# ZOO BOISE SUMMER CAMPS

## ANIMAL ABCs

**AGES 4-6** We'll foster early literacy skills by turning each day into an alphabet quest. Venture into the animal kingdom to start the school year off with a roar!

## BACKYARD BIOLOGISTS

**AGES 4-6** Join us as we explore the zoo and the amazing wildlife hiding right outside your door! Become junior scientists: investigating plants, insects, birds, and other neighborhood creatures.

## COLORFUL CRITTERS

**AGES 4-6** Vibrant adventures await as each day brings a splash of color inspired by our amazing animal friends. Campers will explore the zoo, engage in lively games and create colorful masterpieces, all while discovering the beauty of the animal kingdom.

## CREEPY CRAWLIES

**AGES 4-6** We have snakes that slither, sneaky stick insects and our not so sloooow tortoises. Come learn about herpetology, entomology and how we care for our cold-blooded friends. Meet our animal ambassadors to further appreciate these necessary critters.

## DR. ZOOLITTLE

**AGES 4-6** Your future veterinarians start the week by creating their own vet kits, complete with "stethoscopes", ID badges, and daily medical checks for their "patient." Set up a mini animal hospital together where campers can diagnose "injured" stuffed animals, prescribe treatments and learn about the importance of animal care.

## FUR-FEATHERS-SCALES

**AGES 4-6** Discover what makes furry, feathered, and scaly creatures unique. Campers will waddle like penguins, roar like lions and slither like snakes while learning how animals live, eat and play. With games, colorful crafts, stories, and animal ambassadors, this camp is perfect for curious kiddos who love the whole animal kingdom!

## FURRY TAILS

**AGES 4-6** Bibbidi bobbidi ZOO! Embark on a whimsical adventure with us as we dive into the enchanting world of fairy tale critters. Watch as stories leap off the page with campers encountering princely frogs and playful dragons on their zoo escapades.

## JUNIOR ZOOKEEPING

**AGES 4-6** What is it like to work at a zoo? Learn about animal training, enrichment and how animal food is prepared. You'll even design your own mini exhibit as you learn how zoos (and you) protect animals in the wild.

## WILDLIFE RANGERS

**AGES 4-6** Step into the colorful worlds of rainforests, deserts and grasslands! Discover amazing plants and animals, play interactive games, and explore how wildlife survives, communicates and thrives. We'll become nature heroes, learning how to care for these incredible habitats and the animals that call them home.

## ZOO DETECTIVES

**AGES 4-6** Discover the hidden wonders of the animal kingdom. Campers will don their detective caps, sort through clues, track traces of animals and their movements through footprints, scat and other animal signs.

# SUMMER CAMPS CONT'D

## NEW LEGO® SPIKE PRIME BOT BUILDERS LAB

**AGES 9-14** Students will use LEGO SPIKE™ Prime to design, build, and program robots, including speed, helper, sensor, or creative invention bots. Kids will work with motors, sensors, gears, and coding blocks to test ideas, troubleshoot problems, and improve their designs. This class encourages creativity, critical thinking, and confidence as we move through the engineering process: build it, code it, and run it - then improve it!

## LEGO® ANIMATION

**AGES 8-12** Create and build your own mini movie set out of Legos® and your own animated movie! Use technology to make a movie with complete editing capabilities, effects, music and narration all through iMovie and Stop Motion. Students will receive a video link to their completed movie.

## LEGO® EV3 BATTLE BOTS

**AGES 9-14** Design, build, and program powerful robots using LEGO MINDSTORMS® EV3 - then put them to the test in exciting head-to-head challenges. Battles focus on strategy, precision, and problem-solving, not destruction, making competition fun, safe, and skill-based. Class includes time to build, code, test, battle, and redesign, teaching kids that the best robots aren't built once - they're improved again and again.

## NEW LEGO® SPIKE ESSENTIAL

**AGES 6-9** This is a fun-filled STEM class where young builders turn colorful LEGO® creations into moving, thinking machines. Using motors, sensors, and easy drag-and-drop coding, kids explore how things work - all through play. No experience needed, just curiosity and imagination! This class builds confidence, critical thinking, and foundational STEM skills in a supportive, encouraging environment designed especially for younger learners.

