HOMESCHOOL ADVENTURES

BUGS HOMESCHOOL DAYS – Garden Science

AGES 6-12 Join us as we delve into garden science through a variety of hands-on activities, observations and exploration. During the first class, we'll learn how decomposers are essential for recycling organic matter and maintaining ecosystem balance. In the second class, we will learn about shared characteristics of plant families, inherited traits, and get a chance to taste some of plants we learn about. In the last class, we'll conduct an investigation to provide evidence that living things are made of cells.

FLC HOMESCHOOL KIDS

AGES 6-11 This is a drop-off session just for children. Come dressed for the weather. Closed-toe shoes and a sealable water bottle are a must.

FLC HOMESCHOOL FAMILIES

AGES 6+ ADULT Our standard Homeschool sessions get supersized to allow adults to join children in learning about seasonal topics. Children and adults will meet separately to learn and then come together to share. Price is per person. Come dressed for the weather with closed-toed shoes and a water bottle.

HOMESCHOOL ZOO

AGES 7-13 The Homeschool Zoo program series provides a unique learning experience for students schooled at home. The course consists of classroom discussion, science activities, animal encounters and specialized zoo tours. Classes align with Idaho State Science Standards and focus on topics and principles based on grade level. Themes emphasize looking at animal groups and taxonomy, adaptations, habitats, and ecology. Each individual household must register their child for the class. Kids only! Please bring a small snack for a 15-minute break during class.

PICKLEBALL

LESSONS
Pickleball

Students may sign up for more than one session, bring your own paddle. Paddles may be available for use at the site.

PICKLEBALL – Beginner

Brand new to pickleball, or never played and want a better understanding of the basics? Learn basic rules, scoring and strokes. Class prepares you for beginner drop-in play. Students may sign up for more than one session. Bring your own paddle or paddles may be available for use at the site.

PICKLEBALL – Advanced Beginner/Lower Intermediate

This class is a combination class for those that have previously taken a beginner class and that have a good knowledge of the rules and scoring. You have played pickleball outside of a lesson and are ready for game strategy, court positioning and better timing with your shots.

PICKLEBALL BOOTCAMP – Beginner/Advance Beginner

This 3-hour boot camp is for both new players and players that have previously taken a beginner class. You will learn the basics of pickleball if you are a beginner or enhance your skills to become a higher-level player if you have taken a beginner course already. Class ends with match play.

PICKLEBALL BOOTCAMP – Low Intermediate/Intermediate

This 3-hour bootcamp for low intermediate and intermediate players will focus on learning game strategy, tactics and movement patterns. The day ends with round-robin play.

PICKLEBALL LADDER LEAGUES

AGES 16+ Ladders leagues are organized leagues in which players with similar skills compete against each other in a competitive, structured and weekly format. Think of a pickleball “ladder” as a graphical representation of a player’s ranking (by skill and performance) over a period of time. The rungs on the ladder represent a player’s current position (ranking) on the ladder relative to the other players — with the top rung of the ladder being the individual currently ranked the highest (the best winning percentage) and the bottom rung being the lowest-ranked individual or team. The ultimate goal is to climb the ladder

to the highest rung. Please see the online registration site for a complete description. We will offer an individually ranked, round robin format. In such a format, those participating in the pickleball ladder will be placed in groups of four in the order of their position (ranking) on the ladder each week. In this format, all players will play three doubles games in a round-robin format with the other three players in the foursome. After the scores are tallied for each of the three matches, players may be individually moved up or down the ladder the following week — of course, depending upon their performance in those 3 round-robin games. The ultimate goal is to climb the ladder to the highest rung. Participants will be responsible for recording and reporting their own scores after each match. Prizes will be awarded for the top ranked individual of each ladder, as well as the participant who moves up the most ladder rungs.

PROGRAMS & SERVICES

Boise Parks and Recreation's AdVenture Program provides a wide range of programs for youth and adults with disabilities. We also offer inclusion services in which modifications may be provided so that an individual with a disability can fully participate in Boise Parks and Recreation's programs. Services such as sign language interpreters, adaptive equipment, etc. may be provided with a minimum of two or more weeks advanced notice of the program start date with no cost to the participant. To inquire about inclusion services, please contact Emily Kovarik at 208-608-7687 (TTY: 711) or ekovarik@cityofboise.org. Reasonable modifications are based on individuals' needs and abilities.

Care providers are welcome to accompany participants who need personal care. Participants who have behavioral issues may be asked to participate with an aide in attendance. Please let us know upon registration if you will be bringing your own aide as fees for aides may be waived or may vary depending on the activity. Participants should enjoy meeting new people, be able to function in a group setting and need to be able to adjust to new routines and environments. If you have dietary restrictions or require a special meal you are welcome to bring a meal that meets your needs to enjoy with the group. When available, a special meal option may also be provided for an additional charge.

FIELD GUIDE To Boise's Birds

Birds are found in nearly every city setting, from urban micro parks to the sprawling foothills that border our northeastern edge. Birds visit backyard feeders, perch in low shrubs and on tall structures, swim in our river, lakes and ponds, nest in our trees and soar overhead. A variety of Boise's habitats attract and support hundreds of species, and we invite you to explore some of the area's most common birds. The Field Guide to Boise's Birds is available for free online. Printed versions can be purchased at the Boise Parks and Recreation Administration Office for \$8 plus tax.

Have a love of the outdoors and wondering what to do with your spare time? Boise Parks and Recreation's volunteer program will get you out communing with nature and meeting people with similar interests.

VOLUNTEER

Pollinator Posse, Tuesday Mornings through October; 9-11AM and 8-11AM

Pollinators are essential in producing healthy food and maintaining vibrant, thriving ecosystems. Unfortunately, many pollinator populations have experienced steep declines in recent decades. Boise Parks and Recreation is working hard to provide high quality pollinator habitat by planting, monitoring and maintaining dedicated pollinator areas in Boise parks. Beginning late March and finishing up mid October, weekly work parties are held on Tuesday mornings, from 9 – 11AM or 8 – 11AM, during which our dedicated team of volunteers prune, remove weeds, plant new pollinator plants as needed, and monitor for pollinator use. Location details will be sent out weekly to all registered participants.

Tree Wrapping, Tuesdays starting November; 10AM-12PM

The Boise River riparian corridor provides critical habitat for a wide range of species, including Bald eagles. Black cottonwoods and willows are critical components of this habitat and unfortunately are also a favorite food and construction resource for the American beaver. Beginning in November, we could use your help protecting trees from beaver damage by wrapping them with wire and replacing old wire. Volunteers may assist with noxious and invasive species control as well as other riparian stewardship projects. We will tackle a different section of the river corridor each week on Tuesdays, 10AM – 12PM.

Tree Stewards

2027 Tree Stewards, Thursday Mornings; 9-11AM

Do you have a love for trees or simply want to learn more about them? Boise Parks and Recreation is seeking participants for its 2027 Tree Steward program. Tree Stewards provides opportunity for citizens to learn about and care for our community's trees through a combination of training and hands-on experience. Volunteers will complete an orientation in late March/early April 2027, during which trained and certified tree care professionals inform participants on how to identify trees, how trees grow, proper planting techniques, pruning basics and how to diagnose common tree problems. Participants will help care for park trees on Thursday mornings through October. Participants that complete 30 hours of service during the year, become certified Tree Stewards.

SERVICE PROJECTS

Service Projects

Service projects can be scheduled throughout the season. These are typically one-time efforts that range from 3 to 4 hours, depending on location and group size. Common projects include park spruce-ups, weed removal, garden care, tree mulching, amenity painting and repair, trash pick-up, and tree wrapping.
