Registering your Account

When you access the Portal for the first time, you'll need to Register your account by clicking on the Register link. The registration process will create a user name (which is your work email address) and password that will be used for future logins. The email address you choose will also be used for system emails/notifications. For security purposes, the system will validate that you own the registered email address by sending an email with a validation link.

Note: If you do not receive the system email within 2 minutes, check your spam or bulk mail folder. If the email appears in that folder, you should right click on the email to indicate "Not Junk" or "Not Spam" to ensure you receive any other system notifications.