## CULINARY/NUTRITION

### ADVANCED CULINARY TECHNIQUES

**AGES 13-18** Young chefs who already have the kitchen fundamentals down will learn more advanced skills and methods to improve their culinary confidence. Each day we will practice new techniques through advanced recipes in scratch cooking utilizing the garden-to-table approach.

### NEW AL FRESCO CULINARY CAMP

**AGES 9-14** This culinary camp has a new format, branching off the wildly popular Farm to Fork camps! We will be cooking, learning and creating entirely in an outdoor kitchen, using

cooking methods like a pizza oven, grill and other outdoor cooking equipment. Campers get to enjoy the fruits of their efforts with a garden-fresh lunch daily.

### FARM-TO-FORK CULINARY CAMP

**AGES 9-14** Join us in the BUGS kitchen and garden as we create scratch-made lunches that include fresh garden produce harvested from our education garden. Learn cooking basics such as knife skills, sautéing and baking while preparing lunch each day. Camp themes repeat each week but stages of the garden change throughout the summer for new experiences.

### REGISTRATION & FOZB DISCOUNT

### Zoo Boise

*Find more information on page 12.*

### CREEPY CRAWLIES

**AGES 4-6** We have snakes that slither, sneaky stick insects and our not so sloooow tortoises. Come learn about herpetology, entomology, and how we care for our cold-blooded friends. Meet our animal ambassadors to further appreciate these necessary critters.

### DR. ZOOLITTLE

**AGES 4-6** Your future veterinarians start the week by creating their own vet kits, complete with “stethoscopes”, ID badges, daily medical checks for their “patient.” Set up a mini animal hospital together where campers can diagnose “injured” stuffed animals, prescribe treatments and learn about the importance of animal care.

### DR. ZOOLITTLE

**AGES 7-9** Learn the language of veterinarians using imaginative play, build a treatment plan for your sick “stuffed patient”, read x-rays, plan diets and learn about the care provided for hundreds of animals.

### FORENSIC EXPERTS

**AGES 10-12** How would you track poachers taking animals from the wild? Enter the world of wildlife forensics through hands-on techniques to examine evidence in support of conservation. Help solve multiple wildlife crimes in one camp week!

### FUR-FEATHERS-SCALES

**AGES 4-6** Discover what makes furry, feathered, and scaly creatures unique. Campers will waddle like penguins, roar like lions, and slither like snakes while learning about how animals live, eat, and play. With games, colorful crafts, stories, and animal ambassadors, this camp is perfect for curious kiddos who love the whole animal kingdom!

### FURRY TAILS

**AGES 4-6** Bibbidi bobbidi ZOO! Embark on a whimsical adventure with us as we dive into the enchanting world of fairy tale critters. Watch as stories leap off the page with campers encountering princely frogs and playful dragons on their zoo escapades.

### HERPETOLOGY EXPERTS

**AGES 10-12** We kick off the week celebrating World Croc Day; this week-long expedition is custom-tailored for aspiring herpetologists who crave a deeper dive into the secrets of snakes, turtles, frogs and more. Prepare for lots of experiences, in-depth learning and the chance to become a “certified” Herp Expert.

### HERPETOLOGY EXPLORERS

**AGES 7-9** We will spend the week immersed in herpetology: the study of reptiles and amphibians. Dive into the realm of snakes, turtles, frogs and more as we unravel the secrets of these incredible creatures. Between crafts, games, zoo experiences, in-depth learning and meeting our reptilian ambassadors, you’ll become a herp ambassador yourself.

### JUNIOR ZOOKEEPING

### LIGHTS-CAMERA-ANIMALS!

**AGES 7-9** Get ready to bring the animal kingdom to center stage through creativity, imagination, and play! Campers will get in character, craft props, and act out stories inspired by their favorite zoo animals. It’s a fun-filled week where art and animals combine to let every child’s wild side shine.

### MYTHICAL BEASTS

**AGES 10-12** Tell your own story with inspiration from the amazing wildlife around the zoo. We’ll journey through the world learning how people have been inspired by animals to create fantastical creatures and mystical myths, then use the magic of theater to bring our story to life!

