietrzak**

**Age: 51**

**Rank: Sergeant**

**Badge number: 753**

**Radio designator: 4610**

**Vehicle number: 98**

**Date of employment: March 2007**

**Years of LE experience: 27 years**

**Prior LE experience: Jerome County Sheriffs, Meridian Police, Garden City Police, Private training, Coast Guard, Wisconsin Department of Corrections**

Assignment: Night STEP#13;

Shift and work hours: [REDACTED]

Specialized training and background: [REDACTED]

[REDACTED] POST, [REDACTED]

#13;

Make: Glock#13;

Model: 17#13;

Caliber: 9mm#13;

Modifications: rail light (Streamlight) and RMR (Holosun 507)#13;

How many rounds were in weapon at time of incident? 17+1#13;

Why do you load a certain way, and explain number rounds carried? Patrol ready#13;

Was this a personal or department weapon / ammunition? Department Issued#13;

Describe clothing worn at the time of incident: Boise Police Patrol uniform; Blue pants, Blue shirt, hard badge, name plate.#13;

Markings that identify officer as a law enforcement officer: Police badge and shoulder patches#13;

What events occurred prior to this incident, the general nature of call, and the general description of activity level: Was assigned to a recruitment video at Hyde Park when he heard radio traffic about shots fired call.#13;

Were you aware of other past crimes of this or similar nature in this area, or specific location?

No#13;

#13;

THE FOLLOWING IS A SUMMARY OF SERGEANT PIETRZAK'S DETAILED STATEMENT ABOUT THE INCIDENT#13;

-Ada County Dispatch advised of shots fired when he was southbound on 15th Street, Sergeant Pietrzak located the CRISIS call and drove to the area it was reported.#13;

-Sergeant Pietrzak parked at 19th and Resseguie street and met up with Sergeant Rush.#13;

-Sergeant Pietrzak only knew Sergeant Rush was there but there were other officers present. #13;

-Saw suspect on his knees with hands over head. #13;

Suspect was approximately 20-25 yards from Sgt. Rush and Sgt. Pietrzak#13;

-Sergeant Pietrzak knew the suspect was not going to be cooperative based on what he was seeing from the suspect, who was looking around/through officers.#13;

-Suspect got up and started running south when he was ordered to stop.#13;

-Suspect picked up an AK47 which was located approximately 10-15 yards south of him and shot the gun upwards at 11:00.#13;

-Sergeant Rush was on the right side of Sergeant Pietrzak.#13;

-Sergeant Pietrzak went to the eastside of the street to try and stop the suspect from getting into a residence. #13;

-Suspect started shooting towards officers who were on the west side of 19th #13;

Street to the right of Sergeant Pietrzak. Seeing that the suspect was firing at officers and into residences on 19th Street, Sergeant Pietrzak shot at the suspect 2 times.#13;

-Verbal commands were given by law enforcement to stop.#13;

-Sergeant Pietrzak saw muzzle flash of the AK47 and then the suspect ran south and stopped in the intersection of 19th and Washington. The suspect started shooting again at law enforcement.#13;

-Suspect fell to the ground and Sergeant Pietrzak could see him continue to hold his head up and look for officers. The suspect did not surrender or make any verbal statements of wanting to comply with officers. The suspect shot in the direction of officers. Sergeant Pietrzak shot twice, while continuing to give verbal commands for the suspect to drop the gun, which he refused even after Sergeant Pietrzak believed he struck him with rounds. #13;

-The suspect stopped shooting but the rifle remained on his chest. #13;

What verbal commands did you officer or other officers give to the suspect prior to the incident? Drop the gun multiple times, identified themselves as Police, Suspect knew they were police he was initially compliant with them.

Identify number of commands, voice tone and volume used. Direct with suspect to drop the gun throughout the situation. 

Have the officer identify what other officers they were aware of that were at the scene. Rush and other unknown officers

What crimes the suspect had committed prior to use of deadly force? Unlawful Discharge of Firearm, Resist & Obstruct Delay and Officer, Aggravated Assault with Deadly Weapon.

Were you aware of crimes of this nature in the area? No

Did you know the suspect prior to this incident? No

Did anything make you feel threatened? Yes, absolutely he could see the suspect was serious, had a threatening look to him, appeared to be looking to run, immediately started firing shots at law enforcement once he got the AK 47.

What thoughts did you have about your life, the life of other officers or citizens being in danger?

Sergeant Pietrzak knew what AK47 rounds did when they penetrated walls and with all the shooting and yelling, neighbors could wake up and start looking out their windows and/or coming out of their residences, Officers had no cover due to the foot pursuit and suspect using an AK47 bullet which will penetrate through most vehicles, residential exterior and interior walls and most ballistic shields.

Can you estimate the number of shots fired and location(s) of you when you fired? 4

Did you do anything deliberately or accidentally to alter the crime scene? If so, why? No

Describe the lighting and how, or if that affected this incident. Dark, minimal street lighting, had to use flashlights

Describe the weather conditions and how, or if that affected this incident. Clear summer night, 80 degrees

Could the suspect have given up or stopped this incident at any time prior to use of deadly force? If so, how and when? Yes, the suspect could have given up numerous times to include when was on his knees complying with officers, when he was running and told to stop, when he was being shot at by police, after he was shot by police initially. The suspect fought till the end and never made an attempt to give up.

Do you or your attorney have any questions? Detective Wirshing asked about the suspect holding the AK47 at 11:00 and Sergeant Pietrzak described the barrel of the AK47 pointing in an upwards direction initially firing his rounds as if he had a possible AD in the air but afterwards the muzzle went towards law enforcement. Sergeant Pietrzak knew the sound to not be of an Air Soft rifle but of an AK47. 

Legal counsel asked questions related to the suspect threat not ending until the police K9 removed the AK47 from the suspect's possession. The suspect never complied to any law enforcement commands once he ran away. Sergeant Pietrzak estimated the suspect shot 5-8 times initially at law enforcement then 4-5 more time prior to the fatal shot by law enforcement. 

The interview was concluded at about 1444 hours. The audio was downloaded to the case file.

Disposition:

Add to current case file.

Officer Signature

"I have affixed my digital electronic signature to this document as proof that I declare under penalty of perjury pursuant to the law of the State of Idaho, that the information contained in this document and attached reports and documents that may be included herein is true and correct to the best of my information and belief."

A handwritten signature in black ink, appearing to be "M-1313", written over a horizontal line.

Supplemental Report							

**INITIAL INFORMATION: **

On July 27, 2023, at approximately 0630 hours I was contacted by Sgt. O'Gorman and Sgt. Domeny regarding the officer involved shooting. I was assigned to run the crime scenes at 19th and Washington and the residence of [REDACTED] bot in the city limits of Boise, ID. 


**INITIAL SCENE APPRAISAL: **

Upon arrival I parked my vehicle near the intersection of Washington Alley and 19th St. I was brought onto the scene by Sgt. O'Gorman, and he showed me what has been located and what had been done up to that point. After an initial walk through I spoke with the crime scene members. They advised they were still short on the expected bullet casings left on scene based on the initial "round count" conducted by first contact. 


At that time, I spoke with Sgt. Domeny and arranged to watch Sgt. Pietrzak's on body video. This showed the area he shot from, which was in a slightly different area than was initially told to us. After searching the area for a considerable amount of time, I located one spend bullet casing near a tree between the sidewalk and 19th St. The casing was in front of [REDACTED] but almost to the property line of [REDACTED] 


Additionally, units were unable to make contact with the resident at [REDACTED]. I conducted an internet search and located a number for the [REDACTED]. I spoke with [REDACTED] and determined nobody was home, and no pets were at the residence. [REDACTED] said he was not back in town until Sunday July 20, 2023. However, a house sitter would be at the residence on Saturday, and I could go through the residence with the house sitter to find and collect any evidence needed. This would be later conducted by me. See the subsequent section on this examination. 

&#13;

I also spoke with [REDACTED] explained he had already spoken with other officers (unknown when or with whom), but his vehicle had been damaged by gunfire. [REDACTED] unlocked the vehicle for crime scene units to look underneath the hood of the White Jeep Grand Cherokee for damage and possibly projectiles. During this examination I noted at least one defect in the outer wall of the back driver's side tire. Additionally, two defects were observed in the passenger side quarter panel of the vehicle. One defect in the quarter panel appeared to barely graze the edge of the quarter panel and perforate the material. The section defect had no obvious perforation. Once the hood was opened it was clear the projectile had perforated the quarter panel but only penetrated several layers of the vehicle's battery. See supplemental reports of the crime scene members for further information on the Jeep Grand Cherokee. 

&#13;

While on scene I noticed several people going in and out of 1821 Washington St. I also observed the security cameras posted in several locations on the property. The business located there was Northwind Computers. As I walked up to the front door someone stepped outside and met me. I asked about the functionality of the cameras, and I was told they already had the video downloaded onto a thumb drive. At 1135 hours, they handed over the USB drive and advised that the Idaho State Police officers who had completed the area canvas had requested it. I facilitated contact with ISP and advised them I had the USB drive, and they did not need to come back and get it. 

No other items of evidence were located by me. I continued to supervise the crime scene until the completion of the processing. See other members of the crime scene team's supplemental reports for further. This crime scene was closed at 1143 hours and all roads were opened up at that time. 

█ N 20TH ST CRIME SCENE:

In order to conduct an analysis of the scene at █, a search warrant was applied for by Detective Rosen. While that was being done, I assembled several crime scene personnel and detectives from Meridian Police Department to conduct the search if a warrant was granted. 

While waiting for the search warrant to be presented to a judge I relocated to this scene. I was apprised of several projectile casings on the driveway of █. The casings were below a balcony that was above the detached garage. The garage faced to the south, toward an ally. Additionally, I was made aware of several defects to a garbage can, the concrete, and siding of the rear residence of █ 

These areas were marked, photographed and evidence was collected while waiting to hear if the search warrant was granted. 

During this intermittent time, I was given two names by a Boise Police Department perimeter unit. The first name was █ (no audio or video available). When █ was contacted, she advised at approximately 2230-2240 hours she heard a vehicle "speed up" the road near her residence. She said it was dark gray or black in color. She did not see anything specific to the shooting or the preceding actions. 

The second name given to me was █ (no audio or video available). When █ was contacted, he stated he was helping to renovate █. Previously, Macy had come out of his residence and yelled obscenities at the workers. He often complained about the amount of noise they were making and how the smell from the port-a-potty was horrendous. Nothing physical ever took place. No further information was gathered from █ 

At approximately 1300 hours I was contacted by a male identifying himself as █. He stated he understood a search warrant was being applied for and nobody was allowed in the residence. However, he wanted to try and get an approximate time frame for when he could get into the residence and secure it. I asked him to come back in an hour and I would have a better idea. He agreed. That contact is detailed in the following section. 

After the search warrant was signed, Detective Rosen brought it to the scene. The warrant was for the main residence as well as any outbuildings, sheds, etc. 

After reviewing the search warrant, it was executed by the personnel on scene. The main residence did not yield any items of evidentiary value. The loft above the garage held most of the evidence. Multiple items were photographed and/or collected. Please refer to the Meridian Police Department's supplement reports for further information. 

CONTACT WITH █: 

Upon their re-arrival at 1425 hours, I received permission from Sgt Domeny to allow the family back into the main residence. At that time, I walked █ through the back gate from the alleyway, into the back yard, and directed them to the damaged area I noted. They were brought through the back fence due to a news crew being out front recording. They expressed a desire to me not to be seen on the new cameras and did not want to do any interviews. 

█ asked if the family would be able to obtain Macy's keys to the residence and his cell phone. I explained we would be taking any cell phones for possible forensic analysis. However, we had no known need for the keys. The keys would eventually be located on a side table near the entrance of Macy's loft. They were left there, and the family was notified of their location. 

█ also inquired about the gun Macy had. I explained the gun would be held as evidence for a time period. When Garden City was advised they could release the gun it would be released to the owner, which █ said was her. 

█ also provided the following information: 

- • She was the only resident of the main house. 
 - • Macy was the only resident of the loft above the detached garage. 
 - • █ did not reside on the property. 
 - • █ added that Macy lived in the main residence "for a time" before he did some sort of work with the Junipers and sage grouse. 
 - • After Macy was done with the job, █ said she "let him move" into the loft. 
- After the short conversation, I spoke with them for several minutes about resources for grief and counseling. After their request for resources, I had TIP notified and they contacted █ via telephone. 

After the search was completed, I made contact again and told them we were finished, and they could maneuver throughout the property again. I explained a property invoice would be left with a copy of the search warrant. Those would be found on the weight bench in the loft of Macy's residence. 

The family had several questions regarding the events that unfolded the previous evening. I explained that their answers would hopefully be able to be answered in time, but at this early stage, they probably had more information regarding Macy's mindset than we would. █ commented that it did not make sense because "that was not the path he was on." 

Given the situation, I did not question them any further at the time. 

The family had some questions about why they were never called into the coroner's office to identify Macy. I explained the tactics of having a family member identify a decedent is not the preferred method and the coroner would utilize other tactics, using family as a last resort due to the potential emotional toll it would add to the family. 

Near the end of my conversation, I explained that someone from Garden City would be calling in the near future in an attempt to interview them. After they asked if they had to interview, I explained they were not required to, but it would probably be helpful in helping us determine Macy's mindset and the actions he had taken leading up to the shooting. 

This concluded my contacts with the family on scene. 

EVIDENCE FROM █, ID

On July 29, 2023, at approximately 1330 hours I responded to █ I was met by the house sitter, █ who allowed me inside the residence. This was also confirmed with █ prior to my arrival.

Once inside the residence I went to the upstairs bedroom located on the eastern side of the house. This was the room effected by the bullet defects. I photographed the area and was able to locate one expended bullet in the bathroom adjacent to the bedroom, in a linen closet. 

I noted the following inside the residence: 

- • Three bullets appeared to pierce through the exterior siding and into the residence. 
- • One bullet entered approximately six feet above the floor of the room. It perforated the exterior and interior wall and a wall poster. The bullet appeared to continue through a poster hanging somewhat away from a wall that was at a 45-degree angle to the roofline.
 - o The bullet perforated that poster, the angled wall, and the adjacent wall. 
 - o It continued with a slight upper trajectory by perorating the drywall above the closet on the north wall. It then punctured the drywall on the inside wall. 

- o I was unable to recover this bullet. 
- • A second bullet perforated the exterior siding and the interior wall approximately one foot above the floor of the bedroom. 
- o Almost immediately is struck a leg of a small table near the wall, glancing off the leg and continuing in a somewhat flat trajectory to the north. The bullet perforated the closet door on the north wall, the back wall of the closet, and entered the adjacent bathroom. 
- o The bullet continued, perforating the bathroom wall and came to rest in some towels in the linen closet of the bathroom. 
- o This bullet was recovered and booked into evidence. 
- • A third bullet appeared to perforate the exterior and interior walls, a television, the back seat of a futon, and the northeastern interior and exterior wall. 
- o The bullet continued before striking the asphalt shingles of a lower-level roof on the north side of the residence. The bullet did not puncture the shingles. The bullet was not found during a subsequent search of the property. 
- 

**ATTEMPTS TO INTERVIEW [REDACTED]:**

Between July 31, 2023, and September 28, 2023 I attempted to make contact with [REDACTED] [REDACTED] I was unable to speak directly with them on the phone. [REDACTED] had a voicemail that stated his name. I left a message on his voicemail asking for a return call regarding their desire to speak with detectives about Macey’s past and hope that it may provide some insight into the events leading up to the incident. 

As of September 28, 2023, I have not received a return call. 

NO FURTHER

Officer	Brumbaugh, J (GP1246)						
Initial Report							

**Garden City Police Department
Critical Incident Task Force
N 19th St / W Washington St**

Prepared by: Detective John Brumbaugh #1246

Date of Incident: July 26, 2023

DR#s:

- Ada County Sheriff's Office 23-7087
- Boise City Police Department 312-200
- Garden City Police Department 23-1433
- Idaho State Police M23000114
- Meridian Police Department 23-4787

Suspect: Juker, Macey Jaden

Involved Agencies: Boise Police Department

Involved Officers: Officer C Fiddler
Sergeant J Pietrzak
Officer R Pollard
Officer D Rogers
Sergeant K Rush
Officer C Sousa
Officer Howarth

Involved Witness: Officer C Johnson (K9)
Officer AJ Viens (40mm)
Officer J Lee

Related Reports: Ada County Coroner #230727-208

Initial Assignment:

On July 26, 2023, at approximately 2305 hrs, while at home, I was notified by Detective Sergeant Domeny that Boise Police Department had been involved in an Officer Involved Shooting in the area of [REDACTED] N 20th Street, in Boise. The shooting resulted in the death of a subject identified as Macey Jaden Juker ([REDACTED]). No officers or civilians had been injured. Garden City Police Department was to be the Lead Agency for the Critical Incident Task Force and I was designated as the Lead Investigator.

Investigation Summary

Over the course of this investigation, information was obtained from a variety of sources, to include statements by involved officers, statements from witnesses, On Body Video (OBV) recordings produced by involved officers, crime scene evidence and documentation, private party video recordings, dispatch logs and recordings, and medical examiner information. The following is a summary of events based upon available information.

On July 26, 2023, at approximately 2224 hrs, Macey Jaden Juker telephoned Ada County Dispatch via the 9-1-1 emergency line from [REDACTED]. Records were later found connecting this number to Juker. Juker reported subjects attempting to force entry into his residence for the purpose of killing him. He reported, "Radiation is melting my brain." His responses to questions were very slow and he told Officer Lee that he was very drunk and had obtained heroin.

Juker informed Dispatch that he was in possession of an assault rifle, and gunshots could be heard over the phone and in open air while he was speaking with Officer Lee.

Juker walked up behind responding officers Sergeant Rush and Officer Pollard in the 600 block of N 19th Street. Juker was armed with a rifle at that time but complied with their directions to put it down and with directions to kneel in the street with his hands on his head.

As additional officers arrived, Juker's compliance ended. He got up, ran to his rifle, retrieved it, and ran away from the officers. As he neared the intersection with W Washington Street, he turned and brought the rifle up towards officers and started shooting.

Officers responded by shooting at Juker, hitting him multiple times. Juker ended up lying on his back in the middle of W Washington Street but failed to comply with continued commands to relinquish the weapon. Instead, he raised and fired additional rounds, prompting additional shots being fired by officers.

Juker was separated from the weapon and taken into custody with the assistance of a 40mm less-lethal munition deployment and a K9 deployment. Once in custody, officers and then emergency medical responders began providing medical assistance. Juker succumbed to his wounds and was pronounced deceased at the scene.

Documentation of the incident and interactions leading up to it include Dispatch recordings and logs, officers' on-body video recordings, private citizen recordings, and witnesses. All information provided consistent corroboration and/or establishment of the above-described events.

Alcohol, marijuana (and/or related substances), and a substance that appeared consistent with heroin were located during the execution of a search warrant for Juker's residence. There was evidence that he had fired the rifle from that location towards the garage of a neighboring residence.

During interviews, officers described Juker's actions causing them to fear for their own safety, the safety of other officers, and/or the safety of citizens/residents in the area. All of the officers described multiple avenues Juker could have taken to avoid and/or stop the use of deadly force against him but chose not to.

Abbreviated timeline:

2224 hrs: Juker contacted Ada County Dispatch.

2240 hrs Officer Lee reported hearing shots fired over the phone and in open air

2245 hrs: (Approx) Juker walked up to Sergeant Rush and Officer Pollard initiating their contact with him. He is compliant, disarms himself, and is detained on his knees.

224737 hrs: Juker gets up and runs, retrieving his rifle.

224747 hrs: Juker's first shot / Officer Fiddler almost simultaneously shoots

224824 hrs: Juker is supine in the street and shoots three more times.

224827 hrs: Final shot of the incident is fired.

231149 hrs: EMS pronounces Juker deceased at the scene.

Multiple residences and vehicles were struck by projectiles during the incident. However, there were no reported or known injuries to officers or citizens.

Investigation

Scene Debrief:

I initially responded to the scene. I entered the scene from the area of N 19th and Ressigue Streets. I was provided with a briefing with preliminary information regarding the incident. I learned that the following officers were identified as having discharged their weapons during the incident:

- • Officer C Fiddler**
- • Sergeant J Pietrzak**
- • Officer R Pollard**
- • Officer D Rogers**
- • Sergeant K Rush**
- • Officer Sousa**

Sergeant Rush and Officer Sousa had deployed patrol rifles. Sergeant Pietrzak and Officers Fiddler, Pollard, and Rogers had utilized pistols.

Officers C Johnson and Officer AJ Viens utilized force, 40mm direct impact rounds and K9 deployment, respectively, to take Juker into custody after the shooting.

Officer Howarth was identified as being believed to have been a victim of Juker shooting at him, but he had not discharged his weapon.

Officer J Lee had been the primary officer on the initial call and had been in telephonic contact with Juker prior to the shooting with officers.

Officer Lee had been dispatched to a report of subjects at the door of [REDACTED]. The call type was modified to a Crisis call based upon the information Juker was providing to Ada County Dispatch and directly to Officer Lee when Officer Lee spoke telephonically with him.

Officer Lee had staged near N 16th and State Streets to contact Juker telephonically. During that conversation, Juker told him that he (Juker) was drunk and had drugs. Officer Lee heard what sounded to be multiple gun shots. He was able to hear these shots directly and over the telephone. He had requested additional units to the area for shots being actively fired.

It was reported that Juker had approached Officer Pollard and Sergeant Rush on foot on N 19th Street. Juker was in possession of an AK47 style rifle as he approached, was addressed by officers, and was initially compliant with their directions. Juker set the rifle on the trunk or bumper of a parked car, moved away from it, and got onto his knees in the middle of the street at the officers' direction. Juker then got up and ran southbound, retrieved the rifle, and started shooting rounds. Officers then shot Juker.

Command Post:

After being briefed at the scene, I responded to the Command Post, which had been established at the Garden City Police Department. The following initial assignments were made:

- 1st Contact Lead: Ada County Detective Buie
- Crime Scene Lead: Garden City Sergeant O’Gorman

First Contact

First Contact: Detective Buie

Ada County Detective Buie coordinated efforts of the 1st Contact Team to collect evidence from the involved officers. Once collected, the evidence was brought to the Garden City Police Department, where it was processed and then turned over to me to book into Evidence. Evidence that was collected from the officers consisted of duty weapons and ammunition.

Evidence from First Contact:

Sergeant Pietrzak: Collected by Ada County Detective Trejo

- 1. Glock Model 17 pistol SN: BTNE829
 - a. Round removed from chamber of item 1

- b. Magazine from item 1 containing 17 rounds
- 2. 2 Magazines
 - a. 17 rounds
 - b. 12 rounds

Sergeant Rush: Collected by Ada County Detective Trejo

- 1. FN15 rifle SN: FNGR000519
 - a. Magazine from item 1 with 23 rounds
 - b. Round from the chamber of item 1

Officer Fiddler: Collected by Ada Couty Detective Trejo

- 1. Glock Model 17 pistol SN: BTNE835
 - a. Round from the chamber of item 1
 - b. Magazine from item 1 with 17 rounds
- 2. 2 magazines
 - a. 4 rounds
 - b. 17 rounds

Officer Pollard: Collected by Meridian Police Detective Wear

- 1. Glock Model 17 pistol SN: BWRH864
 - a. Round from the chamber of item 1
 - b. Magazine from item 1 with 17 rounds
- 2. 2 magazines
 - a. 15 rounds
 - b. 17 rounds

Officer Sousa: Collected by Ada County Detective Trejo

- 1. FN15 rifle SN: FNA020104
 - a. Magazine from item 1 with 24 rounds

- b. Round from chamber of item 1

Officer Rogers: Collected by Ada County Detective Trejo

- 1. Glock Model 17 pistol SN: BWRH880
 - a. Magazine from item 1 with 11 rounds
 - b. Round from chamber of item 1
- 2. 2 magazines
 - a. 17 rounds
 - b. 17 rounds

Glock 17 pistols fire 9mm Luger ammunition. The magazines associated with these weapons have a capacity of 17 rounds. The FN15 rifles fire .223 caliber ammunition. The magazines that were associated with these particular weapons have a capacity of 30 rounds. However, neither Sergeant Rush nor Officer Sousa load their rifle magazines to capacity, but rather to 28 rounds. Additionally, Sergeant Rush noted that it was possible his magazine might have been short another round from clearing the weapon after a previous incident in which he deployed it and/or that he might have dropped a couple of rounds from the magazine while on scene.

Based upon this information, each officer discharged rounds as follows:

- | | | | |
|----------------------|-----------|------|---------------------|
| 1. Sergeant Pietrzak | 5 rounds | 9mm | |
| 2. Sergeant Rush | 4 rounds | .223 | (with above caveat) |
| 3. Officer Fiddler | 13 rounds | 9mm | |
| 4. Officer Pollard | 2 rounds | 9mm | |
| 5. Officer Sousa | 3 rounds | .223 | |
| 6. Officer Rogers | 6 rounds | 9mm | |

This accounted for 26 rounds of 9mm being fired and approximately 7 rounds of .223 being fired by officers.

The officers were inspected for any injury, damage to their uniforms, or biological transfer. No further evidence was collected.

See supplemental reports from Ada County Detectives Buie and Trejo, and Meridian Detective Wear for further details.

Crime Scenes

Crime Scenes: Sergeants O’Gorman and Dozier

This event incorporated two separate crime scenes: The area of N 19th and W Washington Streets where Juker and law enforcement officers exchanged gunfire and Juker’s residence, an apartment over the garage of [REDACTED]. The scope of the scene around N 19th and W Washington Streets included multiple buildings and vehicles being struck by projectiles. As such processing these two scenes took a substantial amount of time and personnel. Garden City Police Sergeant O’Gorman was the Crime Scene Lead initially and later relieved by Garden City Police Sergeant Dozier. Crime Scene Investigators (CSIs) from Garden City, Ada County, and Meridian, and other personnel, worked to process the scenes.

Scene 1: N 19th and W Washington Streets:

The primary crime scene consisted of the area around the intersection of N 19th Street and W Washington Street and extending north through the 600 block of N 19th Street. Prior to the Crime Scene Investigators (CSIs) arriving on scene, casings had been marked with tented cards and a ‘privacy screen’ consisting of a white sheet propped by traffic cones had been created to shield the Juker’s body from public view.

While processing the scene, the following damage was identified:

• [REDACTED] 3 bullet holes upper part of residence facing N 19th Street

On July 29, 2023, Sergeant Dozier further evaluated the residence at [REDACTED] and collected/documented evidence/damaged there. This was due to the homeowners being unavailable the night of the incident.

• [REDACTED] 5 bullet holes 3 facing W Washington, 2 facing N 19th Street

• [REDACTED] 1 bullet hole upper right corner of front of house facing W Washington

• [REDACTED] 1 projectile hit

• White Jeep [REDACTED] 2 bullet holes passenger

front quarter panel & rear passenger tire flat

• White Nissan Altima [REDACTED] 4 bullet holes to driver side of vehicle

• White Ford F150 [REDACTED] 2 bullet holes to driver side back door

During the processing of this scene 23 expended 9mm casings, 1 unspent 9mm cartridge, and five .223 caliber casings, were collected. These items were consistent with, and therefore attributed to, law enforcement.

Also collected was the Izhmash Saiga rifle used by Juker during the incident. This weapon was chambered in 7.62x39. There were 12 rounds of Tulammo ammunition in the magazine and 1 round in the chamber. Seven (7) Tulammo 7.62x39 casings were located at the scene. The capacity of the magazine has not been established.

Ada County Sheriff's Deputy Bienz responded to the scene and used a 3D Scanner to create a digital image of the scene with measurable points at the time of the scan. Deputy Bienz booked a thumb drive containing that data into Evidence at the Ada County Sheriff's Office. I was provided with a copy of that data, which I transferred to the case file on the Garden City Police Department server.

Ada County Sheriff's Deputy Detective Bryant responded to the scene and used a drone to take aerial photographs and video of the scene. Detective Bryant attached the image files to his report and transferred video files to Evidence.com. I was provided with a copy of the image and video files, which I transferred to the case file on the Garden City Police Department server.

On July 28, 2023, Garden City patrol officers were working traffic crash investigation at Chinden Blvd and Kent Streets. While at that location, [REDACTED] contacted officers and advised that he was involved in the Boise Police Department involved shooting. He reported his vehicle had been struck by gunfire during the incident and that it had been processed at that time. However, he found another projectile in his vehicle. He turned the projectile over to Sergeant Lythgoe, who booked it into Evidence.

Scene 2: [REDACTED] N 20th Street:

Detective Rosen applied for, and was granted, a search warrant authorizing the search of [REDACTED] Street, to include the residence, outbuildings, sheds, etc. Detective Sergeant Dozier oversaw the execution of that warrant.

Suspected bullet strikes at neighboring residence [REDACTED]: ground, concrete, 2 holes in garbage can, garage damage likely from concrete debris.

No items of evidentiary value were identified in the primary residence, and it was learned that Juker no longer lived in the residential structure, but in the loft apartment over the garage. Numerous items of evidentiary value and/or investigative interest were identified. Related supplemental reports, property invoices, and photographs should be reviewed for more complete details, but identified items included the following:

- Book about sobriety entryway
- Door to garage area sealed with spray foam
- Empty Coors cans in boxes and strewn about / open bottle of Rum / cellphone
- Empty bullet casings on the balcony
- Empty bullet casings on the driveway
- A large hole in ceiling above balcony door that appeared to be from a golf club
- AK47 magazine w/live rounds consistent with casings found on balcony and driveway
- Possible controlled substances (black tar-like substance) in bathroom in drawer
- Multiple handguns of differing types, makes, and calibers.

•

Casings and ammunition at the residence were consistent with ammunition and casings from Juker's rifle at the primary crime scene. •

•

Controlled Substance Analysis: •

Meridian Police Department investigators submitted items suspected of being controlled substances that were collected from Juker's residence were submitted to the Idaho State Police Forensic Services for analysis. No controlled substances were detected/identified during analysis of the black tar-like substance. Tetrahydrocannabinol (THC) and Marijuana and/or resins were identified from other items collected. •

**Firearms Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF) Trace:**

Information from all firearms collected from Juker and his residence was submitted to the Federal Bureau of Alcohol, Tobacco, Firearms, and Explosives (ATF/ATFE) for purchase trace information. None of the firearms were reported as stolen, nor did purchase information suggest that any of the guns were obtained illegally.

Canvas Information

Boise Police Officers conducted a canvas of the area around the shooting to ensure no one needed medical attention, to start to identify damage, to identify witnesses, and to start to identify potential private video surveillance that might have captured relevant activity. These efforts were followed up by CITF investigators. Supplemental reports and associated recordings should be reviewed for a more complete representation of those efforts.

Ada County Sheriff's Deputy Detective C Tucker participated in the canvassing of the neighborhood and also interviewed [REDACTED], the owner/operator of the white Nissan Altima he parked in front of 1821 W Washington Street, during the incident. I reviewed her supplemental report, which included the following information:

• [REDACTED] drove into the area, purportedly looking for Uber fares and stopped to see what was going on when he saw lights.

o Detective Tucker was informed by another officer on scene that [REDACTED] follows officers and takes pictures/videos of their activities.

o [REDACTED] told Detective Tucker that he does not intentionally follow the police and that he did not have any photographs or video of the incident.

o Detective Tucker confirmed this but observed pictures of officers from the afternoon of July 26, 2023.

• [REDACTED] heard admonitions to the effect of, "Boise Police, get on the ground!"

• [REDACTED] saw a subject turn around and point a rifle at the officers.

• [REDACTED] stated that he did not see who was firing during the ensuing exchange of gunfire, since he was climbing out the passenger side of his car and lying on the ground.

o Note: Video from 1821 W Washington Street that captured the incident contradicts this account. [REDACTED] was out of his vehicle prior to the shooting starting and had been in the intersection of N 19th

and W Washington when the shooting began.

See Detective Tucker's supplemental report and recording(s) for more complete information regarding her interview of ██████████#13;

Detective Tucker also spoke with ██████████, who resides at ██████████. She documented her conversation with ██████████ in her supplemental report, which I reviewed. Information obtained from ██████████ included the following:

• ██████████ saw a male walking down the middle of the road with a rifle pointed into the air. ██████████ did not recognize the male.

o ██████████ told Idaho State Police Detective Eller that Juker was walking with a "type of bravado."

• He observed a white car enter the area and park (likely ██████████) and an unmarked police vehicle pull through the intersection and then turned its headlights on (likely Officer Fiddler).

• ██████████ saw multiple law enforcement officers in the area, and the male subject walking back up the street with an officer armed with a handgun pursuing him.

• The subject turned towards the officer, and he then heard gunfire, which he believed originated from both the subject and the police.

• ██████████ described Juker's handling of the rifle as "cavalier" and the he was haphazard in the way he whipped it around during the shooting.

See Detectives Tucker's and Eller's supplements and recordings for more complete information regarding their interviews with ██████████#13;

Idaho State Police (ISP) detectives spoke with numerous residents in the area as part of the canvas. The majority of the information from those contacts was comprised of hearing gunshots, often perceived as fireworks. Some heard and saw police presence, but statements did not provide additional information that obtained and referred to elsewhere in this report.

As a part of the canvas, investigators checked for the existence of security camera systems that might have captured any portion of the incident. The majority of camera systems found did not capture the incident. However, investigators learned of a camera system at 1821 W Washington

Street, that captured a significant portion of the incident. This video was turned over to Sergeant Dozier, and later provided to me. Its content is described later in this report. #13;

#13; [REDACTED], a resident at [REDACTED], later provided ISP Detective Szeles a recording from her Ring Camera system. This provided some audio of the initial contact officers had with Juker. It did not provide visual coverage of the incident.

Suspect Information

As noted, the decedent in this investigation was identified as Macey Jaden Juker, born [REDACTED]. Using databases available to law enforcement and/or the general public, I learned the following historical information.

Juker has a criminal record that includes the following offenses: Use of Tobacco by a Minor; Possession, Purchase, or Consumption of Alcohol Under 21 years of age; and Public Intoxication. There was no record of prior CRISIS calls for service with law enforcement.

The telephone number [REDACTED] shows to be a mobile phone number associated with Juker.

On July 25, 2023, at 1004 hrs, Juker's [REDACTED], contacted dispatch to report that Juker was having alcohol related seizures. [REDACTED] was not on scene but reported Juker was in his residence above the garage at [REDACTED]. Emergency services (no law enforcement) responded and found the residence was secured. From call logs, it does not appear contact was made with Juker.

Autopsy

Autopsy: Juker, Macey J

Ada County Coroner Report #: 230727-208

On July 27, 2023, the autopsy was performed on Juker at the Ada County Coroner's Office, 5550 W Morris Hill Road, in Boise. During the autopsy, staff took photographs and collected items. The following items were collected and transferred to me.

1. Right sock
2. Left sock
3. Projectile from left back

4. Projectile from left buttocks
5. Projectile from left shoulder
6. Projectile from head
7. Projectile from right abdomen
8. Fragments from left chest
9. Fragment from left lateral chest
10. Fragment from right pectoralis
11. Fragments from head
12. Projectile from stomach
13. Projectile from spine
14. Projectile from deep left back
15. Fragment from peritoneum
16. Fragment from right chest
17. GSR kit
18. Right Handbag
19. Left Handbag
20. Body bag lock 069343

I transported these items to the Garden City Police Department and booked them into Evidence.

Video Evidence

On Body Video Camera Review:

Sergeants Pietrzak and Rush and Officers Fiddler, Pollard, Rogers, Sousa, and Howarth had On Body Video (OBV) cameras on them and had video recordings related to the incident. The actual videos should be reviewed for the full available information contained within them.

Officer Fiddler (Axon Body3 X60A44155):

Duration: Eleven minutes, twelve seconds (11:12)

Time Stamp - Initial: 2023-07-26 22:46:54 -0600

Time Stamp - Final: 2023-07-26 22:47:00 -600

Officer Fiddler's OBV is activated while he was in the space between the open driver's door and the driver's seat of his vehicle. He and his vehicle are facing northbound, and lights are seen shining in his direction. Officer Fiddler moves across the street and the audio initiates while he is doing so (approximately 25 seconds into the video). While crossing the street, Juker can be seen kneeling in the street, facing north, with his hands atop his head. Officer Fiddler's handgun can be seen directed in Juker's general direction and he activates the weapon mounted light.

As Officer Fiddler moves north on the west side of the street, Juker turns and looks back in Officer Fiddler's direction, and Officer Fiddler moves to the driver's side A-pillar of a car parked on the street. Juker looks again towards Office Fiddler, who appears to be positioned at Juker's '7 o'clock. He looks back towards the officers to his north for a moment, and then starts standing up (00:44).

Juker runs southbound, with Officer Fiddler paralleling him. Juker can be seen reaching the rear of the sedan where the rifle was (00:48 / 22:47:41). Juker continues southbound, but on the sidewalk past the passenger side of Officer Fiddler's vehicle. The light from Officer Fiddler's weapon light illuminates Juker and the rifle is visible (00:51 / 22:47:46). Juker, now past the white Jeep, turns counterclockwise, places his left hand on the rifle's stock and starts raising the weapon towards the pursuing officers. Officer Fiddler starts shooting (00:53 / 24:47:47) and moves back the cover of his vehicle. While doing so, muzzle flashes can be seen from Juker's weapon.

