Description of the Proposed Project [24 CFR 50.12 & 58.32; 40 CFR 1508.25]:

The project will utilize a vacant parcel that has been owned by the development team since 2008. This project will feature up to 38 units in two phases that will be comprised of 2,3, and 4 bedroom units. All units will be for those earning less than 80% of area median income. Amenities will include landscaped open space with a tot lot, barbecue area, and leasing and maintenance offices. The community building will feature a computer lab/business center, meeting space, and a supportive service office for all residents to enjoy. The development will consist of (18) two bedrooms, six (6) three bedrooms, and four (4) four-bedroom units ranging from 1,003 - 1,309 square feet. Each unit will feature modern amenities, energy-efficient appliances, washer and dryer hook-ups, and ample storage. Six units (20%) will be fully accessible; two (2) of the accessible units will be equipped for persons with audio or visual impairments. Warm colors and materials on the facade will enhance the building's residential character and create a place for residents to identify as home. The design team and community are mindful of resident safety and security and incorporated Crime Prevention Through Environmental Design (CPTED) design principals and strategies into the site design and operations plan. Surrounding Neighborhood & Proximity to Service & Public Transportation The Celebration Acres site is 2.94 acres and sits near a regional arterial and near the large urban intersections of N. Five Mile Road and W Fairview Ave. The site is located just east of central Boise in the Maple Grove-Franklin neighborhood, a stable and well-functioning community where services and infrastructure already exist. The proposed development site benefits from nearby public facilities, shopping, cultural opportunities, and easy access to the entire metropolitan area. A major grocery store (Walmart) includes a full-service pharmacy and is within 0.8 miles of the development. Furthermore, there is ready access to public services, including: public transportation, public safety (police and fire), a medical facility, health clinics, educational institutions, grocers offering fresh meats and produce, day care providers, community centers, parks/playgrounds, and various religious organizations all located within a mile of the site. The site is Zoned R-2D/DA, which allows up to 24 dwelling units per gross acre; we choose to develop at density 9.5 units per acre. The proposed twostory structure is allowed within the current zoning and fits into the neighborhood fabric. Neighborhood can be characterized by Single Family and Apartment Homes.

Statement of Purpose and Need for the Proposal [40 CFR 1508.9(b)]:

The proposed project will provide affordable multi-family housing in Boise, Idaho. High unmet demand, low capture ratio, very low vacancy, a predominance of waiting lists, increasing rental rates, and achieved rents at the maximum AMI rent restriction levels are present throughout the primary market area. Affordable housing is needed in the area to partially meet unmet demand for affordable units.

Existing Conditions and Trends [24 CFR 58.40(a)]:

This project in west Boise will contribute housing in a much needed area that is connected to transportation, jobs, schools, and basic needs. Of priority, is that based on trend data, the City is losing units (primarily for those earning less than 30% of area median income) that households can rent without being cost burdened. The housing units are not physically lost, just the rents that those earning lower AMIs can afford.

(5)]:

Compliance with 24 CFR §50.4, §58.5 and §58.6 Laws and Authorities

Compliance Factors: Statutes, Executive Orders, and Regulations listed at 24 CFR §50.4, §58.5, and §58.6	Are formal compliance steps or mitigation required?	Compliance determination (See Appendix A for source determinations)			
STATUTES, EXECUTIVE ORD	STATUTES, EXECUTIVE ORDERS, AND REGULATIONS LISTED AT 24 CFR §50.4 & § 58.6				
Airport Hazards Clear Zones and Accident Potential Zones; 24 CFR Part 51 Subpart D	□ Yes ☑ No	The project site is not within 15,000 feet of a military airport or 2,500 feet of a civilian airport. The project is in compliance with Airport Hazards requirements.			