### WILD CREATIONS

**Ages 7-9** Explore the colors and textures of the animal kingdom, then use your imagination and creativity for crafting animal-inspired masterpieces, exploring various art techniques, and adding some drama to your life. Every day will be a canvas for your “Wild Creations” to come to life!

### WILDLIFE FORENSICS 101

**AGES 7-9** Campers will delve into the complex world of animal mysteries, learning how to solve “cases” and examine clues, as a field biologist and in the “lab.” From animal tracks to feathers, this interactive camp combines science and adventure, offering a hands-on exploration of wildlife forensics.

### WILDLIFE PROTECTORS

**AGES 10-12** Discover what it takes to be a Wildlife Protector as you explore real conservation challenges facing animals today. Learn how habitats are saved, species are protected and people make a difference. Try your hand as a conservation scientist, field researcher, habitat protector and wildlife advocate - then take your conservation skills beyond the zoo!

### WILDLIFE RANGERS

**AGES 4-6** Step into the colorful worlds of rainforests, deserts, and grasslands! Discover amazing plants and animals, play interactive games, and explore how wildlife survives, communicates and thrives. Along the way, we’ll become nature heroes, learning how to care for these incredible habitats and the animals that call them home.

From “tracking animals” on a scavenger hunt to becoming wildlife detectives, campers will embark on exciting challenges, crafts and animal encounters. Let’s get wild!

### ZOOLOGY

**AGES 10-12** Unravel the web of life and explore the science of animals! Our future zoologists will study how animals are related to each other, animal behavior with enrichment projects, and creature features (adaptations) through zoo encounters, and hands-on activities. # SUMMER CAMPS

## ART

### ART CAMP

**AGES 12-17** Create one-of-a-kind projects in clay, painting, drawing, sculpture and more. Students will take a field trip each day to local art destinations including galleries, Boise Art Museum and the Boise Arts & History Department. All materials are provided.

## BUILDING BLOCKS – IDAHO

### NEW LEGO® INVENTION LAB

**AGES 9-14** Become real-world problem solvers as we design, build, test, and improve our own LEGO inventions - with no instructions and no limits. Students will explore simple machines, experiment with motion, and discover that failure is just part of the invention process. This class builds confidence, creativity, teamwork and problem-solving skills - all while having fun.

### NEW LEGO® SPIKE PRIME BOT BUILDERS LAB

**AGES 9-14** Students will use LEGO SPIKE™ Prime to design, build, and program a wide variety of robots, including speed, helper, sensor, or creative invention. Kids will work with motors, sensors, gears, and coding blocks to test ideas, troubleshoot problems, and improve their designs. This class encourages creativity,

critical thinking, and confidence as students move through the full engineering process: build it, code it, and run it - then improve it!

### LEGO® EV3 BATTLE BOTS

**AGES 9-14** Students will design, build, and program powerful robots using LEGO MINDSTORMS® EV3 - then put them to the test in exciting head-to-head challenges. Battles focus on strategy, precision, and problem-solving, not destruction, making competition fun, safe, and skill-based. Each class includes time to build, code, test, battle, and redesign, teaching kids that the best robots aren't built once - they're improved again and again.

## CULINARY

### ADVANCED CULINARY TECHNIQUES

**AGES 13-18** Young chefs who already have the kitchen fundamentals down will learn more advanced skills and methods to improve their culinary confidence. Each day we will practice new techniques through advanced recipes in scratch cooking utilizing the garden-to-table approach.

### NEW AL FRESCO CULINARY CAMP

**AGES 9-14** This culinary camp has a new format, branching off the wildly popular Farm to Fork camps! We will be cooking, learning and creating entirely in an outdoor kitchen, using cooking methods like a pizza oven, grill and other outdoor cooking equipment. Campers get to enjoy the fruits of their efforts with a garden-fresh lunch daily.

### FARM-TO-FORK CULINARY CAMP

**AGES 9-14** Create meals that include fresh garden produce harvested from our education garden. Learn cooking basics such as knife skills, sautéing, baking and prepare lunch each day. Camp themes repeat each week but stages of the garden change throughout the summer for new experiences.