Officer Fiddler's vehicle blocks his camera's view for the remainder of the shooting. Officer Fiddler appears to fire thirteen (13) times during the incident. There is an additional flash that appears like he fired another round, however, his weapon did not move, suggesting that it was the muzzle flash of another gun reflecting off of the gun smoke in front of Officer Fiddler's weapon. Officer Fiddler's final shot occurs at 22:48:28 (01:34)

An unknown/identified vehicle travels north on N 19th Street from the area of State Street towards the officers. Several officers can be heard telling the driver to stop, but the vehicle turns east onto W Washington Street and drives out of the area. The car drove past/around Juker, who was lying in the middle of W Washington Street.

Officer Fiddler was part of the team of officers who secured Juker. Announcements could be heard that the 40mm less-lethal launcher was going to be deployed. A single shot was fired and appeared to strike one of Juker's legs.

K9 was then deployed to drag Juker away from the rifle towards officers. Juker was secured in handcuffs, and officers began retrieving medical kits and attempting to render aid to Juker and

notified medical units that the scene was safe for them to enter.

Juker did not react to either the impact munition strike or being bitten and dragged by the K9.

Officer Howarth: (Axon Body 3 X60A4638A):

Duration: Thirty-eight minutes, forty-three seconds (38:43)

Time Stamp - Initial: 2023-07-26 22:45:07 -0600

Time Stamp - Final: 2023-07-26 23:18:48 -0600

Officer Howarth's video starts with him on foot. He goes to a patrol vehicle and moves it into the intersection of 21st Street / Ellis. He and other officers start running down Ellis. His audio activates twenty-nine (29) seconds into the video (22:45:36). At the end of the block, they come to additional patrol vehicles with their lights activated.

While running down another block, yelling and then gunfire can be heard (02:40 / 22:47:48). Officer Howarth runs to, and crouches behind, a tree (02:43 / 22:47:52). He then gets up and starts running in the direction of the preceding gunfire, after approximately ten (10) seconds and during the secondary volleys of gunfire.

Sergeant Pietrzak (Axon Body 3 X60A43896)

Duration: Twelve minutes, twenty-four seconds (12:24)

Time Stamp - Initial: 2023-07-26 22:46:35 -0600

Time Stamp - Final: 2023-07-26 22:58:51 -0600

Sergeant Pietrzak's video begins with him walking south to Sergeant Rush's position. Juker can be seen further south, on his knees, facing north. Lights from another vehicle (Officer Fiddler's) are shining north from behind Juker. Sergeant Pietrzak uses a handheld flashlight, better illuminating Juker. Officer Fiddler's lights then get turned off.

Sergeant Rush updates Sergeant Pietrzak that Juker had a "long gun", that had been set on the sedan behind him (Juker). Sergeant Rush further advises that he heard gunfire as he (Sgt Rush) was coming into the area. While they are talking, Juker gets up and turns counterclockwise to start running south on 19th Street (01:02 / 22:47:37).

Sergeants Pietrzak and Rush, and an officer to their left (Officer Pollard) begin pursuing Juker while issuing commands including “Don’t!”, “Stop!”, and “Stop now! Police!” Gunfire then ensues. Due to Sergeant Pietrzak’s movements, I was unable to discern in this video who was shooting, or from where.

Sergeant Pietrzak continued moving south while moving to the sidewalk and houses on the east side of the street. He moves close to the southwest corner of the southernmost residence on the block ([REDACTED]). From this vantage point, Juker is visible on the ground in the street on W Washington Street. Behind him is a white car and a residential structure. Sergeant Pietrzak continued issuing commands for him to “drop the gun!”

During the following seconds, Sergeant Pietrzak discharges his weapon in the direction of Juker, and other gun shots can be heard as well. A flash occurs to his right that would appear to be from another officer discharging their weapon.

One minute, fifty seconds into the recording (01:50 / 22:48:24), the muzzle flash is visible from Juker’s rifle, followed by, what appears to be, the fired round deflecting off the pavement. One second later this is repeated, and Sergeant Pietrzak fires his weapon at Juker, again. Another second after the second round, Juker’s rifle is fired again in the same manner. These shots taken by Juker appear to have all occurred while he was on his back in the street. After the third shot from Juker’s rifle, Sergeant Pietrzak continues to issue commands for him to “Drop the gun!”, but there is no further movement from Juker. The final shot was fired at 22:48:27.

Sergeant Pietrzak calls for a K9, and officers can be heard beginning to check themselves to ensure no officers.

A car can be seen traveling north on N 19th Street (03:05 / 22:49:41). Upon reaching W Washington, the car turns to the east and drives past Juker to the south of him.

Sergeant Pietrzak’s video continues to record all the way through Juker being secured, though he was not directly involved in that process. Once Juker was secured, Sergeant Pietrzak contacted a male lying in the lawn of 1821 W Washington Street (10:35 / 22:57:11). This subject was identified as [REDACTED].

[REDACTED] identified himself as possessing the white car parked on W Washington Street to the south of where Juker was lying. [REDACTED] stated that he is an Uber driver who was in the area. He stopped and saw the man with the gun. He talked about obeying officers orders during the incident, but did not really speak to the actions of Juker or the officers at this point.

Another officer approaches, and Sergeant Pietrzak turns [REDACTED] identification to that officer and starts to sequester himself and ends the recording.

Officer Pollard (Axon Body 3 X60A2462S)

Duration: Seven minutes, one second (07:01)

Time Stamp - Initial: 2023-07-26 22:49:04 -0600

Time Stamp - Final: 2023-07-26 22:56:00 -0600

Officer Pollard's camera is activated after the shooting has ended. His video does show that he swapped the magazine in his gun with one of his spares.

Officer Rogers (Axon Body 3 X60A4331J)

Duration: Eleven minutes, twelve seconds (11:12)

Time Stamp - Initial: 2023-07-26 22:48:15 -0600

Time Stamp - Final: 2023-07-26 22:58:23 -0600

Officer Rogers' camera is activated while he is on foot, north of W Washington Street, on the west side of N 19th Street. Sergeant Pietrzak is across the street. Officer Rogers' camera is obstructed by a tree, but Juker is in the street on W Washington, and commands are being given for him to drop his gun. Officer Rogers' gun appears to be fired once before the shooting ends.

Sergeant Rush (Axon Body 3 X60A42846)

Duration: Twelve minutes, forty-three seconds (12:24)

Time Stamp - Initial: 2023-07-26 22:45:22 -0600

Time Stamp - Final: 2023-07-26 22:56:38 -0600

Sergeant Rush's camera starts as he is retrieving his rifle from the backseat of his vehicle. Commands to "drop the gun" and "get your hands above your head" can be heard as Sergeant Rush charges the rifle, 'clears the air' on the radio, and advises that they are in contact with a subject possessing a "long gun". Juker can be seen complying with these directives and walking northbound on N 19th Street with his hands raised.

Juker is instructed to get onto his knees, and he complies. Sergeant Pietrzak arrives, and Sergeant Rush briefs him. While this is occurring, Sergeant Rush's hand is blocking the view of the camera. At 22:47:37 Sergeants Rush and Pietrzak can be heard reacting to Juker's movements (as established by other OBV).

Sergeant Rush moves south along the west curb of N 19th Street. Commands to stop can be heard and gunshots can be heard while Sergeant Rush is moving south. Gun fire continues to be heard while Sergeant Rush moves across the street. By the time he reaches the vehicles on the east side of the street, Juker can be seen lying in the road on W Washington Street.

Orders are being given by other officers for Juker to drop the gun. Intermittent gun shots from officers can be heard and Juker is seen moving after one of the shots. Sergeant Rush appears to shoot (03:00 / 22:48:22) four times in total.

At 22:50:48, Sergeant Rush assumes Incident Command and advises as much on the radio. Sergeant Rush's camera was deactivated after Juker was secured.

Officer Sousa (Axon Body 3 X60A4333D)

Duration: Eight minutes, fifty seconds (08:50)

Time Stamp - Initial: 2023-07-26 22:47:12 -0600

Time Stamp - Final: 2023-07-26 22:55:34 -0600

Officer Sousa's camera is activated while he is on foot. He is running while multiple gunshots can be heard and approaches the location of the shooting southbound on N 19th Street. I could not discern where he discharged his rifle, but appeared it was possibly while positioned at the hood of (possibly) Officer Fiddler's vehicle. After the shooting is concluded, he joins Sergeant Pietrzak.

Private Citizen Video:

Boise Police Officers conducted a canvas of the area around the shooting to ensure no one needed medical attention, to start to identify damage, to identify witnesses, and to start to identify potential private video surveillance that might have captured relevant activity. These efforts were followed up by CITF investigators. Supplemental reports and associated recordings should be reviewed for a more complete representation of those efforts.

Video Evidence: 1821 W Washington Street:

Video footage was obtained from 1821 W Washington Street, Northwind Computers. Two camera

angles were provided, and from viewing them, it appears the cameras are positioned near the peak of the roof, with one camera (ch5) labeled as "Washington NE" facing predominantly north and the other camera (ch1) labeled as "Washington NW" facing predominantly east. The fields of view cross/overlap over the entrance to the building.

The ch5 video captured a significant portion of the encounter between Juker and law enforcement and has audio. The ch1 did not provide much information of any significance. The following descriptions/timelines relate to that interaction itself:

File Name: N842A8_ch5_main_20230726224224_2023072630000.dav

File Size: 153 MB

Duration: Seventeen minutes, 35 seconds (17:35)

Time Stamp - Initial: 07-26-2023 10:42:23 PM

Time Stamp - Final: 07/26/2023 10:59:58 PM

This video is from a camera positioned near the peak of the room of 1821 W Washington Street, facing north/northwest. The video has a 'watermark' in the lower left corner that reads, "Washington NE", and a date/time stamp in the upper right corner. The timestamp on the screen coincides with the date/times utilized as part of the file name. The video is in black and white, or a night mode, and has sound. From the video, the following is observed:

- 02:20 (duration) / 10:44:43 PM (timestamp): A Boise police SUV proceeds north through the intersection (2:20 / 10:44:43 PM). It does not have emergency lights or sirens activated but, does have normal vehicle lighting (head and taillights). Those are extinguished as it is exiting the intersection. Another SUV that is 'blacked out' (no headlights or taillights). Based off other investigative information, these would have been Officer Pollard and Sergeant Rush, respectively.
- 02:26 / 10:44:49: While they are traveling north, what sounds like a gunshot is heard, and both vehicles proceed to come to a stop.
- 02:41 / 10:45:04: Juker is seen walking in the middle of the road, northbound on N 19th Street, through the intersection. The rifle is being held in his right hand, with the muzzle directed skyward. He appears to be wearing a 'hoodie' type sweatshirt. This was preceded by what sound like verbal statements, but they were undiscernible. As he exits the intersection, both hands a raised, and something else is said. It is possible he was calling out "Friendly!" as he was approaching the stopped officers.
- 02:59 / 10:45:22: A light is activated near the police cars, followed by clearly audible commands, "Drop the gun, now! Drop the gun!" The lighting changes, and Juker is illuminated. He no longer has the gun in his hand and his hands are raised. He follows directions as more commands are given.
- 03:21 / 10:45:44: A white Nissan Altima, determined to be driven by [REDACTED], approaches the intersection, traveling the same path that the officers and Juker had. The vehicle stops prior to entering the intersection, pauses, then turns onto W Washington St

and parks in front of 1821 W Washington. [REDACTED] gets out of his car and stands by it.

- 03:40 / 10:46:03: A dark SUV travels north on N 19th, coming up behind the Altima prior to it turning. This is subsequently learned to be Officer Fiddler. Officer Fiddler positions and repositions his vehicle. [REDACTED] can be heard telling someone he would have to call them back, and begins walking out to the intersection.
- 05:17 / 10:47:40: Officers can be heard addressing Juker. See the accounting of OBVs above for the verbiage, but this coincides with Juker starting to get up off his knees (not visible in this video).
- 05:25 / 10:47:48: Juker has retrieved the rifle and is at the sidewalk intersection on the northeast corner of 19th and W Washington, he has turned back towards officers that have been pursuing him and issuing orders. It appears that there is a muzzle flash from his rifle.
- 05:32 / 10:47:55: Juker is on the ground. Numerous shots were fired from officers and from Juker. Juker continued to shoot as he backed into the roadway before going to the ground. When the shooting started, [REDACTED] moved to the passenger side of his car and got on the ground.
- 05:43 / 10:48:06: Juker is on his back with his head to the east and his feet to the west. He raises the rifle from the side or over his head in an arcing motion to bring the barrel westward, possibly towards Officer Rodgers' or west down W Washington Street. Officers have been heard ordering him to drop the gun and identifying themselves verbally as police.
- 06:03 / 10:48:26: Juker discharges the rifle three times and is then motionless. Orders for him to drop the gun continue.
- 07:05 / 10:49:28: A patrol car is driven into the scene from the north on N 19th Street.
- 07:31 / 10:49:54: A car drives north on N 19th St and turns east onto W Washington and drives between [REDACTED] car and Juker. [REDACTED] gets up and starts running to the south and is ordered to the ground by officers.
- 13:21 / 10:55:44: Patrol car starts moving up towards Juker with officers on foot with it.
- 13:59 / 10:56:22: 40mm Less-Lethal is announced and discharged. No response from Juker.
- 14:02 / 10:56:25: K9 on lead makes contact with Juker. No response from Juker. The K9 is used to pull Juker towards the officers and away from the rifle. He is placed in custody and officers begin to address his injuries. Other officers begin checking the area, including contacting [REDACTED]
- 16:15 / 10:58:38: Fire arrives on scene.
- 17:35 / 10:59:58: Recording ends.

File Name: N842A8_ch5_main_20230726230000_20230726233003.dav

File Size: 669 MB

File Duration: Thirty minutes, two seconds (30:02)

Timestamp - Initial: 07-26-2023 11:00:00 PM

Timestamp - Final: 07-26-2023 11:30:00 PM

This video is from the same camera and is a continuation of the previous video.

- 01:18 / 11:01:17: Ambulance / EMS arrive on scene, entering the scene on W Washington St, westbound in the 1800 block.
- 15:51 / 11:15:30: (Approximate) Emergency Service Personnel / Fire have stopped attending to Juker. Collecting gear and departing.

- 18:16 / 11:18:05: [REDACTED] is being walked west along on the sidewalk accompanied by two officers. They cross N 19th Street and leave the view of the camera. They reemerge crossing W Washington Street northbound and continue north on the sidewalk.
- 27:28 / 11:27:27: An officer goes to the car that was used to approach Juker and turns off some of its lights. They appear to be looking for something, as the interior lights get turned on while they are in the car.

Another video, N842A8_ch5_main_20230726224139_20230726224224.dav, precedes the contact with law enforcement. It does not show any activity, but starting at approximately 00:28 / 10:42:06, the sound of multiple apparent gunshots can be heard.

Video Evidence: [REDACTED] - Ring Camera:

The residence at [REDACTED] has a Ring Doorbell camera system. Video recorded by the system was provided to ISP Detective Szeles. I received a copy of the video and reviewed it. The video did not provide any direct visual documentation of the shootings. The audio from the recording did capture audio of orders being given to Juker by Officer Pollard.

**Officer Interviews**

**Officer Interview: Pollard, R #994**

**Recording: Brumbaugh - Pollard(1)**

**Brumbaugh - Pollard(2)**

On July 31, 2023, at approximately 1005 hrs, Boise Police Detective M Canfield and I met with Officer Pollard and his attorney, Chad Johnson, at Mr. Johnson's office, located at 1516 W Hays Street, in Boise. My contact with Officer Pollard was audio recorded, and those files were later transferred to the folder associated with this incident on the designated server at the Garden City Police Department.

After being admonished that we were conducting a criminal investigation of the shooting that occurred on N 19th Street, and therefore he was not required to speak with us, Officer Pollard agreed to speak with us. The interview was guided by the CITF prepared questions for involved officers. At the conclusion of the initial interview, Officer Pollard and Mr. Johnson reviewed Officer Pollard's On Body Video, and then rejoined Detective Canfield and I to finish the interview. Note: Mr. Johnson was provided with a thumb drive which contained Officer Pollard's OBV. Mr. Johnson and Officer Pollard were instructed not to make any copies of the video and that I would need the thumb drive returned when they were done with it. Neither Detective Canfield nor I were present for their protected review and discussion of the video.

**Officer Information:**

Name:	Ryan Pollard
Age:	27 years old
Rank:	Officer
Badge Number:	994
Radio Designator:	2316
Vehicle Number:	078
Date of Employment:	March 2020
Years of LE Experience:	Over three years
Prior LE Experience:	None
Assignment:	Patrol

Shift and Work Hours: [REDACTED]

Specialized Training and Background: POST Academy, [REDACTED]

[REDACTED]

Weapon Information:

Make: Glock
Model: 5th Generation Glock G17
Caliber: 9mm
Finish: Blued
Modification: Red Dot sights

[REDACTED]

Ammunition Used:

Number of rounds in the weapon: 17 + 1 in the chamber
Reason for carrying as such: Full capacity of magazine/weapon
Personal or Department Issued: Department issued ammunition

[REDACTED]

Uniform / Dress:

Officer Pollard was wearing his department issued uniform, Exterior Ballistic Vest/Carrier and Duty Belt with duty gear distributed across both platforms, and a Boise Police Department hat. The carrier has the Boise Police Department (badge) patch, with "Police" patch below it, name on the opposing side on the front, with "Boise Police" in large writing on the back. The hat has the department badge design on the front of it.

[REDACTED]

Ante-Incident Events:

The evening had been busy. Officer Pollard was assigned to [REDACTED] - however, the suspect vehicle in a Hit-and-Run report he had taken was located in Ann Morrison Park, so he had been there preceding the call involving Juker. While processing the vehicle, an aggravated assault call came out at Ann Morrison Park, and he responded/assisted with that.

[REDACTED]

Following the aggravated assault in Ann Morrison Park, Officer Pollard was en route to the Downtown Substation, when the call involving Juker came out.

[REDACTED]

Officer Pollard was not aware of any similar crimes being previously committed in the area of the call.

[REDACTED]

Statement Regarding the Incident:

I asked Officer Pollard to walk me through the call from his point of view. He provided information that included the following information. However, the audio recording should be reviewed for the exact details of his statement.

[REDACTED]

The call came out while he was eastbound on Main Street driving to the substation near 15th Street. He was intending to initiate some report face sheets and use the restroom. As he was approaching the substation, Officer Pollard heard Officer Lee say something to the effect of, "3455, my subject is actively firing rounds," on the radio.

[REDACTED]

Officer Pollard "immediately" accessed Officer Lee's call, using his Mobile Data Terminal (MDT), saw that it was a Crisis call, assigned himself to the call, mapped the location, and found that he was "a few blocks away" from it. Officer Pollard drove N 15th Street to State Street and then west on State

Street.

Officer Pollard was “on scene” prior to receiving any updated information on the radio. Officer Pollard noted that he was lacking information: whether Officer Lee was on scene and actively being fired upon or if Officer Lee was nearby and hearing gunfire. As such, Officer Pollard did not know what was actually occurring.

While approaching N 19th Street, he noticed another unit behind him, and recognized that at least one other officer was with him. This unit was later identified by Officer Pollard as being Sergeant Rush. From the map, it appeared that the call was near the intersection of 20th and W Washington Streets, or “a little north” from that location. Upon reaching N 19th Street, Officer Pollard turned north and turned off his lights, proceeding “blackout”. Sergeant Rush followed suit. 

He looked to his left (west) as he passed through the intersection of N 19th and W Washington but did not see or hear anything (his windows were open slightly). He then parked on the west side of N 19th Street, between W Washington and Resseguie, closer to Resseguie. (Note: Resseguie turns into Ellis Avenue at N Harrison Blvd, so what Officer Pollard was referring to as Resseguie was most likely a reference to Ellis.) Sergeant Rush parked directly behind him, and they both opened their doors.

As they were getting out of their vehicles, Sergeant Rush said something to the effect of, “He’s right behind us. He’s got a long gun.” Officer Pollard could not see south on N 19th Street because his line of sight was obstructed by Sergeant Rush’s car. However, with the information from Sergeant Rush, he exited his car with his duty weapon drawn. 

Sergeant Rush’s car door was left open, and Officer Pollard thought Sergeant Rush moved to the rear of his (Sergeant Rush’s) vehicle, presumably to retrieve his “long gun” (patrol rifle). Officer Pollard believed, but was not certain, that Sergeant Rush was driving a lieutenant vehicle, which would not have had a rifle rack in the “cab”. 

Officer Pollard’s “first thought” was to provide Sergeant Rush with cover and he moved to the front passenger side corner of Sergeant Rush’s vehicle. He saw a subject (Juker) with an AK-47 walking towards them on N 19th Street from W Washington Street. Juker was approximately 25 to 30 yards away at that time and walking towards them.

Officer Pollard activated his weapon light (a flashlight mounted to his handgun) and pointed it south on N 19th Street to provide light. He could not recall if he identified himself specifically as “Boise Police”, but that it is standard for him to do so in such instances (training, scenarios, calls that necessitate such announcements), and started issuing commands to “Drop the gun”.

Juker complied by turning and placing the rifle on the hood of a parked car. 

He issued commands for Juker to keep his hands above his head, and Juker complied. Juker complied with all of his commands at this point. 

Officer Pollard had Juker continue walking until he was near the closest parked car on the east side of the street. However, Sergeant Rush instructed him to have Juker move closer to them in order to increase his separation from the gun. 

Officer Pollard explained that his thought process at the time was that Juker was being compliant and

had relinquished the weapon, he assumed that Juker knew that they were police officers, that hopefully being the police would be a sign of help for Juker, given that it was a Crisis call, and was concerned that Juker had access to additional weapons, such as a pistol. Because of those concerns, Officer Pollard wanted to maintain a certain amount of distance between Juker and them.

He directed Juker to the middle of N 19th Street, approximately 10 to 15 yards from both officers and the rifle, had him get down on his knees, and interlace his hands on the top of his head. Juker complied with all of these directions, too.

Once Juker was on his knees, Officer Pollard instructed Juker to not move and asked him if he understood the instructions. Juker mumbled a response that was “gibberish” and longer than a yes-no response. 

Officer Pollard provided an update on the radio the effect of, “2316, Clear the air, we have a subject that approached us with an AK47, he’s dropped the gun, he’s compliant at this time, he’s on his knees, we’re at N 19th and W Washington, or just north of that intersection”. Officer Pollard said, “and I specifically gave out directions, “Do not come in from the south” due to crossfire issues.”

At that time another “blacked out” (no lights on) Ford Explorer was pulling in from the south and parked on the east side of N 19th Street, south of Juker. This was occupied by Officer Fiddler, who got out and moved to the west side of the street and moved north to mitigate the crossfire effect.

When Officer Fiddler neared being perpendicular to Juker on the sidewalk, Juker turned looked towards Officer Fiddler and then “immediately, hands on the ground, popped up, into a full standing position, turns and sprinted directly away from us... in the direction of where he put the gun.” All three officers issued multiple commands for Juker to stop.

Officer Pollard observed Juker run to the first parked car in the line of cars parked on the east side of N 19th Street. Juker paused there and Officer Pollard believed he was looking for the gun. Juker then went to the next car in line and moved behind the first. Officer Pollard lost sight of him. This was where Officer Pollard remembered him to have left the gun when previously ordered to drop it. 

Officer Pollard ran diagonally towards those cars, roughly maintaining the distance of 10 to 15 yards between them. He paused when he lost sight of Juker. Officer Pollard did not see Juker pick up the gun, but next saw him near the intersection of N 19th and W Washington Streets where Juker turned back towards them, moving backwards and “opened fire” at them. Officer Pollard saw multiple muzzle flashes from Juker’s weapon.

Due to the pause, Officer Pollard estimated his distance to be approximately 25 yards from Juker as Juker was entering the intersection. He noted that the muzzle flashes did not appear to be aimed north up N 19th Street, but rather in a northwest direction towards where Officer Fiddler and Sergeant Rush had been. Officer Pollard believed that Juker was shooting directly at them. Officer Pollard remembered seeing three muzzle flashes from Juker’s weapon.

Officer Pollard raised his weapon and “put the dot on the subject in the middle of the street, fired the first round”. He remembered the “recoil coming back” and seeing Juker still standing with the rifle in his hands and Officer Pollard fired a second time. He said that he remembered the dot being higher for the second shot.

Juker was falling to the ground as the gun returned into position from the recoil of the second shot. And had the rifle on his chest. Officer Pollard remembered seeing two more muzzle flashes from Juker's weapon while he was on the ground. Officer Pollard again lost most of his ability to see Juker due to the cars between them. 

Officer Pollard estimated between 20 and 30 shots were fired during the exchange, and noted that he fired two, himself. 

Officer Pollard realized that Officer Sousa had come up to him and Officer Pollard observed that he had a rifle. With Officer Sousa present with him, Officer Pollard intended to provide updated information on the radio. When he keyed his microphone, he saw Juker roll over towards them and fire another round. This round was fired into the "concrete" but towards Sergeant Rush and Officer Fiddler. Officer Sousa then fired his gun. Officer Pollard believed that Officer Sousa fired twice at that point. 

Juker fell back on the ground and appeared "lifeless", but still had the rifle on his chest. Prior to that he had been moving about. 

Officer Pollard then provided an update on the radio regarding Juker being down and needing units for traffic control. It was at this point that he became aware of Sergeant Pietrzak's presence to his left. Sergeant Pietrzak began giving commands and they started handling items such as accounting for the officers on scene and ensuring none were injured, traffic concerns, and requests for a K9 unit and a 40mm to assist in taking Juker into custody.

Officer Pollard utilized a shield to provide cover. They utilized a patrol car to move a team up to Juker and a "life check" was performed and Juker was secured. Officer Pollard was then segregated as part of the CITF protocols and Officer Strodtbeck arrived and acted as his escort officer.

Following this narrative, follow up questions were asked of Officer Pollard.

Verbal Commands Given: "Stop" when Juker turned to run. He did not remember other specifics. He yelled these commands and believed that they were clear.

Officers On Scene: Officers that Officer Pollard was aware of at the scene during the shooting and/or leading up to Juker being secured, consisted of the following:

- Sergeants Rush, Pieterzak, and Miller.
- Officers Pollard, Fiddler, Sousa, Rogers, Lee, Howarth, Viens, Stace, Strodtbeck, and Mackie Barber and her trainee.
- Lieutenant Butler

Crimes: Crimes that Juker had committed, was believed to have committed, or was suspected of committing prior to deadly force being utilized against him consisted of:

Prior to his arrival on scene:

Discharge of Firearm Within City Limits

Possibly Discharge of a Firearm into an Occupied Dwelling

Use of a Firearm in the Commission of a Crime

On Scene Conduct:

Resisting by failing to comply with commands to stop

Attempted Homicide

Aggravated Assault

Officer Pollard was unaware of prior crimes of this nature in the area prior to responding to the call. Additionally, he did not know Juker prior to the call. It should be noted that he stated that he still did not know who the suspect was at the time of the interview.

Feelings of Being Threatened: Officer Pollard noted the following actions taken by Juker that made him feel threatened:

Juker had been firing rounds in the city

Juker approached them with rifle in a "low-ready" position

Juker fleeing in order to retrieve the rifle

Juker retrieving the rifle and firing it

Thoughts Regarding His Life, the Lives of Officers, and/or Civilians Being in Danger: 

While en route to the call, Officer Pollard was concerned for the lives of civilians in the area and for the life of Officer Lee.

When Juker retrieved the rifle and fired it towards Sergeant Rush and Officer Fiddler, that gave Officer Pollard concern for their lives.

Officer Pollard had been in the middle of the street, and while not directly aimed at him, Juker's gunfire was towards the north where he also was.

Shots Fired and Location Fired From: Officer Pollard stated that he fired two rounds during the incident and fired them while in the middle of N 19th Street, between W Washington and Resseguie (Ellis). 

Alterations to Crime Scene, Whether Intended or Not: Officer Pollard did not alter the scene.

Lighting Conditions During the Incident: Officer Pollard stated that the area was not well lit. The majority of the lighting was generated by officers' weapon mounted lights, or other light that officers provided. He did not recall a bright street lights, or things of that nature.

Officer Pollard did not believe the lighting conditions affected the incident, either positively or adversely. He felt that Juker must have been able to see him proceed through the intersection of N 19th and W Washington when he was arriving. He felt that Juker had to have identified them as law enforcement officers at that time, and that that was why he had been approaching them. As such, he did not feel that the lighting conditions negatively affected the incident or its outcome.

Even though it was not daylight conditions, Officer Pollard felt he was able to see the weapon clearly and that he was able to clearly see Juker as he was walking up the road towards Sergeant Rush and

him. After his initial approach, Juker was bathed in lighting from law enforcement, so the conditions did not adversely affect the contact from the law enforcement side of the equation, either. #13;

#13;

Weather Conditions During the Incident: The weather conditions at the time of the incident as clear and warm with no other factors. He did not believe weather conditions played a role in the incident.

#13;

#13;

Could the Suspect Have Given Up or Stopped the Incident at Any Time Prior to the Use of Deadly Force: #13;

Juker could have continued to comply with law enforcement directions. He could have remained in the position he had been in while they were awaiting other officers. #13;

#13;

#13;

I asked Officer Pollard additional questions that arose during his responses to that point. #13;

- I asked where the mapping program was taking him to. He explained that the computer generates a route to the call. He had intended to park a block or so away from that location and then get further information. He did not know specifically where the address of the call was. #13;

- Due to the emergency response to the call, he did not obtain any information from the CAD (Computer Aided Dispatch) system, other than it being a Crisis call. #13;

- Juker did not make any statements that Officer Pollard was aware of after the mumbling response he received, and which is documented above. #13;

- Life Check: Examples of a Life Check, as Officer Pollard referred to earlier in the interview include a K9 being used to pull a suspect away from their weapon, and the use of Less Lethal 40mm munitions to prompt a reaction from the suspect that still has access to the weapon before officers approach the subject. In this instance, Officer Pollard heard the deployment of the 40mm, but did not see it. #13;

- Officer Pollard did not have any contact with the suspect once he was in custody. #13;

#13;

Following my additional questions, Mr. Johnson asked some clarifying questions of his own. From these questions, the following information was obtained: #13;

- When Juker first started firing towards Sergeant Rush and Officer Fiddler, Officer Pollard had moved. However, the direction Juker was shooting would have been the area from which Officer Pollard had been giving his command from, prior to moving. #13;

- Officer Pollard does not typically activate his OBV while en route to a call. Rather he activates it when getting out of his car, after his arrival. Due to Sergeant Rush's warning that they were being approached by Juker carrying a "long gun", activating his camera was not his first priority. Drawing his weapon and using both hands for that prevented him from activating his camera initially, and then he became "hyper-focused" on the events that were occurring and did not activate his camera until after the shooting when he realized he was not recording. #13;

- Officer Sousa and he both performed tactical reloads after the initial shooting. It was during this time that Officer Pollard realized his camera was not activated. #13;

- Officer Pollard's camera is supposed to activate when his weapon is drawn from its holster. It is also supposed to activate if a nearby officer unholsters their weapon. Neither of these things activated his camera. However, the two closest officers to him, Sergeant Rush and Officer Sousa, were both utilizing rifles, so their handguns were not drawn. #13;

#13;

I followed up with Officer Pollard after Mr. Johnson finished his questions. In doing so, I learned: #13;

- Officer Pollard's OBV did not work as it was designed to and that this not uncommon.

There have been instances of officers' cameras not activating when they should and of activating

when they should not (for example, rocking against his holstered pistol while sitting in his car).

- The camera system has two modes: “Ready Mode” and “Sleep Mode”. In Ready Mode, the camera, when activated, will record 30 seconds of video prior to activation, with audio starting at the time it of the activation. Officers are ordered to use Sleep Mode when in the station or bathroom to avoid inadvertent recording occurring from automatic activations. 
- Officer Pollard did not know which mode his camera was in at the time of the incident. However, immediately prior to responding to the call, Officer Pollard had been intending to both go to a station and to use the lavatory. As such, it was possible that he had switched his camera to Sleep Mode in anticipation of going into the substation.
- We then took a break while Officer Pollard and Mr. Johnson reviewed Officer Pollard's OBV. After they returned to the conference room, I asked if reviewing the video prompted any memories or brought any items needing clarification to Officer Pollard's attention.
- From reviewing the video, it was determined that it was in Ready Mode at the time of the incident.
- Cars parked on the east side of N 19th Street consisted of two vehicles, Officer Fiddler's vehicle, and a white Jeep (in that order going from north to south). Officer Pollard had positioned himself by Officer Fiddler's vehicle during the shooting, and that was most likely where he fired from.

After discussing those points, we concluded the interview. The recordings should be reviewed for the full and exact details of the interview.

Officer Interview: Sousa, C #995

Interviewers: Detectives Bryant (ACSO), Schofner (BPD), and Miraglia (BPD)

On July 28, 2023, Officer Sousa was interviewed by Ada County Sheriff's Deputy Detective Bryant and Boise Police Detectives Schofner and Miraglia. I reviewed Detective Bryant's report documenting the interview, which included the following:

- Officer Sousa deployed his assigned .223 caliber FN15, short-barrel rifle during the incident.
- His magazines are loaded with 28 rounds.
- Officer Sousa deployed the rifle due to the nature of the call and his belief that he was responding to an active shooter.
- He was wearing a Boise Police uniform with markings identifying him as a law enforcement officer, and he was driving a marked police vehicle.
- Officer Sousa's fears:

- o Juker was possibly having a mental health issue.
- o Juker was firing rounds from his residence.
- o Juker was moving through the neighborhood and shooting placing officers and citizens at risk.

• Officer Sousa believed that Juker could have stopped the incident prior to deadly force being used:

- o Juker had been reported to have been “proned-out” and compliant at one point.;
- ;
- Detective Bryant’s supplemental report and recordings of the interview should be reviewed for more complete details.;

;

Officer Interview: Howarth, J #1061;

Interviewers: Detectives Stoffle (MDP) and M Canfield (BPD);

On July 29, 2023, Officer Howarth was interviewed by Meridian Police Detective Stoffle and Boise Police Detective Canfield. I reviewed Detective Stoffle’s report documenting the interview, which included the following:

• Officer Howarth was wearing a Boise Police uniform with markings identifying him as a law enforcement officer.

• He deployed, but did not discharge, his department issued 9mm Glock 17 pistol.

• Officer Howarth was present while Officer Lee spoke telephonically with Juker. He described Juker as “just having some complications speaking, disclosed to us that he’s drunk and had ingested heroin.”

• During the call, Officer Howarth heard five gunshots, which changed his perspective to believe that Juker was homicidal.

• When Officer Howarth was in the area of N 19th and Resseguie, he heard officers yelling and saw their flashlights moving southbound.

• Officer Howarth believed that multiple rounds went by him as he heard “rounds kind of whizzing near [him]”. He believed that three or four bullets came near him over his head.

• He believed that Juker had committed the following crimes prior to deadly force being used: Unlawful Discharge of a Firearm in City Limits, Shooting into an Occupied Dwelling, Aggravated Assault on Officers, and Resisting and Obstructing [Officers].

• Officer Howarth felt that Juker had numerous times during which he could have ended the incident, to include: complying with officers' directives, dropped the weapon at any point, stayed at his home, and to have left the firearm alone.

•

Detective Stoffle's supplemental report and recordings of the interview should be reviewed for more complete details.

•

Officer Interview: Rogers, D #1050

Interviewers: Detectives Thorndyke (GCPD), Wirshing (BPD), and Krueger (BPD)

On August 1, 2023, Officer Rogers was interviewed by Garden City Police Detective Thorndyke and Boise Police Detectives Wirshing and Krueger. I reviewed Detective Thorndyke's report documenting the interview, which included the following:

• Officer Rogers deployed his department issued 9mm Glock 17 pistol during the incident.

• His magazines were fully loaded with 17 rounds each, with an additional round in the chamber.

• He was wearing a Boise Police uniform with markings identifying him as a law enforcement officer.

• Officer Rogers believed that Unlawful Discharge of a Firearm, Resist & Obstruct Officers, and Aggravated Assault had been committed prior to him utilizing deadly force.

• He thought of his family, his kids, fellow officers, and the neighborhood when Juker was shooting.

• Officer Rogers believed Juker could have stopped the incident prior to deadly force being used by complying while on his knees or while he was running and told to stop.

•

Detective Thorndyke's supplemental report and recordings of the interview should be reviewed for more complete details.

•

Officer Interview: Fiddler, C #971

Interviewers: Detectives Stoffle (MPD) and Wirshing (BPD)

On August 1, 2023, Officer Fiddler was interviewed by Meridian Police Detective Stoffle and Boise Police Detective Wirshing. I reviewed Detective Stoffle's report documenting the interview, which included the following:

• Officer Fiddler deployed is department issued 9mm Glock 17 pistol during the incident.

• His magazines were fully loaded with 17 rounds each, with an additional round in the chamber.

• He was wearing a Boise Police uniform with markings identifying him as a law

enforcement officer.

• Officer Fiddler identified the following crimes committed by Juker: Discharge of Firearm in City Limits, Aggravated Assault upon Certain Personnel, and possibly Shooting into an Occupied Dwelling.

