WHAT IS A NEIGHBORHOOD PLAN?

- Long-term vision document with vision, goals, and implementation strategies
- Partnership between the City and Neighborhood
- Adopted by City Council to supplement the City’s comprehensive plan, *Blueprint Boise*
- [www.cityofboise.org](http://www.cityofboise.org)
WHAT IS THE PURPOSE OF NEIGHBORHOOD PLAN?

• Engage the neighborhood in a dialogue about the future
• Inform how the Neighborhood should evolve for the benefit of the community
• Addresses the diverse needs and concerns of the neighborhood
• Identify and develop a project list to implement
• Inform decision-making
Step 1: Understand & Create NEIGHBORHOOD VISION

Hear from as many North Enders as possible about what they love today, what they would like to see in the future...

WHAT’S YOUR VISION FOR THE NEIGHBORHOOD?

EXAMPLE VISION STATEMENT 1:
The North End Neighborhood is a socially and economically diverse neighborhood that provides a varied, well-maintained housing mix, access to shopping, parks, services, parks, schools and other amenities; sought after by individuals and families alike, choosing a place where people not only move to, but through and around, the walkability, accessibility, and availability of our streets and shops share our neighborhood to those as a special place to live.

EXAMPLE VISION STATEMENT 2:
“The North End of Boise embodies the charm of a snapshot community. From churches, libraries, businesses, places of worship and shops, schools and churches, arts and vibe. It’s a safe haven not only for the diverse and creative residents who call this community, but for everyone who visit here, allowing the world to see the best of the human spirit and mindfully helping those who are watching. This district allows the people come together to discuss the serious and social issues that affect the neighborhood and to intentionally influence the area by reflecting the past, embracing the present and protecting the future.”

WELCOME TO THE NORTH END!

Data highlights:
- Lots of trees, sidewalks and parks
- More older adults
- Smaller household sizes
- Even split of renters and homeowners
- A more educated population (bachelors degree or higher)
- Income on average is lower, but household value is much higher
- Large share of small-scale multi-family housing (10 units or less)