Coastal Barrier Resources Act Coastal Barrier Resources Act, as amended by the Coastal Barrier Improvement Act of 1990 [16 USC 3501]	□ Yes ☑ No	This project is located in a state that does not contain CBRS units. Therefore, this project is in compliance with the Coastal Barrier Resources Act.
Flood Insurance Flood Disaster Protection Act of 1973 and National Flood Insurance Reform Act of 1994 [42 USC 4001- 4128 and 42 USC 5154a]	□ Yes ☑ No	Based on the project description the project includes no activities that would require further evaluation under this section. The project does not require flood insurance or is excepted from flood insurance. While flood insurance may not be mandatory in this instance, HUD recommends that all insurable structures maintain flood insurance under the National Flood Insurance Program (NFIP). The project is in compliance with Flood Insurance requirements.
STATUTES, EXECUTIVE ORE	DERS, AND REGULATIO	ONS LISTED AT 24 CFR §50.4 & § 58.5
Air Quality Clean Air Act, as amended, particularly section 176(c) & (d); 40 CFR Parts 6, 51, 93	☐ Yes ☑ No	The project's county or air quality management district is in attainment status for all criteria pollutants. The project is in compliance with the Clean Air Act.
Coastal Zone Management Act Coastal Zone Management Act, sections 307(c) & (d)	□ Yes ☑ No	This project is located in a state that does not participate in the Coastal Zone Management Program. Therefore, this project is in compliance with the Coastal Zone Management Act.
Contamination and Toxic Substances 24 CFR 50.3(i) & 58.5(i)(2)]	□ Yes ☑ No	Site contamination was evaluated as follows: ASTM Phase I ESA. On-site or nearby toxic, hazardous, or radioactive substances that could affect the health and safety of project occupants or conflict with the intended use of the property were not found. The project is in compliance with contamination and toxic substances requirements.
Endangered Species Act Endangered Species Act of 1973, particularly section 7; 50 CFR Part 402	□ Yes ☑ No	This project will have No Effect on listed species due to the nature of the activities involved in the project. This project is in compliance with the Endangered Species Act. No communication was received from Fish and Game.

Explosive and Flammable Hazards	☐ Yes ☑ No	There are no current or planned		
Above-Ground Tanks)[24 CFR Part		stationary aboveground storage		
51 Subpart C		containers of concern within 1 mile of		
		the project site. The project is in		
		compliance with explosive and		
		flammable hazard requirements.		
Farmlands Protection	☐ Yes ☑ No	This project does not include any		
	L TES EL INO	1		
Farmland Protection Policy Act of		activities that could potentially convert		
1981, particularly sections 1504(b)		agricultural land to a non-agricultural		
and 1541; 7 CFR Part 658		use. The project is in compliance with		
		the Farmland Protection Policy Act.		
Floodplain Management	☐ Yes ☑ No	This project does not occur in a		
Executive Order 11988, particularly		floodplain. The project is in compliance		
section 2(a); 24 CFR Part 55		with Executive Order 11988.		
Historic Preservation	☐ Yes ☑ No	Based on the project description the		
National Historic Preservation Act of		project has No Potential to Cause		
1966, particularly sections 106 and		Effects. The project is in compliance		
110; 36 CFR Part 800		with Section 106. As a best practice, an		
110, 30 CI N Fait 800		•		
		Inadvertent Discovery Plan will be		
		required should any artifacts be		
		unearthed.		
Noise Abatement and Control	☐ Yes ☑ No	A Noise Assessment was conducted. The		
Noise Control Act of 1972, as		noise level was acceptable: 52.0 db. See		
amended by the Quiet Communities		noise analysis. The project is in		
Act of 1978; 24 CFR Part 51 Subpart		compliance with HUD's Noise		
В		regulation.		
Sole Source Aquifers	☐ Yes ☑ No	The project is not located on a sole		
Safe Drinking Water Act of 1974, as		source aquifer area. The project is in		
amended, particularly section		compliance with Sole Source Aquifer		
1424(e); 40 CFR Part 149		requirements.		
Wetlands Protection	☐ Yes ☑ No	The project will not impact on- or off-		
Executive Order 11990, particularly		site wetlands. The project is in		
sections 2 and 5		compliance with Executive Order 11990.		
Wild and Scenic Rivers Act	☐ Yes ☑ No	This project is not within proximity of a		
Wild and Scenic Rivers Act of 1968,	6510	NWSRS river. The project is in		
particularly section 7(b) and (c)		compliance with the Wild and Scenic		
particularly section 7(b) and (c)		Rivers Act.		
		•		
HUD HOUSING ENVIRONMENTAL STANDARDS				
	ENVIRONMENTAL J	USTICE		
Environmental Justice	☐ Yes ☑ No	No adverse environmental impacts were

