LEAD BASED PAINT DECISION FLOWCHART-EXHIBIT B

**Category 1**: Work to be performed on pre-1978 housing or child occupied facility using HUD funding.

If it has not been done previously, sample all painted surfaces for lead that will be disturbed during painting or renovation.

If LBP is present City of Boise staff are not authorized to disturb the LBP unless they have their current 8-hr EPA Renovator certification. Please continue with the appropriate category.

**Category 1**: If the project will disturb less than 2 sq. ft. (interior) or 20 sq. ft. (exterior) of LBP it is considered a “de Minimis” project and you can move to Category #2.

For larger projects continue below

**Category 1**: LBP must be handled according to HUD Lead Safe Housing Rule. Details of the rule are available in *Exhibit A* of City of Boise LBP Regulation.

**Category 2**: Work must be performed by an EPA certified RRP contractor using lead-safe practices.

**Category 3**: Work to be performed on all other city-owned pre-1978 buildings.

If LBP is not present, then proceed with job after your supervisor authorizes and checking for asbestos.

**Category 2**: Work must be performed by an EPA certified RRP contractor. If assistance is needed, contact Risk/Safety or Public Works Environmental (608-7509) for assistance.

**Category 3**: Work is not required to be performed by an EPA certified RRP contractor. However, in some cases we may still use a certified contractor and/or lead-safe practices. Contact Risk/Safety or Public Works Environmental (608-7509) for assistance.

LBP- Lead Based Paint (0.5% by weight or 1.0 mg/cm2)

EPA RRP Regulation – EPA’s Lead Based Paint Renovation, Repair and Painting Rule (40 CFR 745, Subpart E)

Child occupied Facility - A building, or portion of a building, constructed prior to 1978, visited regularly by the same child, under 6 years of age, on at least two different days within any week (Sunday through Saturday period), provided that each day’s visit lasts at least 3 hours and the combined weekly visits last at least 6 hours, and the combined annual visits last at least 60 hours.

**NOTE**: Separate OSHA regulations apply for working with Lead materials other than paint.
