Subject: [External] Nampa Firefighters PAC 2018

TO: City of Boise Elections Division

RE: Nampa Firefighters 2018 PAC

To whom it may concern,

The Nampa Firefighters PAC is registered with the State of Idaho as a Political Action Committee, and reports all income and expenditures to the Idaho Secretary of State. The Sunshine Law requires a political action committee such as ours to report our income and expenditures for political purposes for government transparency. We have and will continue to do that with the Idaho Secretary of State's office.

Candidates who are not registered at the State level such as city council and mayoral candidates must report to their respective cities due to no other transparency vehicle in place to receive and record their monetary political activity. As a State registered PAC, voters and interested parties can still access all of our financial data which is all the law requires.

As to your request for an email stating we have had no monetary involvement in Boise City elections during 2018, we have not. Voters and interested parties can find all of our financial data on the Idaho Secretary of State's website.
