FACE COVERINGS

The city of Boise wants all community members to enjoy the programs, services, and activities our organization offers. We also want to protect the health and well-being of city staff during the performance of their duties. Therefore, members of the public are required to wear a cloth face covering or medical mask completely covering their nose and mouth at all times when present in and as they move through city offices, recreational and educational facilities. This includes but is not limited to the city of Boise's main and branch libraries, Zoo Boise inside exhibits, community centers, etc.

Reasonable accommodations, such as alternative service options, will be offered when available for persons with medical conditions, mental health conditions, and disabilities that prevent them from wearing a cloth face covering or medical mask.

The face covering requirement applies to everyone regardless of vaccination status. Additional accommodations may be made for:

- Children under the age of two (2).
- Persons who are deaf or hard of hearing or persons who are communicating with a person who is deaf or hard of hearing, where the ability to see the mouth is essential for communication.
- Persons, including on-duty first responders, for whom wearing a face covering would create a risk to the person related to their work, as determined by local, state, or federal regulators or workplace safety guidelines.

The city of Boise does not require documentation that a person cannot tolerate wearing a face covering.