		environmental review. The project is in		
		compliance with Executive Order 12898.		

Environmental Assessment Factors [24 CFR 58.40; Ref. 40 CFR 1508.8 &1508.27]

Impact Codes: An impact code from the following list has been used to make the determination of impact for each factor.

- (1) Minor beneficial impact
- (2) No impact anticipated
- (3) Minor Adverse Impact May require mitigation
- **(4)** Significant or potentially significant impact requiring avoidance or modification which may require an Environmental Impact Statement.

Environmental	Impact	Impact Evaluation	Mitigation		
Assessment Factor	Code	-	_		
	LA	ND DEVELOPMENT			
Conformance with Plans / Compatible Land Use and Zoning / Scale and Urban Design	2	The project is zoned R2D/DA which is residential for up to 14 acres per unit. To meet the demand of 38 units, the project will require an increase in density.			
Soil Suitability / Slope/ Erosion / Drainage and Storm Water Runoff	3	The Phase I did not some soil irregularities and the potential need for a stormwater agreement with DEQ. Waiting for final information from development team.			
Hazards and Nuisances including Site Safety and Site-Generated Noise	2	Site has been vacant for nearly two decades and is primarily weeds. No noise issues presented as project is in a well established residential neighborhood.			
Energy Consumption/Energy Efficiency	2	Project is not large enough to cause energy consumption problems.			
	SOCIOECONOMIC				
Employment and Income Patterns	1	Project is new construction and requires the employment of skilled labor and professionals.			
Demographic Character Changes / Displacement		Project meets a need for affordable housing in area. Project is new construction. No displacement will occur.

Additional Studies Performed:

Field Inspection [Optional]: Date and completed

by:

Gary Campbell 6/8/2020 12:00:00 AM

10881 Florence Way Property Info.pdf

List of Sources, Agencies and Persons Consulted [40 CFR 1508.9(b)]:

Idaho State Historic Preservation Office, Environmental Protection Agency, U.S. Fish and Wildlife Service, Idaho Transportation Department, Idaho Department of Environmental Quality, HUD, ACHD, City of Boise, Federal Emergency Management Agency (FEMA), U.S. Geological Service, U.S. Department of Agriculture, Natural Resource Conservation Service.

List of Permits Obtained:

NA

Public Outreach [24 CFR 58.43]:

No public meetings were held for the Environmental Review. The development team has held meetings as required for the plan review.

Cumulative Impact Analysis [24 CFR 58.32]:

The site will be improved by the project and contributes to improving economic stability in the area. There is a strong need for affordable housing in Boise, which is becoming increasingly difficult to provide as there is limited space and cost is so high. As a result of environmental regulations from the funding involved, public safety will be ensured, which may not have been otherwise.

Alternatives [24 CFR 58.40(e); 40 CFR 1508.9]

The project originally was to be 28 units. In conversations with the development team, an agreement was made to increase the density and add a public road. This would benefit the entire area of the project.

No Action Alternative [24 CFR 58.40(e)]

The site is a suitable area for the project. It is affordable, close to amenities, and there is a need for affordable housing, as shown by a high unmet demand and a low capture ratio. This project will support households earning less than 80% AMI for the whole project. Absent the HOME and LIHTC resources, it would be very difficult to get this much housing at rents that can be afforded.

