## Planning Ahead: Advanced Directives

Tuesday, June 9, 10:30-11:30 a.m.

Planning for future healthcare decisions is something many people want to do, yet the process can feel confusing and overwhelming. This FREE advanced directives class is designed to remove that uncertainty and guide you step-by-step through understanding and completing your documents with confidence.

You will learn what advance directives are, why they are important, and how they protect your wishes during moments when you may not be able to speak for yourself. We'll clearly explain the differences between a living will, medical power of attorney, and other key forms so you know exactly what each one does and how it supports your personal values and healthcare goals.

To make the process simple and stress-free, all required forms will be provided at no cost, and a free on-site notary will be available so you can complete and finalize everything the same day. You'll walk away with legally notarized documents and the peace of mind that comes from having your wishes clearly stated and your loved ones supported.

Presented by: Carly Kyle, Golden Oak Eldercare.
