

A PLAYCORE Company

# FAIRVIEW PARK

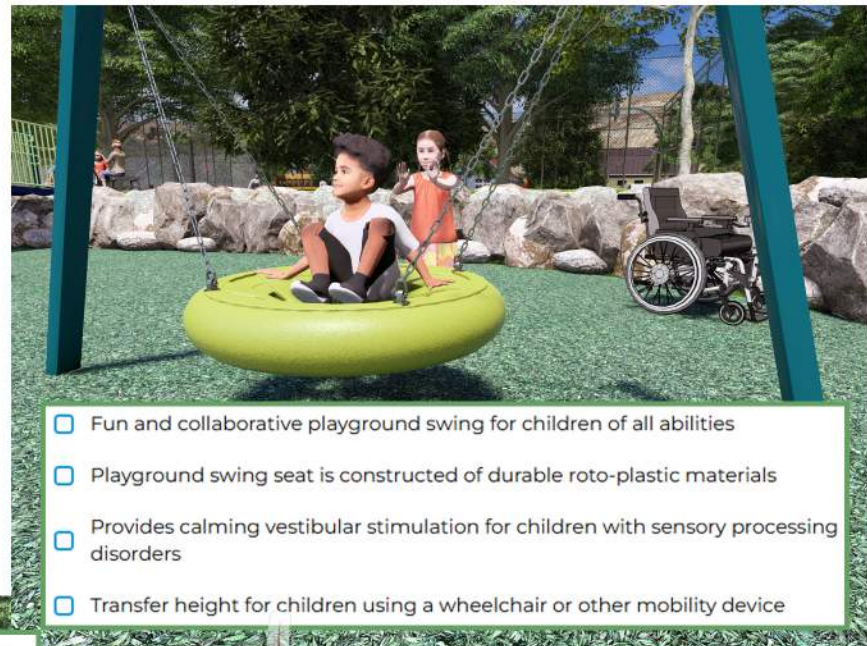

- Enhances creative thinking and fine-motor skills
- Promotes socialization and collaboration

Allow everyone to access your slide with GameTime's ADA Slide Transfer! This platform allows those who use mobility devices to comfortably transfer off their device and onto your slide.

- Invites children to engage in creative, imaginary play
- Promotes socialization and collaboration
- HDPE construction on panel for long-lasting durability