• Juker running from them caused him concern, those concerns elevated after he retrieved the rifle because it seemed Juker's intentions were more than simply to escape, and he feared for the lives of other officers and he when Juker started shooting. He further felt Juker was intent upon causing harm to officers and/or citizens.

• Officer Fiddler felt that Juker could have remained compliant while on his knees, could have stopped when ordered to do so after he started running, could have stopped after retrieving the rifle, could have stopped and separated himself from the rifle after the shooting started.

Detective Stoffle's report and recordings of the interview should be reviewed for more complete details.

**Officer Interview: Pietrzak, J #753**

**Interviewers: Detectives Thorndyke (GCPD) and Wirshing (BPD) and Officer Hartje**

On August 2, 2023, Sergeant Pietrzak was interviewed by Garden City Police Detective Thorndyke, Boise Police Detective Wirshing, and Boise Police Officer Hartje. I reviewed Detective Thorndyke's report documenting the interview, which included the following:

• Sergeant Pietrzak deployed his department issued 9mm Glock 17 pistol during the incident.

• His magazines were fully loaded with 17 rounds each, with an additional round in the chamber.

• He was wearing a Boise Police uniform with markings identifying him as a law enforcement officer.

• Sergeant Pietrzak felt threatened during the incident. Juker appeared serious, had a threatening look, and immediately started shooting once retrieving his rifle.

• Sergeant Pietrzak had safety concerns based on his knowledge that the rifle rounds being fired were capable of penetrating walls, vehicles, and most ballistic shields. He was concerned the commotion would draw residents into positions of harm.

• Juker could have prevented the use of deadly force by remaining compliant while on his knees or by complying with orders to stop and could have stopped it when law enforcement started shooting or after being initially shot. Rather, Juker continued fighting until the end.

Detective Thorndyke's supplemental report and recordings of the interview should be reviewed for more complete details.

**Officer Interview: Rush, K #710**

**Interviewers: Detectives Bryant (ACSO), Schofner (BPD), and Miraglia (BPD)**

On August 2, 2023, Sergeant Rush was interviewed by Ada County Sheriff's Deputy Detective Bryant and Boise Police Detectives Schofner and Miraglia. I reviewed Detective Bryant's report documenting the interview, which included the following:

• Sergeant Rush deployed his department issued .223 caliber FN15 patrol rifle.

• The rifle was loaded with department issued ammunition, but he did not know if there were 27 or 28 rounds in loaded in the magazine during the incident.

• He was wearing a Boise police uniform with markings identifying him as a law enforcement officer.

• Sergeant Rush believed Juker had committed Aggravated Assault on Law Enforcement and Unlawful Discharge of a Firearm prior to using deadly force against Juker.

- Sergeant Rush felt threatened due to Juker actively shooting at officers. Additionally, he heard a gunshot that he thought was at him and when parked his vehicle, he thought he would be killed while sitting in the vehicle. Furthermore, he was concerned for the safety of citizens in the area, too. #13;
 - The threat that Juker presented with the rifle was heightened due to the superior firepower in comparison to his 9mm handgun. This prompted him to deploy his patrol rifle. #13;
 - Sergeant Rush believed Juker could have given up multiple times. He felt that Juker was feigning surrender when initially complying by placing the rifle down and getting onto his knees as directed. #13;
 - #13;
- Detective Bryant's supplemental report and recordings of the interview should be reviewed for more complete details. #13;

Conclusion/Disposition:

Summary

Over the course of this investigation, information was obtained from a variety of sources, to include statements by involved officers, statements from witnesses, On Body Video (OBV) recordings produced by involved officers, crime scene evidence and documentation, private party video recordings, dispatch logs and recordings, and medical examiner information. The following is a summary of events based upon available information.

On July 26, 2023, at approximately 2224 hrs, Macey Jaden Juker telephoned Ada County Dispatch via the 9-1-1 emergency line from [REDACTED] Records were later found connecting this number to Juker. Juker reported subjects attempting to force entry into his residence for the purpose of killing him. He reported, "Radiation is melting my brain." His responses to questions were very slow and he told Officer Lee that he was very drunk and had obtained heroin.

Juker informed Dispatch that he was in possession of an assault rifle, and gunshots could be heard over the phone and in open air while he was speaking with Officer Lee.

Juker walked up behind responding officers Sergeant Rush and Officer Pollard in the 600 block of N 19th Street. Juker was armed with a rifle at that time but complied with their directions to put it down and with directions to kneel in the street with his hands on his head.

As additional officers arrived, Juker's compliance ended. He got up, ran to his rifle, retrieved it, and ran away from the officers. As he neared the intersection with W Washington Street, he turned and brought the rifle up towards officers and started shooting.

Officers responded by shooting at Juker, hitting him multiple times. Juker ended up lying on his back in the middle of W Washington Street but failed to comply with continued commands to relinquish the weapon. Instead, he raised and fired additional rounds, prompting additional shots being fired by officers.

Juker was separated from the weapon and taken into custody with the assistance of a 40mm less-lethal munition deployment and a K9 deployment. Once in custody, officers and then emergency medical responders began providing medical assistance. Juker succumbed to his wounds and was pronounced deceased at the scene.

Documentation of the incident and interactions leading up to it include Dispatch recordings and logs, officers' on-body video recordings, private citizen recordings, and witnesses. All information provided consistent corroboration and/or establishment of the above-described events.

Alcohol, marijuana (and/or related substances), and a substance that appeared consistent with heroin were located during the execution of a search warrant for Juker's residence. There was evidence that he had fired the rifle from that location towards the garage of a neighboring residence.

During interviews, officers described Juker's actions causing them to fear for their own safety, the safety of other officers, and/or the safety of citizens/residents in the area. All of the officers described multiple avenues Juker could have taken to avoid and/or stop the use of deadly force against him, but chose not to.

Abbreviated timeline:

- 2224 hrs: Juker contacted Ada County Dispatch.
- 2240 hrs: Officer Lee reported hearing shots fired over the phone and in open air
- 2245 hrs: (Approx) Juker walked up to Sergeant Rush and Officer Pollard initiating their contact with him. He is compliant, disarms himself, and is detained on his knees.
- 224737 hrs: Juker gets up and runs, retrieving his rifle.
- 224747 hrs: Juker's first shot / Officer Fiddler almost simultaneously shoots
- 224824 hrs: Juker is supine in the street and shoots three more times.
- 224827 hrs: Final shot of the incident is fired.
- 231149 hrs: EMS pronounces Juker deceased at the scene.

Multiple residences and vehicles were struck by projectiles during the incident. However,

there were no reported or known injuries to officers or citizens.

A final report from the Ada County Coroner's Office is still pending. Therefore, Juker's toxicology results are not yet known.

Disposition:

This report is being routed to the Ada County Prosecutor's Office for review and final disposition.

Related Reports: Ada County Coroner #230727-208

Initial Assignment:

On July 26, 2023, at approximately 2305 hrs, while at home, I was notified by Detective Sergeant Domeny that Boise Police Department had been involved in an Officer Involved Shooting in the area of [REDACTED] N 20th Street, in Boise. The shooting resulted in the death of a subject identified as Macey Jaden Juker ([REDACTED]). No officers or civilians had been injured. Garden City Police Department was to be the Lead Agency for the Critical Incident Task Force and I was designated as the Lead Investigator.

Investigation Summary

Over the course of this investigation, information was obtained from a variety of sources, to include statements by involved officers, statements from witnesses, On Body Video (OBV) recordings produced by involved officers, crime scene evidence and documentation, private party video recordings, dispatch logs and recordings, and medical examiner information. The following is a summary of events based upon available information.

On July 26, 2023, at approximately 2224 hrs, Macey Jaden Juker telephoned Ada County Dispatch via the 9-1-1 emergency line from [REDACTED]. Records were later found connecting this number to Juker. Juker reported subjects attempting to force entry into his residence for the purpose of killing him. He reported, "Radiation is melting my brain." His responses to questions were very slow and he told Officer Lee that he was very drunk and had obtained heroin.

Juker informed Dispatch that he was in possession of an assault rifle, and gunshots could be heard over the phone and in open air while he was speaking with Officer Lee.

Juker walked up behind responding officers Sergeant Rush and Officer Pollard in the 600 block of N 19th Street. Juker was armed with a rifle at that time but complied with their directions to put it down and with directions to kneel in the street with his hands on his head.

As additional officers arrived, Juker's compliance ended. He got up, ran to his rifle, retrieved it, and ran away from the officers. As he neared the intersection with W Washington Street, he turned and brought the rifle up towards officers and started shooting.

Officers responded by shooting at Juker, hitting him multiple times. Juker ended up lying on his back in the middle of W Washington Street but failed to comply with continued commands to relinquish the weapon. Instead, he raised and fired additional rounds, prompting additional shots being fired by officers.

Juker was separated from the weapon and taken into custody with the assistance of a 40mm less-lethal munition deployment and a K9 deployment. Once in custody, officers and then emergency medical responders began providing medical assistance. Juker succumbed to his wounds and was pronounced deceased at the scene.

Documentation of the incident and interactions leading up to it include Dispatch recordings and logs, officers' on-body video

recordings, private citizen recordings, and witnesses. All information provided consistent corroboration and/or establishment of the above-described events.

Alcohol, marijuana (and/or related substances), and a substance that appeared consistent with heroin were located during the execution of a search warrant for Juker's residence. There was evidence that he had fired the rifle from that location towards the garage of a neighboring residence.

During interviews, officers described Juker's actions causing them to fear for their own safety, the safety of other officers, and/or the safety of citizens/residents in the area. All of the officers described multiple avenues Juker could have taken to avoid and/or stop the use of deadly force against him but chose not to.

Abbreviated timeline:

2224 hrs: Juker contacted Ada County Dispatch.

2240 hrs Officer Lee reported hearing shots fired over the phone and in open air

2245 hrs: (Approx) Juker walked up to Sergeant Rush and Officer Pollard initiating their contact with him. He is compliant, disarms himself, and is detained on his knees.

224737 hrs: Juker gets up and runs, retrieving his rifle.

224747 hrs: Juker's first shot / Officer Fiddler almost simultaneously shoots

224824 hrs: Juker is supine in the street and shoots three more times.

224827 hrs: Final shot of the incident is fired.

231149 hrs: EMS pronounces Juker deceased at the scene.

Multiple residences and vehicles were struck by projectiles during the incident. However, there were no reported or known injuries to officers or citizens.

Investigation

Scene Debrief:

I initially responded to the scene. I entered the scene from the area of N 19th and Ressigie Streets. I was provided with a briefing with preliminary information regarding the incident. I learned that the following officers were identified as having discharged their weapons during the incident:

- Officer C Fiddler
- Sergeant J Pietrzak
- Officer R Pollard
- Officer D Rogers
- Sergeant K Rush
- Officer Sousa

Sergeant Rush and Officer Sousa had deployed patrol rifles. Sergeant Pietrzak and Officers Fiddler, Pollard, and Rogers had utilized pistols.

Officers C Johnson and Officer AJ Viens utilized force, 40mm direct impact rounds and K9 deployment, respectively, to take Juker into custody after the shooting.

Officer Howarth was identified as being believed to have been a victim of Juker shooting at him, but he had not discharged his weapon.

Officer J Lee had been the primary officer on the initial call and had been in telephonic contact with Juker prior to the shooting with officers.

Officer Lee had been dispatched to a report of subjects at the door of [REDACTED]. The call type was modified to a Crisis call based upon the information Juker was providing to Ada County Dispatch and directly to Officer Lee when Officer Lee spoke telephonically with him.

Officer Lee had staged near N 16th and State Streets to contact Juker telephonically. During that conversation, Juker told him that he (Juker) was drunk and had drugs. Officer Lee heard what sounded to be multiple gun shots. He was able to hear these shots directly and over the telephone. He had requested additional units to the area for shots being actively fired.

It was reported that Juker had approached Officer Pollard and Sergeant Rush on foot on N 19th Street. Juker was in possession of an AK47 style rifle as he approached, was addressed by officers, and was initially compliant with their directions. Juker set the rifle on the trunk or bumper of a parked car, moved away from it, and got onto his knees in the middle of the street at the officers' direction. Juker then got up and ran southbound, retrieved the rifle, and started shooting rounds. Officers then shot Juker.

Command Post:

After being briefed at the scene, I responded to the Command Post, which had been established at the Garden City Police Department. The following initial assignments were made:

- 1st Contact Lead: Ada County Detective Buie
- Crime Scene Lead: Garden City Sergeant O’Gorman

First Contact

First Contact: Detective Buie

Ada County Detective Buie coordinated efforts of the 1st Contact Team to collect evidence from the involved officers. Once collected, the evidence was brought to the Garden City Police Department, where it was processed and then turned over to me to book into Evidence. Evidence that was collected from the officers consisted of duty weapons and ammunition.

Evidence from First Contact:

Sergeant Pietrzak: Collected by Ada County Detective Trejo

1. Glock Model 17 pistol SN: BTNE829
 - a. Round removed from chamber of item 1
 - b. Magazine from item 1 containing 17 rounds
2. 2 Magazines
 - a. 17 rounds
 - b. 12 rounds

Sergeant Rush: Collected by Ada County Detective Trejo

1. FN15 rifle SN: FNGR000519
 - a. Magazine from item 1 with 23 rounds
 - b. Round from the chamber of item 1

Officer Fiddler: Collected by Ada County Detective Trejo

1. Glock Model 17 pistol SN: BTNE835
 - a. Round from the chamber of item 1
 - b. Magazine from item 1 with 17 rounds
2. 2 magazines
 - a. 4 rounds
 - b. 17 rounds

Officer Pollard: Collected by Meridian Police Detective Wear

1. Glock Model 17 pistol SN: BWRH864
 - a. Round from the chamber of item 1
 - b. Magazine from item 1 with 17 rounds
2. 2 magazines
 - a. 15 rounds
 - b. 17 rounds

Officer Sousa: Collected by Ada County Detective Trejo

1. FN15 rifle SN: FNA020104
 - a. Magazine from item 1 with 24 rounds
 - b. Round from chamber of item 1

Officer Rogers: Collected by Ada County Detective Trejo

- 1. Glock Model 17 pistol SN: BWRH880
 - a. Magazine from item 1 with 11 rounds
 - b. Round from chamber of item 1
- 2. 2 magazines
 - a. 17 rounds
 - b. 17 rounds

Glock 17 pistols fire 9mm Luger ammunition. The magazines associated with these weapons have a capacity of 17 rounds. The FN15 rifles fire .223 caliber ammunition. The magazines that were associated with these particular weapons have a capacity of 30 rounds. However, neither Sergeant Rush nor Officer Sousa load their rifle magazines to capacity, but rather to 28 rounds. Additionally, Sergeant Rush noted that it was possible his magazine might have been short another round from clearing the weapon after a previous incident in which he deployed it and/or that he might have dropped a couple of rounds from the magazine while on scene.

Based upon this information, each officer discharged rounds as follows:

- | | | | |
|----------------------|-----------|------|---------------------|
| 1. Sergeant Pietrzak | 5 rounds | 9mm | |
| 2. Sergeant Rush | 4 rounds | .223 | (with above caveat) |
| 3. Officer Fiddler | 13 rounds | 9mm | |
| 4. Officer Pollard | 2 rounds | 9mm | |
| 5. Officer Sousa | 3 rounds | .223 | |
| 6. Officer Rogers | 6 rounds | 9mm | |

This accounted for 26 rounds of 9mm being fired and approximately 7 rounds of .223 being fired by officers.

The officers were inspected for any injury, damage to their uniforms, or biological transfer. No further evidence was collected.

See supplemental reports from Ada County Detectives Buie and Trejo, and Meridian Detective Wear for further details.

Crime Scenes

Crime Scenes: Sergeants O’Gorman and Dozier

This event incorporated two separate crime scenes: The area of N 19th and W Washington Streets where Juker and law enforcement officers exchanged gunfire and Juker’s residence, an apartment over the garage of [REDACTED]. The scope of the scene around N 19th and W Washington Streets included multiple buildings and vehicles being struck by projectiles. As such processing these two scenes took a substantial amount of time and personnel. Garden City Police Sergeant O’Gorman was the Crime Scene Lead initially

and later relieved by Garden City Police Sergeant Dozier. Crime Scene Investigators (CSIs) from Garden City, Ada County, and Meridian, and other personnel, worked to process the scenes.

Scene 1: N 19th and W Washington Streets:

The primary crime scene consisted of the area around the intersection of N 19th Street and W Washington Street and extending north through the 600 block of N 19th Street. Prior to the Crime Scene Investigators (CSIs) arriving on scene, casings had been marked with tented cards and a 'privacy screen' consisting of a white sheet propped by traffic cones had been created to shield the Juker's body from public view.

While processing the scene, the following damage was identified:

- [REDACTED] 3 bullet holes upper part of residence facing N 19th Street

On July 29, 2023, Sergeant Dozier further evaluated the residence at [REDACTED] and collected/documented evidence/damaged there. This was due to the homeowners being unavailable the night of the incident.

- [REDACTED] 5 bullet holes 3 facing W Washington, 2 facing N 19th Street
- [REDACTED] 1 bullet hole upper right corner of front of house facing W Washington
- [REDACTED] 1 projectile hit
- White Jeep [REDACTED] 2 bullet holes passenger front quarter panel & rear passenger tire flat
- White Nissan Altima [REDACTED] 4 bullet holes to driver side of vehicle
- White Ford F150 [REDACTED] 2 bullet holes to driver side back door

During the processing of this scene 23 expended 9mm casings, 1 unspent 9mm cartridge, and five .223 caliber casings, were collected. These items were consistent with, and therefore attributed to, law enforcement.

Also collected was the Izhmash Saiga rifle used by Juker during the incident. This weapon was chambered in 7.62x39. There were 12 rounds of Tulammo ammunition in the magazine and 1 round in the chamber. Seven (7) Tulammo 7.62x39 casings were located at the scene. The capacity of the magazine has not been established.

Ada County Sheriff's Deputy Bienz responded to the scene and used a 3D Scanner to create a digital image of the scene with measurable points at the time of the scan. Deputy Bienz booked a thumb drive containing that data into Evidence at the Ada County Sheriff's Office. I was provided with a copy of that data, which I transferred to the case file on the Garden City Police Department server.

Ada County Sheriff's Deputy Detective Bryant responded to the scene and used a drone to take aerial photographs and video of the scene. Detective Bryant attached the image files to his report and transferred video files to Evidence.com. I was provided with a copy of the image and video files, which I transferred to the case file on the Garden City Police Department server.

On July 28, 2023, Garden City patrol officers were working traffic crash investigation at Chinden Blvd and Kent Streets. While at that location, [REDACTED] contacted officers and advised that he was involved in the Boise Police Department involved shooting. He reported his vehicle had been struck by gunfire during the incident and that it had been processed at that time. However, he found another projectile in his vehicle. He turned the projectile over to Sergeant Lythgoe, who booked it into Evidence.

Scene 2: [REDACTED] N 20th Street:

Detective Rosen applied for, and was granted, a search warrant authorizing the search of [REDACTED], to include the residence, outbuildings, sheds, etc. Detective Sergeant Dozier oversaw the execution of that warrant.

Suspected bullet strikes at neighboring residence [REDACTED]: ground, concrete, 2 holes in garbage can, garage damage likely from concrete debris.

No items of evidentiary value were identified in the primary residence, and it was learned that Juker no longer lived in the residential structure, but in the loft apartment over the garage. Numerous items of evidentiary value and/or investigative interest were identified. Related supplemental reports, property invoices, and photographs should be reviewed for more complete details, but identified items included the following:

- Book about sobriety entryway
- Door to garage area sealed with spray foam
- Empty Coors cans in boxes and strewn about / open bottle of Rum / cellphone
- Empty bullet casings on the balcony
- Empty bullet casings on the driveway
- A large hole in ceiling above balcony door that appeared to be from a golf club
- AK47 magazine w/live rounds consistent with casings found on balcony and driveway
- Possible controlled substances (black tar-like substance) in bathroom in drawer
- Multiple handguns of differing types, makes, and calibers.

Casings and ammunition at the residence were consistent with ammunition and casings from Juker's rifle at the primary crime scene.

Controlled Substance Analysis:

Meridian Police Department investigators submitted items suspected of being controlled substances that were collected from Juker's residence were submitted to the Idaho State Police Forensic Services for analysis. No controlled substances were detected/identified during analysis of the black tar-like substance. Tetrahydrocannabinol (THC) and Marijuana and/or resins were identified from other items collected.

Firearms Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF) Trace:

Information from all firearms collected from Juker and his residence was submitted to the Federal Bureau of Alcohol, Tobacco, Firearms, and Explosives (ATF/ATFE) for purchase trace information. None of the firearms were reported as stolen, nor did purchase information suggest that any of the guns were obtained illegally.

Canvas Information

Boise Police Officers conducted a canvas of the area around the shooting to ensure no one needed medical attention, to start to identify damage, to identify witnesses, and to start to identify potential private video surveillance that might have captured relevant activity. These efforts were followed up by CITF investigators. Supplemental reports and associated recordings should be reviewed for a more complete representation of those efforts.

Ada County Sheriff's Deputy Detective C Tucker participated in the canvassing of the neighborhood and also interviewed [REDACTED]

█████ the owner/operator of the white Nissan Altima he parked in front of 1821 W Washington Street, during the incident. I reviewed her supplemental report, which included the following information:

- █████ drove into the area, purportedly looking for Uber fares and stopped to see what was going on when he saw lights.
- o Detective Tucker was informed by another officer on scene that █████ follows officers and takes pictures/videos of their activities.
- o █████ told Detective Tucker that he does not intentionally follow the police and that he did not have any photographs or video of the incident.
- o Detective Tucker confirmed this but observed pictures of officers from the afternoon of July 26, 2023.
- █████ heard admonitions to the effect of, "Boise Police, get on the ground!"
- █████ saw a subject turn around and point a rifle at the officers.
- █████ stated that he did not see who was firing during the ensuing exchange of gunfire, since he was climbing out the passenger side of his car and lying on the ground.
- o Note: Video from 1821 W Washington Street that captured the incident contradicts this account. █████ was out of his vehicle prior to the shooting starting and had been in the intersection of N 19th and W Washington when the shooting began.

See Detective Tucker's supplemental report and recording(s) for more complete information regarding her interview of █████

Detective Tucker also spoke with █████, who resides at █████. She documented her conversation with █████ in her supplemental report, which I reviewed. Information obtained from █████ included the following:

- █████ saw a male walking down the middle of the road with a rifle pointed into the air. █████ did not recognize the male.
- o █████ told Idaho State Police Detective Eller that Juker was walking with a "type of bravado."
- He observed a white car enter the area and park (likely █████ and an unmarked police vehicle pull through the intersection and then turned its headlights on (likely Officer Fiddler).
- █████ saw multiple law enforcement officers in the area, and the male subject walking back up the street with an officer armed with a handgun pursuing him.
- The subject turned towards the officer, and he then heard gunfire, which he believed originated from both the subject and the police.
- █████ described Juker's handling of the rifle as "cavalier" and the he was haphazard in the way he whipped it around during the shooting.

See Detectives Tucker's and Eller's supplements and recordings for more complete information regarding their interviews with █████

Idaho State Police (ISP) detectives spoke with numerous residents in the area as part of the canvas. The majority of the information from those contacts was comprised of hearing gunshots, often perceived as fireworks. Some heard and saw police presence, but statements did not provide additional information that obtained and referred to elsewhere in this report.

As a part of the canvas, investigators checked for the existence of security camera systems that might have captured any portion of the incident. The majority of camera systems found did not capture the incident. However, investigators learned of a camera system at 1821 W Washington Street, that captured a significant portion of the incident. This video was turned over to Sergeant Dozier, and later provided to me. Its content is described later in this report.

█████, a resident at █████, later provided ISP Detective Szeles a recording from her Ring Camera system. This provided some audio of the initial contact officers had with Juker. It did not provide visual coverage of the incident.

Suspect Information

As noted, the decedent in this investigation was identified as Macey Jaden Juker, born [REDACTED]. Using databases available to law enforcement and/or the general public, I learned the following historical information.

Juker has a criminal record that includes the following offenses: Use of Tobacco by a Minor; Possession, Purchase, or Consumption of Alcohol Under 21 years of age; and Public Intoxication. There was no record of prior CRISIS calls for service with law enforcement.

The telephone number [REDACTED] shows to be a mobile phone number associated with Juker.

On July 25, 2023, at 1004 hrs, Juker's [REDACTED], contacted dispatch to report that Juker was having alcohol related seizures. [REDACTED] was not on scene but reported Juker was in his residence above the garage at [REDACTED]. Emergency services (no law enforcement) responded and found the residence was secured. From call logs, it does not appear contact was made with Juker.

Autopsy

Autopsy: Juker, Macey J

Ada County Coroner Report #: 230727-208

On July 27, 2023, the autopsy was performed on Juker at the Ada County Coroner's Office, 5550 W Morris Hill Road, in Boise. During the autopsy, staff took photographs and collected items. The following items were collected and transferred to me.

1. Right sock
2. Left sock
3. Projectile from left back
4. Projectile from left buttocks
5. Projectile from left shoulder
6. Projectile from head
7. Projectile from right abdomen
8. Fragments from left chest
9. Fragment from left lateral chest
10. Fragment from right pectoralis
11. Fragments from head
12. Projectile from stomach
13. Projectile from spine
14. Projectile from deep left back
15. Fragment from peritoneum
16. Fragment from right chest

- 17. GSR kit
- 18. Right Handbag
- 19. Left Handbag
- 20. Body bag lock 069343

I transported these items to the Garden City Police Department and booked them into Evidence.

Video Evidence

On Body Video Camera Review:

Sergeants Pietrzak and Rush and Officers Fiddler, Pollard, Rogers, Sousa, and Howarth had On Body Video (OBV) cameras on them and had video recordings related to the incident. The actual videos should be reviewed for the full available information contained within them.

Officer Fiddler (Axon Body3 X60A44155):

Duration: Eleven minutes, twelve seconds (11:12)
Time Stamp – Initial: 2023-07-26 22:46:54 -0600
Time Stamp – Final: 2023-07-26 22:47:00 -600

Officer Fiddler’s OBV is activated while he was in the space between the open driver’s door and the driver’s seat of his vehicle. He and his vehicle are facing northbound, and lights are seen shining in his direction. Officer Fiddler moves across the street and the audio initiates while he is doing so (approximately 25 seconds into the video. While crossing the street, Juker can be seen kneeling in the street, facing north, with his hands atop his head. Officer Fiddler’s handgun can be seen directed in Juker’s general direction and he activates the weapon mounted light.

As Officer Fiddler moves north on the west side of the street, Juker turns and looks back in Officer Fiddler’s direction, and Officer Fiddler moves to the driver’s side A-pillar of a car parked on the street. Juker looks again towards Office Fiddler, who appears to be positioned at Juker’s ’7 o’clock. He looks back towards the officers to his north for a moment, and then starts standing up (00:44).

Juker runs southbound, with Officer Fiddler paralleling him. Juker can be seen reaching the rear of the sedan where the rifle was (00:48 / 22:47:41). Juker continues southbound, but on the sidewalk past the passenger side of Officer Fiddler’s vehicle. The light from Officer Fiddler’s weapon light illuminates Juker and the rifle is visible (00:51 / 22:47:46). Juker, now past the white Jeep, turns counterclockwise, places his left hand on the rifle’s stock and starts raising the weapon towards the pursuing officers. Officer Fiddler starts shooting (00:53 / 24:47:47) and moves back the cover of his vehicle. While doing so, muzzle flashes can be seen from Juker’s weapon.

Officer Fiddler’s vehicle blocks his camera’s view for the remainder of the shooting. Officer Fiddler appears to fire thirteen (13) times during the incident. There is an additional flash that appears like he fired another round, however, his weapon did not move, suggesting that it was the muzzle flash of another gun reflecting off of the gun smoke in front of Officer Fiddler’s weapon. Officer Fiddler’s final shot occurs at 22:48:28 (01:34)

An unknown/identified vehicle travels north on N 19th Street from the area of State Street towards the officers. Several officers can be heard telling the driver to stop, but the vehicle turns east onto W Washington Street and drives out of the area. The car drove past/around Juker, who was lying in the middle of W Washington Street.

Officer Fiddler was part of the team of officers who secured Juker. Announcements could be heard that the 40mm less-lethal launcher was going to be deployed. A single shot was fired and appeared to strike one of Juker's legs.

K9 was then deployed to drag Juker away from the rifle towards officers. Juker was secured in handcuffs, and officers began retrieving medical kits and attempting to render aid to Juker and notified medical units that the scene was safe for them to enter.

Juker did not react to either the impact munition strike or being bitten and dragged by the K9.

Officer Howarth: (Axon Body 3 X60A4638A):

Duration: Thirty-eight minutes, forty-three seconds (38:43)

Time Stamp – Initial: 2023-07-26 22:45:07 -0600

Time Stamp – Final: 2023-07-26 23:18:48 -0600

Officer Howarth's video starts with him on foot. He goes to a patrol vehicle and moves it into the intersection of 21st Street / Ellis. He and other officers start running down Ellis. His audio activates twenty-nine (29) seconds into the video (22:45:36). At the end of the block, they come to additional patrol vehicles with their lights activated.

While running down another block, yelling and then gunfire can be heard (02:40 / 22:47:48). Officer Howarth runs to, and crouches behind, a tree (02:43 / 22:47:52). He then gets up and starts running in the direction of the preceding gunfire, after approximately ten (10) seconds and during the secondary volleys of gunfire.

Sergeant Pietrzak (Axon Body 3 X60A43896)

Duration: Twelve minutes, twenty-four seconds (12:24)

Time Stamp – Initial: 2023-07-26 22:46:35 -0600

Time Stamp – Final: 2023-07-26 22:58:51 -0600

Sergeant Pietrzak's video begins with him walking south to Sergeant Rush's position. Juker can be seen further south, on his knees, facing north. Lights from another vehicle (Officer Fiddler's) are shining north from behind Juker. Sergeant Pietrzak uses a handheld flashlight, better illuminating Juker. Officer Fiddler's lights then get turned off.

Sergeant Rush updates Sergeant Pietrzak that Juker had a "long gun", that had been set on the sedan behind him (Juker). Sergeant Rush further advises that he heard gunfire as he (Sgt Rush) was coming into the area. While they are talking, Juker gets up and turns counterclockwise to start running south on 19th Street (01:02 / 22:47:37).

Sergeants Pietrzak and Rush, and an officer to their left (Officer Pollard) begin pursuing Juker while issuing commands including "Don't!", "Stop!", and "Stop now! Police!" Gunfire then ensues. Due to Sergeant Pietrzak's movements, I was unable to discern in this video who was shooting, or from where.

Sergeant Pietrzak continued moving south while moving to the sidewalk and houses on the east side of the street. He moves close to the southwest corner of the southernmost residence on the block [REDACTED]. From this vantage point, Juker is visible on the ground in the street on W Washington Street. Behind him is a white car and a residential structure. Sergeant Pietrzak continued issuing commands for him to "drop the gun!"

During the following seconds, Sergeant Pietrzak discharges his weapon in the direction of Juker, and other gun shots can be heard as well. A flash occurs to his right that would appear to be from another officer discharging their weapon.

One minute, fifty seconds into the recording (01:50 / 22:48:24), the muzzle flash is visible from Juker's rifle, followed by, what appears to be, the fired round deflecting off the pavement. One second later this is repeated, and Sergeant Pietrzak fires his weapon at Juker, again. Another second after the second round, Juker's rifle is fired again in the same manner. These shots taken by Juker appear to have all occurred while he was on his back in the street. After the third shot from Juker's rifle, Sergeant Pietrzak continues to issue commands for him to "Drop the gun!", but there is no further movement from Juker. The final shot was fired at 22:48:27.

Sergeant Pietrzak calls for a K9, and officers can be heard beginning to check themselves to ensure no officers.

A car can be seen traveling north on N 19th Street (03:05 / 22:49:41). Upon reaching W Washington, the car turns to the east and drives past Juker to the south of him.

Sergeant Pietrzak's video continues to record all the way through Juker being secured, though he was not directly involved in that process. Once Juker was secured, Sergeant Pietrzak contacted a male lying in the lawn of 1821 W Washington Street (10:35 / 22:57:11). This subject was identified as [REDACTED].

[REDACTED] identified himself as possessing the white car parked on W Washington Street to the south of where Juker was lying. [REDACTED] stated that he is an Uber driver who was in the area. He stopped and saw the man with the gun. He talked about obeying officers orders during the incident, but did not really speak to the actions of Juker or the officers at this point.

Another officer approaches, and Sergeant Pietrzak turns [REDACTED] identification to that officer and starts to sequester himself and ends the recording.

Officer Pollard (Axon Body 3 X60A2462S)

Duration: Seven minutes, one second (07:01)

Time Stamp – Initial: 2023-07-26 22:49:04 -0600

Time Stamp – Final: 2023-07-26 22:56:00 -0600

Officer Pollard's camera is activated after the shooting has ended. His video does show that he swapped the magazine in his gun with one of his spares.

Officer Rogers (Axon Body 3 X60A4331J)

Duration: Eleven minutes, twelve seconds (11:12)

Time Stamp – Initial: 2023-07-26 22:48:15 -0600

Time Stamp – Final: 2023-07-26 22:58:23 -0600

Officer Rogers' camera is activated while he is on foot, north of W Washington Street, on the west side of N 19th Street. Sergeant Pietrzak is across the street. Officer Rogers' camera is obstructed by a tree, but Juker is in the street on W Washington, and commands are being given for him to drop his gun. Officer Rogers' gun appears to be fired once before the shooting ends.

Sergeant Rush (Axon Body 3 X60A42846)

Duration: Twelve minutes, forty-three seconds (12:24)

Time Stamp – Initial: 2023-07-26 22:45:22 -0600

Time Stamp – Final: 2023-07-26 22:56:38 -0600

Sergeant Rush's camera starts as he is retrieving his rifle from the backseat of his vehicle. Commands to "drop the gun" and "get your hands above your head" can be heard as Sergeant Rush charges the rifle, 'clears the air' on the radio, and advises that they are in contact with a subject possessing a "long gun". Juker can be seen complying with these directives and walking northbound on N 19th Street with his hands raised.

Juker is instructed to get onto his knees, and he complies. Sergeant Pietrzak arrives, and Sergeant Rush briefs him. While this is occurring, Sergeant Rush's hand is blocking the view of the camera. At 22:47:37 Sergeants Rush and Pietrzak can be heard reacting to Juker's movements (as established by other OBV).

Sergeant Rush moves south along the west curb of N 19th Street. Commands to stop can be heard and gunshots can be heard while Sergeant Rush is moving south. Gun fire continues to be heard while Sergeant Rush moves across the street. By the time he reaches the vehicles on the east side of the street, Juker can be seen lying in the road on W Washington Street.

Orders are being given by other officers for Juker to drop the gun. Intermittent gun shots from officers can be heard and Juker is seen moving after one of the shots. Sergeant Rush appears to shoot (03:00 / 22:48:22) four times in total.

At 22:50:48, Sergeant Rush assumes Incident Command and advises as much on the radio. Sergeant Rush's camera was deactivated after Juker was secured.

Officer Sousa (Axon Body 3 X60A4333D)

Duration: Eight minutes, fifty seconds (08:50)

Time Stamp – Initial: 2023-07-26 22:47:12 -0600

Time Stamp – Final: 2023-07-26 22:55:34 -0600

Officer Sousa's camera is activated while he is on foot. He is running while multiple gunshots can be heard and approaches the location of the shooting southbound on N 19th Street. I could not discern where he discharged his rifle, but appeared it was possibly while positioned at the hood of (possibly) Officer Fiddler's vehicle. After the shooting is concluded, he joins Sergeant Pietrzak.

Private Citizen Video:

Boise Police Officers conducted a canvas of the area around the shooting to ensure no one needed medical attention, to start to identify damage, to identify witnesses, and to start to identify potential private video surveillance that might have captured relevant activity. These efforts were followed up by CITF investigators. Supplemental reports and associated recordings should be reviewed for a more complete representation of those efforts.

Video Evidence: 1821 W Washington Street:

Video footage was obtained from 1821 W Washington Street, Northwind Computers. Two camera angles were provided, and from viewing them, it appears the cameras are positioned near the peak of the roof, with one camera (ch5) labeled as "Washington NE" facing predominantly north and the other camera (ch1) labeled as "Washington NW" facing predominantly east. The fields of view cross/overlap over the entrance to the building.

The ch5 video captured a significant portion of the encounter between Juker and law enforcement and has audio. The ch1 did not provide much information of any significance. The following descriptions/timelines relate to that interaction itself:

File Name: N842A8_ch5_main_20230726224224_2023072630000.dav

File Size: 153 MB

Duration: Seventeen minutes, 35 seconds (17:35)

Time Stamp – Initial: 07-26-2023 10:42:23 PM

Time Stamp – Final: 07/26/2023 10:59:58 PM

This video is from a camera positioned near the peak of the room of 1821 W Washington Street, facing north/northwest. The video has a 'watermark' in the lower left corner that reads, "Washington NE", and a date/time stamp in the upper right corner. The timestamp on the screen coincides with the date/times utilized as part of the file name. The video is in black and white, or a night mode, and has sound. From the video, the following is observed:

- 02:20 (duration) / 10:44:43 PM (timestamp): A Boise police SUV proceeds north through the intersection (2:20 / 10:44:43 PM). It does not have emergency lights or sirens activated but, does have normal vehicle lighting (head and taillights). Those are extinguished as it is exiting the intersection. Another SUV that is 'blacked out' (no headlights or taillights). Based off other investigative information, these would have been Officer Pollard and Sergeant Rush, respectively.
- 02:26 / 10:44:49: While they are traveling north, what sounds like a gunshot is heard, and both vehicles proceed to come to a stop.
- 02:41 / 10:45:04: Juker is seen walking in the middle of the road, northbound on N 19th Street, through the intersection. The rifle is being held in his right hand, with the muzzle directed skyward. He appears to be wearing a 'hoodie' type sweatshirt. This was preceded by what sound like verbal statements, but they were undiscernible. As he exits the intersection, both hands a raised, and something else is said. It is possible he was calling out "Friendly!" as he was approaching the stopped officers.