### FREE LUNCH! PICNIC IN THE PARK

Monday-Friday; June 1-Aug 7  
(except 6/19, 7/3); 12 – 12:30 P.M.

## SUMMER CAMPS CONT'D

### OUTDOOR

#### **NEW** AGRICULTURAL HERITAGE CAMP: PAST, PRESENT, FUTURE

**AGES 10-14** Join us in celebrating America's 250th anniversary through the lens of our agricultural heritage! We will learn about traditional farming practices and systems, regenerative agriculture of the present and how we help create a sustainable system as stewards of the land in promoting biodiversity, food security and cultural preservation into the future. Camp will include hands-on learning and exploration through projects, activities and field trips.

#### BOGUS BASIN MOUNTAIN DISCOVERY TEEN CAMP

**AGES 12-15** Teens will explore their local mountain recreation area through epic hikes, hands-on activities and instructor-guided experiences. Dive into nature, develop a deeper connection with the great outdoors and make lasting memories and friendships. Activities include scavenger hunts, basic survival shelter builds, land navigation, capture the flag and more. Transportation to and from the mountain each day is provided from Fort Boise Community Center. Come prepared by dressing for the weather and bringing a backpack, snack, lunch and water bottle. Camp activities repeat each week. Comfortable hiking/walking shoes are a must, close-toed shoes are required.

#### **NEW** FLC COUNSELOR IN TRAINING

**AGES 14-17** The FLC Counselor-in-Training (CIT) program offers teens the opportunity to build leadership skills and gain valuable experience by supporting younger campers. CITs will receive 8 hours of training at the start of the camp season before working alongside FLC staff in two following camp weeks during the summer. CITs are not campers themselves but mentors and helpers who contribute to a supportive camp community. Additional details will follow upon registration.

#### JUNIOR BEEKEEPING CAMP

**AGES 10-14** Campers will spend five days learning everything from the basics of pollination to how honeybees live. Once we have the basics down, we'll suit up to work directly with the bees, learning how to handle, harvest and process honey from our hives.

#### JUNIOR NATURALIST CAMP

**AGES 10-14** Take a tour of the natural world in our local parks through hands-on training focused on ecosystems and environmental impacts. We'll visit four locations and work on sustainability projects that really make a difference. Campers should dress for the weather, wear close-toed shoes and be prepared for hiking and working outside each day. Bring a snack, lunch, plenty of water and sunscreen. This activity begins and ends at Kathryn Albertson Park each day.

#### MOUNTAIN BIKE CAMP – Lady Gears Beginner

**AGES 16+** Ladies wanting to learn the lifelong sport of mountain biking will begin with the 5 core mountain bike skills: body position, braking, climbing, descending and cornering. Riders will work to gain confidence in braking and using gears at the appropriate times and focus on climbing with proper body mechanics before learning how to safely descend. We will introduce how to handle rocks and gain speed while in control.

#### SAILING CAMP – Beginner

**AGES 12-17** No sailing experience is required for these beginner sailing camps!

#### SAILING CAMP – Intermediate

**AGES 12-17** Open to participants who have completed the Beginner Level course, have a comparable certificate of course completion or demonstrate comparable sailing experience. We will build upon already learned skills to further develop understanding of sail controls, helming, sail trim, boating safety, racing rules, strategy and other US Sailing skills. This course will have a strong emphasis on safety, peer learning and having fun.

### YOUTH SAILING PROGRAM

Participants will learn to sail using classroom, land-based, and on-the-water instruction from certified US Sailing Instructors. Campers will learn sailing terminology and elements, water safety, tacking, gybing, and upwind/downwind sailing techniques. Participants **MUST** be able to swim 25 yards in open water while wearing a life jacket. A swim check will be conducted on the first day; participants unable to complete the 25-yard swim test will not be allowed to continue the program.

