Project Information

Project Name (if applicable):	
Scope of Work:	
Project Details	

As of January 1, 2006, the Idaho State Statute 54-5209 requires that:

No building inspector or such other authority of any county, municipality or district charged with the duty of issuing building permits or other permits for construction of any type shall issue any type of permit without first requesting presentment of an Idaho contractor's registration number; provided however, a permit may be issued to a person otherwise exempt from the provisions of this chapter provided such permit shall conspicuously contain the phrase 'no contractor registration provided' on the face of such permit.

To comply with this state statute, Planning and Development Services requires a registration number be supplied with this permit application. A permit application is incomplete without this information, and cannot be processed until a registration number is provided, or the permit applicant declares themselves to be exempt per the exemptions listed in Idaho State 54-5205.

Agreements

Who is performing the work on this permit?: □ Property Owner or Other Exempt □ Registered Contractor □ To Be Determined

Please enter the last City of Boise permit number that the Blower Door test was performed on:

By checking the box below, I agree that I have read and understand the requirements above: $\hfill \Box$

Associated Records

Is there an existing permit associated with this project?: - This could be a Retaining Wall Building permit, a Grading permit, or another associated permit for earlier work. □ Yes □ No Have you performed a Blower Door test within the last 4 building permits in the City of Boise?: □ Yes □ No

I am not providing a Contractor Registration Number because I am exempt per Idaho State Code 54-5205:

Associated Permit Number: - Providing an associated permit number will link the two permits together for ease of tracking, fee payment, and project management. If you do not know the Permit Number, please search for the number prior to submitting. Please enter only 1 (one). Additional numbers can be added into the Scope of Work.

Residual Pressure: - PSI - Fire Flow information is provided by <u>Veolia Water</u> - https://mywater.veolia.us/. Visit their website to obtain data and the required form.

Dwelling Units

This section deals with Dwelling Units - independent units with their own kitchen and bathroom facilities. These units can be attached to an existing home or garage, or built as detached structures. Adding or removing a unit through a duplex conversion, or constructing a guest cottage, mother-in-law quarters, basement apartment, or other independent residence on the property will affect the number of dwelling units.

This residence is a detached Accessory Dwelling Unit (ADU): -

Accessory Dwelling Units (ADUs) are a second, smaller dwelling that can be built on a property already occupied by a single-family home. They can be a detached structure or be attached to the existing home or garage. ADUs must meet specific requirements under Planning and Building codes within the City of Boise. Attached ADUs should be submitted on the 406 - Residential Alterations and Additions application. For additional information, visit the Planning Division's <u>Accessory Dwelling Units page</u>.

Additional Features

Indicate whether this project includes any of the items below. If providing square footage, you only need to provide the applicable area as needed.

Basement:	Square Footage of Finished Basement: - Sq.Ft.			
Square Footage of Unfinished Basement: - Sq.Ft.	Garage: □ Yes □ No			
Square Footage of Attached Garage: - Sq.Ft.	Square Footage of Detached Garage: - Sq.Ft.
