Project Information

Project Name (if applicable):

Scope of Work:

Project Details

As of January 1, 2006, the [Idaho State Statute 54-5209](#) requires that:

No building inspector or such other authority of any county, municipality or district charged with the duty of issuing building permits or other permits for construction of any type shall issue any type of permit without first requesting presentment of an Idaho contractor's registration number; provided however, a permit may be issued to a person otherwise exempt from the provisions of this chapter provided such permit shall conspicuously contain the phrase 'no contractor registration provided' on the face of such permit.

To comply with this state statute, Planning and Development Services requires a registration number be supplied with this permit application. A permit application is incomplete without this information, and cannot be processed until a registration number is provided, or the permit applicant declares themselves to be exempt per the exemptions listed in Idaho State 54-5205.

Required Documentation and Drawings

- [Commercial Modular Relocatable Building Plan Intake Submittal Checklist](#)
- State of Idaho Division of Building Safety approved plan set that must include a copy of the Idaho State Plan Approval number for new modular buildings, or the Idaho State Tag Number for existing relocatables, that includes building occupancy, type of construction, manufacturer and manufacturer serial number.
- [Verification of Legal Lot or Parcel Worksheet](#)

Note: Acceptance of this application does not validate the legal status of any lot or parcel. Prior to submitting for a Building Permit you must have a Verification of Legal Parcel Status form signed by the Planning division. It is the applicant's responsibility to provide deeds and/or other documentation needed to obtain the required signature.

Additional Required Permits

An Erosion and Sediment Control permit will be issued with this building application. An Erosion and Sediment Control Plan and Narrative prepared and signed by a certified Plan Designer must be incorporated into this plan submittal.

If there are other related trade permits, including Plumbing, Mechanical or Electrical, they must be permitted separately and pass all required inspections.

Permit applications and plans for any modifications to the fire sprinkler and fire alarm systems shall be submitted separately.

The Building Final Inspection should always be the last inspection requested for final approval.