- 02:59 / 10:45:22: A light is activated near the police cars, followed by clearly audible commands, "Drop the gun, now! Drop the gun!" The lighting changes, and Juker is illuminated. He no longer has the gun in his hand and his hands are raised. He follows directions as more commands are given.
- 03:21 / 10:45:44: A white Nissan Altima, determined to be driven by [REDACTED], approaches the intersection, traveling the same path that the officers and Juker had. The vehicle stops prior to entering the intersection, pauses, then turns onto W Washington St and parks in front of 1821 W Washington. [REDACTED] gets out of his car and stands by it.
- 03:40 / 10:46:03: A dark SUV travels north on N 19th, coming up behind the Altima prior to it turning. This is subsequently learned to be Officer Fiddler. Officer Fiddler positions and repositions his vehicle. [REDACTED] can be heard telling someone he would have to call them back, and begins walking out to the intersection.
- 05:17 / 10:47:40: Officers can be heard addressing Juker. See the accounting of OBVs above for the verbiage, but this coincides with Juker starting to get up off his knees (not visible in this video).
- 05:25 / 10:47:48: Juker has retrieved the rifle and is at the sidewalk intersection on the northeast corner of 19th and W Washington, he has turned back towards officers that have been pursuing him and issuing orders. It appears that there is a muzzle flash from his rifle.
- 05:32 / 10:47:55: Juker is on the ground. Numerous shots were fired from officers and from Juker. Juker continued to shoot as he backed into the roadway before going to the ground. When the shooting started, [REDACTED] moved to the passenger side of his car and got on the ground.
- 05:43 / 10:48:06: Juker is on his back with his head to the east and his feet to the west. He raises the rifle from the side or over his head in an arcing motion to bring the barrel westward, possibly towards Officer Rodgers' or west down W Washington Street. Officers have been heard ordering him to drop the gun and identifying themselves verbally as police.
- 06:03 / 10:48:26: Juker discharges the rifle three times and is then motionless. Orders for him to drop the gun continue.
- 07:05 / 10:49:28: A patrol car is driven into the scene from the north on N 19th Street.
- 07:31 / 10:49:54: A car drives north on N 19th St and turns east onto W Washington and drives between [REDACTED] car and Juker. [REDACTED] gets up and starts running to the south and is ordered to the ground by officers.
- 13:21 / 10:55:44: Patrol car starts moving up towards Juker with officers on foot with it.
- 13:59 / 10:56:22: 40mm Less-Lethal is announced and discharged. No response from Juker.
- 14:02 / 10:56:25: K9 on lead makes contact with Juker. No response from Juker. The K9 is used to pull Juker towards the officers and away from the rifle. He is placed in custody and officers begin to address his injuries. Other officers begin checking the area, including contacting [REDACTED]
- 16:15 / 10:58:38: Fire arrives on scene.
- 17:35 / 10:59:58: Recording ends.

File Name: N842A8_ch5_main_20230726230000_20230726233003.dav
File Size: 669 MB
File Duration: Thirty minutes, two seconds (30:02)
Timestamp – Initial: 07-26-2023 11:00:00 PM
Timestamp – Final: 07-26-2023 11:30:00 PM

This video is from the same camera and is a continuation of the previous video.

- 01:18 / 11:01:17: Ambulance / EMS arrive on scene, entering the scene on W Washington St, westbound in the 1800 block.
- 15:51 / 11:15:30: (Approximate) Emergency Service Personnel / Fire have stopped attending to Juker. Collecting gear and departing.
- 18:16 / 11:18:05: [REDACTED] is being walked west along on the sidewalk accompanied by two officers. They cross N 19th Street and leave the view of the camera. They reemerge crossing W Washington Street northbound and continue north on the sidewalk.
- 27:28 / 11:27:27: An officer goes to the car that was used to approach Juker and turns off some of its lights. They appear to be looking for something, as the interior lights get turned on while they are in the car.

Another video, N842A8_ch5_main_20230726224139_20230726224224.dav, precedes the contact with law enforcement. It does not show any activity, but starting at approximately 00:28 / 10:42:06, the sound of multiple apparent gunshots can be heard.

Video Evidence: [REDACTED] – Ring Camera:

The residence at [REDACTED] has a Ring Doorbell camera system. Video recorded by the system was provided to ISP Detective Szeles. I received a copy of the video and reviewed it. The video did not provide any direct visual documentation of the shootings. The audio from the recording did capture audio of orders being given to Juker by Officer Pollard.

Officer Interviews

Officer Interview: Pollard, R #994
Recording: Brumbaugh – Pollard(1)
Brumbaugh – Pollard(2)

On July 31, 2023, at approximately 1005 hrs, Boise Police Detective M Canfield and I met with Officer Pollard and his attorney, Chad Johnson, at Mr. Johnson’s office, located at 1516 W Hays Street, in Boise. My contact with Officer Pollard was audio recorded, and those files were later transferred to the folder associated with this incident on the designated server at the Garden City Police Department.

After being admonished that we were conducting a criminal investigation of the shooting that occurred on N 19th Street, and therefore he was not required to speak with us, Officer Pollard agreed to speak with us. The interview was guided by the CITF prepared questions for involved officers. At the conclusion of the initial interview, Officer Pollard and Mr. Johnson reviewed Officer Pollard’s On Body Video, and then rejoined Detective Canfield and I to finish the interview. *Note: Mr. Johnson was provided with a thumb drive which contained Officer Pollard’s OBV. Mr. Johnson and Officer Pollard were instructed not to make any copies of the video and that I would need the thumb drive returned when they were done with it. Neither Detective Canfield nor I were present for their protected review and discussion of the video.*

Officer Information:

Name: Ryan Pollard
Age: 27 years old
Rank: Officer
Badge Number: 994
Radio Designator: 2316
Vehicle Number: 078
Date of Employment: March 2020
Years of LE Experience: Over three years
Prior LE Experience: None
Assignment: Patrol
Shift and Work Hours: [REDACTED]
Specialized Training and Background: POST Academy, [REDACTED]

Weapon Information:

Make: Glock
Model: 5th Generation Glock G17
Caliber: 9mm
Finish: Blued
Modification: Red Dot sights

Ammunition Used:

Number of rounds in the weapon: 17 + 1 in the chamber
Reason for carrying as such: Full capacity of magazine/weapon
Personal or Department Issued: Department issued ammunition

Uniform / Dress:

Officer Pollard was wearing his department issued uniform, Exterior Ballistic Vest/Carrier and Duty Belt with duty gear distributed across both platforms, and a Boise Police Department hat. The carrier has the Boise Police Department (badge) patch, with “Police” patch below it, name on the opposing side on the front, with “Boise Police” in large writing on the back. The hat has the department badge design on the front of it.

Ante-Incident Events:

The evening had been busy. Officer Pollard was assigned to [REDACTED] – however, the suspect vehicle in a Hit-and-Run report he had taken was located in Ann Morrison Park, so he had been there preceding the call involving Juker. While processing the vehicle, an aggravated assault call came out at Ann Morrison Park, and he responded/assisted with that.

Following the aggravated assault in Ann Morrison Park, Officer Pollard was en route to the Downtown Substation, when the call involving Juker came out.

Officer Pollard was not aware of any similar crimes being previously committed in the area of the call.

Statement Regarding the Incident:

I asked Officer Pollard to walk me through the call from his point of view. He provided information that included the following information. However, the audio recording should be reviewed for the exact details of his statement.

The call came out while he was eastbound on Main Street driving to the substation near 15th Street. He was intending to initiate some report face sheets and use the restroom. As he was approaching the substation, Officer Pollard heard Officer Lee say something to the effect of, "3455, my subject is actively firing rounds," on the radio.

Officer Pollard "immediately" accessed Officer Lee's call, using his Mobile Data Terminal (MDT), saw that it was a Crisis call, assigned himself to the call, mapped the location, and found that he was "a few blocks away" from it. Officer Pollard drove N 15th Street to State Street and then west on State Street.

Officer Pollard was "on scene" prior to receiving any updated information on the radio. Officer Pollard noted that he was lacking information: whether Officer Lee was on scene and actively being fired upon or if Officer Lee was nearby and hearing gunfire. As such, Officer Pollard did not know what was actually occurring.

While approaching N 19th Street, he noticed another unit behind him, and recognized that at least one other officer was with him. This unit was later identified by Officer Pollard as being Sergeant Rush. From the map, it appeared that the call was near the intersection of 20th and W Washington Streets, or "a little north" from that location. Upon reaching N 19th Street, Officer Pollard turned north and turned off his lights, proceeding "blacked out". Sergeant Rush followed suit.

He looked to his left (west) as he passed through the intersection of N 19th and W Washington but did not see or hear anything (his windows were open slightly). He then parked on the west side of N 19th Street, between W Washington and Resseguie, closer to Resseguie. (*Note: Resseguie turns into Ellis Avenue at N Harrison Blvd, so what Officer Pollard was referring to as Resseguie was most likely a reference to Ellis.*) Sergeant Rush parked directly behind him, and they both opened their doors.

As they were getting out of their vehicles, Sergeant Rush said something to the effect of, "He's right behind us. He's got a long gun." Officer Pollard could not see south on N 19th Street because his line of sight was obstructed by Sergeant Rush's car. However, with the information from Sergeant Rush, he exited his car with his duty weapon drawn.

Sergeant Rush's car door was left open, and Officer Pollard thought Sergeant Rush moved to the rear of his (Sergeant Rush's) vehicle, presumably to retrieve his "long gun" (patrol rifle). Officer Pollard believed, but was not certain, that Sergeant Rush was driving a lieutenant vehicle, which would not have had a rifle rack in the "cab".

Officer Pollard's "first thought" was to provide Sergeant Rush with cover and he moved to the front passenger side corner of Sergeant Rush's vehicle. He saw a subject (Juker) with an AK-47 walking towards them on N 19th Street from W Washington Street. Juker was approximately 25 to 30 yards away at that time and walking towards them.

Officer Pollard activated his weapon light (a flashlight mounted to his handgun) and pointed it south on N 19th Street to provide light. He could not recall if he identified himself specifically as "Boise Police", but that it is standard for him to do so in such instances (training, scenarios, calls that necessitate such announcements), and started issuing commands to "Drop the gun".

Juker complied by turning and placing the rifle on the hood of a parked car.

He issued commands for Juker to keep his hands above his head, and Juker complied. Juker complied with all of his commands at this point.

Officer Pollard had Juker continue walking until he was near the closest parked car on the east side of the street. However, Sergeant Rush instructed him to have Juker move closer to them in order to increase his separation from the gun.

Officer Pollard explained that his thought process at the time was that Juker was being compliant and had relinquished the weapon, he assumed that Juker knew that they were police officers, that hopefully being the police would be a sign of help for Juker, given that it was a Crisis call, and was concerned that Juker had access to additional weapons, such as a pistol. Because of those concerns, Officer Pollard wanted to maintain a certain amount of distance between Juker and them.

He directed Juker to the middle of N 19th Street, approximately 10 to 15 yards from both officers and the rifle, had him get down on his knees, and interlace his hands on the top of his head. Juker complied with all of these directions, too.

Once Juker was on his knees, Officer Pollard instructed Juker to not move and asked him if he understood the instructions. Juker mumbled a response that was "gibberish" and longer than a yes-no response.

Officer Pollard provided an update on the radio the effect of, "2316, Clear the air, we have a subject that approached us with an AK47, he's dropped the gun, he's compliant at this time, he's on his knees, we're at N 19th and W Washington, or just north of that

intersection". Officer Pollard said, "and I specifically gave out directions, "Do not come in from the south" due to crossfire issues."

At that time another "blacked out" (no lights on) Ford Explorer was pulling in from the south and parked on the east side of N 19th Street, south of Juker. This was occupied by Officer Fiddler, who got out and moved to the west side of the street and moved north to mitigate the crossfire effect.

When Officer Fiddler neared being perpendicular to Juker on the sidewalk, Juker turned looked towards Officer Fiddler and then "immediately, hands on the ground, popped up, into a full standing position, turns and sprinted directly away from us... in the direction of where he put the gun." All three officers issued multiple commands for Juker to stop.

Officer Pollard observed Juker run to the first parked car in the line of cars parked on the east side of N 19th Street. Juker paused there and Officer Pollard believed he was looking for the gun. Juker then went to the next car in line and moved behind the first. Officer Pollard lost sight of him. This was where Officer Pollard remembered him to have left the gun when previously ordered to drop it.

Officer Pollard ran diagonally towards those cars, roughly maintaining the distance of 10 to 15 yards between them. He paused when he lost sight of Juker. Officer Pollard did not see Juker pick up the gun, but next saw him near the intersection of N 19th and W Washington Streets where Juker turned back towards them, moving backwards and "opened fire" at them. Officer Pollard saw multiple muzzle flashes from Juker's weapon.

Due to the pause, Officer Pollard estimated his distance to be approximately 25 yards from Juker as Juker was entering the intersection. He noted that the muzzle flashes did not appear to be aimed north up N 19th Street, but rather in a northwest direction towards where Officer Fiddler and Sergeant Rush had been. Officer Pollard believed that Juker was shooting directly at them. Officer Pollard remembered seeing three muzzle flashes from Juker's weapon.

Officer Pollard raised his weapon and "put the dot on the subject in the middle of the street, fired the first round". He remembered the "recoil coming back" and seeing Juker still standing with the rifle in his hands and Officer Pollard fired a second time. He said that he remembered the dot being higher for the second shot.

Juker was falling to the ground as the gun returned into position from the recoil of the second shot. And had the rifle on his chest. Officer Pollard remembered seeing two more muzzle flashes from Juker's weapon while he was on the ground. Officer Pollard again lost most of his ability to see Juker due to the cars between them.

Officer Pollard estimated between 20 and 30 shots were fired during the exchange, and noted that he fired two, himself.

Officer Pollard realized that Officer Sousa had come up to him and Officer Pollard observed that he had a rifle. With Officer Sousa present with him, Officer Pollard intended to provide updated information on the radio. When he keyed his microphone, he saw Juker roll over towards them and fire another round. This round was fired into the "concrete" but towards Sergeant Rush and Officer Fiddler. Officer Sousa then fired his gun. Officer Pollard believed that Officer Sousa fired twice at that point.

Juker fell back on the ground and appeared "lifeless", but still had the rifle on his chest. Prior to that he had been moving about.

Officer Pollard then provided an update on the radio regarding Juker being down and needing units for traffic control. It was at this point that he became aware of Sergeant Pietrzak's presence to his left. Sergeant Pietrzak began giving commands and they started handling items such as accounting for the officers on scene and ensuring none were injured, traffic concerns, and requests for a K9 unit and a 40mm to assist in taking Juker into custody.

Officer Pollard utilized a shield to provide cover. They utilized a patrol car to move a team up to Juker and a "life check" was performed and Juker was secured. Officer Pollard was then segregated as part of the CITF protocols and Officer Strodbeck arrived and acted as his escort officer.

Following this narrative, follow up questions were asked of Officer Pollard.

Verbal Commands Given: "Stop" when Juker turned to run. He did not remember other specifics. He yelled these commands and believed that they were clear.

Officers On Scene: Officers that Officer Pollard was aware of at the scene during the shooting and/or leading up to Juker being secured, consisted of the following:

- Sergeants Rush, Pieterzak, and Miller.
- Officers Pollard, Fiddler, Sousa, Rogers, Lee, Howarth, Viens, Stace, Strodbeck, and Mackie Barber and her trainee.
- Lieutenant Butler

Crimes: Crimes that Juker had committed, was believed to have committed, or was suspected of committing prior to deadly force being utilized against him consisted of:

Prior to his arrival on scene:

Discharge of Firearm Within City Limits

Possibly Discharge of a Firearm into an Occupied Dwelling

Use of a Firearm in the Commission of a Crime

On Scene Conduct:

Resisting by failing to comply with commands to stop

Attempted Homicide

Aggravated Assault

Officer Pollard was unaware of prior crimes of this nature in the area prior to responding to the call. Additionally, he did not know Juker prior to the call. It should be noted that he stated that he still did not know who the suspect was at the time of the interview.

Feelings of Being Threatened: Officer Pollard noted the following actions taken by Juker that made him feel threatened:

Juker had been firing rounds in the city

Juker approached them with rifle in a "low-ready" position

Juker fleeing in order to retrieve the rifle

Juker retrieving the rifle and firing it

Thoughts Regarding His Life, the Lives of Officers, and/or Civilians Being in Danger:

While en route to the call, Officer Pollard was concerned for the lives of civilians in the area and for the life of Officer Lee.

When Juker retrieved the rifle and fired it towards Sergeant Rush and Officer Fiddler, that gave Officer Pollard concern for their lives.

Officer Pollard had been in the middle of the street, and while not directly aimed at him, Juker's gunfire was towards the north where he also was.

Shots Fired and Location Fired From: Officer Pollard stated that he fired two rounds during the incident and fired them while in the middle of N 19th Street, between W Washington and Resseguie (Ellis).

Alterations to Crime Scene, Whether Intended or Not: Officer Pollard did not alter the scene.

Lighting Conditions During the Incident: Officer Pollard stated that the area was not well lit. The majority of the lighting was generated by officers' weapon mounted lights, or other light that officers provided. He did not recall a bright street lights, or things of that nature.

Officer Pollard did not believe the lighting conditions affected the incident, either positively or adversely. He felt that Juker must have been able to see him proceed through the intersection of N 19th and W Washington when he was arriving. He felt that Juker had to have identified them as law enforcement officers at that time, and that that was why he had been approaching them. As such, he did not feel that the lighting conditions negatively affected the incident or its outcome.

Even though it was not daylight conditions, Officer Pollard felt he was able to see the weapon clearly and that he was able to clearly see Juker as he was walking up the road towards Sergeant Rush and him. After his initial approach, Juker was bathed in lighting from law enforcement, so the conditions did not adversely affect the contact from the law enforcement side of the equation, either.

Weather Conditions During the Incident: The weather conditions at the time of the incident as clear and warm with no other factors. He did not believe weather conditions played a role in the incident.

Could the Suspect Have Given Up or Stopped the Incident at Any Time Prior to the Use of Deadly Force:

Juker could have continued to comply with law enforcement directions. He could have remained in the position he had been in while they were awaiting other officers.

I asked Officer Pollard additional questions that arose during his responses to that point.

- I asked where the mapping program was taking him to. He explained that the computer generates a route to the call. He had intended to park a block or so away from that location and then get further information. He did not know specifically where the address of the call was.
- Due to the emergency response to the call, he did not obtain any information from the CAD (Computer Aided Dispatch) system, other than it being a Crisis call.
- Juker did not make any statements that Officer Pollard was aware of after the mumbling response he received, and which is documented above.
- Life Check: Examples of a Life Check, as Officer Pollard referred to earlier in the interview include a K9 being used to pull a suspect away from their weapon, and the use of Less Lethal 40mm munitions to prompt a reaction from the suspect that still has access to the weapon before officers approach the subject. In this instance, Officer Pollard heard the deployment of the 40mm, but did not see it.
- Officer Pollard did not have any contact with the suspect once he was in custody.

Following my additional questions, Mr. Johnson asked some clarifying questions of his own. From these questions, the following information was obtained:

- When Juker first started firing towards Sergeant Rush and Officer Fiddler, Officer Pollard had moved. However, the direction Juker was shooting would have been the area from which Officer Pollard had been giving his command from, prior to moving.
- Officer Pollard does not typically activate his OBV while en route to a call. Rather he activates it when getting out of his car, after his arrival. Due to Sergeant Rush's warning that they were being approached by Juker carrying a "long gun", activating his camera was not his first priority. Drawing his weapon and using both hands for that prevented him from activating his camera initially, and then he became "hyper-focused" on the events that were occurring and did not activate his camera until after the shooting when he realized he was not recording.
- Officer Sousa and he both performed tactical reloads after the initial shooting. It was during this time that Officer Pollard realized his camera was not activated.
- Officer Pollard's camera is supposed to activate when his weapon is drawn from its holster. It is also supposed to activate if a nearby officer unholsters their weapon. Neither of these things activated his camera. However, the two closest officers to him, Sergeant Rush and Officer Sousa, were both utilizing rifles, so their handguns were not drawn.

I followed up with Officer Pollard after Mr. Johnson finished his questions. In doing so, I learned:

- Officer Pollard's OBV did not work as it was designed to and that this not uncommon. There have been instances of officers' cameras not activating when they should and of activating when they should not (for example, rocking against his holstered pistol while sitting in his car).
- The camera system has two modes: "Ready Mode" and "Sleep Mode". In Ready Mode, the camera, when activated, will record 30 seconds of video prior to activation, with audio starting at the time it of the activation. Officers are ordered to use Sleep Mode when in the station or bathroom to avoid inadvertent recording occurring from automatic activations.
- Officer Pollard did not know which mode his camera was in at the time of the incident. However, immediately prior to responding to the call, Officer Pollard had been intending to both go to a station and to use the lavatory. As such, it was possible that he had switched his camera to Sleep Mode in anticipation of going into the substation.

We then took a break while Officer Pollard and Mr. Johnson reviewed Officer Pollard's OBV. After they returned to the conference room, I asked if reviewing the video prompted any memories or brought any items needing clarification to Officer Pollard's attention.

- From reviewing the video, it was determined that it was in Ready Mode at the time of the incident.
- Cars parked on the east side of N 19th Street consisted of two vehicles, Officer Fiddler's vehicle, and a white Jeep (in that order going from north to south). Officer Pollard had positioned himself by Officer Fiddler's vehicle during the shooting, and that was most likely where he fired from.

After discussing those points, we concluded the interview. The recordings should be reviewed for the full and exact details of the interview.

Officer Interview: Sousa, C #995

Interviewers: Detectives Bryant (ACSO), Schofner (BPD), and Miraglia (BPD)

On July 28, 2023, Officer Sousa was interviewed by Ada County Sheriff's Deputy Detective Bryant and Boise Police Detectives Schofner and Miraglia. I reviewed Detective Bryant's report documenting the interview, which included the following:

- Officer Sousa deployed his assigned .223 caliber FN15, short-barrel rifle during the incident.

- His magazines are loaded with 28 rounds.
- Officer Sousa deployed the rifle due to the nature of the call and his belief that he was responding to an active shooter.
- He was wearing a Boise Police uniform with markings identifying him as a law enforcement officer, and he was driving a marked police vehicle.
- Officer Sousa's fears:
 - o Juker was possibly having a mental health issue.
 - o Juker was firing rounds from his residence.
 - o Juker was moving through the neighborhood and shooting placing officers and citizens at risk.
- Officer Sousa believed that Juker could have stopped the incident prior to deadly force being used:
 - o Juker had been reported to have been "proned-out" and compliant at one point.

Detective Bryant's supplemental report and recordings of the interview should be reviewed for more complete details.

Officer Interview: Howarth, J #1061

Interviewers: Detectives Stoffle (MDP) and M Canfield (BPD)

On July 29, 2023, Officer Howarth was interviewed by Meridian Police Detective Stoffle and Boise Police Detective Canfield. I reviewed Detective Stoffle's report documenting the interview, which included the following:

- Officer Howarth was wearing a Boise Police uniform with markings identifying him as a law enforcement officer.
- He deployed, but did not discharge, his department issued 9mm Glock 17 pistol.
- Officer Howarth was present while Officer Lee spoke telephonically with Juker. He described Juker as "just having some complications speaking, disclosed to us that he's drunk and had ingested heroin."
- During the call, Officer Howarth heard five gunshots, which changed his perspective to believe that Juker was homicidal.
- When Officer Howarth was in the area of N 19th and Resseguie, he heard officers yelling and saw their flashlights moving southbound.
- Officer Howarth believed that multiple rounds went by him as he heard "rounds kind of whizzing near [him]". He believed that three or four bullets came near him over his head.
- He believed that Juker had committed the following crimes prior to deadly force being used: Unlawful Discharge of a Firearm in City Limits, Shooting into an Occupied Dwelling, Aggravated Assault on Officers, and Resisting and Obstructing [Officers].
- Officer Howarth felt that Juker had numerous times during which he could have ended the incident, to include: complying with officers' directives, dropped the weapon at any point, stayed at his home, and to have left the firearm alone.

Detective Stoffle's supplemental report and recordings of the interview should be reviewed for more complete details.

Officer Interview: Rogers, D #1050

Interviewers: Detectives Thorndyke (GCPD), Wirshing (BPD), and Krueger (BPD)

On August 1, 2023, Officer Rogers was interviewed by Garden City Police Detective Thorndyke and Boise Police Detectives Wirshing and Krueger. I reviewed Detective Thorndyke's report documenting the interview, which included the following:

- Officer Rogers deployed his department issued 9mm Glock 17 pistol during the incident.
- His magazines were fully loaded with 17 rounds each, with an additional round in the chamber.
- He was wearing a Boise Police uniform with markings identifying him as a law enforcement officer.
- Officer Rogers believed that Unlawful Discharge of a Firearm, Resist & Obstruct Officers, and Aggravated Assault had been committed prior to him utilizing deadly force.
- He thought of his family, his kids, fellow officers, and the neighborhood when Juker was shooting.
- Officer Rogers believed Juker could have stopped the incident prior to deadly force being used by complying while on his knees or while he was running and told to stop.

Detective Thorndyke's supplemental report and recordings of the interview should be reviewed for more complete details.

Officer Interview: Fiddler, C #971

Interviewers: Detectives Stoffle (MPD) and Wirshing (BPD)

On August 1, 2023, Officer Fiddler was interviewed by Meridian Police Detective Stoffle and Boise Police Detective Wirshing. I reviewed Detective Stoffle's report documenting the interview, which included the following:

- Officer Fiddler deployed his department issued 9mm Glock 17 pistol during the incident.
- His magazines were fully loaded with 17 rounds each, with an additional round in the chamber.
- He was wearing a Boise Police uniform with markings identifying him as a law enforcement officer.
- Officer Fiddler identified the following crimes committed by Juker: Discharge of Firearm in City Limits, Aggravated Assault upon Certain Personnel, and possibly Shooting into an Occupied Dwelling.
- Juker running from them caused him concern, those concerns elevated after he retrieved the rifle because it seemed Juker's intentions were more than simply to escape, and he feared for the lives of other officers and he when Juker started shooting. He further felt Juker was intent upon causing harm to officers and/or citizens.
- Officer Fiddler felt that Juker could have remained compliant while on his knees, could have stopped when ordered to do so after he started running, could have stopped after retrieving the rifle, could have stopped and separated himself from the rifle after the shooting started.

Detective Stoffle's report and recordings of the interview should be reviewed for more complete details.

Officer Interview: Pietrzak, J #753

Interviewers: Detectives Thorndyke (GCPD) and Wirshing (BPD) and Officer Hartje

On August 2, 2023, Sergeant Pietrzak was interviewed by Garden City Police Detective Thorndyke, Boise Police Detective Wirshing, and Boise Police Officer Hartje. I reviewed Detective Thorndyke's report documenting the interview, which included the following:

- Sergeant Pietrzak deployed his department issued 9mm Glock 17 pistol during the incident.
- His magazines were fully loaded with 17 rounds each, with an additional round in the chamber.
- He was wearing a Boise Police uniform with markings identifying him as a law enforcement officer.
- Sergeant Pietrzak felt threatened during the incident. Juker appeared serious, had a threatening look, and immediately started shooting once retrieving his rifle.
- Sergeant Pietrzak had safety concerns based on his knowledge that the rifle rounds being fired were capable of penetrating walls, vehicles, and most ballistic shields. He was concerned the commotion would draw residents into positions of harm.
- Juker could have prevented the use of deadly force by remaining compliant while on his knees or by complying with orders to stop and could have stopped it when law enforcement started shooting or after being initially shot. Rather, Juker continued fighting until the end.

Detective Thorndyke's supplemental report and recordings of the interview should be reviewed for more complete details.

Officer Interview: Rush, K #710

Interviewers: Detectives Bryant (ACSO), Schofner (BPD), and Miraglia (BPD)

On August 2, 2023, Sergeant Rush was interviewed by Ada County Sheriff's Deputy Detective Bryant and Boise Police Detectives Schofner and Miraglia. I reviewed Detective Bryant's report documenting the interview, which included the following:

- Sergeant Rush deployed his department issued .223 caliber FN15 patrol rifle.
- The rifle was loaded with department issued ammunition, but he did not know if there were 27 or 28 rounds in loaded in the magazine during the incident.
- He was wearing a Boise police uniform with markings identifying him as a law enforcement officer.
- Sergeant Rush believed Juker had committed Aggravated Assault on Law Enforcement and Unlawful Discharge of a Firearm prior to using deadly force against Juker.
- Sergeant Rush felt threatened due to Juker actively shooting at officers. Additionally, he heard a gunshot that he thought was at him and when parked his vehicle, he thought he would be killed while sitting in the vehicle. Furthermore, he was concerned for the safety of citizens in the area, too.
- The threat that Juker presented with the rifle was heightened due to the superior firepower in comparison to his 9mm handgun. This prompted him to deploy his patrol rifle.
- Sergeant Rush believed Juker could have given up multiple times. He felt that Juker was feigning surrender when initially complying by placing the rifle down and getting onto his knees as directed.

Detective Bryant's supplemental report and recordings of the interview should be reviewed for more complete details.

Conclusion/Disposition:

Summary

Over the course of this investigation, information was obtained from a variety of sources, to include statements by involved officers, statements from witnesses, On Body Video (OBV) recordings produced by involved officers, crime scene evidence and documentation, private party video recordings, dispatch logs and recordings, and medical examiner information. The following is a summary of events based upon available information.

On July 26, 2023, at approximately 2224 hrs, Macey Jaden Juker telephoned Ada County Dispatch via the 9-1-1 emergency line from [REDACTED]. Records were later found connecting this number to Juker. Juker reported subjects attempting to force entry into his residence for the purpose of killing him. He reported, "Radiation is melting my brain." His responses to questions were very slow and he told Officer Lee that he was very drunk and had obtained heroin.

Juker informed Dispatch that he was in possession of an assault rifle, and gunshots could be heard over the phone and in open air while he was speaking with Officer Lee.

Juker walked up behind responding officers Sergeant Rush and Officer Pollard in the 600 block of N 19th Street. Juker was armed with a rifle at that time but complied with their directions to put it down and with directions to kneel in the street with his hands on his head.

As additional officers arrived, Juker's compliance ended. He got up, ran to his rifle, retrieved it, and ran away from the officers. As he neared the intersection with W Washington Street, he turned and brought the rifle up towards officers and started shooting.

Officers responded by shooting at Juker, hitting him multiple times. Juker ended up lying on his back in the middle of W Washington Street but failed to comply with continued commands to relinquish the weapon. Instead, he raised and fired additional rounds, prompting additional shots being fired by officers.

Juker was separated from the weapon and taken into custody with the assistance of a 40mm less-lethal munition deployment and a K9 deployment. Once in custody, officers and then emergency medical responders began providing medical assistance. Juker succumbed to his wounds and was pronounced deceased at the scene.

Documentation of the incident and interactions leading up to it include Dispatch recordings and logs, officers' on-body video recordings, private citizen recordings, and witnesses. All information provided consistent corroboration and/or establishment of the above-described events.

Alcohol, marijuana (and/or related substances), and a substance that appeared consistent with heroin were located during the execution of a search warrant for Juker's residence. There was evidence that he had fired the rifle from that location towards the garage of a neighboring residence.

During interviews, officers described Juker's actions causing them to fear for their own safety, the safety of other officers, and/or the safety of citizens/residents in the area. All of the officers described multiple avenues Juker could have taken to avoid and/or stop the use of deadly force against him, but chose not to.

Abbreviated timeline:

- 2224 hrs: Juker contacted Ada County Dispatch.
- 2240 hrs Officer Lee reported hearing shots fired over the phone and in open air
- 2245 hrs: (Approx) Juker walked up to Sergeant Rush and Officer Pollard initiating their contact with him. He is compliant, disarms himself, and is detained on his knees.
- 224737 hrs: Juker gets up and runs, retrieving his rifle.
- 224747 hrs: Juker's first shot / Officer Fiddler almost simultaneously shoots
- 224824 hrs: Juker is supine in the street and shoots three more times.
- 224827 hrs: Final shot of the incident is fired.
- 231149 hrs: EMS pronounces Juker deceased at the scene.

Multiple residences and vehicles were struck by projectiles during the incident. However, there were no reported or known injuries to officers or citizens.

A final report from the Ada County Coroner's Office is still pending. Therefore, Juker's toxicology results are not yet known.

Disposition:

This report is being routed to the Ada County Prosecutor's Office for review and final disposition.

Subject: 23-001433 CITF Officer Interviews

Gentlemen –

Thank you for assisting with the officer interviews for the CITF. I have the lineup below. Representing attorneys are Guy Hallam (TGH) and Chad Johnson (CJ). Interviews will be held at their offices, located at:

Strindberg Schonick Birhc Hallam Harstad Thorne
1516 W Hays St
Boise, ID
208-336-1788

Boise will have OBV video, as will we.

Monday 1000 – Pollard Interview (CJ)
 GCPD Brumbaugh or Domeny / BPD Canfield

 1130 – Howarth Interview (TGH)
 MPD Stoffle / BPD Canfield

Tuesday 0900 – Fiddler Interview (TGH)
 MPD Stoffle / BPD Wirshing

 1030 – Rogers Interview (CJ)
 GCPD Thorndyke / BPD Jagosh (Krueger observe)

Wednesday 0900 – Rush Interview (TGH)
 ACSO Bryant / BPD Miraglia (Schofner observe)

 1030 – Sousa Interview (CJ)
 ACSO Bryant / BPD Miraglia (Schofner observe)

 1400 – Pietrzak Interview (TGH)
 GCPD Thorndyke / BPD Jagosh (Hartjie observe)

Paul, I do not have emails for Krueger or Shofner, so please ensure they are aware (I'm sure they knew before I, but just in case).

Please let me know if you have any questions, comments, or concerns as soon as possible. I can be reached at this email address or on my cell – [REDACTED] – anytime. Thank you, again.

Respectfully,

John

Supplemental Report							

CRIMINAL INVESTIGATIONS UNIT**SUPPLMENTAL REPORT**

At 2308 hours on Wednesday, July 26, 2023, I received a call from CIU Sgt. Domeny requesting that I respond to the station in relation to an officer involved shooting that had just occurred. He advised that the incident involved Boise Police Department personnel and that Garden City Police would be the lead investigative agency.

I responded to the station where I gathered equipment and prepared for a response. I was soon joined by GCPD CSI Vargas who was also called out to assist with processing the scene. We were instructed to wait at the station to attend a pending incident briefing. Prior to the start of the briefing, Ada County Sheriff's Office Crime Lab personnel CSI Lori Kidwell, and CSI Heather Campbell arrived to assist and sit in on the briefing.

During the briefing, we received some preliminary information relating to the incident and that there were approximately six law enforcement officers involved. We also learned that the suspect was deceased and still on scene near the intersection of 19th Street and Washington Street in Boise, Idaho. Once the briefing was concluded, CSI Vargas and I drove to the scene.

CSI Vargas and I arrived on scene at 19th Street and Washington St, Boise at 0058 hours on Thursday, July 27, 2003. We were joined by ACSO CSI Kidwell and ACSO CSI Campbell who each drove separate vehicles. We met up with GCPD Sgt. O'Gorman and BPD Sgt. Shofner who were on scene prior to our arrival.

GCPD Sgt. O'Gorman then provided us with a walk-through of the scene. He directed our attention to several white tented cards scattered throughout the scene. Sgt. O'Gorman stated the tented cards were placed next to casings found throughout the scene that had been identified prior to our arrival. As we walked east on Washington St., we were directed to the deceased body of a partially clothed male laying in the street, the body was surrounded by medical waste from emergency personnel. There was a white sheet propped up by two traffic cones which was constructed by officers and positioned near the body as a privacy screen. There was a blood trail leading from the body to a rifle lying in the street several feet away. We were advised that a K9 asset was deployed which had dragged the male from where the rifle was, to his current spot in the roadway.

Sgt. O’Gorman also pointed out that several homes and vehicles were struck by bullets, but due to the darkness it was hard to tell which ones or how many. CSI Vargas would photo document defects once there was sufficient daylight.

Initial CSI Assignments: ACSO CSI Campbell was assigned with taking overall crime scene photos to include the area of 19th Street and Washington St, with ACSO CSI Kidwell assisting. GCPD CSI Vargas was assigned to take detailed scene photos of the same area to include items of evidence and involved homes and vehicles. While the initial photos were being taken, I continued the search of the scene for additional items of evidence that had not already been identified.