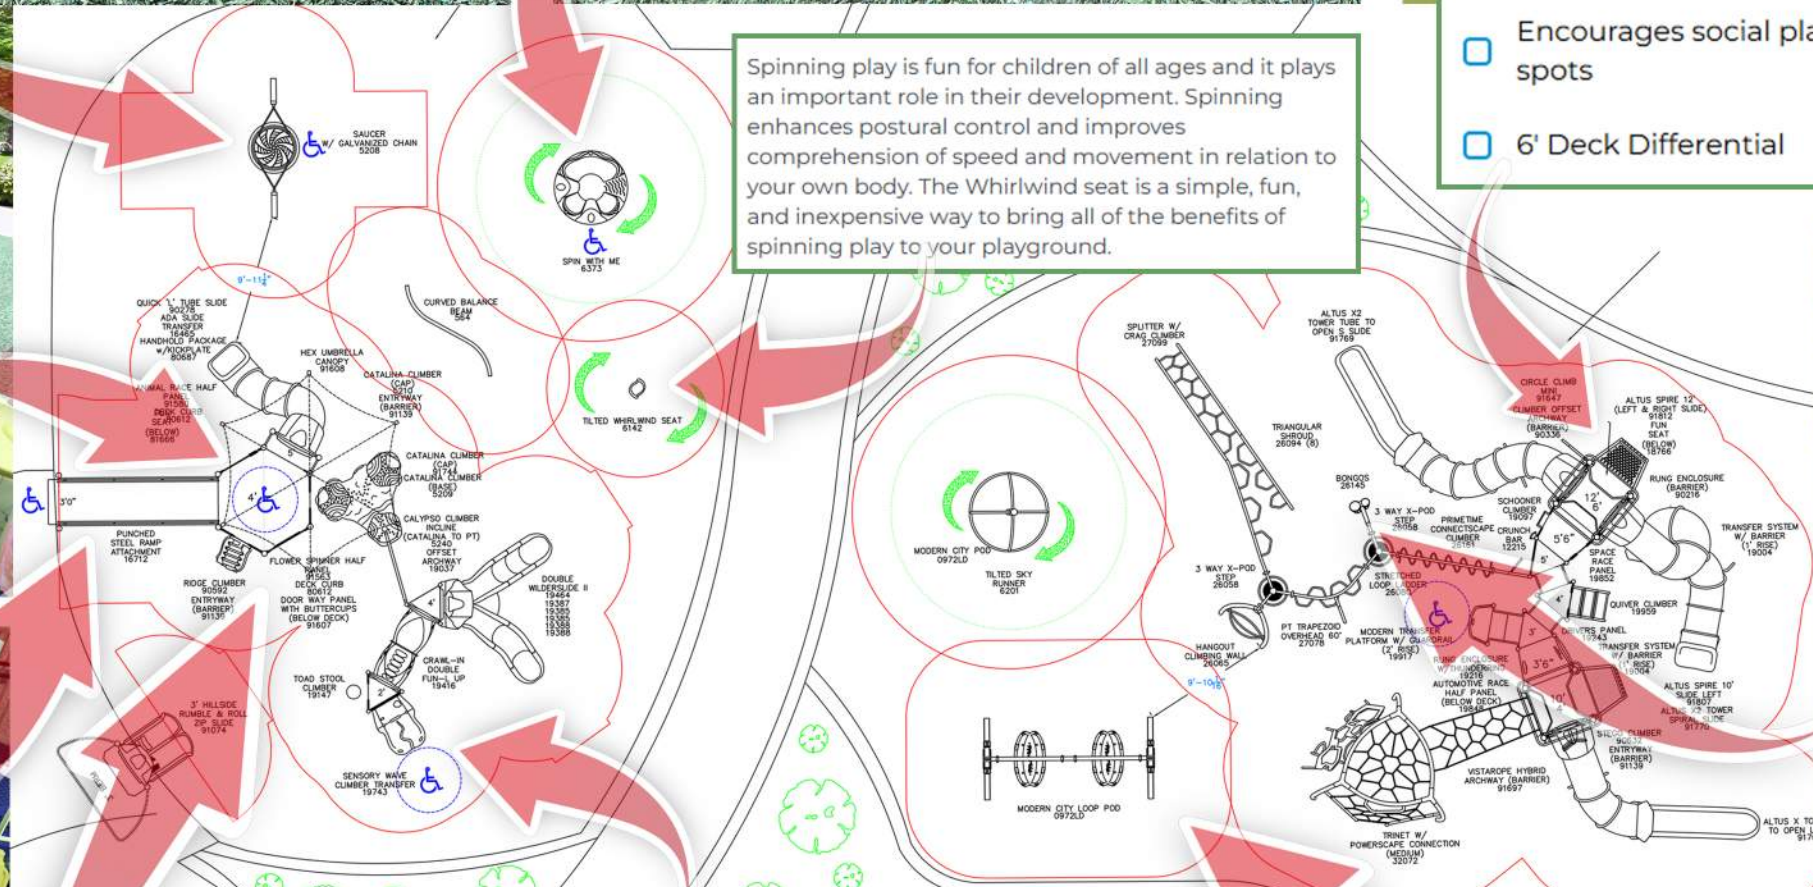

- Fun and collaborative playground swing for children of all abilities
- Playground swing seat is constructed of durable roto-plastic materials
- Provides calming vestibular stimulation for children with sensory processing disorders
- Transfer height for children using a wheelchair or other mobility device

- Inclusive design with seats at transfer height
- Promotes social interaction and collaborative play
- Durable, frictionless magnetic braking system to minimize speed

- Multiple Climbing routes
- Encourages social play with hangout and resting spots
- 6' Deck Differential

Spinning play is fun for children of all ages and it plays an important role in their development. Spinning enhances postural control and improves comprehension of speed and movement in relation to your own body. The Whirlwind seat is a simple, fun, and inexpensive way to bring all of the benefits of spinning play to your playground.

- A great way to add musical, ground level play to your playground
- Encourages a love of music, as well as social and interactive play
- Studies show that musical play enhances language development in young children

The industry's first playground climber that allows children of all abilities to enjoy the benefits of climbing while enhancing sensory development. Molded-in grips, hand holds and transfer area provide additional support for children of all abilities.

- Installed at transfer height
- Modern design that complements any design
- Promotes inclusive play