Summary of Findings and Conclusions:

Beneficial impacts of the project include requiring employment of skilled labor and professionals and meeting a need for affordable housing in the area. No structures eligible for National Register of Historic Places occur on the site. If project personnel, contractor or subcontractor believes that a cultural resource has been uncovered at any point in the project, all work adjacent to the discovery must stop. The discovery location should be secured at all times. Artifacts discovered shall be preserved. If human remains are encountered, they shall be carefully covered with a tarp or other like material for temporary protection in place. If there is an archaeological monitor for the project, immediately notify that person. If there is a monitoring plan in place, the monitor will follow its provisions. The project manager and/or cultural resources manager shall be contacted immediately. If these managers cannot be reached, contact the cultural resource specialist for the project.

Mitigation Measures and Conditions [CFR 1505.2(c)]:

Summarized below are all mitigation measures adopted by the Responsible Entity to reduce, avoid or eliminate adverse environmental impacts and to avoid non-compliance or non-conformance with the above-listed authorities and factors. These measures/conditions must be incorporated into project contracts, development agreements and other relevant documents. The staff responsible for implementing and monitoring mitigation measures should be clearly identified in the mitigation plan.

APPENDIX A: Related Federal Laws and Authorities

Airport Hazards

General policy	Legislation	Regulation
It is HUD's policy to apply standards to		24 CFR Part 51 Subpart D
prevent incompatible development		
around civil airports and military airfields.		

1. To ensure compatible land use development, you must determine your site's proximity to civil and military airports. Is your project within 15,000 feet of a military airport or 2,500 feet of a civilian airport?

√ No

Based on the response, the review is in compliance with this section. Document and upload the map showing that the site is not within the applicable distances to a military or civilian airport below

Yes

Screen Summary

Compliance Determination

The project site is not within 15,000 feet of a military airport or 2,500 feet of a civilian airport. The project is in compliance with Airport Hazards requirements.

Supporting documentation

Airport Hazards.pdf

Are formal compliance steps or mitigation required?

Yes

Coastal Barrier Resources

General requirements	Legislation	Regulation
HUD financial assistance may not be	Coastal Barrier Resources Act	
used for most activities in units of the	(CBRA) of 1982, as amended by	
Coastal Barrier Resources System	the Coastal Barrier Improvement	
(CBRS). See 16 USC 3504 for limitations	Act of 1990 (16 USC 3501)

Explosive and Flammable Hazards

General requirements	Legislation	Regulation
HUD-assisted projects must meet	N/A	24 CFR Part 51
Acceptable Separation Distance (ASD)		Subpart C
requirements to protect them from		
explosive and flammable hazards.		

1. Is the proposed HUD-assisted project itself the development of a hazardous facility (a facility that mainly stores, handles or processes flammable or combustible chemicals such as bulk fuel storage facilities and refineries)?

✓	No
	Yes

2. Does this project include any of the following activities: development, construction, rehabilitation that will increase residential densities, or conversion?

No

✓ Yes

- 3. Within 1 mile of the project site, are there any current or planned stationary aboveground storage containers that are covered by 24 CFR 51C? Containers that are NOT covered under the regulation include:
- Containers 100 gallons or less in capacity, containing common liquid industrial fuels OR
- Containers of liquified petroleum gas (LPG) or propane with a water volume capacity of 1,000 gallons or less that meet the requirements of the 2017 or later version of National Fire Protection Association (NFPA) Code 58.

If all containers within the search area fit the above criteria, answer "No." For any other type of aboveground storage container within the search area that holds one of the flammable or explosive materials listed in Appendix I of 24 CFR part 51 subpart C, answer "Yes."

√ No

Based on the response, the review is in compliance with this section. Document and upload all documents used to make your determination below.

Yes

Screen Summary

Compliance Determination

There are no current or planned stationary aboveground storage containers of concern within 1 mile of the project site. The project is in compliance with explosive and flammable hazard requirements.