Once the photos were completed, we walked the scene, and I placed yellow tented evidence markers next to each item identified to be collected. Since the rifle lying on the street (evidence marker #1) had not been moved or cleared, I decided that it be immediately documented and collected for scene safety. The rifle was outlined with reflective chalk for placement reference. GCPD Sgt. O’Gorman then cleared the rifle as GCPD CSI Vargas took photos. During the clearing of the rifle, it was discovered that there was one Tulammo 7.62x39 round in the chamber, which he ejected. There were also unspent rounds in the magazine which were not removed or counted on scene. The rifle, magazine, and unspent round were placed in a rifle box and secured in the GCPD CSI vehicle at the scene.

The following items of evidence were identified during the initial search:

EVID#	DESCRIPTION	LOCATION
2	40MM BLU FOAM PROJECTILE	ON GROUND NEAR SUSPECT
3	GRY TULAMMO 7.62X39 RIFLE CASING	ON GROUND NEAR SUSPECT
4	SUSPECTS CLOTHING	ON GROUND UNDER SUSPECT

- 35 SIL SPEER 9MM LUGER HANDGUN CASING IN STREET ON 19TH ST NEAR BLK NISSAN SUV
- 36 SIL SPEER 9MM LUGER HANDGUN CASING IN STREET ON 19TH ST NEAR BLK NISSAN SUV
- 37 SIL SPEER 9MM LUGER HANDGUN CASING IN STREET ON 19TH ST UNDER BLK NISSAN SUV
- 38 GRY TULLAMO 7.62X39 RIFLE CASING IN GRASS IN FRONT OF [REDACTED]

A request was then made for the Ada County Coroner’s Office to respond to remove the body. A short time later, Ada County Coroner Rich Riffle, Brett Harding, and Autumn Warren arrived on scene. The Ada County Coroner’s Office staff took scene photos, and then removed the remaining clothing items and examined and photographed the body. GCPD CSI Vargas took photos during the examination as well. Once completed, the body was placed in a black transport bag and a red seal bearing (SEALED 069343) was attached, locking the outer zipper in place. ACCO staff loaded the body onto a gurney and removed it from the scene at approximately 0327 hours. The clothing remained at the scene and was then photographed by GCPD CSI Vargas.

During the next few hours, the following activities took place as we waited for daylight to take additional photos with evidence still in place. Also, during this time, GCPD CSI Vargas marked and photographed defects to houses and vehicles located within the scene.

0555: ACSO CSI Wheatley and Guess arrived on scene to assist.

0615: ACSO Recon Bryce Bienz and Michael Huffacker arrived on scene to diagram the scene.

0708: ACSO Casey Bryant arrived to capture drone footage of the scene.

0730: ACSO CSI Herink arrived on scene to assist.

Also occurring during this time and throughout the processing of the scene, metal detectors were used by on-scene CSI personnel to locate additional bullet fragments and casings. The following items were located during this search:

EVID#	DESCRIPTION	LOCATION
39	UNSPECT SPEER 9MM LUGER HANDGUN ROUND	IN GRASS IN FRONT OF [REDACTED]
40	SIL SPEER 9MM LUGER HANDGUN CASING	IN GRASS IN FRONT OF [REDACTED] NEAR BLK NISSAN SUV

Once the Recon Team was finished and the drone footage was captured, there was sufficient daylight for GCPD CSI Vargas to take additional scene photos.

I then used the same camera as GCPD CSI Vargas to photograph and collect all items of evidence at the scene. ACSO CSI Kidwell followed along, acting as a scribe as I collected and packaged the evidence.

It should be noted that the medical waste surrounding the suspect's body was placed in a red bio-hazard bag for disposal. The trauma kit bag, scissors, and package of gauze were placed inside BPD unit #015 at their request.

I secured all equipment and evidence in the GCPD Evidence vehicle and prepared to leave the scene with the following plan in place.

The scene was turned over to ACSO CSI Herink to perform any necessary trajectory examination/documentation, recovery of projectiles, and photos of defects to property on scene.

I was advised that a search warrant was being requested for the suspects residence located at [REDACTED], and that Meridian Police Department CSI personnel would be responding and would handle that search. I never went to that residence, and the search warrant, to my knowledge, had not yet been obtained at the time I left the scene.

ACSO CSI Kidwell, GCPD CSI Vargas, and I left the scene at approximately 0959 hours. GCPD CSI Vargas and I arrived back at the station at approximately 1010 hours where we secured all evidence in the Evidence Room. I placed the suspect's clothing in the forensic drying locker and turned on the fan.

All photos taken were downloaded to the case media folder.

Nothing further.

CRIMINAL INVESTIGATIONS UNIT SUPPLEMENTAL

On Wednesday July 26, 2023 I received a phone call from Sergeant Domeny at approximately 2310 hours requesting I respond to the Garden City Police Department for a CITF activation. Upon arrival I was advised that Boise Police had been involved in an officer involved shooting with one subject at [REDACTED] in Boise and that after briefing CSI Mitchell and myself were to respond to the scene. During briefing it was learned that there was one suspect that was deceased and there were six Boise officers that had fired their weapons. CSI Mitchell and I gathered our equipment and responded to N. 19th and W. Washington Street in Boise at approximately 2447 hours.

Upon arrival at the corner of N. 19th and W. Washington Street we met with ACSO CSI Kidwell and ACSO CSI Campbell who were assigned to help process the crime scene. Sergeant O'Gorman escorted us into the scene and walked us through describing the chain of events. Sergeant O'Gorman advised us that the following address had been struck by projectiles during the incident:

1. [REDACTED] (3 apparent bullet holes to the upper part of the residence that faces N 19th Street)
2. [REDACTED] (5 apparent bullet holes 3 to the front of the house that faces W. Washington Street and 2 to the side that faces N 19th Street)
3. [REDACTED] (1 apparent bullet hole to the upper right corner of the front of the house that faces W. Washington Street)

Three vehicles were also located that had been struck by projectiles.

1. White Jeep ID license plate [REDACTED] (2 apparent bullet holes to passenger front quarter panel and rear passenger tire flattened from impact)
2. White Nissan Altima ID license plate [REDACTED] (4 apparent bullet holes to driver side of vehicle)
3. White Ford F150 ID license plate [REDACTED] (2 apparent bullet holes to driver side back passenger door)

Within the scene were two police units, one unmarked Ford SUV and one marked Dodge Charger that had arrived to assist and were not involved in the initial incident. The deceased suspect was still on scene located in the street at the corner of N. 19th and W. Washington, and the coroner had already been notified and was in route. Prior to arriving, Officers on scene had placed sticky notes, and pieces of crime scene tape next to spent bullet casings that were initially located throughout the scene.

I was tasked with taking over all photos of the scene. Due to the lack of light my photos were not able to capture the entirety of the scene. Sergeant O'Gorman cleared the suspect's rifle which I photographed then places in an evidence rifle box along with the magazine. The bullets were packaged separately and all was secured in the evidence vehicle. Once the coroner arrived on scene I photographed the suspect as they processed the body. I placed lettered sticker scales near the bullet holes on the vehicles and residences that had been impacted to exclude [REDACTED] due to the height of the impacts. CSI Mitchell placed evidence markers and once the sun rose I proceeded to photograph the scene. The ACSO CSI's, CSI Mitchell and I continued to look for spent shell casings due to not having an accurate round count reported to us. At this time the other members of the ACSO's Crime Scene team arrived on scene and assisted with metal detectors. We were ultimately able to recover thirty five spent casings and one full 9mm bullet. While searching it was found that the residence at [REDACTED] had also been struck with a projectile. I assisted in collecting all items marked as evidence and cleaned up all the medical waste placing it into a biohazard bag for destruction. All evidence items were secured within the evidence vehicle. CSI Mitchell and I cleared the scene at 0947 hours on Thursday July 27th, 2023 and transported all the evidence to the Garden City Police Department.

ACSO CSI's were assigned to process all the residences and vehicles that had been struck by projectiles. Meridian CSI's were assigned to the suspect's residence to process that scene once a search warrant had been obtained.

At approximately 1010 hours we returned to the Garden City Police Department and secured all the packaged evidence within the evidence room. I had Corporal Barghoorn assist me with placing butcher paper on a table in the training room then I retrieved the suspects rifle to photograph. Once the rifle and ammunition was documented I secured the rifle in a evidence box and the ammunition was packaged in an envelope. Both items were booked into evidence and all photos were uploaded into the secured system. Nothing further.

Officer	Dozier, J (GP1328)				
Supplemental Report					

INITIAL INFORMATION:

On July 27, 2023, at approximately 0630 hours I was contacted by Sgt. O’Gorman and Sgt. Domeny regarding the officer involved shooting. I was assigned to run the crime scenes at 19th and Washington and the residence of [REDACTED] bot in the city limits of Boise, ID.

INITIAL SCENE APPRAISAL:

Upon arrival I parked my vehicle near the intersection of Washington Alley and 19th St. I was brought onto the scene by Sgt. O’Gorman, and he showed me what has been located and what had been done up to that point. After an initial walk through I spoke with the crime scene members. They advised they were still short on the expected bullet casings left on scene based on the initial "round count" conducted by first contact.

At that time, I spoke with Sgt. Domeny and arranged to watch Sgt. Pietrzak’s on body video. This showed the area he shot from, which was in a slightly different area than was initially told to us. After searching the area for a considerable amount of time, I located one spend bullet casing near a tree between the sidewalk and 19th St. The casing was in front of [REDACTED] but almost to the property line of [REDACTED].

Additionally, units were unable to make contact with the resident at [REDACTED]. I conducted an internet search and located a number for the homeowner, [REDACTED]. I spoke with [REDACTED] and determined nobody was home, and no pets were at the residence. [REDACTED] said he was not back in town until Sunday July 20, 2023. However, a house sitter would be at the residence on Saturday, and I could go through the residence with the house sitter to find and collect any evidence needed. This would be later conducted by me. See the subsequent section on this examination.

I also spoke with [REDACTED], who resided at [REDACTED]. [REDACTED] explained he had already spoken with other officers (unknown when or with whom), but his vehicle had been damaged by gunfire. [REDACTED] unlocked the vehicle for crime scene units to look underneath the hood of the White Jeep Grand Cherokee for damage and possibly projectiles. During this examination I noted at least one defect in the outer wall of the back driver’s side tire. Additionally, two defects were observed in the passenger side quarter panel of the vehicle. One defect in the quarter panel appeared to barely graze the edge of the quarter panel and perforate the material. The section defect had no obvious perforation. Once the hood was opened it was clear the projectile had perforated the quarter panel but only penetrated several layers of the vehicle’s battery. See supplemental reports of the crime scene members for further information on the Jeep Grand Cherokee.

While on scene I noticed several people going in and out of 1821 Washington St. I also observed the security cameras posted in several locations on the property. The business located there was Northwind Computers. As I walked up to the front door someone stepped outside and met me. I asked about the functionality of the cameras, and I was told they already had the video downloaded onto a thumb drive. At 1135 hours, they handed over the USB drive and advised that the Idaho State Police officers who had completed the area canvas had requested it. I facilitated contact with ISP and advised them I had the USB drive, and they did not need to come back and get it.

No other items of evidence were located by me. I continued to supervise the crime scene until the completion of the processing. See other members of the crime scene team’s supplemental reports for further. This crime scene was closed at 1143 hours and all roads were opened up at that time.

[REDACTED] CRIME SCENE:

In order to conduct an analysis of the scene at [REDACTED], a search warrant was applied for by Detective Rosen. While that was being done, I assembled several crime scene personnel and detectives from Meridian Police Department to conduct the search if a warrant was granted.

While waiting for the search warrant to be presented to a judge I relocated to this scene. I was apprised of several projectile casings on the driveway of [REDACTED]. The casings were below a balcony that was above the detached garage. The garage faced to the south, toward an ally. Additionally, I was made aware of several defects to a garbage can, the concrete, and siding of the rear residence of [REDACTED].

These areas were marked, photographed and evidence was collected while waiting to hear if the search warrant was granted.

During this intermittent time, I was given two names by a Boise Police Department perimeter unit. The first name was [REDACTED]

(no audio or video available). When [REDACTED] was contacted, she advised at approximately 2230-2240 hours she heard a vehicle "speed up" the road near her residence. She said it was dark gray or black in color. She did not see anything specific to the shooting or the preceding actions.

The second name given to me was [REDACTED] (no audio or video available). When [REDACTED] was contacted, he stated he was helping to renovate [REDACTED]. Previously, Macy had come out of his residence and yelled obscenities at the workers. He often complained about the amount of noise they were making and how the smell from the port-a-potty was horrendous. Nothing physical ever took place. No further information was gathered from [REDACTED]

At approximately 1300 hours I was contacted by a male identifying himself as [REDACTED]. He stated he understood a search warrant was being applied for and nobody was allowed in the residence. However, he wanted to try and get an approximate time frame for when he could get into the residence and secure it. I asked him to come back in an hour and I would have a better idea. He agreed. That contact is detailed in the following section.

After the search warrant was signed, Detective Rosen brought it to the scene. The warrant was for the main residence as well as any outbuildings, sheds, etc.

After reviewing the search warrant, it was executed by the personnel on scene. The main residence did not yield any items of evidentiary value. The loft above the garage held most of the evidence. Multiple items were photographed and/or collected. Please refer to the Meridian Police Department's supplement reports for further information.

CONTACT WITH [REDACTED]:

Upon their re-arrival at 1425 hours, I received permission from Sgt Domeny to allow the family back into the main residence. At that time, I walked [REDACTED] through the back gate from the alleyway, into the back yard, and directed them to the damaged area I noted. They were brought through the back fence due to a news crew being out front recording. They expressed a desire to me not to be seen on the new cameras and did not want to do any interviews.

[REDACTED] asked if the family would be able to obtain Macy's keys to the residence and his cell phone. I explained we would be taking any cell phones for possible forensic analysis. However, we had no known need for the keys. The keys would eventually be located on a side table near the entrance of Macy's loft. They were left there, and the family was notified of their location.

[REDACTED] also inquired about the gun Macy had. I explained the gun would be held as evidence for a time period. When Garden City was advised they could release the gun it would be released to the owner, which [REDACTED] said was her.

[REDACTED] also provided the following information:

- She was the only resident of the main house.
- Macy was the only resident of the loft above the detached garage.
- [REDACTED] did not reside on the property.
- [REDACTED] added that Macy lived in the main residence "for a time" before he did some sort of work with the Junipers and sage grouse.
- After Macy was done with the job, [REDACTED] said she "let him move" into the loft.

After the short conversation, I spoke with them for several minutes about resources for grief and counseling. After their request for resources, I had TIP notified and they contacted [REDACTED] via telephone.

After the search was completed, I made contact again and told them we were finished, and they could maneuver throughout the property again. I explained a property invoice would be left with a copy of the search warrant. Those would be found on the weight bench in the loft of Macy's residence.

The family had several questions regarding the events that unfolded the previous evening. I explained that their answers would hopefully be able to be answered in time, but at this early stage, they probably had more information regarding Macy's mindset than we would. [REDACTED] commented that it did not make sense because "that was not the path he was on."

Given the situation, I did not question them any further at the time.

The family had some questions about why they were never called into the coroner's office to identify Macy. I explained the tactics of having a family member identify a decedent is not the preferred method and the coroner would utilize other tactics, using family as a last resort due to the potential emotional toll it would add to the family.

Near the end of my conversation, I explained that someone from Garden City would be calling in the near future in an attempt to interview them. After they asked if they had to interview, I explained they were not required to, but it would probably be helpful in helping us determine Macy's mindset and the actions he had taken leading up to the shooting.

This concluded my contacts with the family on scene.

EVIDENCE FROM [REDACTED]

On July 29, 2023, at approximately 1330 hours I responded to [REDACTED]. I was met by the house sitter, [REDACTED] who allowed me inside the residence. This was also confirmed with [REDACTED] prior to my arrival.

Once inside the residence I went to the upstairs bedroom located on the eastern side of the house. This was the room effected by the bullet defects. I photographed the area and was able to locate one expended bullet in the bathroom adjacent to the bedroom, in a linen closet.

I noted the following inside the residence:

- Three bullets appeared to pierce through the exterior siding and into the residence.
- One bullet entered approximately six feet above the floor of the room. It perforated the exterior and interior wall and a wall

- poster. The bullet appeared to continue through a poster hanging somewhat away from a wall that was at a 45-degree angle to the roofline.
- o The bullet perforated that poster, the angled wall, and the adjacent wall.
- o It continued with a slight upper trajectory by perforating the drywall above the closet on the north wall. It then punctured the drywall on the inside wall.
- o I was unable to recover this bullet.
 - A second bullet perforated the exterior siding and the interior wall approximately one foot above the floor of the bedroom.
- o Almost immediately is struck a leg of a small table near the wall, glancing off the leg and continuing in a somewhat flat trajectory to the north. The bullet perforated the closet door on the north wall, the back wall of the closet, and entered the adjacent bathroom.
- o The bullet continued, perforating the bathroom wall and came to rest in some towels in the linen closet of the bathroom.
- o This bullet was recovered and booked into evidence.
 - A third bullet appeared to perforate the exterior and interior walls, a television, the back seat of a futon, and the northeastern interior and exterior wall.
- o The bullet continued before striking the asphalt shingles of a lower-level roof on the north side of the residence. The bullet did not puncture the shingles. The bullet was not found during a subsequent search of the property.

ATTEMPTS TO INTERVIEW [REDACTED]:

Between July 31, 2023, and September 28, 2023 I attempted to make contact with [REDACTED]. I was unable to speak directly with them on the phone. [REDACTED] had a voicemail that stated his name. I left a message on his voicemail asking for a return call regarding their desire to speak with detectives about Macey's past and hope that it may provide some insight into the events leading up to the incident. As of September 28, 2023, I have not received a return call.

NO FURTHER

Supplemental Report							

Garden City Police Department

Critical Incident Task Force

Prepared by:

Detective Josh Thorndyke #1313

Date:

July 26, 2023

DR#'s:

Boise Police Department 312-299, Ada County Sheriff's Office 23-7087, Meridian Police Department 23-4787, Garden City Police Department 23-1433.

Suspect:

Macey Jaden Juker, 

Involved Officers:

Ryan Pollard (Boise Police)

Dominic Rogers (Boise Police)

Chase Fiddler (Boise Police)

Jason Pietrzak (Boise Police)

Kirk Rush (Boise Police)

Craig Sousa (Boise Police)

Jonathon Howarth (Boise Police)

Follow Up:

On August 1, 2023, I was tasked with Officer Involved Interviews for Sergeant Pietrzak and Officer Rogers.

Interview:

Name: Dominic Rogers:

On August 1, 2023, at about 1030 hours, Detective Wirshing, Detective Krueger and I conducted the interview with Dominic Rogers at his attorney's office. Dominic was represented by Chad Johnson and Chad was present during the interview. The interview was recorded.

Full name: Dominic Rogers

Age: 41

Rank: Officer

Badge number: 1050

Radio designator: 3454

Vehicle number: 406

Date of employment: July 18, 2022

Years of LE experience: 8 years

Prior LE experience: Torrance, CA and San Bernardino, CA

Assignment: Patrol (ID, CA) and School Resource Officer (CA)

Shift and work hours: [REDACTED]

Specialized training and background: [REDACTED]

Make: Glock

Model: 17

Caliber: 9mm

Modifications: rail light and RMR (Holosun 507)

How many rounds were in weapon at time of incident? 17+1

Why do you load a certain way, and explain number rounds carried? Patrol ready

Was this a personal or department weapon / ammunition? Department Issued

Describe clothing worn at the time of incident: Boise Police Patrol uniform; Blue pants, Blue shirt, external vest with equipment and markings identifying himself as a Police Officer..

Markings that identify officer as a law enforcement officer: Police badge, Police markings front and back

What events occurred prior to this incident, the general nature of call, and the general description of activity level: Assigned himself to a P1 call but never went to it when he saw the Crisis call.

Were you aware of other past crimes of this or similar nature in this area, or specific location? No, it's not his patrol area.

THE FOLLOWING IS A SUMMARY OF OFFICER ROGER'S DETAILED STATEMENT ABOUT THE INCIDENT

-Preempted off of his call and attached to the crisis call.

-Had a conversation with Officer Lee about crisis calls and the nature of them. Officers met up at Albertsons off State St. to make a game plan.

- Officer Lee was on phone with male and he heard gun shots.
- Officer's rolled code 3 to the area of the incident.
- Parked at 21st and Ellis and could hear gun shots in the neighborhood.
- Heard on radio that there was a male at gunpoint.
- Officer Rogers arrived at Ellis and 19th St. when he observed the male being contacted by law enforcement.
- Officer Rogers took cover behind a tree while another officer gave verbal commands.
- Suspect took off running and grabbed something off the car.
- Officer Rogers assumed it was a weapon.
- Foot pursuit towards Washington and 19th St.
- Suspect stopped running, raised a mussel of a firearm.
- Officer Rogers took cover behind a tree and returned fire at the suspect.
- Officer Rogers believed he fired 3-5 shots in total.
- Suspect dropped firearm and no further shots were fired by law enforcement.
- Sergeant Miller took Incident Command and extracted the suspect from the weapon.
- Officer Rogers assisted in a search of a residence to make sure there were no other victims.
- Officer Rogers was sequestered for CITF protocols.

What verbal commands did you officer or other officers give to the suspect prior to the incident? Stop was the only command Officer Rogers remembered saying since he was not having verbals with suspect.

Identify number of commands, voice tone and volume used. Loud and Directive

Have the officer identify what other officers they were aware of that were at the scene. Pollard, Sousa, Fiddler, Lee, Howarth, Miller, and Pietrzak.

What crimes the suspect had committed prior to use of deadly force? Unlawful Discharge of Firearm, Resist & Obstruct Delay and Officer, Aggravated Assault with Deadly Weapon.

Were you aware of crimes of this nature in the area? No

Did you know the suspect prior to this incident? No

Did anything make you feel threatened? Yes

What thoughts did you have about your life, the life of other officers or citizens being in danger? Officer Rogers though about his family, his kids, follow officers, and the neighborhood when the suspect was discharging his weapon.

Can you estimate the number of shots fired and location(s) of you when you fired? 3-5

Did you do anything deliberately or accidentally to alter the crime scene? If so, why? No

Describe the lighting and how, or if that affected this incident. Dark, minimal street lighting

Describe the weather conditions and how, or if that affected this incident. Clear summer night

Could the suspect have given up or stopped this incident at any time prior to use of deadly force? If so, how and

when? Yes, the suspect could have given up numerous times to include when was on his knees complying to officers, when he was running and told to stop.

Do you or your attorney have any questions? Officer Rogers was asked by his legal counsel about how the barrel was raised and Officer Rogers said the barrel was raised and he recognized it as a gun in the direction of where officers were located.

The interview was concluded at about 1053 hours. I downloaded the audio to the case file.

Name: Jason Pietrzak:

On August 2, 2023, at about 1422 hours, Detective Wirshing, Officer Hartjie and I conducted the interview with Jason Pietrzak at his attorney's office. Jason was represented by T. Guy Hallam and Guy was present during the interview. The interview was recorded.

Full name: Jason Pietrzak

Age: 51

Rank: Sergeant

Badge number: 753

Radio designator: 4610

Vehicle number: 98

Date of employment: March 2007

Years of LE experience: 27 years

Prior LE experience: Jerome County Sheriffs, Meridian Police, Garden City Police, Private training, Coast Guard, Wisconsin Department of Corrections

Assignment: Night STEP

Shift and work hours: [REDACTED]

Specialized training and background: [REDACTED], POST, [REDACTED]

Make: Glock

Model: 17

Caliber: 9mm

Modifications: rail light (Streamlight) and RMR (Holosun 507)

How many rounds were in weapon at time of incident? 17+1

Why do you load a certain way, and explain number rounds carried? Patrol ready

Was this a personal or department weapon / ammunition? Department Issued

Describe clothing worn at the time of incident: Boise Police Patrol uniform; Blue pants, Blue shirt, hard badge, name plate.

Markings that identify officer as a law enforcement officer: Police badge and shoulder patches

What events occurred prior to this incident, the general nature of call, and the general description of activity level:

Was assigned to a recruitment video at Hyde Park when he heard radio traffic about shots fired call.

Were you aware of other past crimes of this or similar nature in this area, or specific location? No

THE FOLLOWING IS A SUMMARY OF SERGEANT PIETRZAK'S DETAILED STATEMENT ABOUT THE INCIDENT

-Ada County Dispatch advised of shots fired when he was southbound on 15th Street, Sergeant Pietrzak located the CRISIS call and drove to the area it was reported.

-Sergeant Pietrzak parked at 19th and Resseguie street and met up with Sergeant Rush.

-Sergeant Pietrzak only knew Sergeant Rush was there but there were other officers present.

-Saw suspect on his knees with hands over head.

Suspect was approximately 20-25 yards from Sgt. Rush and Sgt. Pietrzak

-Sergeant Pietrzak knew the suspect was not going to be cooperative based on what he was seeing from the suspect, who was looking around/through officers.

-Suspect got up and started running south when he was ordered to stop.

-Suspect picked up an AK47 which was located approximately 10-15 yards south of him and shot the gun upwards at 11:00.

-Sergeant Rush was on the right side of Sergeant Pietrzak.

-Sergeant Pietrzak went to the eastside of the street to try and stop the suspect from getting into a residence.

-Suspect started shooting towards officers who were on the west side of 19th

Street to the right of Sergeant Pietrzak. Seeing that the suspect was firing at officers and into residences on 19th Street, Sergeant Pietrzak shot at the suspect 2 times.

-Verbal commands were given by law enforcement to stop.

-Sergeant Pietrzak saw muzzle flash of the AK47 and then the suspect ran south and stopped in the intersection of 19th and

Washington. The suspect started shooting again at law enforcement.

-Suspect fell to the ground and Sergeant Pietrzak could see him continue to hold his head up and look for officers. The suspect did not surrender or make any verbal statements of wanting to comply with officers. The suspect shot in the direction of officers. Sergeant Pietrzak shot twice, while continuing to give verbal commands for the suspect to drop the gun, which he refused even after Sergeant Pietrzak believed he struck him with rounds.

-The suspect stopped shooting but the rifle remained on his chest.

What verbal commands did you officer or other officers give to the suspect prior to the incident? Drop the gun multiple times, identified themselves as Police, Suspect knew they were police he was initially compliant with them.

Identify number of commands, voice tone and volume used. Direct with suspect to drop the gun throughout the situation.

Have the officer identify what other officers they were aware of that were at the scene. Rush and other unknown officers
What crimes the suspect had committed prior to use of deadly force? Unlawful Discharge of Firearm, Resist & Obstruct Delay and Officer, Aggravated Assault with Deadly Weapon.

Were you aware of crimes of this nature in the area? No

Did you know the suspect prior to this incident? No

Did anything make you feel threatened? Yes, absolutely he could see the suspect was serious, had a threatening look to him, appeared to be looking to run, immediately started firing shots at law enforcement once he got the AK 47.

What thoughts did you have about your life, the life of other officers or citizens being in danger? Sergeant Pietrzak knew what AK47 rounds did when they penetrated walls and with all the shooting and yelling, neighbors could wake up and start looking out their windows and/or coming out of their residences, Officers had no cover due to the foot pursuit and suspect using an AK47 bullet which will penetrate through most vehicles, residential exterior and interior walls and most ballistic shields.

Can you estimate the number of shots fired and location(s) of you when you fired? 4

Did you do anything deliberately or accidentally to alter the crime scene? If so, why? No

Describe the lighting and how, or if that affected this incident. Dark, minimal street lighting, had to use flashlights

Describe the weather conditions and how, or if that affected this incident. Clear summer night, 80 degrees

Could the suspect have given up or stopped this incident at any time prior to use of deadly force? If so, how and when? Yes, the suspect could have given up numerous times to include when was on his knees complying with officers, when he was running and told to stop, when he was being shot at by police, after he was shot by police initially. The suspect fought till the end and never made an attempt to give up.

Do you or your attorney have any questions? Detective Wirshing asked about the suspect holding the AK47 at 11:00 and Sergeant Pietrzak described the barrel of the AK47 pointing in an upwards direction initially firing his rounds as if he had a possible AD in the air but afterwards the muzzle went towards law enforcement. Sergeant Pietrzak knew the sound to not be of an Air Soft rifle but of an AK47.

Legal counsel asked questions related to the suspect threat not ending until the police K9 removed the AK47 from the suspect's possession. The suspect never complied to any law enforcement commands once he ran away. Sergeant Pietrzak estimated the suspect shot 5-8 times initially at law enforcement then 4-5 more time prior to the fatal shot by law enforcement.

The interview was concluded at about 1444 hours. The audio was downloaded to the case file.

Disposition:

Add to current case file.

INVESTIGATOR ASSIGNMENT

On July 27th, 2023, I was notified about an officer involved shooting the previous evening involving members of the Boise Police Department and the Ada County Critical Incident Taskforce was activated with Garden City Police Department serving as the lead agency.

Sgt. Domeny requested my assistance drafting a search warrant for the suspects address and residence of [REDACTED] in Boise, Ada County, Idaho. The search warrant was granted under seal by Judge Strong.

I brought the warrant to the address and CITF investigators entered the property to conduct a search for evidence related to the warrant. Numerous items of evidence were seized by Meridian Police Department CIFT investigators at retained at Meridian Police Department.

These items of note were recovered including:

- (1) Glock 22 GN4 pistol in .40 caliber with a serial number of TLV258.
- (1) Comarron Arms revolver in .22LR caliber with a serial number of U64744.
- (1) Colt .357 caliber revolver with a serial number of 13820.
- [REDACTED]
- 7.9 grams of unknown brown/black substance
- 352 grams of unknown yellow waxy substance in a jar
- (1) Apple iPhone

See the property invoice related to Meridian Police Department case number 2023-00004787 by C. Boyes for the full list. I stood by while the items were collected and assisted in leaving a copy of the search warrant on a weight bench within the residence.

Once the search was completed investigators left the residence and I removed crime scene tape from around the area. The residence was turned over to family members by Sgt. Dozier.

The search warrant return was sent back August 1st, 2023.

Nothing further.

Supplemental Report							

On July 28, 2023, at approximately 2048 hours, Garden City officers were dispatched to an injury crash at the intersection of Chinden and Kent.

During the investigation, a male subject (later verbally identified as [REDACTED] approached me. [REDACTED] told me that he was involved in the Boise Police shooting that occurred a couple of days prior and he heard that Garden City Police were investigating the call. I confirmed that our detectives were handling the case.

[REDACTED] stated that his vehicle was hit by gunfire several times. The vehicle was processed but he found another spent round inside his vehicle. He showed me a tin with the bullet inside. I had him pour the bullet into a latex glove that I had on my person. He stated that he found the round on the passenger side floorboard. He did not know exactly where it came from.

I told him that I would let our detectives know that he found another round and that they would contact him at a later time.

I booked the spent round into Evidence.

No further.

Note: This report was originally written under DR 2023-001435. It was copied and pasted over. Evidence was moved by Evidence Technician Mitchell.

Supplemental Report

On July 26th, 2023, at 2254 hours, I responded to the area of 19th St. & Washington in Boise to assist Boise City Officers due to gun shots being fired (called out over the radio by Officers).

I parked my patrol vehicle on 19th St. just south of Washington and north of the alleyway to block any incoming traffic. I assisted on the scene by putting up crime scene tape within a 2-3 block radius. I was cleared from the scene at approximately 2337 hours.

Nothing further.

Subject: 23-001433 CITF Officer Interviews

Gentlemen –

Thank you for assisting with the officer interviews for the CITF. I have the lineup below. Representing attorneys are Guy Hallam (TGH) and Chad Johnson (CJ). Interviews will be held at their offices, located at:

Strindberg Schonick Birhc Hallam Harstad Thorne
1516 W Hays St
Boise, ID
208-336-1788

Boise will have OBV video, as will we.

Monday 1000 – Pollard Interview (CJ)
 GCPD Brumbaugh or Domeny / BPD Canfield

 1130 – Howarth Interview (TGH)
 MPD Stoffle / BPD Canfield

Tuesday 0900 – Fiddler Interview (TGH)
 MPD Stoffle / BPD Wirshing

 1030 – Rogers Interview (CJ)
 GCPD Thorndyke / BPD Jagosh (Krueger observe)

Wednesday 0900 – Rush Interview (TGH)
 ACSO Bryant / BPD Miraglia (Schofner observe)

 1030 – Sousa Interview (CJ)
 ACSO Bryant / BPD Miraglia (Schofner observe)

 1400 – Pietrzak Interview (TGH)
 GCPD Thorndyke / BPD Jagosh (Hartjie observe)

Paul, I do not have emails for Krueger or Shofner, so please ensure they are aware (I'm sure they knew before I, but just in case).

Please let me know if you have any questions, comments, or concerns as soon as possible. I can be reached at this email address or on my cell – [REDACTED] anytime. Thank you, again.

Respectfully,

John

Probable Cause			
-----------------------	--	--	--

On 7/26/2023 at approximately 2224 hours, Boise Police Officers were dispatched to [REDACTED] N. 20th St. in Boise reference a crisis call for service. Macey J. Juker called Ada County Dispatch reporting people were outside his residence trying to get inside to kill him, he could feel them hitting him, he could not see them and they were talking to him. Macey armed himself with an AK-47 rifle, exited the residence and proceeded to discharge rounds from the AK-47 endangering the public. Boise Police Officers encountered Macey near N. 19th St. and W. Washington St. During efforts to detain Macey he initially complied with commands then proceeded to disregard Officers' commands. Macey proceeded to actively shoot his AK-47 in the direction of Officers. Due to Macey's actions, Officers discharged their firearms at Macey striking him multiple times. The following reports are synopses of Meridian Police Department's investigative involvement for the related Critical Incident Task Force investigation.

Critical Incident Task Force (CITF) Activation

On 7/26/2023 at approximately 2343 hours, Sgt. Figal contacted me by phone informing me there had been a CITF activation in Boise. Sgt. Figal advised multiple Boise Police Officers had been involved in an Officer Involved Shooting (OIS) and Garden City Police Department was the lead for this CITF. Sgt. Figal requested I respond to [REDACTED] to the assigned position of First Contact.

Upon arrival at [REDACTED], I met with Detective Caygle who was also assigned to First Contact. During this time, we proceed to meet with Ada County Detective M. Buie who was assigned as the lead for First Contact. Additional Detective assigned to First Contact included: Ada County Detective R. Trejo, Boise Police Detective Miraglia and Boise Police Detective Canfield.

During this time, I was advised the following Boise Police Officers were listed as being involved in the shooting and they were currently assigned to the following individual [REDACTED]

- Boise Police Officer R. Pollard, [REDACTED]
- Boise Police Officer D. Rogers, [REDACTED]
- Boise Police Officer C. Fiddler, [REDACTED]
- Boise Police Officer J. Pietrzak, [REDACTED]
- Boise Police Sergeant K. Rush, [REDACTED]
- Boise Police Officer C. Sousa, [REDACTED]

Additionally, I was told Boise Police Officer J. Howrath [REDACTED] was an involved witness.

Furthermore, during this debrief, I was informed the First Contact Team had already completed their contact with Officer Pietrzak prior to my arrival.

At this point, Detective Caygle, Detective Miraglia and I proceed to contact Officer Pollard [REDACTED]. Upon introductions with Officer Pollard, I inquired as to whether or not he carried a backup firearm, to which he responded in the negative. The only other question I asked was whether or not he carries his duty magazines at full capacity, to which he replied in the affirmative. Detective Caygle completed photographs of Officer Pollard's person, uniform and duty gear. Once the photographs were complete we collected Officer Pollard's duty issued Glock 17 9MM pistol and magazines and transported the firearm and magazines to a designated [REDACTED] to complete a round count and process the aforementioned equipment for preliminary evidentiary submittal.

- one (1) magazine containing fifteen (15) rounds of ammunition
- one (1) magazine containing seventeen (17) rounds of ammunition

While processing Officer Pollard's firearm and ammunition, it was requested Detective Caygle, Detective Miraglia and I remain in the designated [REDACTED] to maintain custody of the collected items and conduct the remaining involved Officers' round counts and processing of the firearms. Detective Buie, Detective Trejo and Detective Canfield continued to meet with the remaining involved officers to collect their firearms and magazines, and bring the items to us to conduct the documentation and round counts. The following are the documented results:

Officer Pietrzak's firearm/ round count:

- Glock model 17 (9MM) serial #BTNE829
- one (1) magazine, loaded with seventeen (17) rounds of ammunition, removed from the mag-well of the Glock
- one (1) round of ammunition removed from the chamber
- one (1) magazine containing seventeen (17) rounds of ammunition
- one (1) magazine containing twelve (12) rounds of ammunition

Sgt. Rush's firearm/ round count:

- FN15 (AR-15 platform rifle) serial #FNCR000519
- Detective Buie informed me Sgt. Rush advised he may have dropped a couple rounds from the magazine on scene.
- one (1) thirty (30) round capacity magazine containing twenty-three (23) rounds of ammunition
- one (1) round of ammunition removed from the chamber

Officer Rogers firearm/ round count:

- Glock model 17 (9MM) serial #BWRH880
- one (1) magazine, loaded with eleven (11) rounds of ammunition, removed from the mag-well of the Glock

- one (1) round of ammunition removed from the chamber
- one (1) magazine containing seventeen (17) rounds of ammunition
- one (1) magazine containing 17 rounds of ammunition

Officer Sousa's firearm/ round count:

- FN15 (AR-15 platform rifle) serial #FNA020104
- First Contact Detectives informed me Officer Sousa advised the magazine initially had twenty-eight (28) rounds in the magazine prior to being deployed
- one (1) thirty round (30) magazine, loaded with twenty-four (24) rounds
- one (1) round of ammunition in the chamber

Officer Fiddler's firearm/ round count:

- Glock model 17 (9MM) serial #BTNE835
- First Contact Detectives informed me Officer Fidler conducted a "tac-reload"
- one (1) magazine, loaded with seventeen (17) rounds of ammunition, removed from the mag-well of the Glock
- one (1) round of ammunition removed from the chamber
- one (1) magazine containing four (4) rounds of ammunition
- one (1) magazine containing seventeen (17) rounds of ammunition

Throughout this process, Detective Caygle completed the photographs of the aforementioned firearms and round counts. Detective Miraglia assisted with placing each Officer's firearm and magazines/ ammunition into designated labeled packaging.

