## Project Details

---

As of January 1, 2006, the [Idaho State Statute 54-5209](#) requires that:

No building inspector or such other authority of any county, municipality or district charged with the duty of issuing building permits or other permits for construction of any type shall issue any type of permit without first requesting presentment of an Idaho contractor's registration number; provided however, a permit may be issued to a person otherwise exempt from the provisions of this chapter provided such permit shall conspicuously contain the phrase 'no contractor registration provided' on the face of such permit.

To comply with this state statute, Planning and Development Services requires a registration number be supplied with this permit application. A permit application is incomplete without this information, and cannot be processed until a registration number is provided, or the permit applicant declares themselves to be exempt per the exemptions listed in Idaho State 54-5205.

## Additional Requirements

### Notes:

- This permit authorizes the demolition only and it does not cover the rebuild. A separate building permit is required to rebuild any structure on this parcel.
- Posting a bond is required for site cleanup and stabilization. The bond amount will be set by the inspector upon inspection. This inspection will be scheduled for the next business day.
- A copy of the applicant's Liability Insurance, naming the City of Boise additionally insured, must be submitted to the permit desk prior to permit issuance
- Permit fees will be assessed and the permit will be ready to issue only after the inspection is completed and all requirements have been met.

To demolish this structure, the following additional requirements apply:

- [Sewer Cap Permit](#)
- [Hillside/Flood Plain Permits](#) (if applicable)
- [Certificate of Appropriateness](#) (if in an Historic District)
- [Design Review/Historic](#) (if in an Historic District)
- Underground fuel/storage tanks require a separate [Fire Permit](#)