Threshold

Is Section 106 review required for your project?

- No, because the project consists solely of activities listed as exempt in a Programmatic Agreement (PA). (See the PA Database to find applicable PAs.)
- ✓ No, because the project consists solely of activities included in a No Potential to Cause Effects memo or other determination [36 CFR 800.3(a)(1)].
 Yes, because the project includes activities with potential to cause effects (direct or indirect).

Threshold (b). Document and upload the memo or explanation/justification of the other determination below:

No potential to cause effects memo attached.

Based on the response, the review is in compliance with this section.

Screen Summary

Compliance Determination

Based on the project description the project has No Potential to Cause Effects. The project is in compliance with Section 106. As a best practice, an Inadvertent Discovery Plan will be required should any artifacts be unearthed.

Are formal compliance steps or mitigation required?

Yes

Noise Abatement and Control

General requirements	Legislation	Regulation
HUD's noise regulations protect	Noise Control Act of 1972	Title 24 CFR 51
residential properties from		Subpart B
excessive noise exposure. HUD	General Services Administration	
encourages mitigation as	Federal Management Circular	
appropriate.	75-2: "Compatible Land Uses at	
	Federal Airfields"	

- 1. What activities does your project involve? Check all that apply:
 - ✓ New construction for residential use

NOTE: HUD assistance to new construction projects is generally prohibited if they are located in an Unacceptable zone, and HUD discourages assistance for new construction projects in Normally Unacceptable zones. See 24 CFR 51.101(a)(3) for further details.

Rehabilitation of an existing residential property

A research demonstration project which does not result in new construction or reconstruction

An interstate land sales registration

Any timely emergency assistance under disaster assistance provision or appropriations which are provided to save lives, protect property, protect public health and safety, remove debris and wreckage, or assistance that has the effect of restoring facilities substantially as they existed prior to the disaster None of the above

4. Complete the Preliminary Screening to identify potential noise generators in the vicinity (1000' from a major road, 3000' from a railroad, or 15 miles from an airport).

Indicate the findings of the Preliminary Screening below:

There are no noise generators found within the threshold distances above.

✓ Noise generators were found within the threshold distances.

5. Complete the Preliminary Screening to identify potential noise generators in the

✓ Acceptable: (65 decibels or less; the ceiling may be shifted to 70 decibels in circumstances described in §24 CFR 51.105(a))

Indicate noise level here: 52

Based on the response, the review is in compliance with this section. Document and upload noise analysis, including noise level and data used to complete the analysis below.

Normally Unacceptable: (Above 65 decibels but not exceeding 75 decibels; the floor may be shifted to 70 decibels in circumstances described in §24 CFR 51.105(a))

Unacceptable: (Above 75 decibels)

HUD strongly encourages conversion of noise-exposed sites to land uses compatible with high noise levels.

Check here to affirm that you have considered converting this property to a non-residential use compatible with high noise levels.

Indicate noise level here: 52

Document and upload noise analysis, including noise level and data used to complete the analysis below.

Screen Summary

Compliance Determination

A Noise Assessment was conducted. The noise level was acceptable: 52.0 db. See noise analysis. The project is in compliance with HUD's Noise regulation.

Are formal compliance steps or mitigation required?

Yes

Sole Source Aquifers

General requirements	Legislation	Regulation
The Safe Drinking Water Act of 1974	Safe Drinking Water	40 CFR Part 149
protects drinking water systems	Act of 1974 (42 U.S.C.	
which are the sole or principal	201, 300f et seq., and	
drinking water source for an area	21 U.S.C. 349)	
and which, if contaminated, would		
create a significant hazard to public		
health.		

1. Does the project consist solely of acquisition, leasing, or rehabilitation of an existing building(s)?

Yes

✓ No

2. Is the project located on a sole source aquifer (SSA)?

A sole source aquifer is defined as an aquifer that supplies at least 50 percent of the drinking water consumed in the area overlying the aquifer. This includes streamflow source areas, which are upstream areas of losing streams that flow into the recharge area.