Once all the above-mentioned firearms, magazines and ammunition were collected, the First Contact Detectives collectively transported the items to Detective Buie's department vehicle to be transported to the Garden City Police Department. After arriving at the Garden City Police Department, Detective Caygle, Detective Buie, Detective Trejo, Detective Canfield and I completed the sealing and documentation for evidentiary submittal of the aforementioned firearms, magazines and ammunition into the Garden City Police Department's evidence room.

Narrative

On 07/27 at 0807 hours I received a phone call from Detective Washburn requesting that Evidence Technician Moeller and I respond to the area of [REDACTED] N 20th St. in Boise to assist with a crime scene associated with a CITF investigation. We gathered our supplies and responded to the scene arriving approximately at 0845 hours. Once in scene we were briefed by Detective Washburn and Detective Fuller and told that we were waiting on a Search Warrant for the residence of the deceased suspect.

I photographed what I could of the exterior of the residence and two neighboring residences that appeared to have been struck by the suspect shooting from his upper balcony. We photographed and collected items 1-5 which were Tuammo casings 7.62x39 that were in the driveway area of the suspects residence directly below the balcony the suspect was standing on. The photos that depict evidence numbers 6, 6A, 6B, 7, 7B were rounds that appeared to have gone through the residential trash can that was adjacent to the neighboring driveway. These items were not collected photos were taken for documentation purposes only. The photos depicting item numbers 8,9, and 10 are impact marks in the concrete next to the trash cans that continued or ricocheted upward toward the side of the residence at [REDACTED] Item number 11 that was collected is a fragment of what appeared to be part of a bullet that came to rest on the concrete in front of the roll up garage door at this same residence. Item 12 is several small fragments of bullets that were located by detective Fuller using a hand held metal detector device in the dirt near the concrete impacts. Item number 13 is a bullet fragment that came to rest on a tarp near the electrical boxes on the side of the same residence. Items photographed as 14 and 15 were the damage caused by the ricocheted rounds on the side of the residence at [REDACTED]

We obtained the Search Warrant and began to photograph the residence and the upper apartment over the garage at approximately 1400 hours. Only digital photographs were taken of the interior of the primary residence at [REDACTED]. These photos continued through the back yard and into the exterior of the loft apartment that was above the garage. Evidence Items were marked, photographed and collected from the interior of the apartment and are listed in this report. The evidence marker references are listed below:

- 16-24 Empty fired Tuiammo casings 7.62x39 from the balcony area of the apartment
- 25 Glock 22 Gen 4 Pistol Serial # TLV258
- 26 (13) Smith and Wesson .40cal ammunition from the Glock Pistol
- 27 (1) Large capacity magazine Tapco brand
- 28 (15) Tuiammo ammunition from the Tapco magazine 7.62x39 caliber
- 29 Colt Revolver .357 mag Serial # 13820
- 30 (5) ammunition .38 special
- 31 Apple Iphone from the bathroom counter
- 32 [REDACTED]
- 33 Revolver Piston Cimarron P jr. 22LR Serial # U64744
- 34a,b,c Marijuana Extract syringes, Mama Lou and Dr. Jolly
- 35 7.9 grams unknown black tar substance from bathroom drawer
- 36 1 gm net Reggies dabs Marijuana extract and 3 empty packages
- 37 (3) paraphernalia (empty syringe tube, and two metal tools)
- 38 Filter paper with unknown substance from bathroom drawer
- 39 Clear jar/container with suspected waxy marijuana substance

All the above items were collected, packaged and brought back to MPD and booked as evidence. I attempted to presumptive test the suspected drugs that were collected and the results were inconclusive. I requested that they all be sent to the ISP lab for confirmatory testing. I submitted all of the firearm information for ATF Etraces on the firearms that were collected and the return results will be uploaded to this report.

Narrative

Initial Response:Crime Scene

On 7/27/23 I was requested to assist on a CITF that occurred in Boise the prior night. Sgt Figal briefed me prior to responding to the scene and informed me the initial information being relayed was that a male subject, later identified as Macey Juker, called dispatch advising people were trying to get in his house. Dispatch heard several rounds being fired while speaking with Juker on the phone. Juker then left his residence and shot at several houses as he walked down the street. Officers contacted Juker at the intersection of 19th and Washington where Juker pointed his rifle at officers and fired several rounds as officers returned fire.

Crime Scene:

Detective Fuller and I responded to the crime scene and made contact with Sgt. Dozier with Garden City PD. Dozier walked us through the scene at the intersection where the shooting occurred. Ada County crime scene techs were actively processing that scene. Dozier requested Fuller and I respond to the suspects residence where several round had been fired from inside his residence on a balcony. A search warrant was being requested to search the residence, which was a detached garage with an apartment other the garage. The garage and apartment were on the same lot as the suspects parents house. Officers had already done a security sweep of the suspect residence and we were now waiting on a warrant to access the apartment and process the scene. Upon arrival at the suspect residence I saw several shell casings on the ground directly under the balcony on the suspect residence. The balcony is located on the backside facing the alley overlooking the alley. We also located several round impacts across the alley at [REDACTED]. It appeared Macey shot several rounds near the back garage area of [REDACTED]. I saw some damage to the siding at the garage area. It appeared Macey shot several rounds into the concrete pad for the garage of [REDACTED] and the concrete splashed up and damaged the siding. A garbage can was also shot in the same area. I also located several bullet impacts in the gravel next to the garbage can next to the garage. Crime Scene Techs Christy Boyes and Megan Moeller responded and help process the scene. We collected the shell casings that were located on the ground.

After receiving a search warrant for the residence we made entry to the house and apartment above the garage where Macey had been staying. We located several handguns and suspected narcotics in the apartment. Evidence techs took custody of the handguns as well as an AK 47 magazine with ammo in it. We also located what appeared to be a black tar substance in a drawer in the bathroom. The apartment was littered with empty beer cans and bottles of alcohol. After processing the scene and booking evidence we left the apartment and turned it back over to owners. See Evidence Tech Christy Boyes and Megan Moellers supplements for further details regarding the evidence collected.

Narrative

Critical Incident Task Force (CITF) Activation

On July 26, 2023 at approximately 2345 hrs, Meridian Police CID Det. Sgt. Figal contacted me by telephone informing me there had been a CITF activation involving the Boise Police Department. Sgt. Figal told me multiple officers had been involved in an officer involved shooting and Garden City Police Department was the lead for this CITF. Sgt. Figal requested I respond to [REDACTED] to the assigned position of first contact and assist Meridian Police Det. Cpl. Wear.

When I arrived at [REDACTED] I met with Boise Police Det. Miraglia, Boise Police Det. Canfeild, ASCO Det. Buie, ASCO Det. Trejo and later Cpl. Wear. I photographed Ofc. Pietrzak's person who [REDACTED].

Myself, Det. Miraglia, and Cpl. Wear then processed the following officers firearms and ammunition: Ofc. R. Pollard, Ofc. D. Rogers, Ofc. C. Fiddler, Ofc. J. Pietrzak, Sgt. K. Rush, and Ofc. C. Sousa. I specifically photographed all involved officers firearms, magazines, and remaining live rounds. Cpl. Wear documented round counts and serial numbers, and Det. Miraglia packaged the items. The items were provided to us by detectives Buie, Canfield, and Trejo. See attached photographs.

I then assisted the other detectives in placing the items in Det. Buie's vehicle which he transported to the Garden City Police Department. Once we arrived at the Garden City Police Department, I helped label and seal the items and turned them over to Garden City.

End of report.

Narrative

On 7-27-2023, I was requested to assist with an officer involved shooting in Boise, ID. Det. Washburn and I responded to the residence of the suspect, identified as Macey Juker, located at [REDACTED] 20th St. in Boise. Juker resided in a dwelling above the garage, which had two small balconies over looking the alley behind the residence.

Upon my arrival, I observed that the doors to the balconies were open and there were five empty shell casings laying on the driveway below the south balcony. Based on my knowledge, I identified the empty casings, as being 7.62x39 caliber, which is commonly fired from an AK-47. The five casings were marked with yellow numbered evidence placards.

I was advised that a warrant to enter the residence was currently being sought, and that upon issuance of the warrant it would be brought to the scene.

While searching the outside area of the residence in the alley area, we located what appeared to be multiple bullet strikes in the ground and on the concrete driveway of [REDACTED]. It appeared that there was two bullet holes in the garbage can on the driveway, as well as what appeared to be some damage to the side of the garage, caused by concrete debris from the strikes on the driveway.

Evidence Technicians Christy Boyes and Megan Moeller, labeled each of the strikes and photographed the area to include the empty casings on the driveway. using a metal detector, I was able to locate fragments of bullets in the dirt next to the driveway, which were also photographed and collected.

The evidence Technicians, finished collecting all of the evidence from the exterior of Juker's residence.

Upon receiving the search warrant, we entered the main residence, listed as [REDACTED] As I moved through the residence, I did not observe any signs that indicated Juker spent much time in the residence. We then proceeded to the dwelling that sat on top of the garage. The entry to the structure was on the south side of the building and the door was part way open. Inside the door, there was another door that led to the garage area, which appeared to have been sealed with spray foam. The stairs leading up to the loft area were to the left of the entrance door, and there were miscellaneous items in the entry way. Of note I observed a book about sobriety inside the entry way.

We proceeded up the stairs, where I observed the living space to look like a studio apartment, with the only enclosed room being a bathroom. On the north end of the apartment was a kitchen, and the bathroom was on the south end of the living space. I observed a bed in the open area,

and multiple pieces of weight lifting equipment on the floor. In addition I observed a lot of empty Coors beer cans in boxes, and strewn about. In the bathroom on the counter next to the sink I observed an open bottle of Rum and a cellular phone.

Evidence Tech Boyse photographed the residence and upon completion of photographs we began searching for evidentiary items. I observed on the south balcony, that there were nine additional empty bullet casings which appeared to match the casing located on the driveway directly below the balcony. I noticed a large hole in the ceiling above the balcony door, which appeared to be the shape of a golf club. It should be noted that there were golf clubs in the residence.

Detective Washburn located some firearms(see Det. Washburn's supplement), as well as a magazine for an AK-47 which had live rounds in it. The rounds appeared to match the empty casings I located on the balcony and the driveway.

Evidence Technicians located what appeared to be controlled substances in the bathroom inside a drawer. All items were photographed, collected, and packaged before being transported out to the evidence vehicle and secured.

Det. Washburn and I then left the scene and returned to the Meridian Police Department.

Narrative

On 07/27/2023 at approximately 0807 hours, Detective Washburn called and requested Evidence Technician Boyes and I respond to [REDACTED] North 20th Street in Boise, Idaho to assist with an officer-involved shooting.

Upon arrival, we met with Detective Fuller and Detective Washburn where we were briefed on the crime scene. Detective Washburn indicated a search warrant was in the process of being reviewed and approved prior to us entering the residence.

While waiting on the warrant I assisted Boyes with documenting evidence and placing evidence markers on the adjacent residence that had suspected bullet strikes coming from the upper balcony of the suspect's home. See Boyes supplement for further details.

Once the warrant was granted I assisted Boyes with collecting the evidence on the exterior part of the suspect's and neighbor's house. As we continued into the home, we worked our way through the backyard and into the loft apartment above the garage. I assisted with placing evidence markers and documenting and collecting items. See Boyes supplement for further details.

At approximately 1530 hours, Boyes and I returned to the Meridian Police Department where Boyes booked the collected items into evidence.

Nothing further.

Narrative

Boise Police Officer Jonathon Howarth

CITF Interview

July 31st, 2023

This interview was conducted at Guy Hallam's office 1516 W Hays Street, Boise Idaho. Attorney Guy Hallam was present along with Boise Police representative Detective Matthew Canfield.

The interview began at approximately 1128 hours on July 31st, 2023. The interview was recorded. Officer Jonathon Howarth acknowledged that he knew the interview was being recorded and that he was not required to make any statements.

EXPERIENCE AND SHIFT:

Jonathon said he is twenty-two years of age, that he is a P1 officer and that his badge number is 1061. His radio designator is 3111. His vehicle number was 162 at the time of the incident. He was assigned the [REDACTED].

Jonathon stated he has had no prior law enforcement experience and that his date of employment was July 18th, 2022. He said he was in the military prior to becoming a law enforcement officer. [REDACTED]

WEAPON AND UNIFORM:

Jonathon was carrying his department-issued Glock 17 with 9mm department-issued ammunition. The weapon has a Holosun 509T red dot optic approved by the department, a Kagwerks extended slide release, and Handleitgrip both approved by the police department. Jonathon said that although he approached the incident with his weapon drawn, he never fired it.

Regarding how Jonathon was marked as police officer, he said that although he sometimes wears a department issued cap, he was not wearing it that evening. He was wearing his earpiece and external vest carrier marked with a police badge and his last name. His uniform was LAPD blue. His shirt underneath the vest had Boise Police patches on either side. A duty belt with various equipment including his handgun. Uniform pants and his boots.

EVENTS PRIOR TO INCIDENT:

Jonathon said that on the evening of the incident, a call had been put out in a group chat for officers to come in early. He said that he had not come in early and that the incident occurred at the beginning of his shift. It was the first call he responded to. As for past crimes of this or similar in nature in this area,

Jonathon was unaware of any.

OFFICER STATEMENT ABOUT INCIDENT:

Referring to the call for service, Jonathon said that he was heading to his patrol area, which was [REDACTED] in Northwest Boise. He heard Officer Lee (3455) request over the radio to take the priority two Valley 3 call of a subject at the door. He said he gave some air time since he was not assigned to that area, but because it was a busy night he assigned himself to assist. He said they were getting further information about the call from Dispatch that was not making sense. They were in communication with a dispatcher over a radio side channel to try and get more clarification on if this was less of a subject at the door call and more of a crisis call for service. He said one note in particular he remembered hearing was something like "The radiation is melting my brain." The dispatcher asked the male if he needed medics and the subject said to send a helicopter. He said they were starting to figure out that this was an unusual call.

He said he and Officer Lee got off the side channel and talked on their department-issued cell phones that they were going to contact the subject via landline at a distance. They met up in their vehicles just west of the Albertson's in the Verizon parking lot to make phone contact with the subject. Officer Lee contacted the subject on the phone. They were aware of the subject's information provided by dispatch. Jonathon believed his name was Macy, born in 1994.

Officer Lee spoke with the subject and Jonathon was listening to the conversation. Jonathon said the subject was "just having some complications speaking, disclosed to us that he's drunk and had ingested heroin." Officer Lee asked the subject what the police could do for him tonight. What was the nature of his call. The subject said that he was suicidal. Officer Lee began talking with him again. Jonathon said he could not hear much of the conversation while he was sitting in his own car, but he definitely heard what he felt were five shots, which led him to believe they were no longer dealing with someone who was suicidal, but homicidal "given the barrage of rounds." (Jonathon said he forgot that in the CAD notes the subject had communicated to dispatch that he had a firearm, like an assault rifle of some kind.)

Returning to the five shots, Jonathon said he and Officer Lee responded code 3 to an area he believed was near 21st Street and Ellis to stage a perimeter. He said that Officer Lee had confirmed there was no one in the home with the subject, but they didn't know if he was in his home firing the shots or in the immediate area.

Jonathon said they were trying to get a perimeter set up for the responding officers. He heard over the radio someone say they were out with the subject with an AK 47 at 19th and Resseguie. It came out that officers coming in should come in from the north side, not from the south side because they'd be in the line of fire.

Jonathon said he was with Officers Lee, Sosa, and Kingland, though he couldn't remember if there was anyone else. He said they began running eastbound down Resseguie toward the incident. He said at 19th and Resseguie, he saw officers with flashlights. As he was getting close to the corner, he heard "Hey!

3. Address N 19TH ST / W WASHINGTON ST , BOISE			4. Phone		
5. Date Occurred 07/26/2023	6. Time Occured 22:24	7. Route To File		8. Division CID	

Stop! Stop! Stop!" He saw their flashlights moving in a southbound direction. As he was getting back to a tree that's on the corner of Resseguie and 19th, on the south side of Resseguie, he heard shots fired. He ducked down behind the tree.

Jonathon said he believed he had several rounds go by him. He said his ears started ringing. He said none of the officers he was running with in his immediate vicinity had fired weapons that he was aware of. He said he just heard "rounds kind of whizzing near [him]." His ears were ringing. He got back up and proceeded down 19th Street toward the other officers. He said he saw that on the west side of 19th, facing Washington Street, he saw that Sergeant Pietrzak was between a car and a house. He saw a subject proned out on the street with a black rifle. He saw officers on the west side with some cars, both pointed down toward Washington Street.

Jonathon said he believed he saw a flash from the subject's gun, and Sergeant Pietrzak fire a pistol. He said he also believed he saw Officer Fiddler fire a weapon as well. He said he moved in toward the subject in a stack as commands were being given. The commands were to "drop the weapon, drop the weapon" but there was no compliance from the subject. He said they took a position behind cover and developed a plan on how they were going to address the subject and take him into custody.

The plan was for Jonathon to take a shield and put it on top of a Charger to cover the windshield. Officer Kolos had brought his Charger in from the north, which is the vehicle Jonathon drove. Officer Fiddler was to his left, guiding him as he drove the Charger toward the subject. When they got to the subject, a 40mm round was fired with more commands. There was no compliance. A K9 was sent in to move the body from the weapon. Once that was done, an officer made sure the weapon was safe by standing over it. Jonathon said he began basic life-saving measures according to his training. Paramedics then arrived and declared the suspect deceased at the scene.

FOLLOW-UP QUESTIONS COMMANDS AND PERSONNEL:

Regarding verbal commands given, Jonathon said that while he couldn't remember the exact verbiage, when officers had the suspect at Resseguie and 19th Street, he heard commands to "stop" being issued, as well as to "drop the weapon," and to "move away from the weapon." Jonathon didn't hear the suspect say anything.

As far as what he observed the suspect doing in response to commands, Jonathon said that when he was at the corner of Washington and 19th Streets, he saw the suspect proned out on his back. He said the rifle was lying on the suspect's chest under his left arm. He said the rifle was pointed toward officers as they were responding and his hand was over it. He said the suspect did not respond to the commands. Jonathon stated that commands were also given to the suspect before the suspect fired his weapon.

Jonathon identified other officers he was aware of being on scene with him as: Officer Rogers, Officer Sosa, Officer Pollard, Officer Fiddler, Sergeant Rush, Sergeant Pietrzak, Officer Kingland, and Officer Lee, who was on the call initially with him.

Jonathon said he did not know the suspect prior to the incident.

KNOWN CRIMES COMMITTED BY SUSPECT:

Jonathon said the crimes he was aware the suspect committed prior to the use of force consisted of unlawful discharge of a firearm in city limits, firing into an occupied dwelling, aggravated assault on officers, and resisting and obstructing.

Jonathon said he believed rounds had flown past him, though he said he'd never been in a fire fight before. He said he could hear the cracks and them whizzing by him. He said he felt his life was threatened.

Things that made Jonathon feel threatened from the beginning of the encounter were the suspect's mention of a firearm and being suicidal. After that initial conversation, the suspect firing "five rounds" led him to believe the suspect presented more of a homicidal threat than a suicidal threat. He cited the suspect firing in the direction of officers, firing his weapon where it was a threat to the public, firing into the streets, fleeing from officers, not complying with commands, and not dropping the weapon. He said he couldn't speak for other officers but he felt his life was threatened.

Regarding the number of rounds fired, Jonathon said he didn't know the total amount of shots the suspect fired. He was aware of the five shots that were fired when Officer Lee was speaking to the suspect on the phone. He believed the suspect to be in his home or in the vicinity. Jonathon was unsure of the path the suspect took prior to being contacted by law enforcement, but he estimated the suspect to have fired forty to fifty rounds.

CRIME SCENE:

Jonathon said he did nothing deliberately or accidentally to alter the crime scene. He said the suspect had been cleared from the weapon and another officer stood over the weapon and then later he relieved Officer Lee and took over standing over the weapon. He said he also stood over a nearby casing.

WEATHER AND LIGHTING:

Jonathon said the lighting was very dark partly due to few street lights in the area. He said it was difficult to see because he was coming from State Street, which was brighter and he was coming into very dark side streets. He said that due to moving in and out of the illumination from street lights it was hard for his vision to adjust. He said it was very easy for the suspect to be in areas where he couldn't see, especially when he was illuminated by street lights going into dark as he was trying to locate the suspect. He said he felt he was backlit to the point of it being dangerous for him. He said specifically that he remembered moving through a street light and was "broadly illuminated as the suspect started firing."

According to Jonathon, the weather that day was clear, summer, sunny, and it was hot.

SUSPECT ACTIONS:

Regarding how the suspect could have ended the incident from occurring, Jonathon said he could have stopped from the very beginning of the incident. "When he made the statement that he was suicidal or

that he even had the firearm, he could have left it, um, not touched it there, could have complied. He could have not left his home, [not] continued to discharge the weapon. He could have, um, complied with officer's commands to stop, uh, when they contacted him, and he could, um, you know, dropped the weapon at any point as, as he was running.”

CLARIFICATION:

I asked Jonathon about arriving on scene and feeling exposed. He said that the plan based on the initial information that the suspect was in his home firing his weapon was to establish a perimeter to contain him if he did try to leave. He said that’s why they parked away from the home. As they were trying make sure of the location of the home for containment, other officers had contacted the suspect at 19th Street and Resseguie. He said that’s what turned their attention from the address that was given to that area.

Jonathon said it was hard to see due to it being so dark but he didn’t see the suspect until he was proned out at 19th Street and Washington Street.

CLARIFICATION QUESTIONS BY GUY HALLAM:

Jonathon said that as he was approaching the suspect’s location, he heard officers giving the suspect commands to stop. He said the suspect did not comply with commands, and shortly after fired his weapon either at Jonathon or in his direction.” He believed approximately three or four bullets came near him over his head.

Jonathon said that his understanding was that the suspect continued to fire after he was initially down. Jonathon perceived a flash of gunfire from his direction immediately followed by officers firing. Jonathon said he observed only one shot from the suspect before the second volley of shots from the officers. He said the shot from the suspect was toward officers.

Jonathon said he never observed the suspect comply with officers’ commands.

VIDEO REVIEW:

At this time, Officer Jonathon Howarth and his counsel reviewed Jonathon’s body worn camera video. Jonathon did not view the entire video. He watched the video up to the point he gave life saving measures.

Jonathon wanted to clarify that he had mentioned crossing through a streetlight prior to being fired on. He said he took a pause to get the locations of where the suspect and the officers were to avoid a crossfire. He said he could hear them but not quite see them. Once he saw the suspect failing to comply with commands and officers running toward him, he had briefly shown his flashlight downward to see his footing, but in doing so he over-illuminated his vision as he was going into deeper darkness.

Jonathon also wanted to clarify that he did hear commands as the suspect was starting to flee and after he was proned out at 19th and Washington. He said there were commands to drop the weapon.

CLARIFICATION:

I clarified with Jonathon if he had a rifle or just his handgun when he was approaching. He said he only

Narrative

Boise Police Officer Chase Fiddler

CITF Interview

August 1st, 2023

This interview was conducted at Guy Hallam's office 1516 W Hays Street, Boise Idaho. Attorney Guy Hallam was present along with Boise Police representative Detective Chris Wirshing.

The interview began at approximately 0915 hours on August 1st, 2023 after Chase reviewed a portion of his body worn camera video. The interview was recorded. Officer Chase Fiddler acknowledged that he knew the interview was being recorded, that it was a criminal investigation, and that he was not required to make any statements.

Officer Chase Alexander Fiddler is twenty-six years old. He is a patrol officer with the Boise Police Department, and his badge number is 971. His vehicle number the night of the incident was 219. It was an unmarked patrol vehicle. His designator on Wednesday, the night of the incident, was 4914. Officer Fiddler's date of employment was January 7th, 2019. He had no prior law enforcement experience.

Chase described his specialized training: [REDACTED]
[REDACTED] He holds an intermediate certificate through Idaho POST.
[REDACTED]

ASSIGNMENT AND SHIFT:

Chase said that because he is on the gang enforcement team, [REDACTED] He said the gang enforcement team is still attached to patrol, but he is not assigned a specific area. He said the activity level on August 1st was busy but not unusually so.

WEAPON AND UNIFORM:

Chase was carrying a 9mm 5th generation Glock 17. He said the weapon was fully loaded with one in the chamber. He was also carrying two fully loaded magazines. He listed the modifications to his weapon as a Holosun red dot sight, a weapon-mounted light, and rubber grip. The ammunition was department-issued 9mm Gold Dot. Chase said he also had a rifle in his vehicle but it stayed in his vehicle all night.

Chase was wearing his police uniform shirt with patches on both shoulders with a vest carrier over the top. He said there was a patch on the front and the back said Police. He was wearing his body camera as well as radio attachments, handcuffs, and pepper spray. He was wearing his belt and 5-11 pants. He was

wearing his handgun, taser, and spare magazines on his belt. He was also wearing his Danner boots.

EVENTS PRIOR TO INCIDENT:

Chase said the beginning of shift was very busy and included a call for service with Probation and Parole. Probation and Parole needed to conduct a house check that ended up crossing over into a Garden City Police case. He said that call took most of their manpower at the beginning of the shift at 1700 hours. After that call was completed, officers were able to clear up other calls. Chase said the call he was on just before this incident was basically just hotel checks looking for an individual who had been stealing vehicles and claimed to be part of a gang. He said he checked the Motel 6 first then went down to the valley to check another location. He cleared that activity just before this incident occurred. Regarding the location of this critical incident, Chase said he was unaware of any past crimes that were similar in nature.

OFFICER STATEMENT ABOUT INCIDENT:

Chase said that he was just finishing handling his previous call when officers were arriving on scene to this incident. He said he was aware of officers discussing the call on a side channel. As far as he understood there was a man who was in crisis at the time and was talking to dispatch about people in his head and that he was looking at his rifle and that general threats were made. Chase didn't know much about the threats other than the subject had mentioned a rifle. He refused to put the rifle away despite dispatch repeatedly asking him to do so. Chase knew the subject had asked dispatch to send a helicopter because people were invading his brain. These were some of the statements Chase said he heard as he was driving around.

When officers arrived on scene to the incident, Chase heard a "heightened ... stress level in their voice. And they said that they heard rifle rounds going off." Chase wasn't sure if those shots were inside the subject's house or outside, but officers "said that they were hearing rifle rounds being shot, what they believed to be rifle rounds." Once that information came out over the air, a lot of officers start going their way.

Chase said he thought he was near River Street or Front Street downtown when he went en route. He said just about everyone was heading to the call with lights and sirens. He came from Front Street and drove North on 19th (Chase said 9th but confirmed later he meant 19th) Street from State Street. He said as he was about a block and a half away from the subject's house, he saw a man in the middle of the street with his hands on his head.

Chase saw officers to the north of subject that had lights pointed at him and it sounded as if they were speaking to the subject. He said he wasn't sure if that was the subject in the call, but after listening to the radio for a bit it appeared it was the subject of the call. He said he initially couldn't see a weapon anywhere. He thought about grabbing his rifle, which was staged on the passenger side of his patrol vehicle because of the initial call at the beginning of shift that almost turned into an SOU call out. But officers were just to the north of him and he was "essentially in their shooting lane." Chase felt that if anything did happen, if the subject had a weapon on him as had been broadcast earlier, he would have

been in the way. He decided to cross to the west side of the street. (Chase said he had parked his patrol vehicle on the east side of the street and he had just closed the passenger side door and walked to the west side of the street.)

Chase said the subject was still in the middle of the street on his knees. The subject looked at him a couple of times. Chase said he initiated his weapon mounted light because he didn't see a gun, but there was one mentioned, so he was looking for it.

According to Chase "it was pretty dark in the middle of the street there, just in the north end" where there are not as many lights. Chase said he was still looking for a weapon somewhere near the subject, still doing a threat evaluation. When Chase activated his flashlight, he said the subject looked at him. He turned the light off and just held his position because he had "no rapport with the gentleman." Chase just listened to the radio and attempted to provide security.

Chase said that as soon as another officer started to give commands, the subject got up immediately, turned around, and started running south. He believed it was on 19th Street approaching Washington Street. Chase saw the subject run behind the passenger vehicle that he had parked his patrol vehicle behind. To Chase, it looked as if the subject was running toward his patrol vehicle, which worried Chase because he didn't lock it. Chase said he didn't realize that the subject had staged his rifle on the trunk of the vehicle in front of his patrol vehicle.

According to Chase, he had his pistol out the entire time, and when the subject started running, he didn't want to just run up and tackle him, because a weapon was mentioned. Although Chase didn't see one, he felt it was best just to wait to see what the subject was going to do. Chase said he was pretty close when the subject started running, so he felt confident that if the subject continued running with his hands free and no obvious weapons, he could catch him.

However, the subject grabbed the rifle that he'd staged on the trunk, went to the sidewalk and ran south on the sidewalk next to Chase's patrol vehicle. The subject was running with his rifle.

Chase returned to the beginning of the call citing the fact that there was a rifle and the subject decided to step out of the house with that rifle. It sounded as though the subject was going to surrender to officers, which Chase felt "was fantastic." But when he started to run, that elevated the situation for Chase. He said he's been in his share of foot pursuits, and when someone goes out of their way to stage and retrieve a weapon, he considers that a higher threat level. The subject continued to run southbound with the rifle.

Chase said he gave the subject "as much leeway as necessary" as long as he didn't start shooting randomly into homes or point the rifle it at him and other officers, he was prepared to let the subject run, call out his direction on the radio as well as other important information. Instead, when the subject approached Washington from 19th, running southbound, he turned and pointed the rifle at officers. Up until this point, according to Chase, he and multiple other officers had been giving the subject commands

to “Stop! Stop running! No!”

But the subject turned with the rifle and pointed it toward them, which made Chase believe he was potentially going to take the life of officers or the life of anyone else in the area. He said in his experience residents were often out walking in the area. He felt there was not only a threat to officers but to pedestrians so he fired at the subject “numerous times,” shooting rounds in his direction. Chase said he was at the rear driver’s side of his patrol vehicle, using it for cover. He said he fired his initial volley of rounds as did many other officers. The subject collapsed on the street east of the intersection at 19th and Washington.

Chase said the subject “collapsed in the street and there was a slight pause because I wasn’t sure if the threat had been eliminated or not.” He said that was the only reason he was shooting, because he felt there was an on-going threat to the public and to him.

When the subject collapsed, it was clear to Chase that he was continuing to try and point the rifle in their direction, but it seemed he didn’t have the strength to do it. Chase said the rifle was on the subject’s left side, running lengthways with his body. The barrel was pointed down toward his feet, but it was on his left side. It seemed to Chase as if the subject was trying to lift the rifle and point it in their direction, so he shot again. He said he took another pause. The rifle was still on the subject’s left side. “He began to fire off rounds west, down Washington.”

Chase said that at this point he felt there was more of a threat to citizens due to there being houses down range of the subject. He could see that the subject was skipping rounds off the pavement. He believed he saw the subject fire approximately three rounds like that. Chase said he knew the subject was shooting a rifle round that had high penetration power, which “was very problematic for people in these houses. And then who knows where those rounds were going.” He said he shot again and believed other officers had done the same.

Chase said he felt the threat had been neutralized, so they began to formulate a plan to approach the subject. By now there were a lot of officers on scene. They began to formulate a plan to place the subject under arrest and render life-saving efforts. An AFC brought up his vehicle, which was a Charger. Another officer or sergeant retrieved a rifle shield. The plan was to place a shield in front of the Charger dash. Chase said he was going to be the lethal coverage for the driver of that Charger, and there was an arrest team on the passenger side. He said they were using the vehicle purely as cover.

According to Chase, they were going to see if there was any response from the subject once they approached, giving him commands. He said he was directing the driver as they approached the subject using the Charger as cover. Chase said he still had his pistol out. They pulled up, facing east and facing the subject. He said they put the nose of the Charger to his feet and gave him commands but received no response. A 40mm eXact impact round with the blue tip was deployed to see if there was any response since they weren’t sure if the subject was “pretending to be injured beyond help.” The round was deployed by another officer who came to his side of the vehicle and fired what he believed was just

one round. They received no response.

Chase said they had also planned to use a K9 to drag the subject away from the rifle. He believed the subject's hand was still on the grip of the rifle, and they weren't sure if the subject was injured or simply lying down in the middle of the street. The K9 was deployed from the passenger's side of the Charger.

The K9 bit the subject and pulled him away from his rifle. Officers placed the subject into handcuffs while other officers guarded the rifle without touching it and started giving the subject medical care. Chase said they provided care until the paramedics arrived and took over care. Chase said he did not provide care because he was quickly sequestered.

CLARIFICATION QUESTIONS:

Regarding verbal commands given to the subject, Chase said the ones he gave were "Stop!" and "Drop it!" He said when the subject first began running on the street he told him to stop because he didn't know what his intention was. Chase said that after shots had been fired and the subject was still in the street and raised up the rifle again, he told the subject to drop it. After a pause, Chase fired again. Chase reiterated that they just hoped the subject would stop firing, throw the rifle away or push it away, and follow commands so they could provide medical care. But the subject did not comply.

Chase said he heard other officers giving commands. He heard someone say "Stop! No! Stop running!" and "Drop it!" at the same time he did.

Regarding when Chase arrived on scene and the subject was kneeling on the pavement, he said he believed they'd already had given the subject commands to get on his knees. He said while he was there, officers were taking a tactical pause to get on the radio and notify other officers what was happening and their location, as well as directions how to approach so as not to be in a crossfire position. Chase said that after he arrived he didn't think any commands were being issued until the subject ran. He said an officer began speaking with the subject but didn't get through a sentence before the subject took off.

Chase said the officers he recalled being on scene at the time were Sergeant Peitzak, Officer Pollard and Sergeant Rush.

CRIMES COMMITTED BY SUSPECT:

Chase said the crimes he was aware of committed by the subject were discharge of a firearm in city limits before he arrived, possibly firing into an occupied dwelling (Chase said he wasn't sure where those rounds went), aggravated assault and battery upon certain personnel.

Chase said that in a perfect world the subject would have been taken on a mental hold with the statements he was making and his intent. Chase explained that if the subject had given up and didn't run toward the rifle, he would have been taken to the hospital and given care.

Chase said he believed this type of crime was unusual for the area. He also did not know the subject prior to the incident nor was he aware of any violent behavior in the subject's past.

3. Address N 19TH ST / W WASHINGTON ST , BOISE			4. Phone		
5. Date Occurred 07/26/2023	6. Time Occured 22:24	7. Route To File		8. Division CID	

Regarding the state of crisis Chase felt the subject was in, he explained that to mean he felt the subject was having “a mental episode, a mental breakdown, um, seems as though he was suffering from a mental illness of some sort where he was disconnected from reality or something to that effect.”

OFFICER IDENTIFIED THREATS:

Chase explained that before he arrived on scene, knowing there was man with a rifle shooting rounds in the area, that “pricks up your ears as an officer.” He said that being on scene and the subject deciding to run caused him concern because you never know where a person is running and their intent. He said there are a lot of variables to consider.

Seeing the subject run toward the rifle and continue running with it made Chase believe the subject was showing more intent than to just get away. He said that made him feel threatened as well.

When the subject turned around with the rifle and point it in their direction, that made him feel his and fellow officers’ lives were threatened.

After the subject was down and seeing him attempt to lift the rifle and pulling the trigger, that made him feel his intent was still to harm officers, and if he couldn’t do that, he would harm citizens.

ESTIMATED SHOTS FIRED:

Chase said he estimated that he fired approximately 8 shots. Since watching his on-body video, he knew there were more than eight that he fired. He said he did do a tactical reload.

CRIME SCENE:

Chase said he did nothing on purpose or accidently to alter the crime scene.

WEATHER CONDITIONS:

Chase described the weather at the time of the incident as a warm summer night and it was very dark. He said in his experience, the valley compared to the bench is very dark because there are not as many street lights.

SUSPECT ACTIONS:

Chase said the subject could have given up or stopped the incident prior to the use of deadly force by agreeing to go with officers after first making that call. After the subject fired rounds and found officers and initially complied with commands, he could have given up when he was on his knees. He could have decided not to run, but after running he could have decided to stop. After he grabbed his rifle and ran, he could have stopped there. Chase added that they “were all giving him that time to figure that out.” After rounds were exchanged, he could have pushed his rifle away or taken his hand off the rifle and not fired additional rounds so they could provide medical care. Chase said at all of those points the subject had the opportunity not to make the decisions he made that night.