**Transportation to and from Spring Shores Marina is not included – participants will need to provide their own transportation for the week.**

Come ready to participate each day by dressing for the weather, bringing or wearing a swimsuit, snack, lunch (cooler available), water bottle, sunscreen and closed-toed shoes that can get wet. (Aqua socks are a great option - for safety **NO** flip-flops or open-toed sandals allowed). Hat, sunglasses, towel and change of clothes each day are highly recommended! A participant letter with details on what to expect each day will be emailed the week prior to start of camp. Camp brought to you through partnerships with Idaho Parks and Recreation, Ada County Parks & Waterways, Southern Idaho Sailing Outreach, and Boise Parks and Recreation. For more information or questions, please contact Clay Lee, 208-608-7684 or [clee@cityofboise.org](mailto:clee@cityofboise.org)

## SWIMMING (AGES 2-18)

### SWIM LESSONS

#### SWIM LESSONS

### Youth Outdoor Pool Swimming Lessons

Classes are available at all outdoor pools through Boise Parks and Recreation's Aquatic Lesson Program. Each 2-week session consists of 8, 25-minute classes. Days may vary due to holidays and swim meets. Class sizes are limited, and registration is on a first-come, first-served basis.

**Preschool classes are available for ages 2-4 years and must be accompanied by an adult in the water.** For all other classes, students must be at least four years old. Please use the descriptions below to place your child in the class that best matches their current skill level. If you are not sure which lesson is best, please first read through the descriptions below. If you still have questions, call Fort Boise Community Center at 208-608-7680.

#### TIPS FOR BOOKING SWIM LESSONS:

- Please read the descriptions of each class below carefully before booking, so that you can find the best match for your child.
- If you plan to book more than one session, we recommend not booking more than two of the same level. Choose one level up on the third session, unless your child is enrolled in the pre-school class, which requires an adult. Example: Book session # 1 for Adventurers, session # 2 for Adventurers and session #3 for Explorers. These are progressive classes.
- Know your child; will they need a break between sessions?
- If registration is full for your swimmer's age group, be sure and add them to the waitlist for an opportunity to enroll in your requested session. If a waitlist spot becomes available, you will be contacted prior to the start of the session.

#### PRE-SCHOOL

**AGES 2-4 + ADULT** Adult/child classes introduce children to basic skills, while becoming comfortable and emphasizing fun in the water.

**Children must always be accompanied by an adult on deck and in the water.**

#### ADVENTURES

**AGES 4-10** Children starting this class should be comfortable getting their head wet and going under water. Skills learned in this class include front float/glide independently, back float with assistance, proper kicking and alternating arm movements.

#### EXPLORERS

**AGES 4-10** Children are taught underwater exploration, rhythmic breathing and begin to swim short distances on their front and back.

#### PROPELLERS

**AGES 6-17** Children refine their front crawl and concentrate on proper breathing techniques. Children learn to swim the back crawl. Breaststroke and diving are introduced.

#### SWIMMERS

**AGES 6-17** Children continue to work with the front and back crawl and refine breaststroke by swimming longer distances. Diving technique is refined; elementary backstroke, scissor kick and dolphin kick are introduced.

#### SWIMMERS/COMPETITORS

**AGES 6-17** Combined swimmers & competitors class focuses on increasing endurance and refining techniques with all strokes.

#### COMPETITORS

**AGES 7-17** Children work on increased endurance for all strokes and learn proper turns for each stroke. Butterfly and sidestroke are introduced along with diving from a standing position.

#### ADAPTIVE SWIM LESSONS (Borah Pool Only)

**AGES 5+ (No Age Exceptions)** Adaptive swimming lessons are offered to participants with disabilities who would like to develop swimming skills and water safety awareness. Lessons will be under close supervision by the teachers but will not be 1:1. Previous swimming or water experience is not necessary. All lessons will take place at Borah Pool; an aquatic lift is available.

## PICKLEBALL LADDER LEAGUES

**AGES 16+** Ladder leagues are organized leagues where players with similar skills compete against each other weekly in a competitive, structured format. Think of a pickleball “ladder” as a graphical representation of a player’s ranking (by skill and performance) over a period of time. The rungs on the ladder represent a player’s current position (ranking) on the ladder relative to the other players. The top rung is the individual currently ranked the highest (the best winning percentage) and the bottom rung is the lowest-ranked individual. The ultimate goal is to climb the ladder to the highest rung.