✓ No

Based on the response, the review is in compliance with this section. Document and upload documentation used to make your determination, such as a map of your project (or jurisdiction, if appropriate) in relation to the nearest SSA and its source area, below.

Yes

Screen Summary

Compliance Determination

The project is not located on a sole source aquifer area. The project is in compliance with Sole Source Aquifer requirements.

Are formal compliance steps or mitigation required?

Yes

Wetlands Protection

General requirements	Legislation	Regulation
Executive Order 11990 discourages direct or	Executive Order	24 CFR 55.20 can be
indirect support of new construction impacting	11990	used for general
wetlands wherever there is a practicable		guidance regarding
alternative. The Fish and Wildlife Service's		the 8 Step Process.
National Wetlands Inventory can be used as a		
primary screening tool, but observed or known		
wetlands not indicated on NWI maps must also		
be processed Off-site impacts that result in		
draining, impounding, or destroying wetlands		
must also be processed.		

 Does this project involve new construction as defined in Executive Order 11990, expansion of a building's footprint, or ground disturbance? The term "new construction" shall include draining, dredging, channelizing, filling, diking, impounding, and related activities and any structures or facilities begun or authorized after the effective date of the Order

No

- ✓ Yes
- 2. Will the new construction or other ground disturbance impact an on- or off-site wetland? The term "wetlands" means those areas that are inundated by surface or ground water with a frequency sufficient to support, and under normal circumstances does or would support, a prevalence of vegetative or aquatic life that requires saturated or seasonally saturated soil conditions for growth and reproduction. Wetlands generally include swamps, marshes, bogs, and similar areas such as sloughs, potholes, wet meadows, river overflows, mud flats, and natural ponds.

"Wetlands under E.O. 11990 include isolated and non-jurisdictional wetlands."

✓ No, a wetland will not be impacted in terms of E.O. 11990's definition of new construction.

Based on the response, the review is in compliance with this section. Document and upload a map or any other relevant documentation below which explains your determination

Yes, there is a wetland that be impacted in terms of E.O. 11990's definition of new construction.

Screen Summary
Compliance Determination

The project will not impact on- or off-site wetlands. The project is in compliance with Executive Order 11990.

Are formal compliance steps or mitigation required?

Yes

Wild and Scenic Rivers Act

General requirements	Legislation	Regulation
The Wild and Scenic Rivers Act	The Wild and Scenic Rivers	36 CFR Part 297
provides federal protection for	Act (16 U.S.C. 1271-1287),	
certain free-flowing, wild, scenic	particularly section 7(b) and	
and recreational rivers	(c) (16 U.S.C. 1278(b) and (c))	
designated as components or		
potential components of the		
National Wild and Scenic Rivers		
System (NWSRS) from the effects		
of construction or development.		

1. Is your project within proximity of a NWSRS river?

✓ No

Yes, the project is in proximity of a Designated Wild and Scenic River or Study Wild and Scenic River.

Yes, the project is in proximity of a Nationwide Rivers Inventory (NRI) River.

Screen Summary

Compliance Determination

This project is not within proximity of a NWSRS river. The project is in compliance with the Wild and Scenic Rivers Act.

Environmental Justice

General requirements	Legislation	Regulation
Determine if the project	Executive Order 12898	
creates adverse environmental		
impacts upon a low-income or		
minority community. If it		
does, engage the community		
in meaningful participation		
about mitigating the impacts		
or move the project.		

HUD strongly encourages starting the Environmental Justice analysis only after all other laws and authorities, including Environmental Assessment factors if necessary, have been completed.

1. Were any adverse environmental impacts identified in any other compliance review portion of this project's total environmental review?

Yes

Based on the response, the review is in compliance with this section.

Screen Summary

Compliance Determination

No adverse environmental impacts were identified in the project's total environmental review. The project is in compliance with Executive Order 12898.