FURTHER CLARIFICATION QUESTIONS:

I asked Chase to clarify how many times the 40mm was fired. He said he believed it was fired once and then the K9 was sent. He said the 40mm was fired after they approached the subject. It was an additional

way to for them to see if he was able to comply with commands or “faking it.”

FOLLOW-UP QUESTIONS GUY HALLAM:

Counsel clarified with Chase that he meant 19th Street when he was saying 9th, which I reflected in his answers to the previous questions.

Chase said that when subject turned and ran, Chase he did not see the subject comply with commands from him and other officers. Chase also said that from the point that the subject picked up the rifle from the vehicle to the point that the dog pulled him away from the rifle, he never saw the rifle out of the subject’s hands or control area. Chase confirmed that every time he discharged his weapon at the subject, the subject was either actively shooting or had the rifle in his control.

Regarding how many rounds Chase believed the subject fired, he said he wasn’t sure how many. Although when the subject was collapsed on the street and fired west, Chase believed he fired three times.

Chase said that in his review of his on-body video, he observed at least one muzzle flash when the subject was running and pointing it toward officers.

NOTE: For the record, Officer Chase Fiddler and his counsel reviewed only two minutes and ten seconds of his on-body video having to do with the initial engagement with the subject.

CONCLUSION:

The interview concluded at approximately 0950 hours.

Narrative:

On 7/27/2023 around 0510 hours, I responded to N 10th Street and W Washington Street in Boise, Ada County, Idaho at the request of Detectives to create a 3D scan, along with panoramic images of the scene. With the assistance of Deputy Huffaker, I used a 3D Scanner with a panoramic imaging system to create a digital image of the scene with measurable points at the time of the scan. I provided a flash drive of the scan to Sergeant Wieres and booked another flash drive containing the same scans into Ada County Property and Evidence. The file formats for the scans are available in ".lgs" and ".e57", and has Leica TruView Portable on the flash drive.

Narrative	
------------------	--

Narrative:

On 07/27/2023 I was working in my assigned position as a Major Crimes Detective in the Criminal Investigations Division (CID) at the Ada County Sheriff's Office. I was contacted by Sergeant Weires and asked to respond to an area near North 19th Street and W Washington Street in Boise, Idaho to assist with a Critical Incident Task Force (CITF) investigation. I was told Boise Police Department (BPD) Officers had been in an Officer involved shooting and was asked to take aerial photos with a drone of the scene.

I arrived on-scene at approximately 0708 hours. I was briefed by on-scene detectives. I took multiple aerial photographs and one video of the scene. It should be noted the drone I used to take the photographs and video, captures a color image and a thermal image for each photograph or video.

After finishing at the scene, I was told there was an additional scene approximately a block to the north where there had been shots fired prior to the OIS and was asked to take aerial photographs of that scene as well.

I have added all the photographs, including the thermal photographs to this report as attachments and downloaded the video, including the thermal video to Evidence.com

Attachments:

Narrative

On 7/26/23 at 11:18 pm, I received a text alert and an email from Lt. Brent Klimke stating officers with the Boise Police Department were involved in a shooting at [REDACTED] N 20th St. The Critical Incident Task Force (CITF) was activated to conduct the investigation. The lead investigating agency was the Garden City Police Department. The email stated to wait for assignment.

At 11:38 pm, I received a phone call from Sgt. Bill Weires. Sgt. Weires asked me to respond to the [REDACTED] to assist with First Contact duties. Sgt. Weires also advised me that I would be the lead investigator for first contact duties.

On 7/27/23, at 12:20 am, I arrived at the [REDACTED]. The other members of the First Contact Team were Detective Robert Trejo, Detective Matt Canfield (BPD), Detective Mike Miraglia (BPD), Detective Isaiah Wear (MPD), and Detective Ken Caygle (MPD).

Boise Police Lieutenant Josiah Ransom was coordinating [REDACTED] for the involved officers. The First Contact Team was provided [REDACTED] for storing evidence and supplies. We were provided a list of six involved officers and one involved-witness officer, along with their [REDACTED].

Sgt. Weires advised me that we would be collecting any firearms that were fired during the incident, to include the magazines and ammunition. We would not be collecting other equipment or uniforms.

At 12:50 am, we met with Sgt. Jason Pietrzak in [REDACTED]. Sgt. Pietrzak said he did not have any blood or biological transfer to his uniform. Sgt. Pietrzak said he did a tactical reload after firing his primary weapon. The magazine used during the shooting was in a pouch on his duty belt. His primary weapon had a fully loaded magazine inserted. Sgt. Pietrzak also had an unfired backup weapon, which was a five shot revolver. We checked that weapon, and all five rounds were accounted for in the cylinder. We seized one loaded handgun, and two magazines. We stored those items in [REDACTED].

At 1:13 am, we met with Officer Jonathon Howarth in [REDACTED]. Officer Howarth said he did not fire his weapon during the incident. Officer Howarth said he did have blood on his hands, but it was washed while still at the scene. Officer Howarth told us that he thought there may be blood on his uniform pant legs; however, we could only find what appeared to be dirt. We checked Officer Howarth's handgun and found that it was fully loaded with 18 rounds, and he had two fully loaded spare magazines with 17 rounds each.

Detectives Wear, Miraglia, and Caygle stayed in [REDACTED] and began to process the items that were seized from officers. Detective Wear had already met with Officer Pollard and seized his firearm.

At 1:25 am, we met with Sgt. Kirk Rush in [REDACTED]. Sgt. Rush said he fired his rifle during the incident and did not fire his handgun. Sgt. Rush said that he believed the rifle was loaded with approximately 28 rounds, but he wasn't certain. He told us that he believed that he fired 4-5 rounds during the incident. We checked Sgt. Rush's handgun and found that it was fully loaded with 18 rounds, and he had two fully loaded spare magazines with 17 rounds each. We seized the rifle and stored it in [REDACTED].

At 1:35 am, we met with Officer Dominic Rogers in [REDACTED]. Officer Rogers said he did not have any biological transfer on his uniform. We seized his handgun and two spare magazines and stored them in [REDACTED].

At 2:00 am, we met with Officer Craig Sousa in [REDACTED]. Officer Sousa said he fired his rifle during the incident and did not fire his handgun. Officer Sousa said he had a total of 28 rounds in his rifle, including the chambered round. He said that he did not have any biological transfer on his uniform. We checked Officer Sousa's handgun and found that it was fully loaded with 18 rounds, and he had two fully loaded spare magazines with 17 rounds each. We seized his rifle and stored it in [REDACTED].

At 2:10 am, we met with Officer Chase Fiddler in [REDACTED]. Officer Fiddler said he did not have any biological transfer on his uniform. Officer Fiddler said he did a tactical reload after firing his primary weapon. The magazine used during the shooting was in a pouch on his duty belt. His primary weapon had a fully loaded magazine inserted. We seized the handgun and two spare magazines and took them to [REDACTED].

On-body cameras were collected from the officers. The cameras were turned over to the Boise Police Department for upload.

Members of the First Contact Team assisted with transferring all seized items to my vehicle. At 2:35 am, I transported the items to the Garden City Police Department for further processing. The items were invoiced, and packaging was completed. All items were turned over to Detective John Brumbaugh with the Garden City Police Department.

Detective Wear provided the round counts for each officer:

Narrative

Narrative:

On July 27th, 2023, I was assigned as an on-call detective with the Ada County Sheriff's Office. I was notified to assist with an investigation of an officer involved shooting involving an individual later identified as Macy Juker and officers with the Boise Police Department. The incident occurred near the area of [REDACTED] N 20th Street, and N 19th St and W Washington St, Boise, Idaho. This incident is documented under Boise Police Report 23-312299.

The initial call into dispatch for this incident was on July 26th at about 2225 hours. I arrived on scene to assist in the investigation on July 27th at about 0030 hours and left the scene at around 0330 hours.

Upon my arrival, I was briefed on minimal details of the incident. I was informed Macy possibly fired multiple rounds from his rifle while on foot in the area around his residence from [REDACTED] N 20th Street to the area of N 19th St and W Washington St, where he was involved in a shooting with Boise Police Officers.

Area Canvass

My assignment in the investigation was to canvass the area of the incident to locate any residential buildings or vehicles which bullets had impacted, check on the welfare of residents, and interview witnesses.

I began canvassing from the area of N 19th St and W Washington St.

Residences hit by bullets:

The following residences were observed to be impacted by bullets:

- [REDACTED] W Washington St (multiple bullet holes impacted through the exterior, inside of the residence)

I observed the residence of [REDACTED] W Washington St had about three bullet holes on the east side exterior, which looked to possibly have also impacted through the outer walls. Boise Police Officers were attempting to conduct a welfare check of the residence but were unable to reach any residents inside. Officers were eventually able to gain entry to the residence to check on the

welfare of the residents. Officers verified no one was home. I was informed by the officers that bullets had impacted through the exterior and into the residence but I never went inside.

- [REDACTED] N 19th St (bullet hole) (witness)

The residence to the north of [REDACTED] W Washington St is [REDACTED] N 19th St, where I observed a bullet hole in the east side exterior wall near the living room windows. The bullet did not penetrate inside. The homeowner, [REDACTED], witnessed the incident while standing in his living room looking out the window. [REDACTED] was uninjured. [REDACTED] was interviewed by Detective C. Tucker with the Ada County Sheriff's Office, see her supplement report for further detail.

Boise Police Officers contacted the following residences which were found to have been impacted by bullets and checked on the welfare of all residents. No injuries were reported.

- [REDACTED] N 19th St (bullet in window) (contact [REDACTED])
- [REDACTED] W Washington St (bullet in window) (contact [REDACTED])
- [REDACTED] W Washington St (bullet in window) (contact [REDACTED])

Vehicles hit by bullets:

The following vehicles were observed to be impacted by bullets:

- 2020 White Nissan Altima [REDACTED] at N 19th St and W Washington St
- 2015 White F150 [REDACTED] at N 19th St and W Washington St
- White Jeep Cherokee [REDACTED] N 19th St and W Washington St

Neighborhood Camera's

The following are possible exterior cameras on residences which were possibly in a location where video of the incident could have been recorded:

- [REDACTED] N 19th St (camera in alleyway) (unable to contact)

Narrative

Narrative:

On July 27, 2023 at 12:12 a.m. I was called out by Sgt. Weires to the scene of an officer involved critical incident that occurred in the area of 19th St and Washington St in Boise, Ada County, Idaho. I am a member of the Ada County Critical Incident Task Force (CITF) which is a group of law enforcement officers from five local agencies in Ada County who collectively investigate officer involved critical incidents. This investigation involved Boise Police Department as the involved agency, with Garden City Police Department as the lead investigating agency. My assignment was to canvass the neighborhood where the incident occurred looking for evidence and interviewing witnesses. Detective Neumann assisted me in this assignment.

Interview with witness [REDACTED]:

(Audio uploaded to evidence.com, 2 files) I was notified there was a witness in the area when the shooting occurred who had been in a vehicle I saw was inside the crime scene. I met with [REDACTED] who was waiting in the area. He had already written a statement while waiting to be interviewed. [REDACTED] told me the following:

[REDACTED] drives for UBER, a transportation app used similar to a taxi. He came into the area of 19th and State around 11:00 p.m. in Boise looking for fares, driving loops around this area. The UBER app shows areas which are busier for drivers and more likely to garner fares. [REDACTED] was driving his white 2020 Nissan Altima Idaho plate [REDACTED] eastbound on Washington near 19th (windows down) when he saw some lights, possibly flashlights, and he stopped briefly to

see what was going on. He heard officers yelling at someone, "Boise Police, get on the ground!" He saw a male subject running towards him carrying what looked like a rifle and saw officers running after the man. He saw the suspect turn around and point his rifle at the officers. After this he heard a flurry of gunshots but didn't look at who was firing, as he quickly climbed out the passenger side of his car and lied on the ground next to his car to protect himself. [REDACTED] vehicle was hit by gunfire likely from the officers rather than the suspect, due to his position (downrange from the officers who were firing).

I [REDACTED] if he saw red and blue police lights prior to the shooting and he said he did not, he only saw flashlights at first. I asked if he could hear the officers identify themselves as police officers, and he acknowledged he heard several commands such as, "Boise Police, drop the gun", "Boise Police, get on the ground", etc. He could see they were wearing recognizable uniforms. After the shooting [REDACTED] stayed in the area and was briefly talked to by officers on scene. He was asked to wait in the area. [REDACTED] gave me written consent to search his vehicle for evidence. He asked me to retrieve his vape, vape juice, and Chipotle uniform for work the next morning, which I did. As I was looking at [REDACTED] vehicle, another officer on scene mentioned [REDACTED] "follows" police and often shows up on traffic stops and other calls and takes photos/videos of them. When I returned to [REDACTED] with the items he needed from his car I asked him about this. [REDACTED] said he doesn't follow officers intentionally, and he had no pictures or videos of tonight's event. He offered I could look at his photo/video gallery. He had several photos taken from a distance of some officers working a call at Fairview and Curtis around 4:06 p.m. on July 26, 2023. The photos just showed police standing outside and talking to some civilians. I asked why he does this and he said, "Just for shits and giggles." He likes to see who the police are talking to and arresting. [REDACTED] said he doesn't do "that posting stuff" when I asked if he posts the photos. He said he was just driving home when he saw this police activity he had the pictures of. He said he does not have Facebook or other social media accounts.

[REDACTED] left the area on foot and was able to retrieve his vehicle later that day after the scene was processed. I contacted BPD Detective Jagosh about the damages to [REDACTED] vehicle, and he sent him a claim form for their risk management department to begin processing.

Interview with witness [REDACTED]:

(Audio uploaded to evidence.com) I learned there was a witness in the residence at [REDACTED] N. 19th

St in Boise, which is in close proximity to where the incident occurred. I knocked on the door and met [REDACTED] [REDACTED] invited Detective Neumann and myself inside and gave a statement. He said he was in the bathroom tonight when he heard a noise which sounded like metal banging on metal. He looked outside and saw a male walking down the middle of his street carrying a rifle which he had pointed up in the air. [REDACTED] said he's not familiar with guns, but he would describe the male's weapon as a machine gun with a clip. He went back to the bathroom and came back to the window to look. At that point he didn't see the armed subject anymore. He saw a white car pull up and park, and an unmarked police car drive up to the stop sign, pull through the intersection and then turn it's headlights on. [REDACTED] then saw several police officers in the area and the armed subject walking back up the street. [REDACTED] was able to see one police officer with a pistol pursuing the armed subject, and then the suspect turned towards the officer and he heard a burst of gunfire (several shots) which he believed was both the officer and suspect firing upon each other. Neither the officer or the suspect seemed to be hit right away. The suspect ran around the corner, and then [REDACTED] heard more shots and saw officers grouped up in different areas behind vehicles. Then there was a long pause, which [REDACTED] said, "they were standing there forever" and he did not see the suspect emerge. A police car moved forward [towards the area where the suspect had been] with officers behind it. A police K9 was brought up to the scene on a leash, and then the K9 drug the suspect by the lower leg towards the vehicle where officers rendered aid to the suspect, who [REDACTED] thought was injured beyond help at that point. He described the subject as a male, average height, overweight, wearing a hoodie or loose fitting sweatshirt. The suspect was not someone he recognized. [REDACTED] described the suspect was 'cavalier' with his weapon, which made [REDACTED] think he wasn't trained to use it. I asked [REDACTED] what he meant by that, and he said it was the way the suspect was holding the gun off to the side, and when he shot towards the police officer he seemed to "whip it around" and his aim was haphazard. He could definitely see gunfire coming from the suspect's weapon as well as the officer's. He described the gunshots from the suspect as being in a stream of shots, as if his weapon was automatic. He heard 4-5 initial shots from the officer's pistol. [REDACTED] heard additional shots after a short pause. [REDACTED] called his brother during the shooting (at 10:48 p.m.) and talked to him on Face Time. [REDACTED] did not take photos or video of the incident and he does not have cameras on his property.

I asked [REDACTED] if he heard any commands given by the officers in this incident. He could not recall hearing commands before the first burst of gunfire, but definitely heard commands being shouted afterwards. He heard people being warned or told to stay out of the area. He saw the

on wednesday July 26, 2023 I was in the area of Washington & 19th St
MO when I heard officers from Boise police Dept yelling at a guy
to put his hands up and to drop the gun. Then I heard officers
say that he's running and at that time I saw the suspect
stop and raise his weapon towards officers. then I heard
shots ring out and I crawled out of my car and closed
the passenger door and stayed on the ground until
the gun fire stopped. I also heard bullets hitting the
ground by my car and I got up from where I was at
and ran to a different spot when officers told me
to get down on the ground. Then officers came to
me to talk to me.

I, [Redacted], have read the above statement consisting of 1 pages,
and I know the same to be a true statement as given by me. I have initialed all mistakes noticed by me.

Narrative

Narrative:

On 07/28/2023, I was asked to assist in an investigation as a member of the Ada County Critical Incident Task Force (CITF). My current appointment is as a Major Crimes Detective in the Criminal Investigations Division (CID) at the Ada County Sheriff's Office. I was asked to conduct an interview with Officer Craig Sousa. The date, time, and location of said interview was set and later provided to me.

On 08/02/2023 at approximately 1030 hours, I interviewed Officer Sousa at the Strindberg & Scholnick Law Office located at 1516 W Hays Street in Boise, Idaho. I recorded our conversation on an audio recorder. I have added the audio recording to this report in the attachments. The following is a summary of our conversation. The information may not be listed in the order presented or exactly as stated but listed and documented for the ease and understanding of the reader. For specific details refer to the recordings of the interview.

Prior to the interview, I was told Officer Sousa's attorney, Chad Johnson, requested Officer Sousa have an opportunity to review his On Body Video (OBV) that was captured during the incident. After an initial meeting with Officer Sousa and Johnson, I provided a copy of the OBV. Officer Sousa and Johnson left the room to review the OBV and returned a short time later.

I introduced myself followed by Detective Schofner and Detective Miraglia. Detectives Schofner and Miraglia are Detectives for the Boise Police Department (BPD) and were sitting in on the interview as representatives for BPD.

I explained the interview would be recorded and it was part of a criminal investigation. I explained to Officer Sousa he was not required to talk to me and asked if he understood. Officer Sousa verbally acknowledged he understood.

I started by asking Officer Sousa to provide his full name, rank, badge number, radio designator and vehicle number. Officer Sousa told me the following in summary:

Officer Sousa is 26 years old, is currently assigned to the Patrol Division at BPD and his badge number is 995. Officer Sousa's radio designator was #2662 and his vehicle designator was

vehicle 410. Officer Sousa was hired at BPD in March of 2020 and had no prior law enforcement experience. His work schedule at the time of the incident was [REDACTED]

Officer Sousa completed a 22-week patrol academy at BPD, followed by a 14-week training program and has an Intermediate POST (Peace Officer Standards and Training) certificate. Since being employed at BPD, Officer Sousa has been in numerous yearly trainings provided by BPD and other trainings he has sought out himself. Officer Sousa has a patrol rifle and a 40mm assigned to him.

The firearm Officer Sousa used during the incident was a 223 caliber, FN, AR-15 short barrel rifle with a black finish. The only modification to the rifle is a department issued red dot optic. Officer Sousa didn't know what brand of ammo he used but he stated that it and the rifle are department issued. Officer Sousa had 28 rounds in the rifle at the time of the incident and does not load the firearm any specific way.

On the night of the incident Officer Sousa was wearing a standard issue, class C BPD uniform which consists of blue tactical pants, blue under shirt with BPD patches on both shoulders, an outer-carrier vest with the words Boise Police on the back and a BPD badge on the front, a name tag and a velcro badge that says Police on it. Additionally, Officer Sousa was wearing a duty belt.

The vehicle Officer Sousa was driving was a marked BPD patrol vehicle. The vehicle is marked with the words Boise Police Department on both sides and the back of the vehicle with overhead emergency lights mounted to the top.

*****Events That Occurred Prior To The Incident*****

Officer Sousa was typing reports when he noticed Officer Lee was assigned to a "Crisis Call." Officer Sousa read the call notes and learned the calling party claimed there were people on his roof, he was possibly being brain washed and that there were weapons in the home. Officer Sousa was monitoring radio traffic but wasn't focused on the traffic for that call at that time because he was focused on typing his report and he was not familiar with any similar calls in that area.

*****Officer Sousa's Description of The Incident in Detail*****

While typing reports he heard Officer Lee requested a Code-3 response of multiple officers for a subject that was actively shooting in a neighborhood. Officer Sousa didn't have a lot of further information about the incident. His thoughts were that Officer Lee was on-scene and the subject could possibly be barricaded in a structure, or out walking around the neighborhood and that it was possible Officer Lee could be actively engaged with him. Officer Sousa arrived at the same time as Officer Dance and parked near the intersection of N 21st Street and W Ellis Avenue. From their vehicles, Officers Sousa and Dance walked east on W Ellis Avenue, towards the call address. Officer Sousa could see another team of 3 officers in front of him, staged behind a fence, facing north. The 3 officers were, Officer Lee, Officer Kingland, and possibly Officer Howarth.

As Officer Sousa approached the other officers, he heard Officer Pollard notify resources on the radio, that he had the suspect located at 19th and Resseguie. Officer Pollard also notified resources he had the suspect "proned-out" and that the subject had an AK-47 style rifle in his possession when Officer Pollard first contacted him.

Officer Sousa and the other officers started towards the intersection of W Resseguie Street and N 19th Street. As they approached the intersection, Officer Sousa could hear verbal commands being given. Officers were telling the subject to "stop" then Officer Sousa heard what sounded like rattling of equipment on duty gear which Officer Sousa interpreted as officers getting into a foot pursuit with the subject. Officer Sousa started running towards the sounds and shortly after, heard an exchange of gunfire which he thought sounded like two distinct different calibers, specifically shots from a rifle and from a handgun. This exchange of gunfire lasted longer than Officer Sousa expected it to, and he figured that meant the suspect was actively shooting back at officers.

Once Officer Sousa got closer to the scene, he noticed Officer Pollard and ran to his position. He could see the subject laying in the road near the intersection of 19th and Washington. The subject was laying on the road but still had possession of the rifle which was positioned on top of the subject's chest. Officer Sousa could see the subject attempting to pull the firearm up. Officer Sousa gave the subject a command to "Drop the gun." After giving the command the subject again attempted to pull the gun up and Officer Sousa shot one time at the subject.

After Officer Sousa fired that round, he took a small pause to see if the shot was effective at stopping the threat. A short time later, Officer Sousa heard two gunshots and saw the muzzle flash of two rounds exiting the suspect’s rifle. Officer Sousa fired two more rounds at that time then the scene went “stagnant.”

Officer Sousa noticed Sergeant Pietrzak near a house with limited cover, so Officer Sousa moved towards him to provide long range cover with his rifle. While Sergeant Pietrzak and Officer Sousa watched the subject from that position and a team of officers were assembled to take the subject into custody. After that team was assembled, Officer Sousa and Sergeant Pietrzak, moved to their right where they had better cover behind a vehicle and Officer Sousa was relieved from the scene shortly after.

At this point, Officer Sousa added, as he was first approaching Officer Pollard, he knew there were officers to their right but didn’t know exactly where they were. When the subject was lifting his rifle up, Officer Sousa thought the other officers would be down range from the subject’s rifle.

I asked Officer Sousa to describe what he meant when he said the subject was pulling the gun up and if he could tell, what direction the rifle was pointed. Officer Sousa wasn’t sure initially which direction the rifle was pointed but he thought it was pointed towards the west. Officer Sousa told me the subject was laying on his back with the rifle laying across his chest. He demonstrated with both hands, lifting the rifle up and towards the subject’s head. Because Officer Sousa used both hands when he demonstrated this, I asked him if the subject had both of his hands on the rifle. Officer Sousa told me he did. It wasn’t until Officer Sousa saw the two muzzle flashes from the subject’s rifle when he knew for sure the rifle was pointed towards the west.

I asked Officer Sousa if he made any verbal commands other than what he had already told us. He said he told the subject to “drop the gun” one time. Officer Sousa heard other officers tell the subject to drop the gun as well, but he wasn’t sure which officers those commands came from. When Officer Sousa gave the command, he delivered it loud and clear.

I asked Officer Sousa to list the officers he was aware of that were on the scene. Officer Dance, Officer Kingland, Officer Lee, Officer Howarth, Officer Pollard, Sergeant Pietrzak were the officers he was aware of being on scene at the moment of the shooting. He later found out the

officers to his right were Sergeant Rush, Officer Fiddler and Officer Barber was the officer that relieved Officer Sousa from his position.

Crimes Committed Prior To The Use of Deadly Force

I asked Officer Sousa what crimes had been committed prior to the use of deadly force.

Officer Sousa told me at the beginning of the incident the subject had been shooting rounds in the neighborhood and said that would constitute Unlawful Discharge of a Firearm. Once Officer Pollard updated units that the subject was in a different location, Officer Sousa thought the subject may have been shooting into occupied dwellings. Once the shooting started after officers arrived on scene, Officer Sousa thought there was at least an Aggravated Assault and if someone would have been hit, it would have been an Aggravated Battery.

Officer Sousa was not aware of any similar crimes in this area occurring prior to this incident nor did he know the suspect prior to the incident.

I asked Officer Sousa to identify the things that made him feel threatened. Officer Sousa's initial fears were due to the suspect firing rounds from his residence and the information about the mental health issues added more concern. Officer Sousa's fears were furthered with the suspect moving through the neighborhood and then when the subject was shooting at officers. Officer Sousa's concern was for officers and citizens in the area and in their homes.

I asked Officer Sousa how many times he shot and his location when he fired those rounds. He told me he shot a total of 3 times. Those rounds he fired were from behind a vehicle on the east side of 19th.

Officer Sousa did not do anything to accidentally or purposefully to alter the scene.

I asked Officer Sousa about the lighting and weather conditions during the incident. Officer Sousa told me the area was pretty dark when he first arrived on scene which made it difficult to locate other officers. The intersection of 19th and Washington had more light and Officer Sousa thought there may have been a street light at that intersection. The weather at the time of the incident was warm and clear.

I asked Officer Sousa if the suspect could have given up or stopped the incident at any time

prior to the use of deadly force.

Officer Sousa told me he believed so. Officer Sousa was under the understanding that at one point, Officer Pollard had the suspect “proned-out” and was compliant at one time of the incident. Due to the radio traffic from Officer Pollard, the sound of a foot pursuit followed by a shootout, he believed the suspect had given up then was actively fleeing and resisting commands from officers.

I asked Officer Sousa if he remembered hearing any radio updates while he was responding to the location of the initial call. He told me there was very minimal radio traffic while he was responding and explained that increased his concern.

I asked Officer Sousa when he learned the suspect had a rifle. He told me he had read in the call notes the suspect had access to weapons in the residence and learned he had a rifle just after arriving on scene when Officer Pollard put that update out on the radio. Officer Sousa explained his concern was greater after learning the suspect had a rifle.

I asked Detective Miraglia if he had any clarifying question to ask.

Detective Miraglia asked Officer Sousa if the knowledge of the suspect having a rifle was the reason he retrieved his rifle once on scene. Officer Sousa said he retrieved his rifle due to the nature of the call and that he believed he was responding to an active shooter.

Detective Miraglia asked Officer Sousa how the suspect was laying on the ground and what was in the background of the area where the suspect was pointing his rifle. Officer Sousa said the suspect was lying on the road, on his back. Other than officers, there were houses which Officer Sousa assumed were occupied, in the background of where the suspect was aiming his firearm.

Detective Miraglia asked Officer Sousa about the timing of the first time he shot towards the suspect. Officer Sousa said the suspect was down in the street attempting to lift up his rifle.

I asked Officer Sousa if he was aware of any citizens at the scene during the incident. He said initially he wasn’t aware of anyone else at the scene but after a short time after the shooting stopped, he became aware of an individual in the distance behind where the subject was and then at one point a vehicle drove through the scene.

I then asked Officer Sousa’s attorney (Johnson) if he had any questions, which he did.

Johnson asked Officer Sousa if he shot all his rounds from the same location. Officer Sousa said, “Yes.”

Johnson asked Officer Sousa about the sequence of events surrounding his three shots. Officer Sousa confirmed the suspect was on the ground and Officer Sousa shot one round after the suspect attempted to lift the firearm up then shot two more rounds after the suspect shot two rounds and Officer Sousa saw the muzzle flashes from the suspect’s rifle.

Johnson asked Officer Sousa when he told the suspect to drop the gun. Officer Sousa said he gave that command shortly after arriving on scene, before firing the first time.

Johnson asked Officer Sousa if the suspect had dropped his gun and put his hands in the air, would he (Officer Sousa) still have fired those shots. Officer Sousa replied, “No. If he was being compliant and the gun was away from him, no.”

Johnson asked Officer Sousa if the suspect could have given up at that point and Officer Sousa said he could have.

This concluded the interview.

On 08/09/2023, I sent Johnson a copy of my narrative to review. After reviewing my narrative, Johnson sent me an email informing me he did not have any requests for additions, changes or clarifications to the narrative.

Narrative	
------------------	--

Summary of First Contact:

On July 26, 2023 at 2318 hours, I received a text message and email from Lieutenant Brent Klimke stating the Boise Police Department (BPD) was involved in a shooting. The Critical Incident Task Force (CITF) was activated to conduct an investigation. The lead investigating agency was the Garden City Police Department (GCPD), and the CITF command post was at GCPD. The GCPD was located at 301 E. 50th St, Garden City, Idaho. The email stated CITF sergeants of their respective agencies would assign detectives as needed.

I received a phone call from Detective Sergeant William Weires at 2340 hours. Sergeant Weires asked that I respond to the [REDACTED] to assist with First Contact duties. The [REDACTED] was located at [REDACTED]. I arrived at the [REDACTED] about 0040 hours on 7/27/2023. I was assigned to the First Contact Team with detectives from other agencies, and we staged in [REDACTED]. Other members of the First Contact Team included Detective Matthew Buie (ACSO), Detective Matt Canfield (BPD), Detective Mike Miraglia (BPD), Detective Isaiah Wear (MPD), and Detective Ken Caygle (MPD). Detective Buie was the First Contact Investigator lead. My primary assignment was to photograph the officers, and then assist as needed.

Detective Buie notified me there were six involved officers and one involved-witness officer. Each officer was separated into [REDACTED] (7 total). We were instructed that we would be collecting the firearms that were fired during the incident, to include the magazines and ammunition. However, we would not be collecting other equipment or uniforms unless necessary for evidentiary value such as blood or biological transfer. Detective Wear and his team met with Officer Pollard, and seized Officer Pollard's firearm. Detectives Wear, Miraglia, and Caygle then remained in the first contact [REDACTED] and began to process the items that were seized from officers.

At 0050 hours, we met with Sgt. Jason Pietrzak in [REDACTED]. Sgt. Pietrzak said he did not have any blood or biological transfer on his uniform. I photographed Sgt. Pietrzak, and didn't see any blood or biological transfer. I photographed Sgt. Pietrzak's Glock duty weapon. I also photographed the magazine that was in his duty weapon, and the round that was

chambered. Sgt. Pietrzak also had a backup weapon on his left ankle, which was a Smith & Wesson five shot revolver. We checked the backup weapon, and all five rounds were accounted for in the cylinder. We seized one loaded handgun, and two magazines. The seized items were taken to the [REDACTED]

About 0112 hours, we met with Officer Jonathon Howarth in [REDACTED]. Officer Howarth said he had blood on his right inner forearm, but it was washed off while still at the scene. Officer Howarth stated there may be blood on his uniform pant legs, but I didn't see any. I photographed Officer Howarth and his duty weapon, which was a Glock 17. We checked Officer Howarth's handgun, and it had a full magazine (17 rounds) with one round in the chamber for 18 rounds total. He also had had two fully loaded spare magazines with 17 rounds each.

At 0125 hours, we met with Sgt. Kirk Rush in [REDACTED]. I photographed Sgt. Rush, and didn't see any blood or biological transfer. I photographed his handgun, which was a Glock 17. I also photographed his FN15 rifle. Sgt. Rush stated he fired his rifle, but he didn't fire his handgun. Sgt. Rush's handgun had a full magazine (17 rounds) with one round in the chamber for 18 rounds total. He also had had two fully loaded spare magazines with 17 rounds each. We seized the rifle, and I carried it to [REDACTED].

At 135 hours, we met with Officer Dominic Rogers in [REDACTED]. I photographed Officer Rogers and didn't see any biological transfer on his uniform. We seized his handgun and two spare magazines and stored them in [REDACTED].

At 0200 hours, we met with Office Craig Sousa in [REDACTED]. I photographed Officer Sousa. No blood or biological transfer was seen on his uniform. I photographed his Glock 17 duty handgun. I also photographed his FN15 rifle. Officer Sousa stated he fired his rifle, but not his handgun. We checked Officer Sousa's handgun, and it had a full magazine (17 rounds) with one round in the chamber for 18 rounds total. He also had had two fully loaded spare magazines with 17 rounds each. We seized the rifle, and it was taken to [REDACTED].

At 210 hours, we met with Officer Chase Fiddler in [REDACTED]. I photographed Officer Fiddler and didn't see any biological transfer on his uniform. We seized his handgun and two

Narrative

Narrative:

On 07/28/2023, I was asked to assist in an investigation as a member of the Ada County Critical Incident Task Force (CITF). My current appointment is as a Major Crimes Detective in the Criminal Investigations Division (CID) at the Ada County Sheriff's Office. I was asked to conduct an interview with Sergeant Kirk Rush. The date, time, and location of said interview was set and later provided to me.

On 08/02/2023 at approximately 0900 hours, I interviewed Sergeant Rush at the Strindberg & Scholnick Law Office located at 1516 W Hays Street in Boise, Idaho. I recorded our conversation on an audio recorder. I have added the audio recording to this report in the attachments. The following is a summary of our conversation. The information may not be listed in the order presented or exactly as stated but listed and documented for the ease and understanding of the reader. For specific details refer to the recordings of the interview.

Prior to the interview, I was told Sergeant Rush's attorney, Guy Hallam Jr., requested Sergeant Rush have an opportunity to review his On Body Video (OBV) that was captured during the incident. After an initial meeting with Sergeant Rush and Hallam, I provided a copy of the OBV. Sergeant Rush and Hallam left the room to review the OBV and returned a short time later.

I introduced myself followed by Detective Shofner and Detective Miraglia. Detectives Shofner and Miraglia are Detectives for the Boise Police Department (BPD) and were sitting in on the interview as representatives for BPD.

I explained the interview would be recorded and it was part of a criminal investigation. I explained to Sergeant Rush he was not required to talk to me and asked if he understood. Sergeant Rush verbally acknowledged he understood.

I started by asking Sergeant Rush to provide his full name, rank, badge number, radio designator and vehicle number. Sergeant Rush told me the following in summary:

Sergeant Rush's full name is, Kirk Rush and he is 48 years old. Sergeant Rush was the Acting Watch Commander on the night of the incident. The vehicle Sergeant Rush was assigned on the

night of the incident was vehicle #199, which is an unmarked police vehicle equipped with emergency lights and sirens. Sergeant Rush’s radio designator was #1001. Sergeant Rush was hired at BPD in December of 2004. He did not have any prior law enforcement experience when he was hired by BPD. Sergeant Rush was [REDACTED]

Sergeant Rush is POST (Peace Officer Standards and Training) certified, has had numerous trainings through BPD over his time with them and supervises the K9 unit.

The firearm Sergeant Rush used during the incident was a 223 caliber, FN, AR-15 rifle with a black finish. Additions to the rifle were a zero-power red dot optic (unknown brand) and a weapon mounted light which Sergeant Rush never activated during the incident. Sergeant Rush did not know the type of ammunition used but both the ammunition and riffle were department issued. Sergeant Rush had either 28 or 27 rounds in the magazine that was used during the incident. He usually carries 28 rounds but a week or two prior to the incident, Sergeant Rush had his rifle out. Before putting his rifle away that day he ejected the round that he had previously chambered. Once Sergeant Rush ejects a round and it hits the ground, he does not put that specific round back in his magazine and he did not remember if he replaced that round or not.

On the night of the incident, Sergeant Rush was wearing a BPD uniform which includes, black boots, black or navy blue 5.11 pants, a short sleeve duty shirt, hat with BPD patch, hard badge, an American flag painted “Serving Since” pin, body camera and duty belt.

*****Events That Occurred Prior To The Incident*****

When the call originated Sergeant Rush was in Downtown Boise and wasn’t assigned to the call but overheard some radio traffic from the call on what he believed was on a side channel. His initial understanding of the call was that the person of interest in the call was in some sort of crisis. When the call first came out, Sergeant Rush wasn’t very concerned due to it sounding very similar to a lot of crisis type calls.

Eventually, Sergeant Rush heard radio traffic stating the individual was firing shots and requested a “Code 3” response of additional officers. Sergeant Rush wasn’t sure if this radio traffic was on a side channel or on Boise’s primary channel. At the time the other officer

requested additional units, Sergeant Rush was somewhere near Idaho Street and 9th Street, which is fairly close to the location of the call.