## PICKLEBALL TOURNAMENTS

Join us for a fun two-day round robin style tournament. Over the course of the two days you will get the opportunity to play with all 15 other participants. For example, if Andy, Betsy, Charlie and Denise are assigned to a court, Andy + Denise play Betsy + Charlie, then Andy + Charlie play Betsy + Denise, then Andy + Betsy play Charlie + Denise. After all three games are completed, the scores are reported

to the information table. Over the course of the tournament, players will play at least 15 games (to 11, win by 1). If you make the top four, you will play an additional 3 game championship round. Prizes will be given for 1st and 2nd place.

**SCORING:** Standings will be compiled by total points earned, the top four will move into a championship round to end the tournament and determine the final standings. Lunch and a t-shirt are included in your registration. Must Register individually!

This is an individual registration that includes a prize and lunch, and the opportunity to play with everyone else in the group.

## PILATES

Enjoy a series of non-impact exercises to develop strength, flexibility, balance and inner awareness while strengthening abs, obliques and back muscles. Muscles are strengthened and lengthened without creating bulk which is helpful in preventing and rehabilitating from injuries.

## SENIOR BOCCE LEAGUE

Bocce is a game anyone can play! Senior Bocce league will run for 4 weeks with 2 games per night with playoff games the final week. All players must be age 50 or over. Teams must have 4 players. Team captains are responsible for registering the team and paying league fees. Subs or single players can register on the sub list. Play is not guaranteed for subs.

## STRENGTH & TONE – Early Risers

Looking for a light to moderate intensity class? This is for you! With a light cardio warm up, we use strength training to tone your body with resistance bands, light weights and body weight.

butterflies have experienced steep declines in recent decades. We are working hard to provide pollinator habitat by planting, monitoring and maintaining dedicated pollinator areas in Boise Parks. To help us care for these areas, we are looking for some pollinator champions to join our Pollinator Posse. Beginning March 31, we'll hold weekly work parties on Tuesday mornings, from 9-11AM. Participants will help prune, add ground cover to planting beds, remove weeds, plant new pollinator plants as needed and monitor for pollinator use.

Weekly work sessions will be held Friday mornings, from 8-11AM. No knowledge of plant care is required. Our professional staff will provide training for anyone interested in lending a hand.

## VOLUNTEER

### Service Projects

Looking for a great way to meet like-minded individuals or engage in the community? Consider tackling a service project in a Boise park. Service projects are generally one-time projects that range from 2 to 4 hours. Common projects include park spruce-ups, tree mulching, weed removal, site amenity painting and repair, trash pick-up and tree wrapping.

#### Bee Watch, April 22 & May 8

Bee Watch is a community-based science project that engages volunteers all summer long in collecting pollinator data across a diverse range of habitats in the Boise area. This year we will be collaborating with the Ada County Soil & Water Conservation District's Treasure Valley Pollinator Project to work with volunteers and gather data about local pollinators. Participants will utilize community science tools to conduct pollinator surveys across Boise. Kickoff is scheduled for April 22 from 6:30-7:30PM at the Jim Hall Foothills Learning Center and a follow-up training at the Warm Springs Park Pollinator Garden on May 8 from 9-10AM.

#### Parks, Monarchs & Milkweeds, June 6

Due to a marked decrease in population, the monarch butterfly has garnered nationwide support with conservation efforts aimed at preserving habitat. Boise Parks and Recreation is doing its part with a local citizen science program that engages volunteers in monitoring monarch activity in Boise parks. Beginning with training on June 6, volunteers can adopt a milkweed patch to monitor for the season and submit data reports on what they observe.

### FIELD GUIDE

#### To Boise's Birds

Birds are found in nearly every city setting, from urban micro parks to the sprawling foothills that border our northeastern edge. Birds visit backyard feeders, perch in low shrubs and on tall structures, swim in our river, lakes and ponds, nest in our trees and soar overhead. A variety of Boise's habitats attract and support hundreds of species, and we invite you to explore some of the area's most common birds. The Field Guide to Boise's Birds is available for free online. Printed versions can be purchased at the Boise Parks and Recreation Administration Office for \$8 plus tax.
