

Shelter Better Task Force: Week 6 Community Perspective

Preparation:

- Please look at the attached Case Studies provided by the Idaho Policy Institute/Boise State University

Objectives: Task force members hear from neighborhood leaders on concerns around shelter siting, both generally throughout the city and specifically, for the State. St. location. We will also hold space to hear from additional Task Force members so they can also share perspectives as community members who have been asked to participate in this process.

Agenda:

- Updates from Chair
- Neighborhood Leaders Presentation
- Question & Answer Session
- Task Force Perspectives

For Week 7/Meeting 7: On Thursday we will move through the presentation from the brokerage firm that performed the land scan and from there move into a workshop with the siting. The Task Force members will be sent the Community Interviews packet on Monday, August 23rd after the Task Force meeting.