*****Sergeant Rush's Description Of The Incident In Detail*****

After the request for additional officers, Sergeant Rush started responding to the location of the call. Sergeant Rush was traveling west on Idaho Street, then turned north on 13th Street before turning west onto State Street. At this time, he was "running a little hot" but not running code (lights and sirens). Sergeant Rush noticed another patrol vehicle near the Dutch Brother's coffee shop, traveling north with their lights and sirens engaged. Sergeant Rush said he followed this unit but also said he (Sergeant Rush) was traveling west after referencing the other unit was traveling north. After reviewing a map of the area and the rest of Sergeant Rush's explanation of the route he took, I believe both units were traveling west on State Street past the Dutch Brother's coffee shop, located at W State Street and N 18th Street.

Sergeant Rush had turned on his lights and sirens at this point. The unit Sergeant Rush was following went a little past 19th Street before stopping and backing up to 19th. Both units turned off their lights and sirens at this point and continued north on 19th Street. Once the two units turned north onto 19th street, they "blackened out" their vehicles meaning turned all lights off, including headlights. Just as Sergeant Rush passed through W Washington Street, he heard a shot and thought the suspect may have shot at his vehicle.

Sergeant Rush and the other vehicle pulled over and came to a stop on the west side of N 19th Street closer to the intersection of W Resseguie Street. When he parked his patrol vehicle, Sergeant Rush was afraid if he stayed in his vehicle, he was going to be killed in his vehicle, so he got out. He described the area as being very dark which gave him a very bad feeling because he didn't know where the suspect was at that time.

Sergeant Rush turned around and noticed the silhouette of someone walking down the middle of the road and holding a rifle up in the air. Sergeant Rush retrieved his rifle from inside his patrol vehicle and let the other officer know the suspect was behind them with a rifle. Sergeant Rush thought the other officer may have been Officer Pollard, but he wasn't sure.

The suspect set the rifle on the trunk of a sedan and Officer Pollard started giving the suspect verbal commands to walk towards them. The suspect took a few steps away from the vehicle he

had set the rifle on and was on his knees near an SUV parked on the side of the road. Officer Pollard and Sergeant Rush held their positions, waiting for other units to arrive. Eventually Sergeant Pietrzak arrived and was to Sergeant Rush’s right, along with other officers but Sergeant Rush did not know who else was with Sergeant Pietrzak. After other officers arrived, Sergeant Rush mentioned they needed to advance and take the suspect into custody. Almost simultaneously, Sergeant Pietrzak expressed his concern that the suspect was going to try to leave if they didn’t make a move soon.

At that time the suspect stood up and fled towards the vehicle where he had previously set down his rifle. At that point Sergeant Rush felt the suspect was a threat to the community and other officers because he believed the suspect had already shot at him. Sergeant Rush moved south on the west side of N 19th street and intended on shooting the suspect as the suspect accessed the rifle, to stop any further threat. Before Sergeant Rush could shoot, other officers moved in front of him, taking away the opportunity for a safe shot.

Sergeant Rush guess approximately 2 seconds passed before gunfire started. Sergeant Rush described it as a “shoot out.” After the shooting started, Sergeant Rush crossed to the other side of the road to where Officer Fiddler was. Sergeant Rush said he thought he shot two times at this point but wasn’t certain. Once Sergeant Rush arrived at Officer Fiddler’s position, he could still hear sporadic gunfire from the suspect and officers on scene.

The suspect was still a threat, firing rounds, not obeying commands and not surrendering. The suspect was laying on the ground but still had possession of the rifle. The suspect was waving the rifle around and when Sergeant Rush saw the muzzle flash from the suspect’s rifle, he again engaged the suspect, firing two more rounds. All gunfire stopped at this point.

Sergeant Rush took a long pause at this point and his attorney asked him to continue by explaining what his next steps were, through the end of the incident.

After the gunfire subsided, Sergeant Rush felt that the suspect was still a threat due to him being non-compliant and not knowing if the suspect was alive or dead. Sergeant Rush started moving officers to a certain location where a team could be assembled and a plan to safely take the suspect into custody was made. A K9 handler was requested to this location at this time to assist with taking the suspect into custody. Sergeant Rush explained it is common practice in situation similar to this, to use a K9 to move the suspect away from the firearm, which

simultaneously gives officers a better idea of the condition of the suspect. Officer Miller took over this part and supervised the K9 deployment and the deployment of a 40mm round. After the K9 deployment and the suspect was taken into custody, life saving measures were started by officers.

Sergeant Rush also requested a team be put together to check for any injured officers or civilians in the area due to the large number of shots that were fired and because there had been so many officers on scene that no one really knew exactly who all was there so, accountability of officers would have been difficult without a thorough check.

Once the incident started to slow down, Sergeant Rush gathered all the involved shooters in one location. At that time, he had heard there may have been as many as 9 involved officers that shot. Sergeant Rush eventually identified all six (including himself) involved officers. Once these officers started getting their escorts, Sergeant Rush turned over Incident Command.

*****Verbal Commands*****

When the suspect stood up from his kneeling position and started towards the rifle, Sergeant Rush yelled, “No” repeatedly. After informing Officer Fiddler that the suspect still had his rifle, Sergeant Rush yelled at the suspect multiple times to “drop the gun” but the suspect never did. The commands Sergeant Rush gave the suspect were loud and stern.

I asked Sergeant Rush to identify the officers he knew was on scene. Sergeant Rush told me he was aware of Sergeant Pietrzak, Officer Pollard and Officer Fiddler were on scene. He knew there were other’s but didn’t know who, until much later in the incident.

*****Crimes Committed Prior To The Use Of Deadly Force*****

I asked Sergeant Rush what crimes had been committed prior to the use of deadly force.

Sergeant Rush believed the suspect had committed Aggravated Assault on Law Enforcement Officers with his rifle. Sergeant Rush explained there was a community caretaking element as well, stating they couldn’t let the individual go around town, randomly firing rounds in neighborhoods which was Unlawful Discharge of a Firearm.

I asked Sergeant Rush if he was familiar with similar crimes, in that area and he told me he was not. Sergeant Rush also told me he wasn’t aware of the suspect prior to the incident and still, on

the date of this interview, did not know the suspect's name.

I asked Sergeant Rush to explain what made him feel threatened.

He told me he felt threatened because the suspect was actively shooting at officers. I asked Sergeant Rush about something he had said earlier when he first arrived on scene. Sergeant Rush told me again, as he first arrived on scene, he heard a gunshot that he thought was at him and when he parked his vehicle, he thought he would be killed while sitting in his car.

I asked if he had concerns about citizens in the area as well. Sergeant Rush told me citizens in the area were a concern of his for the community caretaking aspect and in that specific area, there would have been occupants in all the surrounding dwellings.

I asked Sergeant Rush if he could tell me how many times he fired his weapon and where he was when he fired the rounds. He told me he thought he shot four or five times. Sergeant Rush believes he may have shot twice from the middle of the road as he crossed towards Officer Fiddler and two more after reaching Officer Fiddler's location.

Sergeant Rush did not do anything to accidentally or purposefully alter the scene.

I asked Sergeant Rush about the lighting and weather conditions during the incident. He told me it was dark during the incident, but better lighting wouldn't have changed the situation. He described the area as "moderately light" and that it wasn't so dark you couldn't see what you were looking at. The weather during the incident was clear and calm.

I asked Sergeant Rush if the suspect could have given up or stopped the incident at any time prior to the use of deadly force.

Sergeant Rush told me he (the suspect) could have given up multiple times and that he even feigned giving up at one time when he put the rifle down and was on his knees.

I asked Detective Miraglia if he had any clarifying questions to ask.

Detective Miraglia referenced the part of the incident when Sergeant Rush had just arrived on scene, and parked after hearing the gunshot, before asking Sergeant Rush about when he first noticed the suspect and his proximity to the suspect when he first saw him. Sergeant Rush noticed the suspect walking down the road, shortly after exiting his vehicle and estimated the

suspect was approximately 20-30 yards to the south. Detective Miraglia asked if that distance was within range of a rifle. Sergeant Rush confirmed it was and explained that was the reason he retrieved his rifle from his vehicle.

Detective Miraglia asked if Sergeant Rush identified himself as a law enforcement officer when they first noticed the suspect. Sergeant Rush could not recall.

After Detective Miraglia finished asking questions, I asked Sergeant Rush what his thought process was after realizing the suspect had a rifle. Sergeant Rush explained it raised his level of concern knowing the suspect had much more firepower than he had with his 9mm pistol and was the reason why he retrieved the rifle from his car.

I also asked Sergeant Rush about the body armor he was wearing. He told me he was wearing a ballistic vest but said he didn't think it was rated to stop a round from a rifle like the suspect had.

I then asked Sergeant Rush's attorney (Hallam) if he had any questions, which he did.

Hallam asked Sergeant Rush if he was aware the suspect had been firing rounds prior to him arriving on scene and if that was a part of his threat analysis. Sergeant Rush confirmed he was aware that the suspect had already fired multiple rounds in a neighborhood and because of that, they would have to deal with him immediately when they arrived.

Hallam asked Sergeant Rush about the suspect's possession of the firearm and threat. Sergeant Rush explained after feigning being compliant and retrieving the rifle, the suspect had physical possession of the rifle the entire time until he was separated from the rifle by the K9. Sergeant Rush also explained because the suspect had physical possession of the firearm, he was presenting a threat to officers and citizens that whole time.

Hallam reference Sergeant Rush and other officers completing a self-check after the shooting had stopped and asked Sergeant Rush why. Sergeant Rush explained the self-check was to make sure officers hadn't been struck by a round. He further explained it is possible, while in a shooting, people can be struck and not even know it. Sergeant Rush said the self-check was necessary because the suspect had been firing rounds towards officers.

Hallam confirmed with Sergeant Rush that because multiple rounds had been fired, this was

also the reason he put the team together to check for any injured citizens in the area. Sergeant Rush said it was.

I asked Sergeant Rush if he was aware of anyone else at the scene, other than officers. He told me he wasn't aware of anyone else at the scene during the incident but after the shooting had stopped, he became aware of a citizen that was in a yard very near the incident. Sergeant Rush didn't know when that individual had arrived or why but thought he was questioned sometime after the incident.

Before ending the interview, Hallam told us prior to the interview he and Sergeant Rush did watch Sergeant Rush's OBV but only watched it up until the shooting had stopped. They did not watch several minutes at the end of the video which would have captured the measures that were taken to take the suspect into custody.

This concluded our interview.

Crime Scene Investigation Report
 Ada County Sheriff's Office Forensic Lab
 7200 Barrister Drive
 Boise, ID 83704

Case #: 23-007087

Outside Agency: Garden City Police 301 E. 50th St., Garden City, ID 83714

Agency Case #: 23-1433

Requested by: William P Weires	Victim:
Charge: OFFICER INV SHOOTING	Person Involved: Macey Juker

On Thursday, July 27th, 2023, at approximately 0050, Forensic Scientist H. Campbell and I arrived at the intersection of 19th Street and Washington streets as requested by Sgt. W. Weires to assist with processing a scene of an officer involved shooting involving the Boise Police Department. Garden City Police was the lead investigating agency and we arrived to assist with the crime scene. Other personnel present were L. Mitchell and S. Vargas from the Garden City Police Department. Upon arrival, we were briefed on the incident and conducted an initial walk-through of the scene. I assisted as Campbell took overall photographs of the nighttime scene and additional photographs with supplemental lighting. Vargas also took photographs of the scene.

Campbell and I assisted Mitchell and Vargas with searching for and marking evidence. S. Guess and E. Herink arrived later to assist in searching for additional evidence with a metal detector. Campbell and I also assisted with Mitchell with her collection of evidence. I assisted in taking notes for Mitchell and turned those notes over to her.

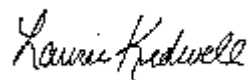

Collected evidence was properly secured and maintained by Mitchell of the Garden City Police. All photographs taken by Campbell were uploaded to the secure imaging system.

Campbell, Guess, and Herink remained on scene to document and process the surrounding area for bullet holes/defects. See Herink's report for details.

Case #: 23-007087

Outside Agency: Garden City Police Department

301 E 50th St, Garden City, ID 83714

Agency Case # 23-1433

Requested by: Sgt. Weires	Victim(s):
Charge: Officer Involved Shooting	Person(s) Involved: Macey Juker

On 7/27/2023 at approximately 7:30 am, I arrived at [REDACTED] N 20th Street as requested by Sgt Weires to assist with trajectory measurements at an officer-involved shooting. Other personnel present were Forensic Scientists Laurie Kidwell and Heather Campbell, Forensic Lab Manager Natasha Wheatley, Forensic Lab Quality Manager Stacy Guess, and Sgt. Jaymie Dozier with Garden City Police Department. Upon arrival, I was briefed on the incident and conducted an initial walk-through of the scene. The scene consisted of several addresses where projectiles and defects were located. Overall photographs were taken of the locations of the projectiles and defects.

The following areas and vehicles were visually examined for forensic evidence.

White Jeep located on 19th Street

Defects A-C were photographed. B-C were all located on the front passenger side. A sticker was placed on the flat tire on the rear driver-side tire. A possible defect was located on the rear side of the tire. Defect B was the only defect stable enough to hold a trajectory rod. The trajectory of the rod was from left to right and downward. The bullet path came into contact with the vehicle's battery and small fragments from the projectile were seen laying throughout the engine and around the battery. There was visible damage to the battery as well. The fragments were too small and located in difficult-to-reach areas. They were documented via photographs but not collected.

DSC_2834- Defects B and C located on the front passenger side panel.

DSC_2826- Flat tire on the Jeep, rear passenger tire. Defect possibly on the interior of the tire.

DSC_3004- Bird's eye view of defect B with trajectory rod placed in defect B and exits towards defect in the battery.

DSC_3011- Bird's eye view of fragment near the defect in the battery of the Jeep.

White Nissan car located on Washington Street

The Nissan car contained defects labeled A-D. Defects A-C were located on the lower driver door and defect D was located on the front side panel on the driver's side. The defects were labeled and photographed. None of the defects had trajectory measurements or projectile recovered.

DSC_2977- Defects located on white Nissan. Defects B, C, and D is visible.

DSC_2978- Defects located on white Nissan A through C.

White Ford truck located on Washington Street

The truck contained two apparent defects located on the back rear driver's side passenger door. The defects were labeled A and B. No trajectory measurements or projectiles were collected.

DSC_2963- Defects located on white Truck located.

█ W Washington

One defect was located in the wall of the front porch area of this home. A rod was placed in the first defect (4-A) and measurements were taken. The trajectory of the bullet path is right to left and upwards. Inside the home, a projectile was located on the floor of the front bedroom area. This item was labeled 4-A1, photographed, and collected.

█ W Washington

Five defects were located at this address. A, E, and D were located on the front of the house and B and C were located on the west side of the home. Defect A was on the front window of the home. From the same windowpane, a projectile was photographed, labeled 5-A1, and collected. The projectile was located on the window ledge in between the two windowpanes of glass. No trajectory measurements were taken of defect A due to the instability of the rod. Defect D is located below the front window. Measurements of defect D were taken. D's trajectory was from right to left and upward. No projectile was collected from here. Defect E is located on the front screen porch door. E's trajectory went across the porch towards the east side of the back porch wall. No measurements were capable of being collected due to E's instability for a rod and no projectile was recovered.

Defect B was located on the west side of the home in the frame of the first window. The defect was located on the lower window trim area. The side area of the home was searched for the projectile with the metal detector, but nothing was located. Defect C is located at the back bedroom window. The projectile was visible on the side of the window frame in the interior of the home. However, when attempting to retrieve it, the projectile fell into the window frame cavity. No projectile or trajectory measurements were recovered.

DSC_2938- Defects A located on █ W Washington's front porch wall towards the upper right side of the window.

DSC_2891- Front porch area of █ W Washington with defects E and D are shown. D is located under the window and E is located on the porch screen door.

DSC_2938- Front area of [redacted] W Washington with defects A and D
D is located below the window and A is on the window.

DSC_2898- West side of [redacted] W Washington with B and C defects
B is located on the window trim and C is located on the rear
window glass.

[redacted] W Washington

Three defects (6A-6C) on the upper siding of the home. These defects were located so high up on the home that they were not measured and no attempts at projectile recovery were performed.

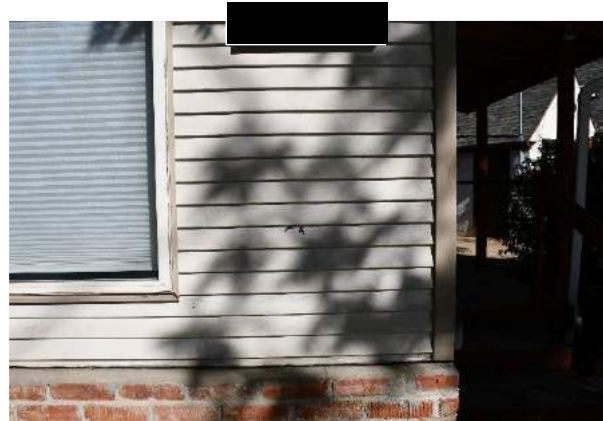

DSC_2885- side of the home that runs along 19th Street. Three defects in the upper part of the home.

[redacted] N 19th

One defect was located on the siding of this home, below the address numbers located on the home. The defect was photographed and measured however a trajectory rod could not be placed for measurements. An attempt to look inside for a projectile was made. No projectile was recovered, and it appeared that the defect didn't go through the wall into the home.

DSC_2880- Front of [redacted] N 19th Street home with defect below address indicator.

DSC_2881- Front of [redacted] N 19th Street home with defect below address indicator.

[redacted] N 19th Street

One apparent defect was located in the side window of the home. The apparent bullet path continued into the home striking a doorframe. The homeowner had already cleaned up debris and the apparent projectile before our arrival. I photographed the projectile that was located in a dustpan. This projectile was collected as item 8-A1. I then photographed, placed a rod, and took trajectory measurements of an apparent bullet defect in the window. The path was left to right and traveling slightly downward.

DSC_2846- Front of [REDACTED] N 19th Street home overview.
Defect in the window towards the left of the chimney.

DSC_2844- Photo of the window on the south side of the home.

The three projectiles collected (4-A1, 5-A1, and 8-A1) were sealed and given to the GCPD Sgt. Dozier. All photographs were uploaded to the secure imaging system.

Narrative

1. On July 27, 2023, at approximately 2:05 PM, I, Detective George Szeles, Idaho State Police, received a text message from [REDACTED] Boise, Ada County, Idaho. [REDACTED] owns a home close the intersection of 19th and Resseguie Streets where the shooting took place.
2. [REDACTED] forwarded an attached ring camera video recorded from the front of her home. The video included audio at approximately 10:45 PM during the critical incident at 19th and Resseguie Street in Boise on July 26, 2023.
3. Macey J. JUKER, DOB [REDACTED] exchanged gun fire with Boise Police Department Officers at the intersection of 19th and Resseguie Street a short time after 10:45 PM. JUKER exchanged gun fire with Boise Police Officers in the intersection and was killed at the scene. Verbal commands, yelled by officers, prior to the shooting were clearly recorded by [REDACTED] ring camera.
4. The ring camera filmed outward from [REDACTED] doorbell toward the street. It did not show video of the shooting scene. It recorded some of the verbal commands yelled by a Boise Police Officer while he attempted to gain control of the incident and get compliance from JUKER. See the attached ring camera video.
5. On August 31, 2023, I packaged and submitted the following evidence to the Idaho State Police evidence room in Meridian, Idaho.

Evidence:

Narrative

1. On July 27th, 2023, Idaho State Police Detectives responded to an Officer Involved Shooting, involving Boise Police Department. The incident took place near 19th Street and Resseguie, in Boise, Ada County, Idaho. The suspect, Macey JUKER, died as a result of the shooting.
2. The Ada County Critical Incident Task Force was mobilized and the Garden City Police Department was assigned as the lead investigating agency. Idaho State Police Detectives were assigned to canvas the area of the incident. Idaho State Police Detective Szeles and I canvased the following:
3. [REDACTED] No answer, Det. Szeles left his contact information for the homeowner.
4. [REDACTED] No answer, Det. Szeles left his contact information for the homeowner.
5. [REDACTED] Boise, Idaho. Det. Szeles and I contacted [REDACTED] who was home during the time of the incident. [REDACTED] did not see anything, but he heard the whole incident. [REDACTED] told us at approximately 11:00 P.M., he was going to bed when he heard a bunch of gunshots. He heard more than six but less than ten gunshots. He then heard more gunshots, and it sounded like they were running down 19th street. He heard more gunshots near 19th and Washington Street and a convergence of police cars. The ambulance arrived shortly after the convergence of police cars. During the incident, he could hear commands being yelled but he couldn't recall what they were specifically. He thought the commands were along the lines of "drop your weapon" or "stop running". He said it was defiantly a command situation where he could identify clear instructions. From start to finish he estimated the incident lasted ten minutes.
6. [REDACTED] Boise, Idaho. Det. Szeles and I contacted [REDACTED] who was home with his family during the incident. Just before 11:00 P.M., he and his wife were watching tv when they heard approximately eight successive gunshots which sounded like they were from a semi-auto weapon. He could tell the shots were close in proximity and too loud to be fireworks. He and his wife grabbed their son and when to the basement of their home for safety. He could hear police cars and see their lights reflecting into his basement. He heard an exchange of gunfire which he assumed was from the suspect and police. He called 911 who told him it was safe for his family to go back upstairs. He and his wife mainly heard the incident.
7. [REDACTED] Boise, Idaho. Det. Szeles and I contacted [REDACTED] who was the property owner. [REDACTED] told us this property is an Airbnb and nobody was staying in the house at the time of the incident. There were no security cameras on the property.
8. [REDACTED] Boise, Idaho. Suspect residence.
9. [REDACTED] Boise, Idaho, was under construction. This residence is located directly behind the suspect residence. Det. Szeles and I contacted [REDACTED] who was working on drywall inside the residence. Approximately three weeks prior to the incident [REDACTED] was in the porta-potty when the suspect, JUKER, started yelling profanities at him. JUKER was upset about the smell of the porta-potty and the construction that was going on. JUKER also yelled at other construction workers. [REDACTED] told us the owners of [REDACTED] are in-laws to the owners of the property he was working on. [REDACTED] coworker provided the number to [REDACTED] who was the owner of [REDACTED]

Narrative

10. [REDACTED] Boise, Idaho. Det. Szeles and I noticed there were surveillance cameras pointed to the back alley where JUKER ran through. I contacted [REDACTED] who reviewed her surveillance video. She had footage of JUKER walking with a rifle in his hands at 10:43 P.M. JUKER was wearing a black sweatshirt with the hood up, blue shorts, and long socks without shoes. In the video, JUKER walked north towards [REDACTED] residence, then turned around and ran south through the alley. [REDACTED] also had another video which showed at 10:42 P.M., there was dust and debris being thrown into the air. [REDACTED] had damage to her back concrete driveway and to the side of her residence. [REDACTED] provided both surveillance videos and two screenshots which showed the time stamp.

11. [REDACTED] No contact.

12. [REDACTED] Det. Szeles and I contacted [REDACTED] At approximately 10:30 P.M., [REDACTED] heard about five gunshots that sounded like they came from the corner of 20th and Ada. He went outside to the sidewalk and waited until he heard sirens. He then saw a dark vehicle drive down Ada Street. The vehicle was fast and he assumed it was a police car. He saw police cars arrive around 19th and Washington Street and he could hear the police say, "Get down on the ground", "Do you understand what I'm saying?", and "Do you understand me?". More police arrived and he could tell they were containing the situation. He thought the situation had calmed down but then more gunfire started. He could tell it was an exchange of gunfire. He never saw the suspect.

13. [REDACTED] Boise, Idaho. Sergeant Cortez contacted [REDACTED] At approximately 10:46 P.M. she heard gunshots. She contacted her husband who reviewed their Ring Doorbell camera. In the Ring Doorbell footage, he could hear gunshots. [REDACTED] and her husband didn't know the suspect.

14. [REDACTED] Boise, Idaho. Sgt. Cortez, Det. Szeles, and I contacted [REDACTED] At approximately 10:20 P.M., he heard a volley of shots. He estimated over six shots. About ten minutes later, he went back to his bedroom when he heard a second volley of shots.

Summary Narrative

On July 27, 2023, at approximately 8:51 AM, Idaho State Police Detective George Szeles, assisted by Idaho State Police Sergeant Ryan Hoxie, conducted a neighborhood canvas for an officer involved shooting at the intersection of 19th and Resseguie Street in Boise, Ada County, Idaho. On July 26, 2023 at approximately 10:30 PM, Macey J. JUKER, (DOB [REDACTED]) exchanged gun fire with Boise Police Officers at the intersection. JUKER was killed by gun fire during the incident. We interviewed [REDACTED] and [REDACTED] at their residence at [REDACTED] Boise, Ada County, Idaho, which was close to the scene of the shooting. [REDACTED] witnessed JUKER in the alley west of his home shortly before the shooting. The [REDACTED] home was hit by gun fire during the incident.

Narrative

- On July 27, 2023, at approximately 8:51 AM, I, Detective George Szeles, assisted by Sergeant Ryan Hoxie, Idaho State Police, interviewed [REDACTED] and [REDACTED] at their residence located at [REDACTED] Boise, Ada County, Idaho. They witnessed Macey J. JUKER, in the alley west of their home, shortly before he engaged in a shooting with Boise Police Department Officers at the intersection of 19th and Resseguie Streets in Boise. The [REDACTED] home was hit by gun fire during the incident.
- We contacted [REDACTED] referred to as [REDACTED] and [REDACTED] below, at their home during a neighborhood canvas for the shooting. They invited us inside their home. We stood in the living room and kitchen area. The events they witnessed on July 26th at approximately 10:30 PM took place in this part of their home.
- [REDACTED] said he and his wife [REDACTED] were preparing for bed. The interior of their home was dark. [REDACTED] said it was dark outside with enough ambient light to see things. [REDACTED] heard a succession of rapid gun shots about a block away, northwest of his home. He looked out the French doors on the west side of his home. These doors opened toward the alley.
- The alley behind the [REDACTED] residence is oriented north and south of their home. [REDACTED] saw a figure with dark clothing which he said did not look like a police officer. He saw this person walking south down the alley behind his home. [REDACTED] said he saw police lights in the area at about the same time.
- A short time after, [REDACTED] saw the individual in the alley, he heard additional gun fire. A bullet struck one of his living room windows. He crouched down in a hallway entrance, which was perpendicular to his living room. [REDACTED] looked south at an exterior living room window. That window was struck by a bullet. [REDACTED] was struck by shattered glass and pieces of window frame from a gun shot. [REDACTED] called 911 and reported what happened.
- [REDACTED] later notified police officers, who were near by, and told them his home was struck by gun fire. He cleaned up the broken glass and placed the bullet he found on his floor in a dustpan to prevent his child from being harmed.
- [REDACTED] showed Sgt. Hoxie and I the dustpan while we stood in his living room. I noted a rifle caliber bullet in the

Summary Narrative

On July 27th, 2023, Idaho State Police Detectives responded to a Critical Incident Officer Involved Shooting at the intersection of North 19th Street and Washington Street, Boise, Ada County, Idaho. Idaho State Police Detectives were assigned to canvas the neighborhood. The Garden City Police Department was assigned as the lead investigating agency.

WITNESS 1:

[REDACTED]

Date
07/31/2023

Narrative

1. On July 27th, 2023, Detective Weinstein and I conducted an interview with [REDACTED]. The interview was conducted at [REDACTED] residence, located at [REDACTED] Boise, Ada County, Idaho. [REDACTED] stated the following:
2. On July 26th, 2023, at approximately 10:30 p.m., [REDACTED] heard loud noises coming from outside his residence. [REDACTED] saw a male subject walking north on 19th Street, towards West Resseguie Street. The male subject was holding a rifle up in the air and was walking with a, "Type of bravado."
3. While [REDACTED] was watching the male subject, he saw a white car drive into the neighborhood and park on Washington Street, in front of the computer store.
4. The male subject turned around and began walking south on 19th Street, with officers from the Boise Police Department following him.
5. As the male subject and the officers reached the intersection of 19th Street and Washington Street, the male subject swung around, engaged one of the officers, and began firing. [REDACTED] described the male subjects rate of fire as, "A steady stream", and estimated the officer fired approximately four shots. After the initial gunfire there

Idaho State Police

Narrative

was a brief pause, and [REDACTED] could hear intermittent shots being fired and could see the muzzle flashes. [REDACTED] thought the intermittent shots were coming from the officers, however; he was unsure.

6. Once the shouting had stopped, a K9 was deployed on-leash, and [REDACTED] could see the K9 pulling something towards the officers. When the K9 reached the officers, the officers began CPR on the male subject.

7. Throughout the incident, [REDACTED] stated he could hear yelling coming from the officers however; he was unable to identify what they were yelling.

Narrative

up and looked out the window towards the intersection of 19th and Washington St. [REDACTED] had already left for work and [REDACTED] provided his contact information. [REDACTED] did not see anything, just heard noises.

9. [REDACTED] Boise, Idaho, [REDACTED] heard sounds. She did not look out the windows, just heard sounds.
10. Apartment above [REDACTED] Boise, Idaho, no contact.
11. [REDACTED] Boise, Idaho, [REDACTED] was sitting out back on the patio of the house and heard gunshots. [REDACTED] grabbed his dog, and they went inside the house. He heard the gunshots getting closer.
12. [REDACTED] Boise, Idaho, [REDACTED] heard a series of bangs. She saw an individual run and then two cars driving fast. Heard the big volley of bangs then it went quiet.
13. [REDACTED] Boise, Idaho, no contact.
14. [REDACTED] Boise, Idaho, [REDACTED] was asleep and woke to the sound of fireworks. [REDACTED] heard a bunch of police car sirens, and he went upstairs. He heard the second round of noise. [REDACTED] did not see anything.
15. [REDACTED] Boise, Idaho, no contact.
16. [REDACTED] Boise, Idaho, front door open, no answer.
17. [REDACTED] Boise, Idaho, [REDACTED] heard a noise around 10:45 P.M., which sounded like a full magazine of shots. He heard sirens, then more shots. [REDACTED] got onto the floor and remained until it was calm.
18. [REDACTED] Boise, Idaho, no contact.
19. [REDACTED] Boise, Idaho, no contact.
20. [REDACTED] Boise, Idaho, no contact.
21. [REDACTED] Residence had already been contacted.
22. I called [REDACTED] and spoke to him while he was at work. [REDACTED] verified his address of [REDACTED]. [REDACTED] He was sitting on the couch by the front and heard what he thought was fireworks. He heard the sound getting closer and he got up to look out the taller windows towards the intersection of Washington Street and 19th Street. The intersection was dark and he saw a bunch of flashes. He then saw spotlights moving then saw a body on the roadway. He saw a bunch of police officers and a dog approach; the body didn't move. Officers moved in and secured the body then started CPR.

Narrative

1. On July 27, 2023, Idaho State Police Detectives responded to assist as part of the Critical Incident Task Force (CITF). Detective Fomin and I canvassed the area near 19th street and Washington Street in Boise, Ada County, Idaho. The subject of the interviews was an Officer involved Shooting that occurred on July 26, 2023, at approximately 10:40 PM.
3. At [REDACTED] we spoke to [REDACTED] stated, at about 10:30 PM, he heard "pops" and his daughter saw police running in the street and he heard yelling. [REDACTED] stated his camera only covered his front porch, and he would check his side yard camera and contact us if it recorded anything.
4. At [REDACTED] there was no answer.
5. At [REDACTED] we spoke to [REDACTED] stated, at about 10:55 he heard 10-12 shots, then a pause, then more shots. [REDACTED] stated the neighbors were talking about the incident on the Northend Facebook page.

Narrative

6. At [REDACTED] we spoke to [REDACTED]. They stated, they heard shots, and at approximately 10:50 PM, they heard police yelling. [REDACTED] checked their camera and all they could see is police lights.
7. At [REDACTED] we spoke to [REDACTED] stated she heard pops, then 10 minutes later heard a lot of shots and a big bang. [REDACTED] checked the camera, and there was no recorded footage.
8. At [REDACTED] we spoke to [REDACTED] stated he heard "fireworks" at approximately 10:40 PM. [REDACTED] heard the police giving commands. [REDACTED] could not tell what the commands were.
9. At 1821 Washington Street, we spoke with [REDACTED] of Northend Computers. [REDACTED] stated this was a business and no one was present the night prior. [REDACTED] was going to download footage from the exterior cameras. Detective Dozier from Garden City Police Department picked up a flash drive with the camera footage.
10. At [REDACTED] we spoke with [REDACTED] stated at approximately 10:43 PM, he heard a couple of "pops", and thought it was like a firecracker, "but a little different". At approximately 10:46, [REDACTED] saw a person wearing a dark hoodie walk into the intersection of Washington Street and 19th Street holding up an AK-47, or something like it, [REDACTED] then called 911. [REDACTED] took his wife from the couch in the front room to the back of the house, to lay on the bathroom floor. [REDACTED] grabbed his rifle on the way to the back room. [REDACTED] heard many gunshots, and showed us where they had penetrated his house, including through the front window near where his wife had been sitting, and through the back bathroom window, where they had been hiding. At approximately 10:58 PM, [REDACTED] received a call from 911 that the situation was clear.
11. At [REDACTED] we spoke to [REDACTED]. They stated they heard 7-8 "pops", then a pause, then more "pops". This happened around 10:40 PM - 10:50 PM. At 10:51 PM they received a text from [REDACTED] about the shots.
12. At [REDACTED] we spoke to [REDACTED]. At approximately 10:40 PM, they heard shots, then a white car pulled up, then they heard more shots.

Narrative

- On July 26, 2023, Idaho State Police Detectives responded to an Officer Involved Critical Incident involving the Boise Police Department. The incident took place around 19th St. and Resseguie St. in Boise, Ada County, Idaho.
- The Ada County Critical Incident Task Force was mobilized, and Garden City Police Department was assigned as the lead investigative agency. Idaho State Police Detectives were assigned to canvas the area.
- Detective Brandon Eller and I, interviewed [REDACTED]
- [REDACTED] reported the following during the interview:
- He was watching t.v. when he heard 5- or 6-gun shots burst together. He didn't know what time it was. He heard 3 more shots and went to call 911. The officers arrived and he heard approximately 15-gun shots with a gap before he heard more gun shots. He said the time between hearing the first shots until no more shots were fired was approximately 5 minutes. He had a Ring camera, but it didn't work.
- No one was home at [REDACTED] Boise, Idaho.
- [REDACTED] Boise, Idaho was for sale and vacant.
- Detective Eller and I interviewed [REDACTED] Boise, Idaho.
- [REDACTED] reported the following during the interview:
- She was awake due to having food poisoning at approximately 10:30 P.M. Her dog alerted and shortly after that, she heard a bunch of gun shots. She did say she was busy due to being sick and couldn't focus on everything going on. She could see the lights from all the police cars.
- Detective Eller and I attempted to interview the homeowners of [REDACTED] Boise, Idaho. We contacted the wife of the home through the Ring doorbell. She informed us she was out of town, but her husband was at work and provided us with his information. I called [REDACTED] and interviewed him.
- [REDACTED] reported the following during the interview:
- He was walking home from Albertsons with his daughters on Resseguie and 20th St when he heard

Narrative

approximately 6 loud gun shots. He could tell it wasn't fireworks and walked at a fast-pace home with his daughters. He said once they got inside, they laid on the ground. After a few minutes they could hear sirens. He said his Ring camera didn't record anything.

- 14. Detective Eller and I interviewed [REDACTED] Boise, Idaho.
- 15. [REDACTED] reported the following during the interview:
- 16. They were downstairs in their house and went upstairs to go to bed at approximately 10:45 P.M. They could see police outside and an officer told them everything was safe.
- 17. The residents of [REDACTED] Boise, Idaho were out of the county.
- 18. No one was home at [REDACTED] Boise, Idaho.
- 19. Detective Eller and I interviewed [REDACTED] Boise, Idaho.
- 20. [REDACTED] reported the following during the interview:
- 21. She was awoken sometime around 10:30 P.M. to what sounded like someone knocking on her door. It sounded like four really fast knocks, it was loud and close. She waited a minute then went and looked out the front window. She didn't see anything just heard sirens and went back to bed. At 10:43 P.M. she heard an exchange of gun fire. She got up and went back to the living room. It sounded like a couple pops then rapid fire. The gun fire stopped, and she just kept hearing sirens. She could see a car parked across the street with its parking lights on but couldn't tell if it was a police car or just a random car.
- 22. Detective Eller and I interviewed [REDACTED] Boise, Idaho.
- 23. The [REDACTED] reported the following during the interview:
- 24. There was a burst of gun fire it was quiet for a few minutes followed by more gunfire. [REDACTED] said he could tell it was different guns due to the sounds being different.
- 25. The residents of [REDACTED] Boise, Idaho, were out of town at the time of the incident.
- 26. Detective Eller and I interviewed [REDACTED] Boise, Idaho.
- 27. [REDACTED] reported the following during the interview:
- 28. At approximately 10:40 P.M. she heard pops in succession and started counting them after three, there was about 13 shots. She heard a lot more pops and could hear sirens. The gun shots sounded very close. The second series of gun shots sounded like fireworks due to the amount of gun shots. She ended up going to bed at around midnight.
- 29. Attempted to contact [REDACTED] Boise, Idaho. No answer.
